Santiago Community College's Integrated Planning

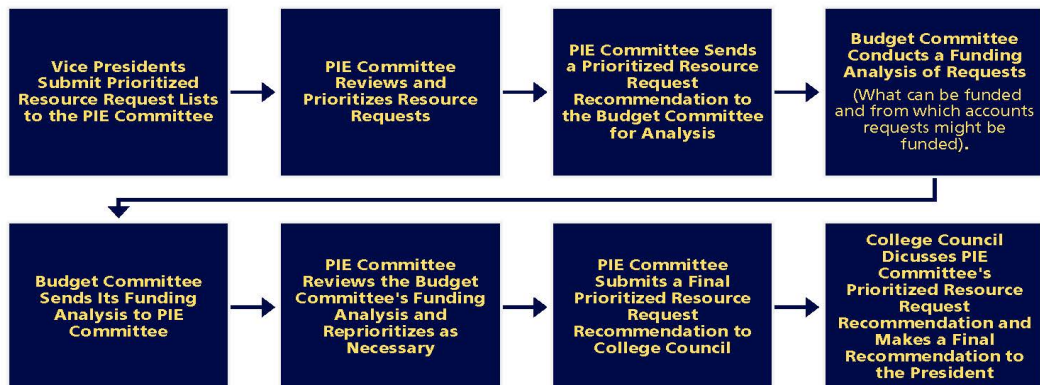

While Santiago Canyon College's integrating planning continues to improve and evolve, this evolution has resulted in an integrated planning model that includes a College resource allocation process, which interconnects several existing planning processes at the College. The following diagrams illustrate a visual representation of the Santiago Canyon College integrated planning process that takes place in two phases: Phase I and Phase II.

Resource Request Process Flowchart

Phase I

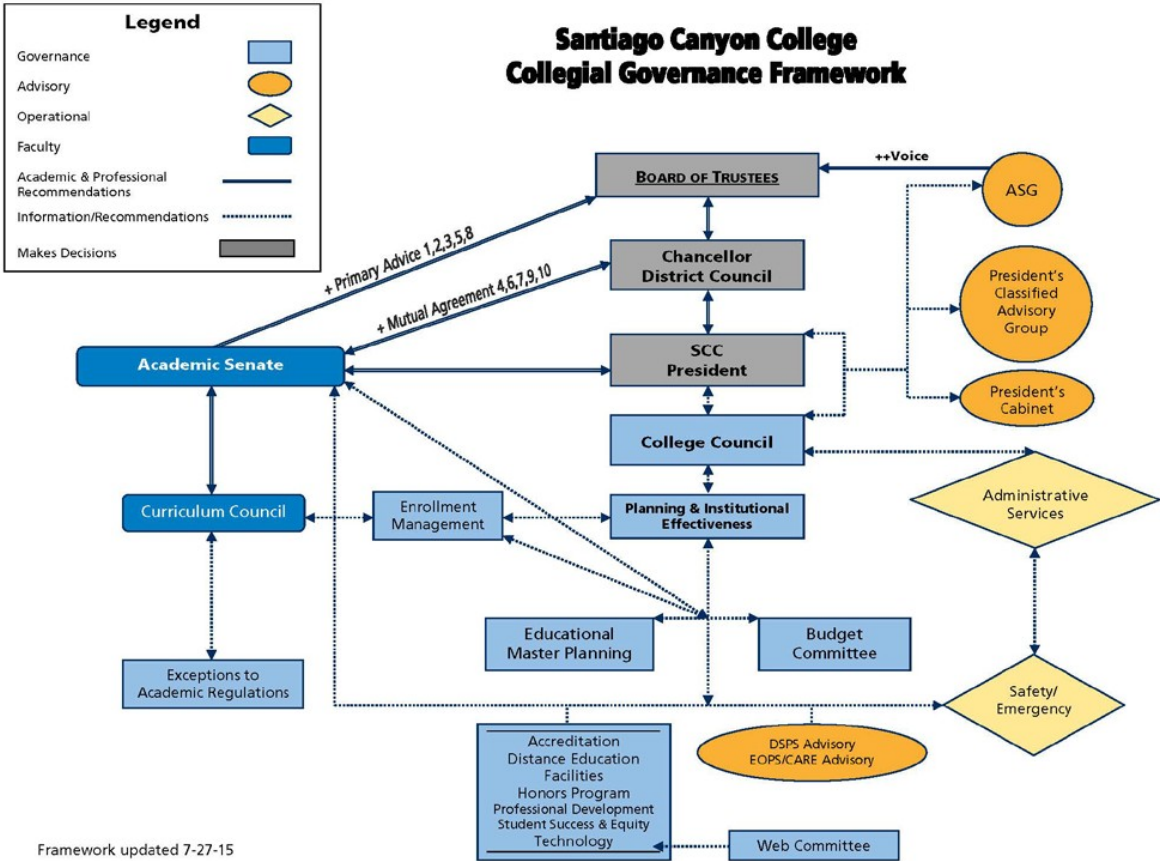

Phase II

Through a systemic cycle of evaluation, integrated planning, resource allocation, implementation, and re-evaluation, the College tracks its progress toward achieving its stated goals and makes decisions to improve its effectiveness. Santiago Canyon College continues to refine its integrating planning processes to strengthen the connection between resource allocation and its goals. Through the existing Collegial Governance Framework, the councils, committees and task forces are afforded the opportunity to provide input on behalf of their constituencies.

The following diagram depicts a visual representation of the Santiago Canyon College “Collegial Governance Framework” that includes lines of communication. As is depicted, the Enrollment Management Committee provides recommendations to the Curriculum and Planning & Institutional Effectiveness (PIE) committees through its established goals. As a result, the Enrollment Management Plan includes established committee goals outlining recommendations to the College. Its actions and recommendations will align and support Santiago Canyon College’s Mission, the Educational Master Plan, and integrated planning.
