

Long Term Planning Highlights

Beginning in 2016, the published EMP follows a 6-year cycle, program review follows a 3-year cycle, and these cycles are synchronized and in phase with the 6-year accreditation cycle. There are some irregular periods prior to 2016. This was designed so that all processes are synchronized beginning in 2016. For example, given that the 2007-2012 EMP was already in place, a shorter 4-year EMP for 2012-2016 was necessary to achieve synchronization with the accreditation cycle beginning in 2016.
