

COURSE SLO ASSESSMENT REPORT, SCC

Department: BMS Course: Biology 149

Year: **2012** Semester: **Fall**

1) Outcome to be assessed	2) Means of assessment and criteria of success	3) Summary of data collected	4) Analysis of data	5) Plan of action/what to do next
<p>Demonstrate a coherent understanding of the relationship between tissues, organs, and organ systems from a structural and functional perspective.</p>	<p>Three multiple choice questions were inserted into a lecture Exam. 70% of the students should be able to answer it correctly.</p>	<p>Sample size of 12 students.</p> <p>Question 1) I received 10/12 correct responses (83%)</p> <p>Question 2) I received 11/12 correct responses (92%)</p> <p>Question 3) I received 10/12 correct responses (83%)</p>	<p>I received acceptable levels of understanding for all questions. Since my sample size was very small, I will reuse the same questions from semester to semester in order to see any improvement by the students.</p>	<p>I will repeat this exact assessment next Fall 2015 to receive a larger sample size.</p>
