Department: Public Works Course: PBLC 086

Year: 2010 Semester: Spring

1) Outcome to be assessed	2) Means of assessment and criteria of success	3) Summary of data collected	4) Analysis of data	5) Plan of action/what to do next
<p>Students will be able to identify which code infraction a specific citing falls under given a choice of municipal ordinance, zoning, health and safety or nuisance codes.</p> <p>Students will be able to identify the procedures that were established as a result of past legal cases/decisions and given a listing of those cases, the student can identify the procedure that has been the result of a given case.</p>	<p>A pre and post test will be used as the criteria to measure student success. A 20% increase in class average is desired.</p> <p>A group quiz will also be used to measure student success as the group approach mimics real code enforcement officer's team work.</p> <p>The desired outcome is that 95% will pass the class</p>	<p>20 students completed the pre and post test. The class average was 70% pre test and increased to 92% post test.</p> <p>The group quiz class average was 95%</p> <p>The desired outcome was met under the means of assessment and criteria of success.</p>	<p>The results met the instructor's expectations. A class average increase of 22% met the desired outcome was proven to be highly effective.</p> <p>This observation shows the effectiveness of pre and post test in conjunction with a group quiz.</p>	<p>This next time this class is offered the same measures will be applied to determine the validity of these results. The course schedule for this class is yet to be determined.</p>
