BP 2746 Board of Trustees Assessment of District Goals and Strategic Objectives

The board recognizes that it can better perform its policy making and broad oversight roles if it periodically reviews the district's goals and strategic objectives in addition to its own internal board operation and performance goals. Therefore, separate from the annual self-evaluation meeting, the Board President, with the assistance of the Chancellor or third party will develop a survey instrument to members of the District Citizens' Advisory Committee; District Bond Oversight Committee; local Chambers of Commerce and trade unions; community organizations; college and district foundations; federal, state, county and local elected officials who represent parts of the district; city and school district managers and superintendents; and others whom the board may feel can provide important feedback to the board. In addition, all district employees and students will be encouraged to respond to this survey instrument. The Board President shall work with the chancellor or third party to ensure the information from the survey instrument is collected.

The board will then use the results of the survey to assist the board in assessing the areas where the district goals and strategic objectives have been met or exceeded and those areas where improvement is needed. District goals and strategic objectives may be updated or revised as a result of the information obtained in this process. Any student, employee, or resident of the district shall also have the opportunity to provide input to the board as part of this assessment process. The results of the survey will be widely distributed and will be maintained at the district office.

Revised: July 21, 2014 (Previously BP 9022.5)
