

COURSE SLO ASSESSMENT REPORT, SCC

Department: CMPR

Course: 106

Year: 2013

Semester: Fall

1) Outcome to be assessed	2) Means of assessment and criteria of success	3) Summary of data collected	4) Analysis of data	5) Plan of action/what to do next
Student will be able to use the basic concepts of computers, programming languages, information processing procedures and their interrelationships.	Windows programming projects. Two of these are in-class activities and 4 are homework projects.	Out of the 21 students who completed CS106, 70% received full credit on their homework projects.	Since most students have never programmed before, this is normal.	Nothing at this time
Student will be able to properly program and document a spectrum of programming problems.	Same as above	Same as above	Same as above	Nothing at this time
Student will be able to use a computer to gather data and solve problems.	Same as above	Same as above	Same as above	Nothing at this time
