

Course SLOs And Assessments					
Division	Department	Course	Outcome	Assessment	Summary of Data/Analysis/PoA
Business & Career Technical Ed.	Career Education Department	APST 043	Students who successfully complete this course should be able to determine and then mix the proper proportions of cement, sand, water, and lime used in each coat of an exterior plastering project.	Students will be graded on a standard grading scale as follows: 90-100%=A, 80-89%=B, 70-79%=C, 60-69%=D, below 60%=F; graded activities: group projects, homework, quizzes, examinations, written assignments, observation and evaluation of attitudes and actions, and observation and evaluation of manipulative skills.	Apprenticeship students are testing on a weekly basis and must master the skills to move on. At the end of each semester they are given a comprehensive exam and a final grade. Based on the scores, 4 students enrolled in the class; 1=A, 1=B and 2=C. Success and retention rates are 100%. No further action required.
Business & Career Technical Ed.	Career Education Department	APST 043	Students who successfully complete this course should be able to demonstrate competence, safety techniques, and teamwork while to complete an exterior plastering project.	Students will be graded on a standard grading scale as follows: 90-100%=A, 80-89%=B, 70-79%=C, 60-69%=D, below 60%=F; graded activities: group projects, homework, quizzes, examinations, written assignments, observation and evaluation of attitudes and actions, and observation and evaluation of manipulative skills.
