Q3 Please share any additional comments you may have about the AA Liberal Arts program at SCC:

Answered: 12 Skipped: 33

#	Responses	Date
1	I am very glad to finally have my AA Liberal Arts degree, and to be an SCC Alumni. Any student who plans on receiving an AA Degree in Liberal Arts I wish them the very best in their studies, and make it towards their graduation. Also to accomplish for their future career.	12/15/2015 8:10 PM
2	I enjoyed every class I took and the staff. Everyone seems to enjoy their job and care about the students significantly. The university I now attend seems a little more cold than the warmth I experienced at SCC. However with a student population of nearly 40,000 I suppose it's understandable. With all that being said keep up the good work. I had a pleasant experience and hope anyone else that attends does as well.	12/11/2015 11:42 AM
3	Great program overall, but the counselors were condescending and unhelpful. I know others share my opinion as well.	12/10/2015 5:54 PM
4	Liberal Arts was considered the "go to" major if you didn't know what you wanted to do when I first went to this college. It probably still is which explains why there are so many people graduating with this major.	12/10/2015 4:01 PM
5	Amazing staff and campus!	12/10/2015 2:08 PM
6	As someone who changed majors from STEM to Liberal Arts, I found the quality of teachers to be superior, especially when it came to interest in students and helping with my success.	6/25/2015 5:27 PM
7	A Liberal Arts program broadens a person's minds, ideas and life perspective; it gives students a bigger picture of what type of practical knowledge and wisdom higher education can bring to enrich their lives. I would personally recommend a liberal arts degree to all students; specially incoming high school students because they can greatly benefit from it.	6/22/2015 7:20 PM
8	Arts, Humanities, and Communication were the subjects I felt confident and effective in throughout my experience at SCC. Taking these classes only bettered my comprehension of these subjects and sharpened my skills in communication.	6/11/2015 3:09 PM
9	I loved SCC, best decision I've made for my educational career. Thank you!	6/4/2015 11:30 AM
10	I enjoyed exploring the various classes offered within this program. I have gotten to know my wonderful professors and classmates that have turned into mentors and friends. I appreciate my time that I have spent learning at SCC. There were so many life lessons and skills that I will keep with me for a lifetime. i wish I had taken even more classes! There are so many resources to enhance the learning experience.	6/3/2015 11:40 AM
11	I really valued all the staff, many are great professors who helped me think more critically and deeply.	6/3/2015 10:32 AM
12	I wish I would have known about it sooner.	6/3/2015 9:34 AM
