2012-2016 Educational Master Plan Midterm Update

Introduction and Goal/Action Item Selection

The purpose of this survey is to evaluate the degree to which SCC has achieved its stated Educational Master Plan Goals. The design of this survey is to facilitate the reporting of goal related activity that has occurred since fall 2012. In the event that work still remains to be completed in order to achieve a particular SCC goal, this survey will help identify what additional activities and resources may be necessary to achieve that goal. By answering the following questions you will be providing valuable input from the perspective of your specific role at the institution.

If you are unsure of which goals/action items you are responsible for updating, please refer to the table below.

*Note: If you fall under multiple responsible party categories, please provide updates from each perspective separately.

**Note: If you need to navigate back a page in the survey to change a response, do not use the "Back" button on your browser. Instead, please use the "Prev" bottom at the bottom of the survey page.
