The Medical Billing certificate program is designed to give students the necessary knowledge and skills to hold a medical biller position. Students gain practical experience using computers and patient biller software, become familiar with the rules and guidelines of health care plans in order to submit proper documentation for appropriate reimbursement of services rendered, and acquire the necessary customer service skills to succeed in this field.

**MISSION STATEMENT:** The mission of the Continuing Education Division is to offer a variety of free noncredit classes, programs, and services that enable students to maximize their potential by acquiring the necessary technical and academic skills to reach their personal, educational, and career goals so that they can benefit from, and contribute to, a changing American society as productive, active members of their communities.

All educational opportunities are offered without regard to national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status.
