MESSAGE TO STUDENTS, MISSION STATEMENT, LEARNING OUTCOMES, AND RSCCD INFORMATION

A Message From The President

Welcome Hawks!

We are excited that you chose Santiago Canyon College (SCC) to pursue your academic and professional development training goals. Whether your goal is to earn an associate degree, transferring to a four-year university, updating your existing technical skills, working

to earn a certificate for a new career, or completing a high school diploma or equivalency certificate, SCC has what you are looking for and more.

Classes are offered in-person, online and hybrid so that you can choose the modality that best fits your needs and life as a student. At SCC, we will continue to provide a safe and inclusive environment that promotes respect and dignity, identifies and eliminates barriers to learning, and creates equitable outcomes for all our students.

We are very happy you have chosen to be a Hawk. We are here to help you thrive and soar!

Sincerely,

Jeannie G. Kim, Ph.D.

President, Santiago Canyon College

Mission Statement

Santiago Canyon College is an innovative learning community dedicated to intellectual and personal growth. Our purpose is to foster student success and to help students achieve these core outcomes: to learn, to act, to communicate and to think critically. We are committed to maintaining standards of excellence and providing accessible, transferable, and engaging education to a diverse community.

Institutional Student Learning Outcomes

To achieve our mission, SCC has identified Institutional Learning Outcomes with four core competencies: Learn, Communicate, Act, and Think. Students will be able to

Learn—About Self and Others, Academic and Professional Issues

- Take responsibility for one's own learning and wellbeing.
- Learn about one's chosen academic major, while creating connections across disciplines.
- Learn about professional conduct, including workplace and community ethics, conflict management, and teamwork. Communicate—With Clarity and Accuracy and in Diverse Environments
- Communicate ideas in a clear and articulate manner.
- Communicate accurately to diverse audiences.
- Communicate in various formats using diverse technologies. Act—With Awareness of Self and the Local and Global Community of Persons Act to maintain one's dignity and self-respect. Act as a responsible community member who treats others with respect, civility, empathy, honesty and dignity.
- Act to increase the wellbeing of the global community by maintaining cultural literacy, lifelong learning, ethical consideration of each other, and the environment we all share. Think—Critically, Creatively, and Reflectively Critically analyze, evaluate, organize and use quantitative and qualitative data to solve problems and develop logical models, hypotheses and beliefs. Creatively use concepts to making learning relevant. Reflectively assess one's values, assumptions, and attitudes.

Rancho Santiago

Community College District

Governed locally by a seven-member Board of Trustees elected by the citizens of the district, Rancho Santiago Community College District (RSCCD) is a part of the California community college system, one of the three segments of the public post-secondary educational systems in the state.

RSCCD, located in central Orange County, encompasses 193 square miles with a population of approximately 770,000. The district's boundaries include all of the K-12 schools within the Orange and Santa Ana Unified School Districts, as well as a portion of the Garden Grove Unified School District. RSCCD's boundaries extend from the eastern portion of the city of Garden Grove, around the perimeters of Santa Ana, Orange, Villa Park, and Anaheim Hills, and east to the Riverside County line.

Enrollment in district programs for fall 2018 totaled 52,361 with 39,277 enrolled in college credit courses and 13,084 enrolled in Continuing Education. The Community Services Program serves 1,349 residents districtwide in not for credit, fee-supported classes.

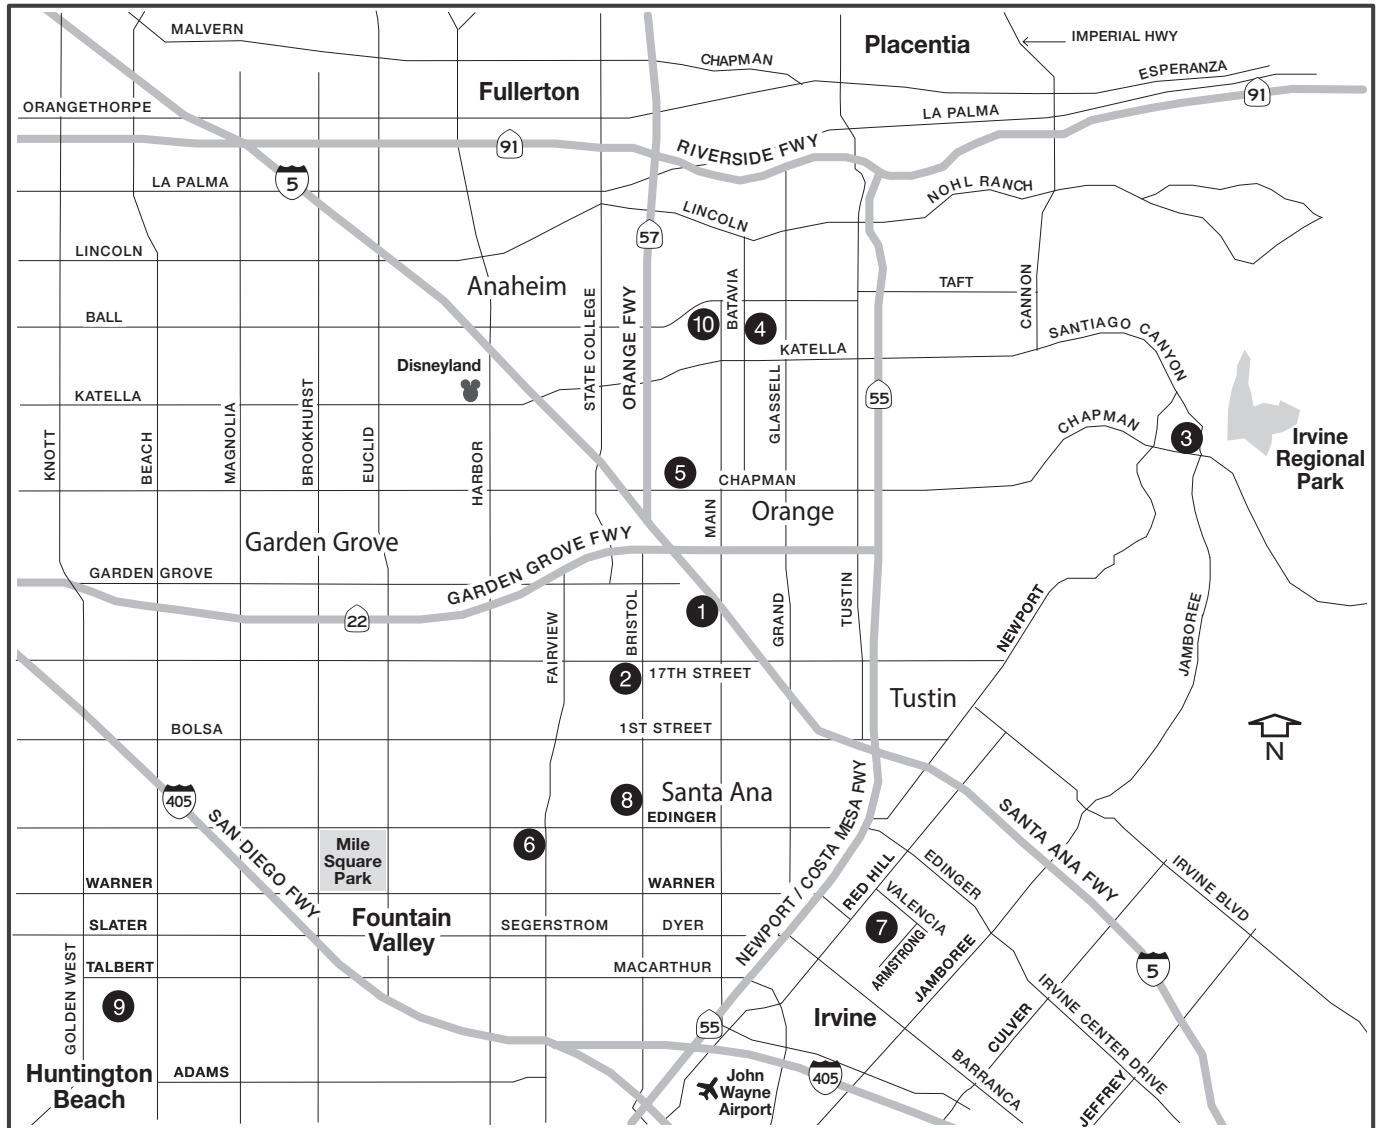

Santiago Canyon College and Santa Ana College

SCC is among the newest community colleges in California. RSCCD was formed in 1971 to serve the cities of Orange, Villa Park and Anaheim Hills. SCC (formerly the Orange Campus) began offering classes in 1985, and became an independently accredited college in January 2000. Santa Ana College opened in 1915 as an extension of Santa Ana High School, and is the fourth oldest community college in California. Located first on the campus of Santa Ana High School, it moved to downtown Santa Ana, and then to its present location in 1947. Enrollment in Santiago Canyon College programs for fall 2018 totaled 15,950 with 11,916 enrolled in college credit courses and 4,034 enrolled in Continuing Education. The Community Services Program serves 840 residents campus-wide in not for credit, fee-supported classes.

Santiago Canyon College offers 178 degrees and certificates in credit programs including transfer and career majors as well as 63 certificates in Continuing Education programs.

Accreditation

Santiago Canyon College and Santa Ana College are accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, an institutional body recognized by the Council for Higher Education Accreditation, the U.S. Department of Education, and the Veterans Administration. Santa Ana College is also recognized by the California State Board of Nursing Education and the American Bar Association.

Documents concerning the colleges' accreditation, licenses and approvals are maintained in the Office of the President of each college. Students wishing to examine these documents may do so by contacting the Office of the President.

Complaints associated with an institution's compliance with academic program quality and accrediting standards can be registered with the ACCJC at the following link: www.accjc.org/complaint-process.

District Facilities

Santiago Canyon College is situated on 74 acres at 8045 E. Chapman Avenue in Orange. It opened its first phase of classrooms in fall 1985 under the name of the Orange Campus of Rancho Santiago College. The Child Development Center opened in fall 1991 to provide childcare services. Santa Ana College is located on approximately 65 acres at 1530 W. 17th Street in Santa Ana. The college was first opened in 1915 as an extension of Santa Ana High School and has been located at its present site, in the heart of Santa Ana, since 1947. The Orange and Centennial Education Centers each house adult continuing education programs, which provide high school diplomas, English as a Second Language, and courses that contribute to career advancement. Online education offerings also bring the classroom to you.

District Mission

The mission of the Rancho Santiago Community College District is to provide quality educational programs and services that address the needs of our diverse students and communities

District Opportunity

The Rancho Santiago Community College District provides opportunities for the pursuit of excellence through educational programs and services for local residents. The purpose of these programs and services is to enhance the quality of human life by providing public access to a college education. A significant number of classes are scheduled off-campus each semester in order to enhance accessibility to students. The map indicates the locations of the major instructional sites within the district.

Santiago Canyon College and Santa Ana College

Santiago Canyon College is among the newest community colleges in California and began offering classes in 1985 as the Orange Campus within the Rancho Santiago Canyon Community College District. Santiago Canyon College earned its independent accreditation in January 2000, and serves the communities of Orange, Villa Park, and Anaheim Hills.

Enrollment in Santiago Canyon College programs during the Fall of 2023 totaled 18,040 with 11,979 students in college credit courses and 6,061 in classes for Continuing Education students. The Community Education Program serves another 1,209 residents in fee-based not for credit classes.

Santa Ana College opened in 1915 as an upward extension of Santa Ana High School, and is the fourth oldest community college in California. Initially located on the campus of Santa Ana High School, it moved to downtown Santa Ana in 1933, and then to its current location in 1947. Santa Ana College serves the city of Santa Ana and portions of the cities of Tustin, Irvine, and Garden Grove.

In Fall of 2023, the total number of students at Santa Ana College was 42,011, with 25,429 students in college credit courses and 16,582 students in classes for Continuing Education. The Community Education Program serves another 1,209 residents in fee-based not for credit classes.

ADMISSIONS AND RECORDS OFFICE HOURS:

Monday 8:00AM - 6:00PM
Tuesday 8:00AM - 6:00PM
Wednesday 8:00AM - 6:00PM
Thursday 8:00AM - 6:00PM
Friday 8:00AM - 5:00PM
Saturday CLOSED
Sunday CLOSED

2024 GRADING OPTIONS:

- **Pass/No Pass:** Submit by Last Day of Instruction of the Class
- **Excused Withdrawal** Due to Extenuating Circumstances or Military Withdrawal
- **Note:** You may still submit this petition even if you have already withdrawn with a "W" grade. Petitions are only accepted for SCC classes.

ADMISSIONS & RECORDS ONLINE RESOURCES:

Self-Service: We strongly encourage you to access your account through Self-Service to make changes to your class schedule, and pay for classes. It is typically easier and faster to manage your student account online.

- **Phone:** You may reach us at (714) 628-4901
- **Online Chat:** We are available to assist you via the Cranium Cafe online chat service by appointment or during posted hours on our chat page. Hours are subject to change.
- **Email:** We can answer your questions and accept petitions or forms via email at admissions@sccollege.edu. Please make sure your email includes a brief explanation of what you need as well as your name and student ID number. Petitions and forms must be filled out completely and signed before we are able to accept and process. Petitions and forms can be found at <https://sccollege.edu/students/student-services/admissions/SitePages/Forms.aspx>
- **Transcripts:** You can order your transcripts online at www.sccollege.edu/transcripts.

ADMISSION REQUIREMENTS

ADMISSION REQUIREMENTS

Who May Attend

- High school graduate
OR
- Person in possession of a California high school proficiency certificate or GED
OR
- Person 18 years of age or older who can profit from instruction,
OR
- High school student taking dual enrollment course(s).
OR
- International Students with a valid Visa.

How and When To Apply

New students and students returning after an absence of two consecutive full semesters (fall, spring) must submit an application for admission to the college.

Submit transcripts of high school(s) and colleges attended with the Admissions and Records Office if pursuing a degree at Santiago Canyon College or receiving financial assistance.

Application dates:

Fall semesterbeginning April 1
 Intercessionbeginning November 1
 Spring semesterbeginning November 1
 Summer sessionbeginning April 1

APPLYING TO THE COLLEGE

New or Former Students

New or former students need to apply. A new student is a student who has never attended Santiago Canyon College or Santa Ana College. A former student is a student who attended SCC or SAC, did not enroll for two consecutive full semesters, and now wishes to return. All applications are completed on the www.sccollege.edu website. Applications are processed within 1-3 business days.

An e-mail will be sent with student's email address (single sign on), student ID number, and other student information. The student email address and Student ID Number for former students will always remain the same. Once you have been assigned a student email address, you may then go online, change your password, and view your registration appointment date and time.

Continuing Students

A continuing student is a student who has not missed two consecutive full semesters. The student may check online for his/her registration date and time and may register online at that time or any time until the day before the sections begins. Students are encouraged to meet with a counselor each semester

in order to review their academic progress before completing registration.

HOW TO PREPARE FOR PROPER COURSE PLACEMENT, REGISTRATION AND EDUCATIONAL PLANNING (STUDENT EQUITY AND ACHIEVEMENT PROGRAM)

The Student Equity and Achievement Program (SEAP) provides students with access to core programs and services designed to help them achieve their academic and personal goals in a timely manner.

New student orientation and advisement are available to all new students. Upon completion of the orientation, students can meet with a counselor to receive assistance in developing a first-semester education plan. The plan includes mathematics, English, or American College English/English as a Second Language (ACE/ESL) course placement recommendations and courses aligned with students' educational goals. All students must complete their Comprehensive Education Plan (semester-by-semester plan) by the third semester but no later than completing 15 degree-applicable units. A comprehensive student education plan will detail all of the coursework required to reach a desired educational goal. Students may accomplish this requirement by enrolling in a counseling course or scheduling an appointment with a counselor. A request to be exempt from completing these services is available on the Admissions & Records website. Exemption approval requires that students provide sufficient justification for their request.

ASSESSMENT/AB1705

AB 705/1705 Implementation

Santiago Canyon College has reformed how placement in mathematics, English, and English as a Second Language (ESL) courses is determined.

These bill requires that students have access to transfer-level coursework in mathematics, English, and ESL courses. Students planning to enroll in mathematics, English, and/or reading courses do not need to take a placement test. Placement into these courses is provided as follows:

Recommendation Based on High School Performance Information

Students receive course recommendations for mathematics, English, and reading based on self-reported high school non-weighted grade point average (GPA), high school coursework completion, and earned grades.

Guided Placement Course Recommendation

The Guided Placement tool is for students who do not have access to their high school transcript or did not attend high school in the United States. This placement tool provides students with the ability to reflect on mathematics, English or ESL, and reading skills.

Assessment and Course Placement for American College English/ English as a Second Language (ACE/ESL)

Students interested in enrolling in the ACE/ESL program need to complete the ACE/ESL Guided Placement for course placement recommendations. For more information visit the Assessment Services Website at <https://sccollege.edu/students/studentservices/counseling/SitePages/ACE-ESL.aspx>

Assessment for Chemistry Placement

Assessment for Chemistry placement is available for students planning to enroll in SCC's Chemistry 200A (General Chemistry A). An assessment appointment can be made by calling 714-628-4800 or online by clicking this link [Chemistry Placement \(sccollege.edu\)](#)

Disability-Related Accommodations

Students who require disability-related accommodations must request them at least two weeks prior to taking the Chemistry 200A assessment. To arrange for accommodations for assessment, contact Disabled Students Programs and Services (DSPS) at 714-628-4860 to schedule an evaluation of needs.

AB 1805 ACCESSING PLACEMENT DATA

Santiago Canyon College strives to provide the best possible course placement recommendations for each student. Placement Data is available on the SCC website under the "Assessment Services" page. SCC's disclosure of these results allows prospective students and the public to view the number of students assessed and placed into transfer-level mathematics, English, and ACE/ESL courses.

Coursework from Other Colleges

Students who have attended another regionally accredited college and have completed courses that meet the prerequisite for SCC Courses can submit transcripts (unofficial are accepted) to clear prerequisites by one of the following methods:

1. Bring transcripts to the Counseling Center (Building D, Room 106) for verification and prerequisite clearance.
2. An online prerequisite clearance request form is available at the SCC Counseling website under "Course Prerequisite Clearance." Submit the form and supporting documentation to prereq@sccollege.edu.

Right to Challenge

Students who want to challenge their course placement recommendation/s need to submit a Requisite Challenge Form to the appropriate department two weeks prior to the start of the semester. Additional information about this process is available on the SCC website under "Assessment Services."

Chosen Name

Rancho Santiago Community College District recognizes that some students, staff, and faculty wish to identify themselves by a name other than their legal name. For this reason, Santiago Canyon College

ADMISSION REQUIREMENTS

and the Rancho Santiago Community College District will be switching entirely to "Chosen Name". In order to continue use of your chosen name, you will need to log in to Self-Service and re-enter the name you prefer to be identified by. It is important to understand that designating your Chosen Name for use at SCC does NOT constitute a legal name change. A student's legal name will continue to be used on certain college documents, such as transcripts. A student's Chosen Name will automatically display in Canvas and will be listed on class rosters and waiting lists for use by instructors and departments.

Change "Chosen Name" in Self-Service Course Families

Certain courses are grouped into course families that give students similar educational experiences. Within any given course family, students are only permitted four experiences while enrolled at Santiago Canyon College. An experience is defined as taking a course and receiving any letter grade, including a substandard grade (D, F, NP, or W). Once a student has received four experiences in a given family, they will not be permitted to enroll in any other class within that family, even to alleviate a substandard grade. If a student has already received a grade in three courses within a given family, they will only be permitted one more attempt at a course within that family. If courses in a family are in a sequence, the sequence must be followed.

When families have more than four courses, a student can only take four of the courses in the family. When families have less than four courses, a student can only take the number of courses in the family. Students cannot receive credit for the same course more than one time unless it is specifically designated a repeatable course (reference Course Repeatability and Repetition page).

The courses included in course families are:

- ART110 - Two-Dimensional Design
- ART111 - Three-Dimensional Design
- ART122 - Graphic Design I
- ART128 - Introduction to Illustration

Fees and Expenses/ Drop for Non-Payment

Drop for Non-payment Policy: Enrollment fees must be paid in full within 3 days of registration (including weekends and holidays) or all classes may be dropped and released to other students. The day you register is counted as day one.

1. All students are required to pay enrollment fees of \$46 per unit within 3 days of registration. If classes are not paid within that time, the student may be dropped from all classes and will have to re-register. In addition to the 3-day non-payment drop policy, there is a final outstanding balance drop date. All fees must be paid in full by the Friday before the start of the term. No balance will be carried over into the start of the semester. It is the student's responsibility to drop by the refund deadline to avoid any fees for enrolled classes. The college reserves the right to postpone or suspend nonpayment drops.
2. A health fee of \$23 per semester (\$20 for summer session) is charged to all students whether or not they choose to use health services. Health Fee Exemptions (Education Code 76355): (1) Any student who depends exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination, or organization, provided that the student presents documentary evidence of an affiliation with such a bona fide religious sect, denomination, or organization. (2) Any student enrolled in an approved Apprenticeship Program. A request for an exemption may be filed at the Admissions & Records Office.
3. Virtual Parking Permits are \$20 for students with fee waivers and \$30 for all other students during the fall and spring semesters and \$10 during summer session. No permit is required for intersession. Permits may be purchased online through Self-Service or by using the link found on the Safety & Security websites. A permit is required to park on campus at SAC and SCC. Only one permit is necessary for students who attend both colleges. Motorcycles are exempt in designated parking areas.
4. A Student Life and Leadership fee of \$10 (fall and spring semesters) or \$5.00 (summer session) is payable at registration for classes. The fee includes a free Photo ID for college services:

ADMISSION REQUIREMENTS

- (1) Library, Student and Instructional Services; and (2) \$10 for college activities. Photo ID and term validation is available at Santiago Canyon College. These services and fees are optional.
- The Santiago Canyon College Student Representation Fee of \$2 is charged per semester. The \$2 mandatory fee (Education Code 76060.5) is used by the Associated Student Government to represent the view of students with governmental agencies.
 - Transportation Fee: All students pay a mandatory fee each fall and spring semester. This fee provides unlimited access to all fixed route buses operated by the Orange County Transit Authority (OCTA). The fee per semester is \$3.20 for full-time students (enrolled in 12 or more units) and \$2.20 for part-time students (enrolled in less than 12 units). Bus access will be available seven days per week for school, work, or any other destinations. In the Partnership agreement between OCTA and RSCCD, 100% of the fee proceeds are remitted to OCTA. No dollars are kept for RSCCD usage or profit for administering this program for our students.

Non-Resident Tuition

Non-resident Tuition: \$399 per unit in addition to the per enrollment fee for out-of-state residents and for students who are a citizen of a foreign country. Refer residency questions to the Admissions and Records Office.

Visa, MasterCard, Discover and American Express are accepted for all fees.

All tuition, fees, and expenses are subject to change with new state legislation.

Open Educational Resources (OER)

Open Educational Resources (OER) Open Educational Resources refer to free or low cost class materials, such as a textbook or online resource. Classes listed with an OER symbol use a free textbook unless otherwise noted in the class schedule. Classes using Lumen Learning OER will charge a materials fee for a standard textbook and online resources.

Refund of Tuition and Enrollment Fees

- Students are eligible for full refunds of fees provided they have officially dropped from classes prior to the refund deadline or their classes have been cancelled by the college. There is no refund for classes added after the refund deadline date. (Check Self-Service section details for refund deadline).
- Refunds are based upon the date the student withdraws from the course online.
- No refund will be processed until assurance has been given that any check in payment for tuition has been cleared.
- Enrollment Fee refunds are granted in accordance with established provisions of the community college education code. Contact the Cashier's Office or refer to the current class schedule for details of the refund policy and procedures.
- There is no refund for variable units not completed.

International Student Admissions

SCC is a SEVP approved institution to host international students who enter the country on F-1 student visas. This school is authorized under Federal law to enroll nonimmigrant alien students. Foreign students should contact the International Student Office or visit www.sccollege.edu/international for application forms and instructions. The deadline to apply is 45 days prior to the start date of the term; for exceptions, please contact the International Student Office. A \$65 application fee is required along with the application form. For more information, call 714-628-5050.

Admission Policy of International Students on F-1 Visa Status:

- International students are required to submit transcripts with their applications. For transcripts in a language other than English, translation may be required. Applicants applying within the U.S. who had previously attended a U.S. high school or U.S. college/university must submit transcripts from all previous educational institutions.
- International students must have sufficient knowledge of English to enable them to profit from instruction at the college level. English proficiency is determined by a satisfactory score as listed on the International Student Program website.
- The minimum age requirement to attend SCC is 16 years old. Students under 18 years of age must provide proof of high school completion. The student must be 16 years old by the first day of classes of the entering semester as listed in the college schedule.
- Students on the F-1 Visa must present evidence that they have financial resources to defray costs during the period of attendance at the college. The annual tuition for a student enrolled in 12 units each semester is \$10,680 US dollars. The 2024-2025 cost per unit for international students is \$445 (\$352 non-resident tuition + \$46 enrollment fee + 47 capital outlay). The health insurance premium is \$1,702.56 per year. For living expenses and other costs, such as books, visit the college website at www.sccollege.edu/international. All tuition, fees, and expenses are subject to change with new state legislation.
- Although SCC does not require proof of immunizations, it is strongly recommended that all students planning on coming to the U.S. to study receive all necessary vaccinations and are free of tuberculosis. Students should assure that they are healthy when they come to study in the United States. It is suggested for students to check with Consulate or Embassy for recommended immunizations.
- Admitted students are required to purchase the health insurance plan approved by the District. Other outside health care plans are not accepted, except students sponsored by a governmental agency or program or covered by a U.S.-based health plan of a family member. Proof of health insurance is required prior to registration. The college accepts no responsibility for medical expenses incurred by international students. Santiago Canyon College does not provide housing for students; however, our offices offer information resources to help students find housing options. Students can participate in a homestay program arranged through private companies. SCC does not monitor or administer these programs. For housing, information visit www.sccollege.edu/international.

member. Proof of health insurance is required prior to registration. The college accepts no responsibility for medical expenses incurred by international students.

Registered Sex Offender Information

Current information concerning registered sex offenders can be obtained by going to: www.meganslaw.com "Sex offenders are required to register with the police in the jurisdiction in which they reside and if attending institutions of higher learning in a different jurisdiction, they must register with local police for that area. Sex offenders who may be required to register should do so at the Orange Police Department if attending Santiago Canyon College."

Residency

All students are classified as either a resident of the State of California or non-resident when applying for admission. "Residents" are students who have residence in the state for more than one year before the initiation of a semester or term (EC 68017), based on the "Residency Determination Date" which is the day immediately

ADMISSION REQUIREMENTS

preceding the opening of instruction (applies to U.S. citizens, permanent residents, and persons holding certain visas that allow for residency). "Non-residents" are students who have not established residence in the State of California for one year as of the residency determination date.

Persons who are 18 years of age or older (adults) establish residency in accordance with EC 68017 above. Adult residency begins after the 18th birthday. Persons who are under 18 years of age (minors) establish residence in accordance with above "resident" definition and the following:

- a. Married minors may establish their own residence.
- b. The residence of the parent with whom an unmarried minor child maintains a place of abode is the residence of the unmarried minor child. When the minor lives with neither parent, residence is that of the parent with whom the minor last resided. The minor may establish residence when both parents are deceased and a legal guardian has not been appointed.
- c. The residency of unmarried minors who have a parent living cannot be changed by their own acts, appointment of legal guardians, or relinquishment of a parent's right of control (EC 68062).
- d. Exceptions apply under certain conditions to active members of the military.
- e. Specific residency problems will be answered by the Admissions and Records Office.
- f. Non-Citizen Students: Students with a "permanent resident" visa, refugee status, or amnesty approval may establish residency in accordance with above discussion. All visas must be examined by the college to determine residency status.

Right To Review and Challenge Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

- 1. The right to inspect and review the student's education records within 30 days of the day the college receives a request for access. Students should submit to the Associate Dean of Admissions, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected.
- 2. The right to request the amendment of the student's education records that the student believes is inaccurate. Students may ask the college to amend a record that they believe is inaccurate. They should write the college official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the college decides not to amend the record as requested by the student, the college will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- 3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to

the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the college in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees or a member of an official committee.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the college discloses education records without consent to officials of another school in which a student seeks or intends to enroll. [NOTE: FERPA requires an institution to make a reasonable attempt to notify the student of the records request unless the institution states in its annual notification that it intends to forward records on request.]

- 4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Santiago Canyon College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: **Family Policy Compliance Office Department of Education 400 Maryland Avenue, SW, Washington, DC 20202-5901**

RSCCD Rates of Student Right-To-Know Act

The rates below are placed here in accordance with the federally mandated Student Right-To-Know Act. Santiago Canyon Community College

Student Right-to-Know Rates for Fall 2019 Cohort:

Completion Rate: 45.41 %
Transfer Rate: 8.75 %

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of our college district to make available its completion and transfer rates to all current and prospective students. Beginning in Fall 2019, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three year period. Their completion and transfer rates are listed above. These rates do not represent the success rates of the entire student population at the College nor do they account for student outcomes occurring after this three year tracking period.

Based upon the cohort defined above, a Completer is a student who attained a certificate or degree or became 'transfer prepared' during a three year period, from Fall 2019 to Spring 2022. Students who have completed 60 transferable units with a GPA of 2.0 or better are considered 'transfer prepared'. Students who transferred to another post-secondary institution, prior to attaining a degree, certificate, or becoming 'transfer prepared' during a five semester

period, from Spring 2020 to Spring 2022, are transfer students.

Please note, this data is accurate as of the publication date.

Schedule of Classes

A schedule of classes is prepared each semester and is available online. It includes general information, courses offered, hours, rooms, and instructor names.

Textbooks and Supplies

Textbooks, supplies, and athletic equipment must be purchased by the student. Special fees required for certain courses are indicated in the class schedule.

Solomon Amendment For Military Recruiters

The Solomon Amendment is a federal law that allows personally identifiable student information to be released to recruiters that would have been denied them under FERPA. This law mandates that institutions receiving federal financial aid must fulfill military recruitment requests for access to campus and lists of students. If Santiago Canyon College fails to comply with these requests from military recruiters, the college will lose federal financial aid funding.

Student Photo Identification Card

A student is eligible for a photo identification card after paying for classes. Photo I.D. is located in the Cashier's Office in E-102. This card facilitates student use of the Library, Student Health and Wellness Services, computer laboratories, the Admissions Office, and a variety of college services.

Transcripts

Students may obtain an official transcript of records by submitting a request online or in person at the Admissions and Records Office at Santiago Canyon College. The first two counter transcripts will be issued without charge; thereafter, a \$3 charge will be assessed for each additional mailed transcript. Express transcripts and all online transcripts are \$8. All official transcripts are copies of the student's permanent record in the Office of Admissions and Records at either college. Only records prepared and issued directly from that office will be considered official or certified for accuracy. Transcripts from other institutions are property of the college and will not be released.

Admissions and Records do not hold transcripts for final grades. It is the student's responsibility to verify that all grades have been posted via Self-Service before requesting transcripts

International Transcripts – Evaluation Practices

Santiago Canyon College may grant credit for college coursework completed outside of the United States. Students must submit their records to a Santiago Canyon College recognized evaluating agency, in order to obtain an equivalency/evaluation report (go to www.naces.org for approved listings of evaluating agencies). Once the Admissions Office at Santiago Canyon College receives the equivalency/evaluation

ADMISSION REQUIREMENTS

report, an official evaluation will be conducted to determine course applicability.

The following guidelines apply to coursework completed outside of the United States.

- There is no transfer credit limit a student may be granted for coursework completed outside of the United States. However, Santiago Canyon College may only grant credit for lower-division classes.
- College credit may only be granted toward Santiago Canyon College's local associate degrees (AA or AS) and certificate programs. Credit will not be granted toward Associate Degrees for Transfer (AA-T or AS-T).
- Coursework may not be used to fulfill the following General Education Requirements: English Composition, American Institutions, Reading, and Oral Communication.
- Courses intended to fulfill major requirements must be submitted to the major department for approval.
- Coursework may not be used to fulfill General Education Certification requirements for CSU-GE or IGETC (with the exception of Area 6 – Language Other Than English).
- Santiago Canyon College may not determine course transferability to other colleges and universities.

Students who have completed coursework outside of the United States are encouraged to meet with a counselor to determine a course and program's applicability.

ACADEMIC AND PROGRESS PROBATION/DISMISSAL

A student's academic standing and progress is calculated at the end of the fall and spring semesters (calculations are not done after the summer session or intersession), based only on the SCC/SAC units and cumulative (RSCCD Total) grade point average (GPA). Academic and Progress Probation calculations begin after a student has attempted 12 units or more at SCC/SAC. Students are placed on Academic Probation when their RSCCD Total GPA for all SCC/SAC coursework falls below 2.0. Students are placed on Progress Probation when the percentage of coursework at SCC/SAC has an entry of "W", "I", "NP", and "NC" which reaches or exceeds fifty percent (50%) of the coursework attempted.

ACADEMIC PROBATION AND DISMISSAL

A1- Academic Probation (First Time)

Students placed on academic probation for the first time (first semester under a RSCCD Total GPA of 2.0) are required to attend a counseling intervention workshop. An e-mail notification is sent to the student and a registration hold is placed on the student record until the completion of the workshop.

A2-Academic Probation (Second Time)

Students who have two consecutive semesters with a RSCCD Total GPA below 2.0 will lose priority registration for the next registration opportunity. Their registration date will be after all new applicants.

AD-Academic Dismissal

Students who have three consecutive semesters with a RSCCD Total GPA of below 2.0 at the end of the spring semester are dismissed. Students who are dismissed have a hold placed on their records and an e-mail is sent notifying them of their status. Students cannot register for classes at SCC or SAC for one full semester. When students returns after "sitting out" one semester; they will return on academic probation and will continue to lose registration priority until their RSCCD Total GPA is at or above a 2.0.

Students who have three consecutive semesters with a RSCCD Total GPA of below 2.0 at the end of the spring semester are dismissed. Students who are dismissed have a hold placed on their records and an e-mail is sent notifying them of their status. Students cannot register for classes at SCC or SAC for one full semester. When students returns after "sitting out" one semester; they will return on academic probation and will continue to lose registration priority until their RSCCD Total GPA is at or above a 2.0. Students who have three consecutive semesters with a RSCCD Total GPA of 2.0 at the end of the fall semester are "subject to dismissal" and a hold is placed on their student record. Since they have already registered for the spring semester they are given a grace period to improve their RSCCD Total GPA. If the RSCCD Total GPA remains below a 2.0 at the end of the spring semester; they will be academically dismissed and will not be able to register for classes at SCC or SAC for one full semester. When they return after "sitting out" one semester; they will return on academic probation and will continue to lose registration priority until their RSCCD Total GPA is at or above a 2.0.

PROGRESS PROBATION AND DISMISSAL

P1-Academic Probation (First Time)

Students placed on Progress Probation for the first time (first semester where the total of W, NP, or I grades is 50% or more of all grades earned) will be notified and provided intervention services.

P2-Academic Probation (Second Time)

Students who have two consecutive semesters of progress probation will lose priority registration for the next registration opportunity. Their registration date will be after all new applicants.

PD-Progress Dismissal

Students who have three consecutive semesters with less than 50% of their coursework earning a grade at the end of the spring semester are dismissed. Students who are dismissed have a hold placed on their records and an e-mail is sent notifying them of their status. A student cannot register for classes at SCC or SAC for one full semester. When the student returns after "sitting out" one semester; the student will return on progress probation and will continue to lose registration priority.

Students who have three consecutive semesters with less than 50% of their coursework completed with a grade at the end of the spring semester are dismissed. Students who are dismissed have a hold placed on their records and an e-mail is sent notifying them of their status. A student cannot register for classes at SCC or SAC for one full semester. When the student returns after "sitting out" one semester; the student will return on progress probation and will continue to lose registration priority.

Students who have three consecutive semesters with less than 50% of their coursework completed with a grade at the end of the fall semester are "subject to dismissal" and a hold is placed on their student record. Since the student has already registered for the spring semester; they are given a grace period to improve their course completion rate. If the percentage of completed coursework

remains below 50% at the end of the spring semester; they will be dismissed and will not be able to register for classes at SCC or SAC for one full semester. When the student returns after "sitting out" one semester; the student will return on progress probation and will continue to lose registration priority.

Important Note: Registration priority shall be lost at the first registration opportunity after a student is placed on academic or progress probation or any combination thereof for two consecutive terms.

ACADEMIC FREEDOM

The teacher should be free to think and to express ideas, free to select and employ materials and methods of instruction, free from undue pressures of authority, and free to act within his/her professional group. Such freedom should be used judiciously and prudently to the end that it promotes the free exercise of intelligence and student learning. Academic freedom is not an absolute. It must be exercised within the law and the basic ethical responsibilities of the teaching profession. Those responsibilities include:

- An understanding of our democratic tradition and its methods.
- A concern for the welfare, growth, maturity, and development of students. The method of scholarship.
- Application of good taste and judgment in selecting and employing materials and methods of instruction. Board Policy 4030 Academic Freedom Administrative Regulation 4030 Academic Freedom Reference(s):

Title 5, Section 51023 ACCJC Accreditation Eligibility Requirement 20 and AACJC Accreditation Standard I.C.7 (Formerly II.A.7)

ACADEMIC HONESTY

Introduction

Students at Santiago Canyon College are expected to be honest and forthright in their academic endeavors. To falsify the results of one's research, to steal the words or ideas of another, or to cheat on an examination corrupts the essential process by which knowledge is advanced. Academic dishonesty is seen as an intentional act of fraud, in which a student seeks to claim credit for the work or efforts of another without authorization or uses unauthorized materials or fabricated information in any academic

We, as an institution, also consider academic dishonesty to include forgery of academic documents, intentionally impeding or damaging the academic work of others, assisting or coercing other students in acts of dishonesty, or the unauthorized use of Artificial Intelligence.

Procedures

In cases where a violation of academic honesty is discovered, the faculty member is encouraged to

COLLEGE POLICIES AND PROCEDURES

file an "Academic Honesty Incident Report" form and distribute the form as specified.

There are two categories of sanctions: Limited and College-wide. Limited sanctions include an academic action such as assigning a lower grade or a grade of "F or zero" for the assignment. College-wide sanctions include any sanction that will affect a student's standing with the college-at-large, up to and including suspension or expulsion from the college.

In matters relating to academic honesty violations, the primary responsibility for employing the Limited Sanctions rests with the instructor and the academic division where the violation allegedly occurred. The Associate Dean of Student Development will assist in all College-wide disciplinary sanctions at Santiago Canyon College.

ACADEMIC HONORS

<https://sccollege.elumenapp.com/catalog/2021-2022Catalog/honors#mainContent>

Academic Honors at Graduation

Academic honors are awarded to students who do outstanding coursework leading to graduation from Santiago Canyon College. The graduate must have completed at least 30 units of coursework within the Rancho Santiago Community College District of which 18 units or more must be letter grades of "C" or better.

Rancho Santiago Community College District coursework and all transfer work will be computed in the Honors designated GPA. Graduation honors are awarded as follows:

President's Scholar. See Honors Program and Honors Courses With Highest Honors. The highest honors designation is placed on the transcript and diploma of the graduate who has achieved an overall grade point average (GPA) of 4.0. With High Honors. The high honors designation is placed on the transcript and diploma of the graduate who has achieved an overall grade point average (GPA) of 3.8. With Honors. The honors designation is placed on the transcript and diploma of the graduate who has achieved an overall grade point average (GPA) of 3.5. Departmental Honors are awarded to students who do outstanding work in their majors. Eligibility is determined by inclusion in the academic honors categories listed above.

ACADEMIC RENEWAL

Inasmuch as past performance does not always reflect accurately a student's actual ability, Santiago Canyon College has established a policy of academic renewal.

Academic Renewal Without Course Repetition

To be eligible, the student must have completed at least 15 units with a 3.0 G.P.A or 24 units with a 2.0 GPA or higher in sessions subsequent to the substandard work being petitioned. All units from all colleges attended will be counted from the semester immediately following the substandard work.

The substandard academic renewal work will not count toward graduation or certification, and the permanent academic record shall be annotated in such a manner that all work remains legible. Up to 30 units combined of below "C" work at Santiago Canyon College/Santa Ana College may be disregarded in

the computation of the grade point average. The student may choose the 30 units of substandard grades to disregard.

After a RSCCD associate degree or CSU- GE Breadth or IGETC certification is posted, academic renewal without course repetition is not accepted.

Academic Renewal Without Course Repetition is solely the policy of the Rancho Santiago Community College District and may not necessarily be followed by other institutions.

Academic Renewal Without Course Repetition may be granted multiple times by Santa Ana College and/or Santiago Canyon College but is limited to a total of 30 units.

As a result of AB705, a student may seek grade alleviation without course repetition when the substandard work occurred in an English or Mathematics course that is part of a remedial (pre-transfer level) sequence OR in an ACE or EMLS course that is part of the sequence leading to transfer-level English (CSU GE area A2 or IGETC GE area 1A) once the student has successfully passed the transfer-level course, regardless of the student's overall academic record since the semester in which the "D", "F", or "NP" was earned.

A student seeking alleviation under this scenario will be eligible for alleviation subject to these limitations: If a student received a grade of "C" or better or "P" in a transfer-level English course (CSU GE area A2 or IGETC GE area 1A APPROVED course), the highest grade earned shall be used when computing the student's cumulative grade point average. Grades earned in courses in a remedial English sequence prerequisite to a transfer-level remains legible, ensuring a true and complete academic history. This petition is submitted to Admissions and Records.

RSCCD Academic Renewal Without Course Repetition is established pursuant to Title 5 section § 55046.

Academic Renewal With Course Repetition

Only units taken at Santiago Canyon College and/or Santa Ana College may be considered for Academic Renewal With Course Repetition, not units taken at any other institutions.

A student who earned a D, F or NP grade may repeat the course once up to two times to improve the grade of the substandard work. Once a grade of D, F, or NP has been recorded, subsequent withdrawals (notations of W) will count toward the two allowable repeats. No more than two substandard grades for the same course may be alleviated and excluded from the Grade Point Average.

A student may not repeat a course to change a grade of C or above. Courses repeated under this provision will be indicated as repeated on the student's academic transcript.

Course repetition at Santiago Canyon College does not guarantee that other institutions will approve such an action. This determination will be made by the respective transfer institution.

For courses designated as non-repeatable (Title 5, §55041), only the first two substandard grades may be excluded in computing the student's grade-point average (Title 5, §55042(c)).

The petition is submitted to the Admissions and Records Office of the student's home campus (SCC or SAC). Please consult with a college counselor about any questions regarding Academic Renewal eligibility.

ATTENDANCE & DROPS

Drop for Non-payment Policy

Enrollment fees must be paid in full within 3 days of registration (including weekends and holidays) or all classes may be dropped and released to other students. The day you register is counted as day 1 of the 3 days.

Students are expected to attend all sessions of the classes in which they are enrolled. Students should report absences due to illness to the instructor prior to missing class.

A student may be dropped for not attending the first class meeting or for excessive absences when the total hours of absence exceed 10% of the total scheduled hours of the class.

Under extenuating circumstances, a student may be reinstated by the instructor. A student may also be dropped by the instructor when not appearing at the first class meeting.

It is the student's responsibility to withdraw officially from a course. Students are responsible for any and all charges incurred resulting from a failure to withdraw from classes within the refund period.

Post-9/11 GI Bill® and VR&E Beneficiaries (Chapter 33 and Chapter 31 beneficiaries)

The Veterans Benefits and Transition Act of 2018 (Public Law 115-407) allows students that will be utilizing Ch. 33 or Ch. 31 VA benefits to attend a course of education or training for up to 90 days from the date the beneficiary provides a certificate of eligibility (COE), or valid authorization from VOC Rehab counselor. Students must submit all required certification request forms directly to the Veterans Resource Center (VRC) for processing. Submission of forms will allow students to attend the course until the VA provides payment to the institution without penalty or requiring to borrow additional funds to cover mandatory tuition and fees due to late payments from the VA. Any student that does not have 100% entitlement for Ch. 33 VA benefits, will be responsible for any remaining balance after the VA submits payments directly to the school. For further information, please contact the VSO directly.

Online Drop Policy

Students are expected to complete regular and substantive coursework in online classes. In distance education context, coursework will be used to determine student attendance. Simply logging into an online class is not sufficient to demonstrate academic attendance by the student. Examples of coursework for online classes might include, but are not limited to, class discussions, completed assignments, completed quizzes or exams, group work, etc. Students who fail to submit substantive coursework by the due date may be dropped from the class. Completing an assignment on the first day of the class may also be required in order to avoid being dropped from the class. Please refer to the class syllabus and the class section information, found in the class schedule, for the specific attendance (regular and substantive coursework) requirements.

Online Drop Policy for Emergency Situations

During the current pandemic and in emergency situations, students are expected to complete

COLLEGE POLICIES AND PROCEDURES

regular and substantive coursework in online classes. In distance education context, coursework will be used to determine student attendance. Simply logging into an online class is not sufficient to demonstrate academic attendance by the student. Examples of coursework for online classes might include, but are not limited to, class discussions, completed assignments, completed quizzes or exams, group work, etc. In Hybrid classes, students are expected to attend all scheduled classroom hours. Students who fail to submit regular and substantive coursework may be dropped from the class. Completing an assignment on the first day of the class may also be required in order to avoid being dropped from the class. Please refer to the class syllabus and the class section information, found in the class schedule, for the specific attendance (regular and substantive coursework) requirements.

Basic Skills Course Limit

Students are limited to 30 units of transfer preparation and non-degree coursework. Students who reach 30 units

of transfer preparation and non-degree coursework are prevented from further registration. The student must complete a petition form and meet with a counselor who advises the student on a comprehensive student education plan or refers the students to continuing education.

A waiver is required beyond 30 units. Students must show a "C" or better or a 2.0 GPA in basic skills courses to qualify for a waiver. Waiver forms are available in the Admissions and Records Office and the Counseling Office.

Career Technical Education (CTE)

Transitions

Perkins Career and Technical Education Improvement Act of 2006 (Perkins IV) and it provides students an opportunity to earn college credit in an identified career pathway while still in high school. CTE Transitions focuses on helping Career Technical Education students' transition from high school to community college and on to the world of work. There is no cost to students participating in the CTE Transitions program. For more information on which courses articulate with the local Central Orange County Career Technical Education Partnership (CTEp), please contact the CTE Transitions Coordinator at (714) 628-4889, or visit www.sccollege.edu/transitions

Classification of Students

Special Admit- one who is concurrently enrolled in high school
 one who has completed 0-29 units
 Sophomore - one who has completed 30 or more units
 Graduate - one who has received an associate degree

Computer & Network Use

The Rancho Santiago Community College District owns and operates a variety of information resources, including hardware, software, and Internet access. These information resources are provided solely for the use of RSCCD students, faculty, and staff (and employees rather than faculty/ staff?) in support of the education, research, academic development, and public service programs of RSCCD. RSCCD information resources provide access to information content and communication worldwide.

Access to, and use of, these information resources is a privilege, which is to be used responsibly. RSCCD information resources users must respect the rights of other users, respect the integrity of the information resources, and observe all relevant RSCCD Board Policies, Administrative Regulations, and federal, state, and local laws. All students, faculty, and staff are responsible for seeing that these RSCCD information resources are used in an appropriate, effective, efficient, ethical, and lawful manner, including but not limited to the illegal downloading and/or unauthorized distribution of copyrighted material, including peer-to-peer file sharing. Violations of Federal copyright laws may subject the violator to civil and criminal penalties as well as disciplinary action.

Administrative regulations establish rules and prohibitions that define acceptable use of RSCCD resources. Unacceptable use is prohibited and is grounds for loss of use of information resources, as well as discipline or legal actions as provided for under RSCCD Board Policy and federal, state, and local laws.

Email

During the application process, students at Santiago Canyon College will provide an email account. This email address may be updated in Self-Service as desired by the student. The College will email students to share college information and as a means of communication regarding college business.

Course Auditing

The Rancho Santiago Community College District does not allow students to audit courses. Board Policy 4070, Ed Code 76370

Course Repeatability and Repetition

State regulations (Title 5, sections 55040-55045) restrict the number of times a student may enroll in a course within a community college district. The number of times a student may enroll in a course is based on whether the course is designated "repeatable" or "non-repeatable." Any student registering to repeat a course not identified as repeatable or repeating a course more often than permitted may be dropped from the course. Courses may be repeated only under the following circumstances:

Substandard Work for Non-Repeatable Courses

A student has up to three enrollments in the same course (SCC and SAC combined) to receive a satisfactory grade. After three enrollments, the student can no longer register for the course within this college district. A repeat form must be completed in Admissions and reviewed by an Admissions Office administrator. The last grade earned will count in the GPA calculation. Courses repeated under the provisions of this section will be indicated as repeated on the permanent academic record of the student. A student may not repeat a course to change a grade of C or above.

Significant Lapse of Time

Students may re-enroll in a course where the student has received a satisfactory grade of "C" (or Pass) or better in their last enrollment and there has been a significant lapse of time since completion of the

course. California Code of Regulations defines a "significant lapse of time" as three (3) calendar years and an institution of higher education to which the student wishes to transfer has established a recency requirement that the student cannot satisfy without repeating the course (Title 5, §55043). Students must submit a petition to the Admissions and Records office to re-enroll in the course. Grades awarded for courses repeated under this provision shall replace the original grade. Only one repetition may be used for significant lapse of time (W grade counts towards repetition).

Repeatable Courses

Repeatable Courses: As of January 2013, only three types of courses are repeatable under state regulations:

Courses for which additional enrollments are necessary to meet the major requirements of California State University or University of California for completion of a bachelor's degree. Such courses may allow for additional enrollments to allow the student to meet the lower division component of these major requirements. The number of maximum enrollments may not exceed four and might be fewer if the transfer institution requires fewer than four enrollments or if the course is related in content to other courses offered at the college.

Intercollegiate athletics. These courses include those in which student athletes are enrolled to participate in an organized competitive sport sponsored by the district or a conditioning course which supports the organized competitive sport. Student athletes are limited to no more than 350 contact hours within a fiscal year (July 1-June 30); they are permitted a maximum of 175 hours in courses dedicated to the sport and 175 hours in courses focusing on skill development and conditioning.

Intercollegiate academic or vocational competition. Such courses must be designed specifically for students to participate in non-athletic competitive events, the competitions must be between students from different colleges, the competition must be sanctioned by a formal collegiate or industry governing body, and participation in the event must be directly related to the course content. Students enrolled in these courses are required to participate in the academic or vocational competition.

Repeatable courses are identified in the catalog's course descriptions. A student may not re-enroll in a course to replace a grade of a course identified as repeatable in the college catalog. All grades earned within the repeatability sequence will count as completed courses regardless of grade earned.

For more information on course families, please reference the following page: Course Families

Legally Mandated Training

Students may re-enroll in a course if the repetition is a requirement for continued paid or volunteer employment. Students must complete a petition and submit appropriate documentation to the Admissions and Records Office as evidence that a student is legally mandated to re-enroll in the course. All grades issued under this provision will count towards the students GPA.

COLLEGE POLICIES AND PROCEDURES

Significant Change in Industry or Licensure Standards

Students may be permitted to repeat a previously completed course if there has been a significant change in industry or licensure standards since the student last took the course such that the student could not obtain or maintain his or her employment or license without retaking the course and the student is required to repeat the course for employment or licensure. Students must complete a petition and submit appropriate documentation to the Admissions and Records Office.

Extenuating Circumstances (Title 5, 55045, 58161)

Student must provide documentation of the extenuating circumstances (defined as verified cases of accidents, illness, or other circumstances beyond the control of the student). If approved, grades from last two attempts will be counted in GPA.

Active Participatory Courses

Active participatory courses in physical education, visual arts, or performing arts (including but not limited to Art, Dance, Kinesiology, Music, and Theatre) that are related in content to one or more other courses have additional restriction on repeatability and repetition. Course are defined as being related in content when they have "similar primary educational activities in which skill levels or variations are separated into distinct courses with different student learning outcomes for each level or variation." Students are limited to four semester enrollments in courses that are related in content; this limitation applies even if an active participatory course is designated as repeatable. Students may repeat active participatory courses in which a substandard grade or W was received, however all enrollments count toward the four enrollment maximum.

Honors Courses

A student who has completed a Santiago Canyon College Honors course and who has received a substandard grade may re-enroll in the course without the Honors notation attached to the course number. If a student participating in the Santiago Canyon College Honors program chooses to re-enroll in the non-Honors version of the course, there will be consequences relating to participation in the Honors program. Please refer to the Honors Program and Honors Courses section of the catalog.

BP 4225 Course Repetition AR 4225 Course Repetition

Credit for Prior Learning and Credit by Examination (CBE) Eligible Courses

AEL 051

Arts, Humanities, and Social Sciences/Library: CJ 101
Mathematics and Sciences: MATH 140, 171, 180, 219; PHYS 150AC, 150BC
Board Policy 4235 Credit for Prior Learning Administration Regulation 4235
Credit for Prior Learning Reference(s):
Education Code Section 79500 Title 5 Section 55050, 55051, 55052, and 55052.5
Students may demonstrate proficiency in a course eligible for Credit for Prior Learning and receive college credit through the

approved alternative methods for awarding credit listed below:

- Achievement of a satisfactory score on an Advanced Placement (AP) examination,
- Achievement of a satisfactory score on a high-level International Baccalaureate (IB) examination,
- Achievement of a satisfactory score on the College Level Examination Program (CLEP),
- Evaluation of Joint Service Transcripts (JST),
- Achievement of an examination administered by other agencies approved by the District,
- Evaluation of industry-recognized credential documentation,
- Evaluation of student-created portfolios, and/or
- Satisfactory completion of an institutional examination, known as Credit by Examination, administered by the college in lieu of completion of an active course listed in the current college catalog.

Determination of Eligibility for Credit for Prior Learning

- The student must be in good standing in the District.
- The student must have previously earned credit or noncredit from the District or be currently registered in the District.
- Current students must have an education plan on file.
- The course is listed in either the current Santa Ana College or Santiago Canyon College Catalog.
- The student is not currently enrolled in the course to be challenged.
- AP, CLEP, and IB Exam course credit and units granted to a local Associate of Arts or Associate of Science may differ from course credit and units granted by a transfer institution. Policy and credit limitations will be available in the current college catalog.
- Credit by Examination: The student is registered in the District and not currently enrolled in nor received credit for a more advanced course in a sequence in the same subject (may be waived by department). Credits acquired by examination are not applicable to meeting of such unit load requirements as Selective Service deferment, Veterans, or Social Security benefits.

Credits acquired by examination shall not be counted in determining the 12 semester hours of credit in residence required for an Associate degree.

Prior Learning Assessment Grading Policy

- Grading shall be according to the regular grading system in accordance with Administrative Regulation (AR) 4230 Grading and Academic Record Symbols.
- Students shall be offered a "Pass/No Pass" option, in accordance with Administrative Regulation (AR) 4232 Pass/No Pass Grading Option if that option is ordinarily available for the course.

- Students shall be given the opportunity to accept, decline, or appeal the grade assigned by the faculty, and in cases of Credit by Examination, pursuant to AR 4230 Grading and Academic Record Symbols and AR 4231 Grade Changes.

Transcription of Credit for Prior Learning

The student's academic record shall be clearly annotated to reflect that credit was earned by assessment of prior learning.

Advanced Placement Credit

Students requesting Credit for Prior Learning using Advance Placement shall receive credit for completing a satisfactory score on a District approved Advanced Placement (AP) examination under the following circumstances:

- Achievement of a score of 3, 4, or 5 on an Advanced Placement Examination administered by the College Board. Advanced Placement official score reports must be on file in the Admissions and Records Office.
- The student achieved a minimum acceptable score on the AP examination as outlined by Santa Ana College or Santiago Canyon College Advanced Placement policies.

International Baccalaureate

Students requesting Credit for Prior Learning using International Baccalaureate shall receive credit for completing a satisfactory score on a District approved high-level International Baccalaureate (IB) examination under the following circumstances: Official IB transcripts must be on file in the Admissions and Records Office.

- The student achieved a minimum acceptable score on the IB examination as outlined by Santa Ana College or Santiago Canyon College International Baccalaureate policies.

College Level Examination Program Students requesting Credit for Prior Learning using the College Level Examination

Program shall receive credit for completing a satisfactory score on a District-approved College Level Examination Program (CLEP) under the following circumstances:

- Official CLEP transcripts must be on file in the Admissions and Records Office.
- The student achieved a minimum acceptable score on the CLEP examination as outlined by Santa Ana College or Santiago Canyon College College Level Examination Program policies.

Credit for Military Service/Training

Students interested in Credit for Prior Learning using Joint Service Transcripts shall receive credit as

COLLEGE POLICIES AND PROCEDURES

recommended by the American Council on Education (ACE) Directory and approved by the appropriate discipline faculty of the college under the following circumstances:

- The student shall complete the Credit for Prior Learning assessment form available in the Counseling or Admissions and Records Office.
- Official transcripts must be on file in the Admissions and Records Office. These may include Joint Services Transcript (JST), Sailor/Marine American Council on Education Registry.

Transcript (SMART), Army and American Council on Education Registry Transcript Service (AARTS), Community College of the Air Force (CCAF), Coast Guard Institute (CGI), DANTES/USAFI, Defense Language Institute Foreign Language Transcripts (DLIFLC), Defense Manpower Data Center (DMDC), DLPT Examinee Results, DA Form 330 Language Proficiency Questionnaire, or verified copies of DD214 or DD295 military records.

- Credit course equivalency shall be determined by the faculty of the appropriate discipline.

Industry Recognized Credentials

Students interested in Credit for Prior Learning using industry-recognized credential(s) shall receive credit as recommended by the appropriate department chair or faculty designee:

- The student shall complete the Credit for Prior Learning assessment form available in the Counseling or Admissions and Records Office.
- Enrollment services shall grant credit for industry-recognized credential(s) that have already been evaluated and approved by
- the appropriate department chair or faculty designee.
- If an industry-recognized credential(s) has not yet been evaluated and approved by the appropriate faculty:
- The student meets with the department chair or faculty designee to receive further instructions for industry-recognized credential(s) assessment.
- The student submits all industry-recognized credential documents to the department chair or faculty designee for assessment of prior learning.

If the department chair or faculty designee determines the industry certification adequately measures mastery of parts or all of the course content as set forth in the Course Outline of Record, the appropriate faculty may recommend additional aforementioned alternative assessment methods or sign the form with the recorded grade, attach the industry-recognized credential(s), and forward appropriate forms and documentation to the Admissions and Records Office to be kept on file and recorded on the student transcript.

Student-Created Portfolio Assessment

Students interested in Credit for Prior Learning using a student-created portfolio shall receive credit as recommended by the appropriate department chair or faculty designee under the following circumstances:

- A department-approved portfolio assessment rubric for the course is on file.
- The student shall complete the Credit for Prior Learning assessment form available in the Counseling or Admissions and Records Office.
- The student meets with the department chair or faculty designee to receive further instructions for student-created portfolio assessment.
- The student submits all portfolio documents to the department chair or faculty designee for assessment of prior learning.
- If the department chair or faculty designee determines the student-created portfolio adequately measures mastery of parts or all of the course content as set forth in the Course Outline of Record, the appropriate faculty may recommend additional aforementioned alternative assessment methods or sign the form with the appropriate grade and forward appropriate forms and documentation to the

Admissions and Records Office to be kept on file and recorded on the student transcript.

Credit by Examination (CBE) from Within the District

The District will award college course credit for successful completion of a District examination administered by the appropriate departmental faculty under the following circumstances: Achievement of a grade that qualifies for CBE through completion of articulated high school or adult education courses. Students who wish to earn course credit through CBE through using completion of articulated high school or adult education courses must complete the required petition at either Santa Ana College or Santiago Canyon College (High School/ROP Completion of Articulation Course/Career Transitions Articulated Pathways) and be currently enrolled in at least one credit class at the time of petition.

Credit by satisfactory completion of an examination administered by the department involved in lieu of completion of a course listed in the Santa Ana College or Santiago Canyon College Catalog.

The Department Chair or faculty designee shall determine whether or not a student requesting CBE is sufficiently well prepared to warrant being given this opportunity. This determination is based upon a review of previous coursework and/or experience. Students wishing to earn course credit through CBE are encouraged to informally discuss the matter with the department chair or faculty designee and instructor prior to initiating the formal process. All steps must be completed in the order listed or the form for Credit by Examination shall not be processed. The form for CBE must be completed prior to the end of the current semester or session.

The District Credit by Examination (CBE) Process:

In order to permit students to demonstrate that they have met the objectives of a course through experience in the workplace, foreign language proficiency, or some other process outside the conventional academic setting, students may earn credit by receiving a passing grade on an examination administered by the appropriate instructional department/program. The completion of CBE may require the demonstration of other skills or the completion of assignments in addition to an examination.

Students interested in Credit for Prior Learning using CBE shall receive credit as recommended by the appropriate department chair or faculty designee under the following circumstances:

The Credit by Examination (CBE) Procedures

Student shall complete the Credit for Prior Learning assessment form along with any documentation of prior learning. The required form shall be available in the Counseling or Admissions and Records Office.

- Student meets with the department chair or faculty designee for further instructions for CBE. The dean and department chair or faculty designee will determine whether a departmental or a standardized examination is to be administered and when and where it shall be.
- If the department chair or faculty designee determine the CBE assessment measures mastery of all of the course content as set forth in the Course Outline of Record (COR), the appropriate faculty member shall sign the form with the recorded grade and forward appropriate forms and documentation to the Admissions and Records Office to be kept on file and recorded on the student transcript. If a faculty member determines that the assessment measures mastery of only parts of the COR, the faculty member may recommend additional aforementioned alternative assessment methods. Completed exam materials must remain on file with the department/program for three years.

High School or Adult Education to College Articulation - Credit by Examination (CBE) Procedures

Students shall complete the appropriate petition at Santa Ana College or Santiago Canyon College (High School/ROP Completion of Articulation Course/Career Transitions Articulated Pathways). The petition shall be forwarded to the appropriate Division/Department for approval.

In order for a student to receive CBE, the student must apply online to one of the colleges in RSCCD and register in at least one college credit class at the time of the petition. Timeline for credit to be claimed by the student is based on the existence of a signed articulation agreement for the year the student took the course. A recency requirement may be applicable based on industry standards.

A letter grade will be assigned, and the course will be identified as CBE on the transcript in accordance

COLLEGE POLICIES AND PROCEDURES

with the official final grade received for the full term of the course being petitioned for college credit. Once assigned, a grade is not reversible. The letter grade will be posted on the transcript in the semester the petition was approved. Students who are unsuccessful in obtaining a grade of B or better for the full term of the course will not be allowed to petition for credit and no record of the attempt for CBE will appear on a student's transcript. The enrollment fee for CBE will not be charged for credit awarded under this provision. Responsible Manager: Office of Academic Affairs September 17, 2018 December 7, 2020

Drug Free Environment and Drug Prevention Program

Board Policy 3550 Drug Free Environment and Drug Prevention Program

Reference(s): Drug Free Schools and Communities Act, 20 U.S.C. Section 1011i, 34 C.F.R. Section 86.1 et seq., Drug Free Workplace Act of 1988, 41 U.S.C. Section 8103.

The District shall be free from all drugs and from the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees.

The unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in all facilities under the control and use of the District.

Any student or employee who violates this policy will be subject to disciplinary action (consistent with local, state, or federal law), which may include referral to an appropriate rehabilitation program, suspension, demotion, expulsion or dismissal.

Drug addiction is a complex disorder that can involve virtually every aspect of an individual's functioning – in the family, at work and school, and in the community.

The Chancellor shall assure that the District distributes annually to each student the information required by the Drug-Free Schools and Communities Act Amendments of 1989 and complies with other requirements of the Act.

Special Requirements for Employees Engaged on Federal Contracts and Grants:

The Drug-Free Workplace Act of 1988 (Public Law 100-690, Title V, Subtitle D) requires that district faculty and staff directly engaged in the performance of work on a Federal contract or grant shall abide by this policy as a condition of employment and shall notify the district within five days if they are convicted of any criminal drug statute violation occurring in the workplace or while on district business. The district is required to notify the Federal contracting or granting agency within ten days of receiving notice of such conviction, take appropriate corrective action, or require the faculty or staff member to participate satisfactorily in an approved drug-abuse assistance or rehabilitation program.

Revised: August 19, 2013 (Previously BP3523)

Revised: February 25, 2019

Dual Enrollment

The steps listed below allow high school students to take and receive college credit. Download the Special Admit Form at www.sccollege.edu/SAF and

obtain approval from your high school to enroll at Santiago Canyon College. Only approved signatures from your high school will be accepted. Signatures that do not match what Santiago Canyon College has on file will not be accepted. For a list of approved signatures from your high school, please contact the Admissions and Records Office.

- All college class prerequisites must be met.
- Math and English placement testing are not required. High school performance and/or Guided Self-Placement will be used to provide the student with course recommendations.
- Any student who is not yet 15 years of age or below 9th grade must have approval from the Santiago Canyon College Division Dean.
- Any Special Admit student below the 9th grade as well as any Special Admit student who registers as a full-time student will be charged the regular community college enrollment fees.
- Santiago Canyon College will charge enrollment fees to nonresident students who hold an F1/F2 visa. F1/F2 students are not exempted from enrollment fees.
- Special Admit students by law do not have priority registration.

Enrollment Priority

The state of California has adopted a law under Title 5 Regulation 58108, establishing enrollment priorities for students attending California Community Colleges. Districts shall provide highest and equal priority to students eligible for registration priority who are:

- A member of the armed forces or a veteran pursuant to Education Code section 66025.8, A foster youth or former foster youth pursuant to Education Code section 66025.9,
- Determined to be eligible for Disabled Student Program and Services as set forth in Education Code section 66025.91, Receiving services through the Extended Opportunity Programs and Services as set forth in Education Code section 66025.91, or
- Receiving aid from the California Work Opportunity and Responsibility to Kids Program as set forth in Education Code section 66025.92
- A student parent who has a child or children under 18 years of age who will receive more than half of their support. Education Code Section 66025.81 Registration times will be assigned each term to students in the following order: Title 5 mandated groups (see above)
- Continuing students by units completed at R.S.C.C.D. New/returning students
- Loss of Priority students and those who have completed 100 or more degree applicable units at R.S.C.C.D. Special

Admits: Check the current class schedule for enrollment priority dates and times.

- Check online for enrollment priority dates

Loss of Enrollment Priority

Continuing students at Santiago Canyon College will lose their enrollment priority for the following reasons: The student has attempted 12 units and their RSCCD cumulative GPA has fallen below 2.0 for two consecutive semesters and is on academic probation

- The student has attempted 12 units and the percentage of all coursework at SCC/SAC has an entry of "W", "I", "NP", and "NC" which reaches or exceeds fifty percent (50%). § 55031
- The student has earned 100 or more degree-applicable units from Santiago Canyon and Santa Ana Colleges Students who have SCC as their home campus can submit a petition for appeal to the Admissions Office at SCC. Students who are not in good academic standing can appeal for one of the following reasons:
 - there were extenuating circumstances (verified cases of accident, illness) and can provide documentation; the student can demonstrate SIGNIFICANT academic improvement in a subsequent term.

Students who have earned 100 or more degree-applicable units can appeal if they have declared a high unit major and are currently working toward a degree. Forms for these appeals can be obtained in Admissions and Records or downloaded from the college website.

Experimental Courses

The college may offer Experimental courses, N98 (non-degree applicable), 098 (non-transfer), or 198 (transfer) under any discipline listed in the announcement of courses. Experimental courses are specialized courses on topics related to students' immediate and changing needs. A student who received a satisfactory grade in an Experimental course may not re-enroll in a course with the same discipline name and number, even though the topics may differ.

Family Education Rights and Privacy Act (FERPA)

As required under the provisions of the Family Education Rights and Privacy Act of 1974, Santiago Canyon College will make public without student consent only certain directory information. This consists of the following: a student's name; city of residence; major field; participation in officially recognized activities and sports; weight, height and age if a member of an athletic team; dates of attendance; degree and awards received; and the most recent previous educational institution or agency attended by the student.

A student initially agrees or denies a FERPA release at the point of application. However, a student may come to Admissions at any time to opt out of the FERPA disclosure or agree to the release of directory information. Admissions Forms: "FERPA Consent

COLLEGE POLICIES AND PROCEDURES

to Release” or “FERPA Consent NOT to Release” directory information.

All student expulsions will be noted on the official college transcript.

The Family Education Rights and Privacy Act of 1974 provides colleges the right to consent to disclose personally identifiable information contained in the student’s education records to third party vendors who are identified as School Officials and who have legitimate educational interests. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility.

A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including district safety personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees or a member of an official college committee.

Santiago Canyon College contracts with the following School Officials:

- Auditors (Vicenti-Lloyd-Stutzman)
- Barbering/Cosmetology
- Unilateral Training Committee
- California/Nevada Training Trust
- CCCApply (Unicom)
- Parchment (Online transcript request)
- Ellucian Colleague
- ECS Imaging (optical imaging)
- Electrical Training
- Trust Image Now (optical imaging)
- Medpro and Quest (Health Center)
- Metropolitan Water District of Southern California National Student Clearinghouse
- Operating Engineers Training Trust SARS (Counseling center)
- Santa Ana Beauty Academy
- Southern California Surveyors
- Southwest Carpenters Training Fund Xerox

Free Expression

Santiago Canyon College supports liberal policies regarding free speech for individual students, college staff, nonofficial college groups, and visiting speakers. Please refer to Board Policy (BP 3900) for specific information.

General Grievances

Most complaint or grievance matters should be resolved at the department/division dean level. If a complaint does not fall into one of the previously mentioned, please see the dean that supervises the department.

Procedure

1. Students shall first confer with the person who took the action or made the ruling to which they object no later than ten (10) days following the event which prompted the grievance.
2. The Associate Dean of Student Development will assist the student in arranging an appointment between the student and staff member.
3. If the difference is not satisfactorily resolved, the student shall confer with the person’s supervisor.
4. The Associate Dean of Student Development will assist the student in arranging an

appointment between the student and the staff member’s supervisor.

5. If the grievance is still unresolved, the student may file a written statement setting forth the nature of the grievance on the prescribed form with the Vice President of Student Services, no later than ten (10) days after conferring with the person’s supervisor.
6. The grievance form shall be completed in full and shall include a full description of the grievance, times, dates and pertinent facts and the remedy sought by the student.
7. A Student Grievance Staff Response form will be sent to both the staff member and a supervisor for completion. The Vice President of Student Services shall select a Student Grievance Panel. The administrator involved then shall forward the completed forms to the panel chair for review and recommendation. The panel shall have the power to make an appropriate investigation of the grievance and shall state the findings and make a recommendation.
8. If the grievance is sustained by the panel, it will recommend appropriate action for relief of the grievance and communicate this in writing to the person(s) to whom the grievance was directed. If the findings of the panel do not sustain the grievance, the panel shall communicate this finding in writing to the student who filed the grievance. The ruling of the Student Grievance Panel is final.

Student Grievance Panel Structure

one non-voting chair (except in situations of a tie vote) one student representative one classified representative one faculty representative one administrative representative

Other Possibilities for Complaints/ Grievances

Information on student grievance procedures is available at Santiago Canyon College. Grievances should be filed with the Associate Dean of Student Development, in room A-201. Complaint and/or grievance issues that are not resolved at the campus level may be presented to the agencies provided below.

- If your complaint is associated with the institution’s compliance with academic program quality and accrediting standards, contact the Accrediting Commission for Community and Junior Colleges (ACCJC)
- If your complaint does not concern California Community College’s (CCC) compliance with academic program quality and accrediting standards, complete the CCC Chancellor’s Office Web form
- If your complaint involves unlawful discrimination, contact the Chancellor’s Office Web site

GRADE GRIEVANCES

Procedures for Student Grievances Regarding Grades

Education Code 76224 states: When grades are given for any course of instruction taught in a community college district, the grade given to each student shall

be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.

Procedure Students may request a grade change no later than one year following the awarding of the original grade. Student shall meet with the instructor to discuss the grade.

- If the issue is not resolved and the student believes that the grade is based on mistake, fraud, bad faith, or incompetency (EC 76224), he/she may appeal in writing to the Division Dean. Forms for the written appeal may be found in Division offices or by searching the Santiago Canyon College website.
- The student may be requested to set up an appointment with the Division Dean to discuss the written grievance.
- The Division Dean will review the allegations and consult with the instructor.
- The Division Dean will review the issue and will notify the student and instructor in writing of his/her decision. The decision of the Division Dean is final.

Grade Notification

Grades are available on Self-Service upon grade submission by the instructor.

Discrimination Complaints

Rancho Santiago Community College District is committed to maintaining an inclusive community that values diversity and fosters tolerance and mutual respect. We embrace and encourage our community differences in race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, or sexual orientation of any person, or military and veteran status, or because they are perceived to have one or more of the foregoing characteristics. These characteristics make our community unique. All individuals have the right to participate fully in the District’s programs and activities free from discrimination, harassment, and retaliation on the basis of any protected category.

Rancho Santiago Community College District prohibits discrimination and harassment of any kind on the basis of age, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, or sexual orientation of any person, or military and veteran status, or because they are perceived to have one or more of the foregoing characteristics in the programs and activities that it operates, and is required by federal law not to discriminate.

The prohibition on harassment includes sexual harassment, as well as sexual misconduct, dating and domestic violence, and stalking. For more information regarding the RSCCD’s commitment to fostering an educational environment free of discrimination or harassment on the basis of gender or sexual orientation, including dating violence, domestic

COLLEGE POLICIES AND PROCEDURES

violence, sexual assault, and stalking, please contact the Title IX Coordinator or visit www.rscdd.edu/titleix. The following people have been designated to handle inquiries and address reports or complaints regarding the District's non-discrimination policies. Individuals wishing to file a Complaint of unlawful discrimination, harassment, or retaliation may, but are not required, to use the form prescribed by the California Community College Chancellor's Office. This form, once completed, can be emailed to CivilRights@rscdd.edu.

Grades & GPA

Grades are based upon the quality of work completed, that is, upon actual accomplishment in courses offered for credit. Credit by examination, Class In Progress (CIP), Incomplete (I), Pass/No Pass (P or NP), Reports Delayed (RD), and Withdrawals (W, EW, or MW) are not figured into Grade Point Averages (GPA). The grade point average is computed by dividing all other units attempted into all grade points received. The meaning of each Grade and its value in Grade Points is as follows:

Grade & Grade Points

- A** - Excellent 4 (per unit earned)
 - B** - Good 3 (per unit earned)
 - C** - Satisfactory 2 (per unit earned)
 - *D** - Passing, less than satisfactory 1 (per unit earned)
 - *F** - Failing 0 (per unit attempted)
- *Does not satisfy prerequisite requirements.

- P** - Pass 0 (per unit earned)
- NP** - No Pass 0 (per unit attempted)
- W** - Withdrawal 0 (no units earned)
- EW** - Excused Withdrawal 0 (no units earned)
- MW** - Military Withdrawal 0 (no units earned)
- I** - Incomplete 0 (no units earned)
- RD** - Report delayed 0 (no units earned)
- IP** - In Progress; symbol is used only in courses that extend beyond the normal end of an academic term. The appropriate grade and unit credit shall be assigned and replace the IP symbol once the course is completed.
- CIP** - Class in Progress; symbol is used for courses within the academic term that has not yet ended. The appropriate grade and unit credit shall be assigned and replace the CIP symbol at the end of the academic term.

Incomplete Work

When a student has attended regularly but because of illness or other unavoidable circumstances is unable to complete coursework or take the final examination, a grade of "I" may be assigned. If an "I" is issued, the instructor completes the Incomplete Grade Form which includes the condition(s) for removal of the "I", and the grade to be assigned if the condition(s) are not completed. A student may not re-register in

the same class if an Incomplete grade is pending. The work thus missed must be made up no later than one year following the end of the term in which it was assigned. A student may petition the instructor for a time extension due to unusual circumstances. It is the student's responsibility to contact the instructor in such cases.

A final grade will be assigned when the work stipulated has been completed and evaluated according to the conditions set forth by the instructor or when the time limit for completing the work has passed. If condition(s) are not met after one year, the incomplete grade will be changed to an "F" grade or the grade specified by the instructor on the Incomplete Grade Form.

Independent Study

Independent study allows students to pursue projects under faculty advisement and supervision. The projects may be directed at field experience, research, or developing skills and competencies. Transfer credit is indicated as Independent Study 199. Independent study projects usually are for one unit of credit and require a minimum of 54 hours of directed work per unit of credit. Within the 54-hour minimum, the instructor meets with each student weekly for at least one hour or at least 16 hours for each one-unit project. The proposed project must be approved by the supervising instructor and the dean, with notification to the Vice President of Academic Affairs. Independent study is offered on a Pass/No Pass basis.

Independent study projects are typically undertaken in the department or division of the student's academic major. Exceptions to this rule must be approved by the division dean of the student's academic major and the division dean to whom the student is applying for an exception.

To be eligible for independent study, a student must be concurrently enrolled in at least one other class at either Santiago Canyon College or Santa Ana College and show evidence of competence in the academic major and in the area of proposed independent study. Administrative Regulation 4101 Independent Study Reference(s):
Title 5 Sections 55230, 55232, 55234, 55236, 55238, 55240

Lost and Found

In the event of losing an item on campus, please contact Safety and Security either in person in S-100 or by telephone at (714) 628-4730. An officer will review the lost and found register to see if your item has been found. If so, you may claim your item with approved identification. In the event the item has not been found, the officer will record a description of the item and your contact information in order to contact you if the item is found. All lost items will be stored until the fourth week of the following semester. Any unclaimed items will be donated to a local thrift store.

Online Drop Policy

Students are expected to complete regular and substantive coursework in online classes. In the context of distance education, coursework will be used to determine student attendance. Simply logging into an online class is not sufficient to demonstrate academic attendance by the student. Examples of coursework for online classes might include, but

are not limited to, class discussions, completed assignments, completed quizzes or exams, group work, etc. Students who fail to submit substantive coursework by the due date may be dropped from the class. Failure to communicate with the professor may also be considered non-attendance. Students submitting assignments or other work that is generated by artificial intelligence (AI) when AI is not permitted, work that is submitted in a language other than the language required for the class, or documents that are unreadable due to a technical error may also be considered an absence. Completing an assignment on the first day of the class may also be required in order to avoid being dropped from the class. Students may be dropped when the lack of substantive coursework exceeds 10% of the total, as estimated by the professor. Please refer to the class syllabus and the class section information, found in the class schedule, for specific attendance (regular and substantive coursework) requirements.

PARKING

Campus Parking Information

RSCCD requires parking permits for student and staff lots at Santiago Canyon College during the fall and spring semesters and summer session. Parking permits are not required during intersession. Virtual parking permits must be purchased on or before the first day of the semester/session. There is no grace period. Students are strongly encouraged to purchase their Virtual Parking Permits via Self-Service when they register for classes. Virtual parking permits may also be purchased using the link on the Safety & Security website. Day permits may be purchased through dispensers located in parking lots 1, 2, 3, 4, 5, 6 and 7. The purchase of your permit helps fund parking services and vehicle security when parked on campus.

Disabled Student Parking

Several areas on campus are designated for disabled parking. Vehicles in these areas are required to display a state temporary placard or special state license plate *and* possess a valid virtual permit. District permits are available in the Disabled Students Programs and Services, E-105.

Citation Information

Vehicles that do not possess either a current virtual parking permit or a daily parking permit will be issued a citation. Other citations will be issued if students park their vehicles in reserved parking or staff stalls. Disabled parking spaces are strictly enforced with citations of \$350 being issued to vehicles that violate the regulations. More information on parking citations and enforcement can be found on the SCC website at www.sccollege.edu/parking. A listing of all campus parking and traffic regulations can be found at www.sccollege.edu/Departments/Security/Pages/parking-regulations.aspx

Refund of Parking Fee

Students who withdraw from full-semester classes through the first two weeks of instruction may request a refund of their parking permit through the cashier's office. No refund will be allowed after the second week of instruction. Receipts must be presented.

COLLEGE POLICIES AND PROCEDURES

Parking Lot Disclaimer

Rancho Santiago Community College District is not responsible for damages to, loss of, or thefts from vehicles parked on campus, except as defined under the applicable Government Codes of California, including [810-966.6].

Pass/No Pass

Pass/No Pass encourages students to explore academic areas outside a major field.

Courses in the student's major field may not be taken under the Pass/No Pass policy except for major courses for an Associate Degrees for Transfer (ADT), courses for which Pass/No Pass is the only grading option, and units earned through Credit by Examination (CBE) or assessment.

Every university has a limitation on the number of courses/units that can be taken for Pass/No Pass and applied to graduation and may require General Education taken Pass/No Pass to be retaken for a letter grade. Universities sometimes prefer that students have letter grades in English, mathematics, speech, and critical thinking courses. Courses that meet major requirements must be taken for a letter grade. Also, Pass/No Pass grades could have a negative effect on scholarships and international students. In addition, students who plan to pursue graduate or professional studies later are advised to be selective in opting for courses on a Pass/No Pass basis.

Except as in item number one above, a maximum of 6 Pass/No Pass units may be carried during any one semester.

A maximum of 14 Pass/No Pass units is allowed for any degree program. This does not include units taken under credit by examination or assessment, or units earned in courses for which Pass/No Pass is the only grading option.

Pass/No Pass petitions are available at the Admissions and Records Offices. The Pass/No Pass petition must be signed by a counselor and be submitted to Admissions and Records by the last day of instruction. Pass/No Pass status cannot be changed back to a letter grade after the deadline has passed. Rancho Santiago Community College District

ADMINISTRATIVE REGULATION

Chapter 4

Academic Affairs AR 4232 Pass/No Pass

Title 5 Section 55002

Courses may be offered in either or both of the following categories:

- Courses in which all students are evaluated on a "pass-no pass" basis.
- Courses in which each student may elect to take the course on a "pass-no pass" basis.
- A student electing to be evaluated on the "pass-no pass" basis will receive both course credit and unit credit upon satisfactory completion of the course. In computing a student's grade-point average, grades of "pass-no pass" are omitted.
- A pass grade is granted for performance that is equivalent to the letter grade of "C" or better. A student who fails to perform satisfactorily will be assigned a "no pass" grade.
- The student is held responsible for all assignments and examinations required in the course.

- The standards of evaluation are identical for all students in the course.

The following guidelines apply to courses taken for pass-no pass as designated by each College Catalog:

- Courses in the student's major field may not be taken under the Pass/No Pass policy except as designated. Honors courses cannot be taken for Pass/No Pass.
- Courses that meet major requirements must be taken for a letter grade. Also, Pass/No Pass grades could have a negative effect on scholarships and international students. In addition, students who plan to pursue graduate or professional studies later are advised to be selective in opting for courses on a Pass/No Pass basis.
- A maximum of 6 Pass/No Pass units may be carried during any one semester.
- A maximum of 12 Pass/No Pass units is allowed for any degree program. This does not include units taken under credit by examination or assessment.
- Pass/No Pass petitions are available at the Admissions and Records Offices. The Pass/No Pass petition must be signed by a counselor and be submitted between the first and fifth week of the fall and spring terms (for full semester classes) or by the first thirty percent (30%) of the class meeting dates (for short term classes), whichever is less.
- Pass/No Pass status cannot be changed back to a letter grade after the deadline has passed. Pass indicates a "C" or better.
- Pass/No Pass grades are accepted for certification in all areas. However, letter grades may be recommended or required for specific courses in a given major. Each CSU campus may also limit the total number of units graded Pass.
- For a certificate, a Pass/No Pass course is acceptable if it is required for the certificate and (a) offered on a Pass/No Pass basis only or (b) if the Pass/No Pass is earned on the basis of credit by examination.
- For Associate Degrees, units earned at a regionally accredited college or university on a Pass/No Pass basis will be counted toward the degree requirements of the college, to a maximum of 15 units.
- Every university has a limitation on the number of courses/units that can be taken for Pass/No Pass and applied to graduation and may require General Education taken Pass/No Pass to be retaken for a letter grade.

PHOTOGRAPHY

Santiago Canyon College, a non-profit California Community College, reserves the right to use photography and video images of students and visitors, age 18 and older, taken on our property and at college-sponsored events for marketing and promotional purposes. Objection to the use of an individual's photography may be made in writing to Public Affairs and Publications RSCCD District Office 2323 N. Broadway, Suite 328 Santa Ana, CA 92706

PREREQUISITES, COREQUISITES, AND ADVISORY

Santiago Canyon College has adopted a policy on course prerequisites, corequisites, and advisories in order to provide for the establishing, reviewing, and challenging of prerequisites, corequisites, advisories, and certain limitations on enrollment in a manner consistent with law and good practice. The policy, which is specified for implementation as an administrative regulation, is established pursuant to regulations contained in section 55003 of Chapter 6 of Title 5 of the California Code of Regulations. The RSCCD Board of Trustees recognizes that if these prerequisites, corequisites and limitations are established unnecessarily or inappropriately they constitute unjustifiable obstacles to student access and success and, therefore, the board adopts this policy which calls for caution and careful scrutiny in establishing them. Nonetheless, the board also recognizes that it is as important to have prerequisites in place where they are a vital factor in maintaining academic standards and in assuring the health and safety of students as it is to avoid establishing prerequisites where they are not needed. For these reasons, the board has sought to establish a policy that fosters the appropriate balance between these two concerns.

Important Definitions

It is very important to understand the definitions of the terms Prerequisites, Corequisites, and Advisory. Note that prerequisites and corequisites may be challenged. See Prerequisite Challenge Policy, for more information.

Prerequisite indicates a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program. A prerequisite represents a set of skills or a body of knowledge that a student must possess prior to enrollment and without which the student is highly unlikely to succeed in the course or program. Students will not be permitted to enroll in such courses and programs without the appropriate prerequisite. All prerequisite courses must be completed with a letter grade of "C" or better.

Corequisite indicates a condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course. A corequisite represents a set of skills or a body of knowledge that a student must acquire through concurrent enrollment in another course and without which the student is highly unlikely to succeed. Students must concurrently enroll in the corequisite course.

Advisory indicates that while a course is not required prior to enrollment, it is highly advised in order to strengthen the likelihood of success in subsequent courses.

Prerequisite Policy

Prerequisite means the preparation or previous course work considered necessary for success in the course. The College requires students to complete prerequisites as pre-enrollment preparation. Prerequisites which are listed in the College Catalog include:

COLLEGE POLICIES AND PROCEDURES

Courses for which specific prerequisites have been established, Sequential course work in a degree-applicable program, and

- Courses in which an equivalent prerequisite exists at a four-year transfer college or university.
- Questions about prerequisites are best resolved with a counselor or instructor prior to the first day of class.

Prerequisite Challenge Process

A prerequisite challenge requires written documentation, explanation of alternative course work, and/or background or abilities which adequately prepare the student for the course. A Prerequisite Challenge Form can be obtained from the appropriate instructional office. Prerequisites may be challenged for one or more of the following reasons:

- The college has not developed the prerequisite according to its established procedures or has not developed the prerequisite in accord with existing statutes.
- The prerequisite is discriminatory or is being applied in a discriminatory fashion. The college has not made the prerequisite course reasonably available.
- The student has documented knowledge and abilities equivalent to those specified in the prerequisite course.
- The challenge will be reviewed by a committee consisting of the dean, or designee, department chair, or designee, and one department or division representative or designee.

If space is available in a course when a student files a challenge to the prerequisite or corequisite, the district shall reserve a seat for the student and resolve the challenge in a timely manner. If no space is available in the course when a challenge is filed, the challenge shall be resolved prior to the beginning of registration for the next term and, if the challenge is upheld, the student shall be permitted to enroll if space is available when the student registers for that subsequent term.

NOTE: Students who are challenging a course which is a requirement for a degree or certificate may wish to use the Credit by Examination process to receive credit for the challenged course.

Specific regulations and procedures relating to course prerequisites, corequisites, and advisories are on file in the office of the Vice President of Academic Affairs at Santiago Canyon College.

Student Right to Appeal

A student has the right to appeal an exception to a current Santiago Canyon College academic policy, including academic probation and progress probation, to be made on their behalf. The student must complete and submit a petition. Petitions are obtained and submitted to the Admissions Office. Students must provide valid justification and documentation to support their request. The Exceptions to Academic Regulations Committee will review and make

decisions on all requests. Students will be informed of the outcome in a timely manner. Petitions are obtained and submitted to the Admissions Office. Board Policy 4260 Prerequisites and Corequisites Administrative Regulation 4260 Course Prerequisites, Corequisites and Advisories Reference(s): Title 5 Sections 55000 and 55003

Publicity

All announcements, publicity and advertisements posted on college facilities must be approved by the Administrative Services Office in A-204.

Sequential Courses

Courses arranged in order of sequence (i.e., beginning, intermediate, and advanced) must be taken chronologically. Students may not enroll in a lower-level course after passing a higher-level version of the same course. (e.g., enrolling in Basic Aerobics after passing Intermediate Aerobics).

SEXUAL ASSAULT AND OTHER ASSAULTS ON CAMPUS (TITLE IX)

Sexual Misconduct, Intimate Partner Violence, and Stalking

Any sexual misconduct or physical abuse, including, but not limited to, rape, as defined by California law, whether committed by an employee, student, or member of the public, that occurs on or off district property, is a violation of district policies and procedures and is subject to all applicable punishment, including criminal procedures, civil litigation, and employee or student discipline procedures. Students, faculty, and staff who report sexual misconduct, dating or domestic violence (intimate partner violence), and stalking shall be treated with dignity and provided comprehensive assistance.

The District has established administrative procedures that ensure that students, faculty, and staff who are victims of sexual and other forms of misconduct receive appropriate information and treatment and that educational information about preventing sexual violence is provided and publicized as required by law (please see Administrative Regulation 3540 for complete procedures). The use of alcohol or drugs never makes the Complainant at fault for reports of misconduct, intimate partner violence, or stalking; therefore, Complainants should not be deterred from reporting incidents out of a concern that they might be disciplined for related violations of drug or alcohol policies. Except in extreme circumstances, Complainants shall not be subject to discipline for related violations of the Standards of Student Conduct. Santiago Canyon College has the resources to assist and refer students who experienced sexual misconduct, dating or domestic violence, and stalking. Immediate care and confidential counseling can be provided by the Student Health and Wellness Services, in Building T-102 or call (714) 432-6858. When the Student Health and Wellness Services is closed, contact Campus Safety and Security (not a confidential resource) directly in U-90 or call (714) 628-4730. If you have questions regarding an allegation, specific behavior, or if you would like to discuss a concern with an administrator, please contact the Title IX Coordinator at (714) 480-7404.

Harassment and Discrimination

Board Policy 3430 (BP 3430) prohibits all forms of harassment that are contrary to basic standards of conduct between individuals and are prohibited by state and federal law, as well as this policy, and will not be tolerated. Administrative Regulation 3435 details the procedures for the resolution of such complaints (<https://www.rscdd.edu/Trustees/Pages/policies-and-regulations.aspx>). This policy is widely published and publicized to all employees and students, including incoming employees and students. The District is committed to providing an academic and work environment that respects the dignity of individuals and groups. The District shall be free of sexual harassment and all forms of sexual intimidation and exploitation, including acts of sexual misconduct, dating or domestic violence, and stalking. The District shall also be free of other unlawful harassment or discrimination, including that which is based on any of the following statuses: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, or sexual orientation of any person, or military and veteran status, or because he or she is perceived to have one or more of the foregoing characteristics.

The Title IX Coordinator is responsible for resolving reports of sexual misconduct, sex or gender-based discrimination or harassment, dating or domestic violence, and stalking. To report an incident or file a complaint, please contact the following individuals:

COLLEGE POLICIES AND PROCEDURES

or reprisal. Retaliation for exercising one's right of protection from discrimination and/or harassment or for participating in the investigation of a complaint is prohibited by law and this policy, and will not be tolerated. All allegations of retaliation will be swiftly and thoroughly investigated. If the District determines that discrimination, harassment, or retaliation has occurred, it will take all reasonable steps within its power to stop such conduct. Students or employees who engage in discrimination, harassment, or retaliation are subject to disciplinary action, up to and including termination or expulsion.

Duty to Report

Except for psychologists in the College's Student Health Center, any District employee who knows of or has reason to know of sexual misconduct, dating or domestic violence, and stalking shall promptly inform the Title IX Coordinator. These employees are considered responsible employees under Title IX and are required to disclose all information, including the names of the parties, even where the person has requested that their name remain confidential. Supervisors are mandated to report all incidents of harassment and retaliation that come to their attention.

The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident as the District must then take appropriate steps to eliminate any gender discrimination/ harassment/misconduct, prevent its recurrence, and remedy its effects. The District is required by the federal Clery Act to report certain types of crimes (including certain sex offenses) in statistical reports. However, while the District will report the type of incident in the annual crime statistics report known as the Annual Security Report, victim names/identities will not be revealed.

BP 3430 applies to all aspects of the academic environment, including but not limited to classroom conditions, grades, academic standing, employment opportunities, scholarships, recommendations, disciplinary actions, and participation in any community college activity. In addition, this policy applies to all terms and conditions of employment, including but not limited to hiring, placement, promotion, disciplinary action, layoff, recall, transfer, leave of absence, training opportunities, and compensation.

Supportive Measures

The District will offer and implement appropriate and reasonable supportive measures to the Parties upon notice of alleged sexual harassment and/or retaliation. Supportive measures are non-disciplinary, non-punitive individualized services, offered as appropriate, as reasonably available, and without fee or charge to the Parties, which are intended to restore or preserve equal access to the District's education program or activity, to protect the safety of all Parties or the District's educational environment, and/or deter sexual harassment and/or retaliation. The Title IX Coordinator will promptly make supportive measures available to the Parties upon receiving notice or a complaint and will coordinate the effective implementation of such measures. At the time that supportive measures are offered, the District will inform the Complainant, in writing, that they may file a formal complaint with the District either at that time or in the future if they have not done so already.

The District will maintain the privacy of the supportive measures, provided that privacy does not impair the District's ability to provide the supportive measures. The District will act to ensure as minimal an academic/ occupational impact on the Parties as possible. The District will implement measures in a way that does not unreasonably burden the other party. Supportive measures may include but are not limited to

- Counseling and referral to medical and/ or other healthcare services
- Referral to the Employee Assistance Program
- Referral to community-based service providers
- Student financial aid counseling
- Altered work arrangements for employees or student-employees
- Safety planning
- Campus safety escorts
- Implementing mutual contact limitations (no contact orders) between the Parties
- Academic support, extensions of deadlines, or other course or program-related adjustments
- Trespass orders
- Class or work schedule modifications, withdrawals, or leaves of absence
- Increased security and monitoring of certain areas of the campus
- Any other actions deemed appropriate by the Title IX Coordinator

Violations of no contact orders will be referred to the appropriate student or employee conduct processes for enforcement.

Definitions

The District has adopted the following definitions so as to address the unique environment of an academic community.

Affirmative Consent means an affirmative, conscious, and voluntary agreement to engage in sexual activity. It is the responsibility of each person involved in sexual activity to ensure that they have the affirmative consent of the other or others to engage in the sexual activity. Lack of protest or resistance does not mean consent, nor does silence mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent. In California, a minor (meaning a person under the age of 18) cannot consent to sexual activity. It shall not be a valid response to alleged lack of affirmative consent that the Respondent believed that the Complainant consented to the sexual activity under either of the following circumstances: The Respondent's belief in affirmative consent arose from the intoxication or recklessness of the Complainant. Any allegation that alcohol or other drugs were involved in an incident will be reviewed. The Respondent did not take reasonable steps, in the circumstances known to the Respondent at the time, to ascertain whether

the complainant affirmatively consented. It shall not be a valid response that the Respondent believed that the Complainant affirmatively consented to the sexual activity if the Respondent knew or reasonably should have known that the Complainant was unable to consent to the sexual activity under any of the following circumstances: The Complainant was asleep or unconscious. The Complainant was incapacitated due to the influence of drugs, alcohol, or medication so that the Complainant could not understand the fact, nature, or extent of the sexual activity. The Complainant was unable to communicate due to a mental or physical condition.

Complainant means an individual who is alleged to be the victim of conduct that could constitute Sexual Harassment, as defined herein, whether the notice/ complaint is presented by the individual or someone on the individual's behalf, such as a report by one who learned of the conduct in his or her official capacity as a faculty member or administrator.

District means the Rancho Santiago Community College District, including the colleges it operates, Santa Ana College and Santiago Canyon College, and centers.

Education program or activity means locations, events, or circumstances where the District exercises substantial control over both the Respondent and the context in which the Prohibited Conduct occurs and also includes any building owned or controlled by a student organization that is officially recognized by the District.

Formal Complaint means a document submitted or signed by a Complainant or signed by the Title IX Coordinator alleging Prohibited Conduct against a Respondent and requesting that the District investigate the allegation.

Formal Grievance Process means the process for adjudicating Formal Complaints of Prohibited Conduct through investigation, live hearing, determination of responsibility, and appeals.

Hearing Decision-maker refers to those who have decision-making and sanctioning authority within the District's Formal Grievance process.

Investigator means the person tasked by the District with investigating a Complaint. All Investigators shall receive annual training regarding such issues as the laws governing Title IX and VAWA/ Campus Save Act; as well as other related state and federal laws prohibiting discrimination, harassment, and retaliation based on gender or sex, including sex discrimination, sexual harassment, sexual misconduct, dating, and domestic violence, and stalking; complainant, respondent, employee, and witness privacy rights; and the Family Educational Rights and Privacy Act of 1974 (FERPA). Notice means that an employee, student, or third-party informs the Title IX Coordinator or other Official with Authority of the alleged occurrence of harassing, discriminatory, and/ or retaliatory conduct. Official with Authority (OWA) means an employee of the District explicitly vested with the responsibility to implement corrective measures for sexual harassment and/ or retaliation on behalf of the District.

Parties include the Complainant(s) and Respondent(s), collectively. Prohibited Conduct means any sexual misconduct, gender or sex-based discrimination or harassment, dating violence, domestic violence, stalking, and retaliation.

Remedies are actions taken to address safety, prevent recurrence of Prohibited Conduct, and restore equal access to the District's educational program.

COLLEGE POLICIES AND PROCEDURES

Resolution Process refers broadly to the process for addressing Formal Complaints either by informal resolution or through a Formal Grievance Process that includes investigation, live hearing, and appeal. Respondent means an individual who has been reported to be the perpetrator of Prohibited Conduct, as defined herein.

Sanction means a consequence imposed by the District on a Respondent who is found to have engaged in Prohibited Conduct under this interim administrative regulation.

Sexual Harassment means conduct on the basis of sex that satisfies one or more of the following

- A. **Quid Pro Quo Sexual Harassment:** When an employee of the District conditions (implicitly or explicitly) the provision of aid, benefit, or service of the District on an individual's participation in unwelcome sexual conduct; or
- B. **Hostile Environment Sexual Harassment:** Unwelcome conduct determined by a reasonable person standing in the shoes of the Complainant to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's education program or activity; or
- C. **Sexual assault, dating violence, domestic violence, or stalking, as defined herein.**
 1. **Sexual assault** means any sexual act (forcible or non-forcible), directed against another person, without the consent of the victim, including instances where the victim is incapable of giving consent. Sexual acts include the following:
 - a. **Rape**, which is defined as the penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the Complainant.
 - b. **Sodomy**, which is defined as oral or anal sexual intercourse with another person, forcibly committed and/or against that person's will (non-consensually), or not forcibly or against the person's will in instances in which the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.
 - c. **Sexual Assault with an Object**, which is defined as the use of an object or instrument to penetrate, however slightly, the genital or anal opening of the body of another person, forcibly and/or against that person's will (non-consensually), or not forcibly or against the person's will in instances in which the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.
 - d. **Fondling**, which is defined as the touching of the private parts of another person for the purposes of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.
 - e. **Incest**, which is defined as sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
 - f. **Statutory Rape**, which is defined as sexual intercourse with a person who is under the statutory age of consent.

2. **Dating violence** means violence committed, on the basis of sex, by a person who is or has been in a social relationship of a romantic or intimate nature with the Complainant. The existence of such a relationship shall be determined based on a consideration of the following factors: the length of the relationship, the type of relationship and the frequency of interaction between the persons involved in the relationship. For the purposes of this definition, dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse. Dating violence does not include acts covered under the definition of domestic violence.
3. **Domestic violence** means conduct, on the basis of sex, that includes the requisite components of a felony or misdemeanor crimes of violence committed by (a) a current or former spouse or intimate partner of the victim; (b) a person with whom the victim shares a child in common; (c) a person who is cohabitating with or has cohabitated with the victim as a spouse; (d) a person similarly situated to a spouse of the victim under California law; or (e) any other person against an adult or youth victim who is protected from that person's acts under California law.
4. **Stalking** means a course of conduct directed at a specific person on the basis of sex that would cause a reasonable person to fear for the person's safety or the safety of others, or to suffer substantial emotional distress. For the purposes of this definition: (a) A course of conduct is two or more acts, including, but not limited to, acts in which the Respondent directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property; (b) Reasonable person means a reasonable person under similar circumstances and with similar identities to the Complainant, and (c) Substantial emotional distress means significant mental suffering or anguish that may but does not necessarily require medical or other professional treatment or counseling.
5. **Student/Students** means as any individual who has accepted an offer of admission, or who is registered or enrolled for credit or non-credit-bearing coursework, and who maintains an ongoing relationship with the District.

Third-Party means a person other than the Complainant and the Respondent.

Any individual can submit a report by using the following link:

www.rscdd.edu/report

Applicable regulations, resources, and additional information can be found at www.rscdd.edu/titleix or www.rscdd.edu/civilrights Student/Students means any individual who has accepted an offer of admission, or who is registered or enrolled for credit or noncredit bearing coursework, and who maintains an ongoing relationship with the District. means a person other than the Complainant and the Respondent. Hearing The District will designate a single Decisionmaker (hearing officer) or a three-member Decision-maker panel, at the discretion of the Title IX Coordinator. With a panel, one of the

three members will be appointed as Chair by the Title IX Coordinator. For purposes of this regulation, the term Hearing Chair is used to refer to the single Decision-maker or the Chair of the three-person Decision-maker panel. The Decision-maker(s) must not have had any previous involvement in the matter, and therefore, cannot be the Title IX Coordinator or investigator(s) in the case.

Roles and Responsibilities The Title IX Coordinator or designee shall be responsible for managing the hearing process and the necessary logistics (scheduling, notifying witnesses, providing the Parties and Decision-maker(s) with appropriate documentation and evidence, coordinating the location of the hearing, and any other support that is necessary for the hearing to run smoothly), provided their previous role(s) in the matter do not create a conflict of interest. Otherwise, a designee may fulfill this role.

The Decision-maker(s) is responsible for conducting an impartial live hearing and issuing a written determination regarding the responsibility to the Parties without bias or conflict of interest. The Parties' Advisor of choice may be but is not required to be, an attorney. The Parties' Advisors may be present for meetings and proceedings throughout the grievance process, subject to equal restrictions on Advisors' participation, in the District's discretion. If the party does not have an Advisor at the hearing, the District must provide an Advisor of the District's choice, without fee or charge, solely for the purpose of conducting cross-examination.

Location Live hearings may be conducted with all Parties physically present in the same geographic location or, at the District's discretion, any or all parties, witnesses, and other participants may appear at the live hearing virtually. The District must create an audio or audiovisual recording, or transcript, of any live hearing. At the request of either party, the District must also provide for the entire live hearing (including cross-examination) to occur with the Parties located in separate rooms with technology enabling the Parties to see and hear each other.

Notice of Hearing The Title IX Coordinator will send notice of the hearing to the Parties no less than ten (10) business days prior to the hearing unless the Parties agree to an expedited schedule. Once mailed, emailed, and/or received in-person, notice will be presumptively delivered. The notice will contain:

- A description of the alleged violation(s), a list of all policies allegedly violated, a description of the applicable procedures, and a statement of the potential sanctions/ responsive actions that could result.
- The time, date, and location of the hearing and a reminder that attendance is mandatory, superseding all other campus activities. Any technology that will be used to facilitate the hearing. Information about the option for the live hearing to occur with the Parties located in separate rooms using technology that enables the Decision-maker(s) and Parties to see and hear a party or witness answering questions. Such a request must be raised with the Title IX Coordinator at least five (5) business days prior to the hearing.
- A list of all those who will attend the hearing, along with an invitation to object

COLLEGE POLICIES AND PROCEDURES

to any Decision-maker on the basis of demonstrated bias. This must be raised with the Title IX Coordinator at least two (2) business days prior to the hearing.

- Information on how the hearing will be recorded and on access to the recording for the Parties after the hearing. A statement that if any party or witness does not appear at the scheduled hearing, the hearing may be held in their absence, and the party's or witness's testimony and any statements given prior to the hearing will not be considered by the Decisionmaker(s). For compelling reasons, the Hearing Chair may reschedule the hearing.
- Notification that the Parties may have the assistance of an Advisor of their choosing at the hearing and will be required to have one present for any questions they may desire to ask. The party must notify the Title IX Coordinator if they do not have an Advisor, and the District will appoint one. Each party must have an Advisor present. There are no exceptions.
- A copy of all the materials provided to the Decision-maker(s) about the matter, unless they have been provided already.
- An invitation to contact the Title IX Coordinator to arrange any disability accommodations, language assistance, and/or interpretation services that may be needed at the hearing, at least seven (7) business days prior to the hearing.
- A statement that Parties cannot bring mobile phones/devices into the hearing.

Hearings for possible violations that occur near or after the end of an academic term (assuming the Respondent is still subject to this Policy) and are unable to be resolved prior to the end of term will typically be held immediately after the end of the term or during the summer, as needed, to meet the resolution timeline followed by the District and remain within the 60-90 business day goal for resolution. In these cases, if the Respondent is a graduating student, a hold may be placed on graduation and/or official transcripts until the matter is fully resolved (including any appeal). A student facing charges under this Policy is not in good standing to graduate. If a party or Parties prefer not to attend or cannot attend the hearing in person, the party should request alternative arrangements from the Title IX Coordinator at least five (5) business days prior to the hearing. Similarly, any witness who cannot attend in person should let the Title IX Coordinator or the Chair know at least five (5) business days prior to the hearing so that appropriate arrangements can be made.

Remedies and Sanctions Should a violation of the interim administrative regulation be substantiated, the District will effectively implement remedies for the Complainant, designed to restore or preserve the Complainant's equal educational access, such as long-term supportive measures, and may impose disciplinary sanctions on the Respondent in conformity with all relevant statutes, regulations, and District personnel policies and regulations, including the provisions of any applicable collective bargaining agreement. Factors considered when determining a sanction/ recommendation may include, but are not

limited to: • The nature, severity of, and circumstances surrounding the violation(s)

- The Respondent's disciplinary history
- Previous allegations or allegations involving similar conduct.
- The need for sanctions/responsive actions to bring an end to the Prohibited Conduct.
- The need for sanctions/responsive actions to prevent the future recurrence of the Prohibited Conduct.
- The need to remedy the effects of the Prohibited Conduct on the Complainant and the community.
- The impact on the Parties
- Any other information deemed relevant by the Decision-maker(s)

Student Sanctions

In cases involving Respondents who are students, the hearing process detailed herein shall serve as the due process hearing outlined in Section IV of Board Policy 5500. The following are the usual sanctions that may be imposed upon students or organizations singly or in combination:

- Warning:** A verbal statement that the conduct was unacceptable and that further violation of any District policy, procedure, or directive will result in more severe sanctions/responsive actions.
- Reprimand:** A written statement, included in the student's disciplinary file that the conduct was unacceptable and that further misconduct will result in more severe sanctions /responsive actions.
- Required Counseling:** A mandate to meet with and engage in either District-sponsored or external counseling to better comprehend the misconduct and its effects.
- Probation:** Authorization for the Respondent to return to classes, but with an understanding of expected appropriate future behavior and terms that may include denial of specified social privileges, exclusion from co-curricular activities, exclusion from designated areas of campus, no-contact orders, and/ or other measures deemed appropriate. Any violations of the Standards of Student Conduct during this probationary period will result in further, more serious disciplinary action against the Respondent.
- Suspension:** Termination of student status for a definite period of time not to exceed two academic years.
- Expulsion:** Permanent termination of student status and revocation of rights to be on campus for any reason or to attend District-sponsored events.
- Withholding Diploma:** The District may withhold a student's diploma for a specified period of time and/or deny a student participation in commencement activities if the student has an allegation pending or as a sanction if the student is found responsible for an alleged violation.

- Revocation of Degree:** The District reserves the right to revoke a degree previously awarded from the District for serious violations committed by a student prior to graduation.
- Student Organizational Sanctions:** Deactivation, loss of recognition, loss of some or all privileges for a specified period of time.
- Other Actions:** In addition to or in place of the above sanctions, the District may assign any other sanctions as deemed appropriate.

Employee Sanctions

Responsive actions for an employee who is found to have engaged in Prohibited Conduct, as defined herein include:

- Warning – Verbal or Written
- Performance Improvement Plan
- Enhanced supervision, observation, or review
- Required Counseling
- Required Training or Education
- Demotion
- Transfer
- Reassignment
- Assignment to a new supervisor
- Restriction of stipends, research, and/or professional development resources
- Suspension with pay/Suspension without pay
- Termination
- Other Actions:** In addition to or in place of the above sanctions/responsive actions, the District may assign any other responsive actions as deemed appropriate.

Additional information and resources can be found at: <https://www.rccd.edu/Departments/TitleIX/Pages/default.aspx>

Sexual Harassment Complaints (Title IX)

Board Policy 3430 (BP3430) Prohibition of Harassment prohibits all forms of harassment are contrary to basic standards of conduct between individuals and are prohibited by state and federal law, as well as this policy, and will not be tolerated. The District is committed to providing an academic and work environment that respects the dignity of individuals and groups. The District shall be free of sexual harassment and all forms of sexual intimidation and exploitation including acts of sexual violence. Sexual violence includes dating violence, domestic violence and stalking. The District shall also be free of other unlawful harassment, including that which is based on any of the following statuses: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, or sexual orientation of any person, or military and veteran status, or because he or she is perceived to have one or more of the foregoing characteristics.

The District seeks to foster an environment in which all employees and students feel free to report

COLLEGE POLICIES AND PROCEDURES

incidents of harassment without fear of retaliation or reprisal. Students can file a Title IX complaint, which includes harassment or sexual violence with the Vice Chancellor, Human Resources who can be contacted at

2323 N Broadway, Suite 407-2,

Santa Ana, CA 92706 Telephone Number 714-480-7489 The procedures for filing and investigation of a discrimination complaint can be found at: www.rscsd.edu/Trustees/Pages/AR-3435.aspx

The District also strictly prohibits retaliation against any individual for filing a complaint of harassment or sexual violence or for participating in such an investigation. Such conduct is illegal and constitutes a violation of this policy. All allegations of retaliation will be swiftly and thoroughly investigated. If the District determines that retaliation has occurred, it will take all reasonable steps within its power to stop such conduct. Individuals who engage in retaliatory conduct are subject to disciplinary action, up to and including termination or expulsion.

Any student or employee who believes that he or she has been harassed or retaliated against in violation of this policy should immediately report such incidents by following the procedures described in AP 3435. Supervisors are mandated to report all incidents of harassment and retaliation that come to their attention.

This policy applies to all aspects of the academic environment, including but not limited to classroom conditions, grades, academic standing, employment opportunities, scholarships, recommendations, disciplinary actions, and participation in any community college activity. In addition, this policy applies to all terms and conditions of employment, including but not limited to hiring, placement, promotion, disciplinary action, layoff, recall, transfer, leave of absence, training opportunities and compensation.

To this end the Chancellor shall ensure that the institution undertakes education and training activities to counter discrimination and to prevent, minimize and/or eliminate any hostile environment that impairs access to equal education opportunity or impacts the terms and conditions of employment.

The Chancellor shall establish procedures that define harassment on campus. The Chancellor shall further establish procedures for employees, students, and other members of the campus community that provide for the investigation and resolution of complaints regarding harassment and discrimination, and procedures for students to resolve complaints of harassment and discrimination. All participants are protected from retaliatory acts by the District, its employees, students, and agents.

This policy and related written procedures (including the procedure for making complaints) shall be widely published and publicized to administrators, faculty, staff, and students, particularly when they are new to the institution. They shall be available for students and employees in all administrative offices.

Employees who violate the policy and procedures may be subject to disciplinary action up to and including termination. Students who violate this policy and related procedures may be subject to disciplinary measures up to and including expulsion.

Smoking and Tobacco Use

Smoking is prohibited in all campus areas including all District owned, rented, or leased properties and vehicles, except in designated parking lot areas

and within 20 feet of entrances, exits, and operable windows.

Smoking is defined as the use of products containing tobacco and/or nicotine, including but not limited to smokeless tobacco, clove cigarettes, or any other smoking products, and any and all electronic or "e-cigarettes", which are unapproved nicotine delivery devices, unregulated by the FDA.

Public performances in which smoking is an integral and necessary part of the production are excluded from these regulations. These regulations apply to employees, students, visitors, and all other persons who use District-owned or rented/leased facilities and vehicles. Failure to comply with these regulations may result in disciplinary action.

It is the responsibility of every District employee to comply with these regulations and report violations to District Safety. These regulations do not supersede more restrictive policies which may be in force under State and Federal regulations. (AR-3570)

Standards of Conduct for Computer Classrooms and Computer Labs

In accordance with Board Policy (BP 3720) and Administrative Regulation (AR 3720) and to extend the life of hardware, comply with copyright laws, and adhere to appropriate computer network conduct and usage, the following standards of conduct are required of all students using computer classrooms, computer labs, and the wireless network.

Failure to comply with the following standards can result in the suspension of a student's privileges and possibly other sanctions such as removal from class, suspension, expulsion or other disciplinary actions. The primary use of computer systems/resources is for a academic/educational purposes. The following are NOT allowed:

- Using the Internet to access sexually explicit and/or pornography websites.
- Sending and receiving any messages that are threatening, racist or inflammatory, abusive towards a specific gender or culture, obscene, or use inappropriate language.
- Using the network for personal or commercial advertising or political activity.
- Using computers or the wireless network to play individual games, multiple-user games, or gambling. Using the computers for illegal purposes.

The SCC Library, computer labs, computer classrooms, and science labs may have additional restrictions to those listed above. It is the student's responsibility to be aware of these additional guidelines.

Standards of Student Conduct

Guidelines for Student Conduct are set forth in the California Education Code, California Administrative Code, Title V, policies of the Board of Trustees, and all civil and criminal codes. Students enrolling in district educational programs assume an obligation to obey state law and district rules and regulations governing the conduct of students.

Students who enroll in those instructional programs in which the college has affiliations with various outside associations must comply with the college's

policies and procedures and also with the outside associations' policies and procedures. This includes but is not limited to students enrolled in the programs of Cosmetology, Fire Academies, Criminal Justice Academies and Nursing.

Guidelines for Student Conduct

The following represent violations for disciplinary action, up to but not limited to expulsion, that may be taken:

- A. Dishonesty, cheating, plagiarism, lying, or knowingly furnishing false information to the district or college officials performing their duties.
- B. Forgery, alteration, or misuse of district documents, records, or identification.
- C. Willful misconduct that results in damage to any real or personal property owned by the district or district employees (damage includes, but not limited to vandalism, such as cutting, defacing, breaking, etc.).
- D. Obstruction or disruption of pedestrian or vehicular traffic or of teaching, research, administration, or of other district activities on or off District premises. This includes obstruction or disruption of administration, disciplinary procedures or authorized college activities.
- E. Assault, battery, or any threat of force or violence upon a student, college personnel, or campus visitor; willful misconduct which results in injury or death to a student, college personnel, or campus visitor. This includes fighting on district property or at a district sponsored event, on or off district premises.
- F. Detention of any person on district-owned or controlled property or at district-sponsored or supervised functions or other conduct which threatens or endangers the health or safety of another.
- G. Theft of any property of the district which includes property of a member of the district community or a campus visitor.
- H. Unauthorized entry into or unauthorized use of district property, supplies, equipment, and/or facilities.
- I. Misrepresentation of oneself or of an organization to be an agent of the district.
- J. Sexual assault or physical abuse, including rape, forced sodomy, forced oral copulation, rape by a foreign object, sexual battery, or threat or assault, or any conduct that threatens the health and safety of the alleged victim, which includes students, college personnel, or campus visitors.
- K. Use, possession, distribution, or being under the influence of alcoholic beverage on district property or at any district sponsored event.
- L. Use, possession, distribution, or being under the influence of narcotics, other hallucinogenic drugs or substances, or any poison classified as such by Schedule "D" in Section 4160 of the Business and Professions Code on District property or at any District-sponsored event except as expressly permitted by law.
- M. Expression which is libelous, slanderous, obscene or which incites students so as to create a clear and present danger of commission of unlawful acts on district premises, or violation of district regulations, or the substantial disruption of the orderly operation of the college.

COLLEGE POLICIES AND PROCEDURES

- N. Engaging in lewd, indecent, or obscene behavior on district property or at any district-sponsored function.
- O. Possession or use while on the district premises, or a district-sponsored function, of any firearm, knife, explosive, or other dangerous object, including but not limited to any facsimile firearm, knife or explosive. Exceptions include those participating in a criminal justice educational program who are authorized such possession or those who are enrolled in a course which authorizes such possession.
- P. Unauthorized preparation, giving, selling, transfer, distribution, or publication, for any commercial purpose, of any contemporaneous recording of an academic presentation in a classroom or equivalent site of instruction, including but not limited to handwritten or typewritten class notes, except as permitted by any district policy or administrative regulation.
- Q. Engaging in harassing or discriminatory behavior based on race, sex (i.e., gender), religion, age, national origin, disability, sexual orientation or any other status protected by law.
- R. Continuous disruptive behavior or willful disobedience, habitual profanity or vulgarity, open and persistent abuse of college personnel, or open and persistent defiance of the authority of college personnel, which includes physical as well as verbal abuse, including the use of racial epithets and hate speech.
- S. Disruptive written or verbal communication, vulgarity, open and persistent abuse of other students which include verbal abuse, racial epithets and hate speech. Engaging in intimidating conduct or bullying against another student through words or actions, including direct physical contact; verbal assaults, such as teasing or name-calling; social isolation or manipulation; and cyberbullying.
- T. Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the Board of Trustees;
- U. Violation of the Computer Usage Policy is applicable to students using computer classrooms, computer labs, the wireless network or other locations on and off district property. A violation is considered any of the following:
 - a. Accessing with or without permission or causing to be accessed without authorization, altering, damaging, deleting, hacking, destroying, or otherwise using any data, computer, computer system, computer software and programs, or computer network belonging to or used by the college or any member of the District.
 - b. Accessing with or without permission, taking, copying, or making use of any data from a computer, computer system, or computer network, or taking or copying any supporting documentation, whether existing or residing internal or external to a computer, computer system, or computer network belonging to or used by the college or District.
 - c. Using or causing to be used, computer services without permission
 - d. Disrupting or causing the disruption of computer services or denying or causing the denial of computer services to an authorized user of a computer, computer system, or

computer network belonging to or used by the college or District.

- e. Introducing any computer contaminant or virus into any computer, computer system, or computer network belonging to the college or District.
- f. Sending any message using any computer system or network without authorization or sending any message in the name of another person or entity.
- g. Using any account or password without authorization.
- h. Allowing or causing an account number or password to be used by any other person without authorization.
- i. Accessing or causing to be accessed, downloading or causing to be downloaded, pornographic or obscene materials except when accessing such material which is part of the instructional process or assignment for a class in which the student is currently enrolled.
- j. Use of systems or networks for personal commercial purposes.
- V. "Cyberstalking", which is to be understood as any use of the college or district computer system, computer network, or computer programs to stalk another person via excessive messages or inquiries, inappropriate or threatening messages, racially motivated communications, photos or other means of communication.
- W. Any act constituting good cause for suspension or expulsion, or violation of district policies or campus regulations.

Disciplinary Action

Violations to any tenets within the standards of student conduct are subject to the following disciplinary actions: warning, reprimand, probation, restitution, removal, suspension or expulsion. Disciplinary actions may be imposed singly or in combination.

Student Email

Rancho Santiago Community College District provides all enrolled students with college Email addresses. Your college email address is your Single Sign On (SSO). Single Sign On means you will only need your student email and password to access most of your college-related resources such as Self-Service and Canvas.

Study Load

In order to meet the graduation requirements in four semesters, students should carry an average of 15 units each semester. Students will ordinarily not be allowed to register for more than 18 units.

When individual circumstances may require additional unit demand, an overload program in excess of 18 units may be approved for students who have maintained a 3.0 GPA. Approval for such overloads may be secured from the counseling department using the Petition to Overload form.

A summer session load should not exceed the equivalent of one unit per week or approximately nine units for an 8-week session. If over 9 units for summer

or over 6 units for intersession, an overload petition must be approved using the same criteria as above.

Transfer Credit

Santiago Canyon College grants credit for coursework completed at regionally accredited institutions of higher education. Official transcripts are required and must be submitted to the Admissions and Records Office. Official transcripts submitted for evaluation must be printed/dated within the last 6 months. Any coursework marked as "in-progress" will need to have additional transcripts submitted once grades have been posted.

Transfer coursework may be used to meet a major requirement by approval. To seek approval, a Petition to Substitute a Major Requirement must be submitted along with supporting documentation. Petition can be obtained in the Admissions and Records Office or online.

Transfer coursework may also be used to meet CSU or IGETC Certification. If coursework was completed at an institution outside of the California Community College system, it must be approved through the course Pass Along process.

Transfer coursework may also be used to meet SCC General Education. Course must be listed in the college catalog, in the same academic year for which the course was taken, at the transfer institution. Upper-division courses may be used as long as it meets the lower-division requirements; however, a student is strongly encouraged to meet with a SCC counselor to discuss unintended consequences.

Unit of Credit

Santiago Canyon College is on a semester system and awards college credit in semester units.

One unit of credit (or credit hour) of college credit represents 54 hours of student time in lecture, study, or laboratory work. For a 16-week semester, this is generally three hours of work per week per unit. For example, semester-long lecture classes are generally per week in class and two hours per week outside preparation. Semester-long laboratory classes are generally three hours per week in the laboratory with minimal outside preparation.

When converting units from quarter to semester, the ratio is one-quarter unit equals two-thirds of a semester unit.

Reference Board Policy P4023 Hours and Units/ Administrative Regulation 4023 Hours and Units Reference(s):

Title 5 Sections 55002, 55002.5, 55256.5
Code of Federal Regulations: 34 CFR 668

Withdrawal From Class

Students who cannot continue in a course have an obligation to withdraw officially. Students may officially withdraw through the last day of the 12th week of instruction (or 75 percent of the class meetings, whichever is less and receive a transcript symbol of "W".

All instructor-initiated "EA's" (excessive absence drops) through the 12th week or 75 percent of class meetings, whichever is less, will be assigned a "W".

The academic record of a student who remains in a class beyond the time allowed by district policy must reflect a symbol other than a "W", except under extenuating circumstances.

A student who has a withdrawal (grade of "W") in the same course two or more times loses the privilege of

COLLEGE POLICIES AND PROCEDURES

online registration for that course and must receive the approval of the Associate Dean of Admissions or the Registrar to enroll in the same course. (See also Course Repeatability and Repetition.)

EXTENUATING CIRCUMSTANCES

Excused Withdrawal (EW)

A student may petition for an Excused Withdrawal due to extenuating circumstances (reasons beyond the student's control). If approved, the petitioned classes will be designated with an "EW" (Excused Withdrawal) on the transcript. An "EW" will not be counted in progress probation or dismissal calculations nor will it be counted towards the permitted number of withdrawals or counted as an enrollment attempt.

Military Withdrawal (MW)

A student who is a member of an active or reserve U.S. military service and has received orders compelling a withdrawal from courses may request a military withdrawal. If approved an "MW" will appear on the transcript for each course. "MW" shall not be counted in the permitted number of withdrawals nor shall it be counted in progress and dismissal calculations. Students should file the EW/MW petitions as soon as possible. The petition must be filed no later than one year following the awarding of the original grade.

Withholding of Student Records

Students, or former students, who have failed to pay a proper financial obligation may have grades, transcripts, diplomas and registration privileges withheld.

NONDISCRIMINATION POLICY

The Rancho Santiago Community College District is committed to equal opportunity in educational programs, employment, and all access to institutional programs and activities. The District, and each individual who represents the District, shall provide access to its services, classes, and programs without regard to national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status, or because he or she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics. The Chancellor shall establish administrative procedures that ensure all members of the college community can present complaints regarding alleged violations of this policy and have their complaints heard in accordance with the Title 5 and Title IX regulations and those of other agencies that administer state and federal laws regarding nondiscrimination. No District funds shall ever be used for membership, or for any participation involving financial payment or contribution on behalf of the District or any individual employed by or associated with it, to any private organization whose membership practices are discriminatory on the basis of national origin, religion, age, gender, gender identity, gender expression, race, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status, or because he or she is perceived to have one or more of the foregoing characteristics, or because of his or her association with a person or group with one or more of these actual or perceived characteristics.

Inquiries regarding compliance and/or grievance procedures may be directed to District's Title IX Coordinator : Sil Han Jin, 2323 N. Broadway, Santa Ana, CA 92706, 714-480-7404. SCC Deputy Title IX Coordinator: Joseph A. Alonzo, 8045 E. Chapman Avenue, Orange, Ca. 92869, 714-628-4933

POLITICA DE NO DISCRIMINACION

El Distrito está comprometido a ofrecer la igualdad en oportunidades para programas educativos, empleos, y a todo acceso a los programas institucionales y actividades. El Distrito, y cada persona que representa al Distrito, debe proveer acceso a sus servicios, clases y programas sin importar el lugar de nacimiento, religión, edad, sexo, identidad de género, expresión del género, raza o etnicidad, color, condición médica, información de genética, descendencia familiar, orientación sexual, estado civil, incapacidad física o mental, embarazo, categoría militar o de veterano, o por creer que él o ella tiene una o más de las características mencionadas, o en base a estar relacionado con una persona o grupo que se cree tenga algunas de estas características. El Canciller debe establecer procedimientos administrativos para asegurarse que todos los miembros de la comunidad del colegio puedan presentar quejas sobre supuestas violaciones a esta política y que sus quejas sean escuchadas de acuerdo a los reglamentos señalados en el Título 5 y Título IX y por aquellos de otras agencias que administran las leyes estatales y federales sobre la no discriminación. Ningún fondo del Distrito debe ser utilizado para la membresía, o para la participación incluyendo pagos financieros o contribuciones hechas a organizaciones privadas de parte del Distrito o

de cualquier individuo empleado por el Distrito o con asociación, cuyas practicas de membresía son discriminatorias en base a lugar de nacimiento, religión, edad, sexo, identidad de género, expresión del género, raza, color, condición médica, información de genética, descendencia familiar, orientación sexual, estado civil, incapacidad física o mental, embarazo, categoría militar o de veterano, o por creer que él o ella tiene una o más de las características mencionadas, o en base a estar relacionado con una persona o grupo que se cree tenga algunas de estas características.

Las consultas relacionadas con los procedimientos de cumplimiento y/o queja pueden dirigirse al Coordinador del Título IX del Distrito y/o al Coordinador de la Sección 504/ADA, RSCCD Sección 504/ADA Coordinadora: Sil Han Jin, 2323 N. Broadway, Santa Ana, CA., 92706, 714-480-7404. SCC Deputy Title IX Coordinator: Joseph A. Alonzo, 8045 E. Chapman Avenue, Orange, CA., 92869, 714-628-4933

Associate Degrees, Associate Degrees for Transfer and Certificates

Santiago Canyon College offers more than 170 majors or areas of emphasis leading to an associate degree or an associate degree for transfer. Additionally, the college offers more than 225 programs leading to a certificate of achievement, certificate of proficiency, certificate of competency, or certificate of completion.

Bookstore

The official Santiago Canyon College Hawk Campus Store offers a comprehensive selection of new, used, digital and rental textbooks, along with course materials, supplies and specialty items. For more information, visit the Hawk Campus Store in A-101, call (714) 628-4736 or visit www.scccollege.edu/bookstore.

CalWORKs

The CalWORKs program at Santiago Canyon College provides assistance to students who are receiving cash aid. CalWORKs students are provided specialized counseling and support services to help ensure their achievement of educational goals and career readiness. Services include counseling/case management, vocational training, job services, workshops, and student support services. For more information, call (714) 628-4915.

Career Services

Counseling and Career Development at Santiago Canyon College is here to help students with the career development and exploration processes. We assist with:

- Career exploration and assistance choosing a major
- Linking college majors and training programs that meet individual student needs
- Job preparation services including:
 - Job search skills
 - Resume and cover letter writing
 - Networking and interviewing techniques
- Students are assisted in the career decision-making process and job preparation through classes, workshops, and individual appointments. Enrolled students and alumni have access to Santiago Canyon College’s online job and internship platform, SCC Career Hub at www.scccollege-csm.symplicity.com. We encourage students to use Career Services on a regular basis! For more information, visit Career Services in D-106 or call (714) 628-4987.

Child Development Center

Santiago Canyon College operates the Child Development Center, which functions as the lab school for the Child Development and Education Department. The lab school provides practicum experience and hands-on learning to students seeking a career in early care and education of young children or a related field. Additionally, the Child Development Center provides comprehensive quality services to meet students’ childcare needs. Services are available for children that are between two and five years of age. Fees are based on the California Department of Education, Early Education and Support Division’s sliding fee scale, which are based on family income. Students eligible for the CalWORKs program may also be eligible to receive free childcare services. Limited full cost childcare spaces are also available for college faculty, staff, and community members that do not meet the sliding fee scale income criteria. For more information and hours of operation phone (714) 628-4890.

College Assistance Migrant Program (CAMP)

The College Assistance Migrant Program (CAMP) is a federally funded program that provides tailored programs and services to students from migrant and farm working backgrounds. The purpose of CAMP is to support students in making the best of their academic, career and educational goals. After meeting eligibility requirements, CAMP students receive the following programs and services: academic and career counseling, study skills workshops,

book vouchers, bus passes, internships, financial aid application support, laptop borrowing privileges, tutoring, peer mentoring, seminars and workshops for CAMP parents and families, family cultural activities and participation in the CAM Planning Summer Bridge Program.

To learn more about CAMP contact us at (714) 628-5034, come by our office in A-212 or visit our website at www.scccollege.edu/camp.

Community Services

Community Services is a fee-based program that provides classes to the general public for educational, cultural, social and recreational purposes. Classes are not for credit, usually shorter in duration than credit classes, and do not require lengthy preparation or rigorous testing. Participants can choose from a variety of classes that include Creative Arts, Business and Careers, Computer Training, Dance, Health and Fitness, Language, Financial Management, Music, Real Estate, Special Interest and Travel Tours. In addition, academic and recreational College for Kids classes are offered each semester.

For more information call the Community Service office at (714) 628-4960. Continuing Education Program

Santiago Canyon College Continuing Education Division provides noncredit courses and programs. Beyond providing the means for an adult to take classes for a high school diploma, Continuing Education delivers pre-collegiate education in the areas of basic academic skills and English as a Second Language, citizenship, and short-term career technical programs. It also serves the needs of the disabled and adults with special needs, health and safety and older adults. A full range of personal, career and academic counseling services is available to students enrolled in continuing education classes. Classes are located at a number of educational centers throughout the community, to allow accessibility to match varying student needs. Specific information regarding admission and registration policies, services available and description of the courses offered can be found in the Continuing Education section of this Catalog. For more information, call (714) 628-5900.

Cooperative Work Experience Education

The Cooperative Work Experience Education program represents a joint educational venture between the student, the employer, and the college. The purpose of these courses is to provide eligible students with supervised on-the-job training as an integral part of the total college education program. This is accomplished through new learning experiences in an occupational setting. Students may earn up to four units per semester and a maximum total of 16 units in Cooperative Work Experience courses. Students must petition each time they wish to re-enroll. Further information will be found in the academic program of the catalog.

STUDENT AND ACADEMIC SUPPORT SERVICES AND OPPORTUNITIES

COUNSELING SERVICES

Counseling & Career Development Services

Counseling services, (714) 628-4800, are provided by counseling faculty to assist students with successful completion of academic, career, and personal goals. Counseling services are organized under these major areas:

Academic Counseling

Counselors can help students select a program of study in relation to their educational objective to include associate degree, university transfer, and/or certificates, offer assistance in exploring life goals, and assist students with the development of a comprehensive student education plan. A comprehensive student education plan is a road map to help you reach your educational goal. The customized plan will list the required courses that you will need and helps plan out when to take the courses. Your education plan is designed and tailored to your specific needs, interests and goals.

Career Counseling

Counselors can assist students in the development of their career goals and provide information that will indicate the best preparation for reaching these goals. Students are encouraged to enroll in CNSL 116, a three-unit CSU/UC transferable Career/Life Planning & Personal Exploration course for optimal exposure to the world of work and career opportunities.

Assessment, Orientation, Advisement, and Follow-Up

Through orientation and advisement, counseling faculty assist students with understanding course placement results in math, reading and English or American College English, and how these courses fit into the development of their education plan. Counselors also provide academic and progress-probation intervention workshops for students not meeting required academic standards.

How To Prepare for Proper Course Placement, Registration and Educational Planning (Student Equity And Achievement Program)

The Student Equity and Achievement Program (SEAP) provides students with access to core programs and services designed to help them achieve their academic and personal goals in a timely manner.

New student orientation and advisement are available to all new students. Upon completion of the orientation, students can meet with a counselor to receive assistance in developing a first-semester education plan. The plan includes mathematics, English, or American College English/English as a Second Language (ACE/ESL) course placement recommendations and courses aligned with students' educational goals. All students must complete their Comprehensive Education Plan (semester-by-semester plan) by the third semester but no later than completing 15 degree-applicable units. A comprehensive student education plan will detail all of the coursework required to reach a desired educational goal. Students may accomplish this requirement by enrolling in a counseling course

or scheduling an appointment with a counselor. A request to be exempt from completing these services is available on the Admissions & Records website. Exemption approval requires that students provide sufficient justification for their request.

Personal Counseling

Counselors are available to students who need assistance with problems which may be affecting their academic progress. The emphasis is on short-term counseling focused around problem areas or concerns. When appropriate, students may be referred to other campus services for additional assistance.

Disabled Students Programs and Services (DSPS)

DSPS is the primary provider of instructional support services and academic accommodations to students with verifiable disabilities attending SCC. Program services are designed to ensure that students have an equal opportunity to participate in, and benefit from, all college programs, services, and activities. To have academic accommodations authorized, students must provide DSPS with disability verification and meet with a DSPS professional for an evaluation of needs. The academic accommodations authorized for students are determined individually through an interactive process and are based on identified disability-related educational needs. Once authorized, students are then responsible for requesting DSPS academic accommodation letters as early in the semester as possible or at least two weeks before the academic accommodations are needed. Assessment for Learning Disabilities (LD) eligibility is available at no cost to students experiencing academic difficulties that interfere with their educational progress. Students can schedule an appointment by coming to the DSPS office in E-105, by calling 714-628-4860, or by emailing dspd@sccollege.edu.

Distance Education

Distance education means instruction in which the instructor and student are separated by distance and interact through the assistance of communication technology. Santiago Canyon college offers several modes of online instruction, listed below.

Online (O)

Online classes are classes in which students work entirely without having to come to the college facility. Arranged proctored tests may be available in this modality (students do not have to come to SCC to take tests); orientations and/or face-to-face class meetings may be optional. Synchronous activities may be required but if synchronous events are scheduled, they will be posted as required in the class schedule.

Online - Remote Live (OL)

Remote Live classes are online classes. Online live classes use communication technologies, such as Confer Zoom, to meet online, synchronously. Online Live classes are primarily used in emergency situations, when students and teachers cannot safely meet on campus.

It is important to note that when an on-campus face-to-face class becomes an Online Live class, that class is now an online class and must meet all of our online class expectations.

Hybrid (H)

A Hybrid Class is a combination of an Online class and an on-campus class. If any portion of the scheduled class hours are replaced with online learning, the class is considered an online class and must meet our online course requirements. The online portion of a Hybrid class must meet all of our online class expectations.

Online - Virtual Hybrid (VH)

Virtual Hybrid classes are a combination of an online asynchronous class and a synchronous Online - Remote Live class. It is important to note that all portions of the Virtual Hybrid class must meet all of our online class expectations.

HYFLEX (OL)

HYFLEX classes are a combination of a traditional on-campus class and an Online Remote Live class. Students can choose to attend on campus or online. Student attendance and mode expectations are listed in the class schedule.

All of Santiago Canyon College's online-teaching faculty have completed a comprehensive class on effective online course design and teaching. All Distance Education courses at Santiago Canyon College ensure that there is regular and effective contact from the instructor to the student, from the student to the instructor, and from student to student. A variety of technologies and media are used for communication, assignments, and assessments. At a minimum, Distance Education students must have regular access to a computer with high-speed internet access, word processing and presentation software, multimedia software (such as QuickTime or Windows Media Player), and any software or hardware listed in the course requirements in the class description. The Microsoft Office suite is available to our students for free. Please contact the student help desk for any technology-related questions, concerns, or for instructions on how to get Microsoft Office. Please check our Distance Education department website, at www.sccollege.edu/DistanceLearning, for resources and to check to ensure that Distance Education courses are right for you.

STUDENT AND ACADEMIC SUPPORT SERVICES AND OPPORTUNITIES

Extended Opportunity Programs and Services (EOPS)

Extended Opportunity Program and Services (EOPS) is a state-funded program that provides specialized assistance to students who need additional support due to financial and educational challenges. EOPS provides comprehensive academic, career, and personal counseling. Additional services include summer success program, book services, priority registration, university transfer assistance, financial aid application assistance, and additional resources as needed.

EOPS also offers CARE (Cooperative Agencies Resources for Education) to EOPS single parents receiving cash aid with children under the age of fourteen. CARE services are in addition to EOPS and may include additional book services, transportation assistance, and group support activities.

For more information regarding eligibility call (714) 628-4915 Financial Aid Services

The Financial Aid Office administers federal and state student aid programs designed to assist students who are unable to meet the cost of education. Financial aid is available to qualified students to help meet the cost of tuition, books, supplies, and other educational materials. Students may also be eligible to have their enrollment fee waived. Financial aid staff are available to answer questions and help students through the financial aid process. Students are encouraged to submit their Free Application for Federal Student Aid (FAFSA) or the California Dream Act Application (CADAA) as soon as possible. Financial Aid applications can be submitted starting October 1st each year. The Financial Aid Office is located in room E-104. For more information, please visit www.sccollege.edu/financialaid.

First Year Support Center

The First Year Support Center (FYSC) supports new, continuing, and returning students in their academic and social transition at Santiago Canyon College. The center strives to provide college skill sets and awareness of campus resources and to be able to integrate students into the college campus and community. The FYSC offers assistance with: applying to the college, registration for classes, filling out financial aid documentation, student portal assistance, student success workshops, undocumented student resources, etc. For more information, visit the FYSC in E-303 or call (714) 628-5085.

Foundation

The Santiago Canyon College Foundation is a 501(c)(3) non-profit organization dedicated exclusively to helping Santiago Canyon College gain the financial resources it needs to ensure that every qualified student, regardless of economic background, has access to an affordable yet high-quality college education. The SCC Foundation raises money for academic scholarships and provides supplemental dollars for student support programs such as the Hawks Nest Food Pantry and Veterans Resource Center (VRC). To enhance the quality of our students' overall experience at SCC, the Foundation also supports

enrichment programs such as Forensic Debate Team and campus events, including the annual Performing Arts Showcase.

There is no better value in higher education than community college - nor a more cost-effective way to make sure that every person in our community has a viable path to becoming or remaining a productive citizen.

Your donation to the foundation - in any amount - makes a real difference in the lives of our students. To find out more, please e-mail foundatlon@sccollege.edu or call (714) 628-4790.

Guardian Scholars

The SCC Guardian Scholars Program serves ambitious, college bound students who are current and former foster youth pursuing a path within higher education. SCC Guardian Scholars' mission is to support the well-being and empowerment of students on their educational journeys to earning a Career Technical Certificate, Associate's Degree, and/or transfer to a university. We strive to provide a support system and network that is vitally needed for foster youth to ensure a positive college life, both inside and outside of the classroom.

Upon meeting eligibility requirements, Guardian Scholars receive the following support services: Priority registration, one-on-one academic advising, new-student orientation, financial aid, assistance finding on-campus jobs, bus passes, school supplies, textbook assistance, special activities, luncheons, mentoring, friendship and support.

To learn more about Guardian Scholars, contact us at (714) 628-4709, come by our office in A-206, or visit our website at Guardian Scholars.

The Hawk's Nest: Basic Need Center

The Hawk's Nest provides basic needs services for credit and noncredit SCC students. Our Hawk's Market pantry provides free and nutritious groceries, including fresh produce and non-perishables. In addition to assisting with groceries, we offer hygiene products, diapers, and other necessities. We can also assist in applying for CalFresh and seeking other community support. To learn more about us and our hours, please visit: www.sccollege/foodpantry. Requirements to visit us: Have a student ID number. If possible, please bring a reusable bag to shop in our market.

High School and Community Outreach

The High School and Community Outreach Department provides detailed information regarding academic programs and student services that are offered at Santiago Canyon College for incoming students and the local community. The Outreach Department services include:

information and assistance to all prospective students and their families
Campus tours for individuals and groups
Ensuring access to and knowledge of campus resources
Promoting academic, career and students services to all prospective students and the community

Coordinating community outreach events such as college and career fairs

Parent and community awareness events
Weekly high school visits

The Outreach Department also serves as the primary contact for all incoming students entering the college and offers priority registration through the Early Welcome Program offered in April for the subsequent fall semester. For more information, call (714) 628-4808 or visit www.sccollege.edu/outreach.

Honors and Awards

Phi Theta Kappa. Phi Theta Kappa is an international honors society that recognizes academic excellence and achievement of students enrolled in two-year colleges. The society offers a myriad of opportunities for scholarship, intellectual enrichment, personal development and academic recognition.

The Beta Eta Rho Chapter of Phi Theta Kappa was organized at Santiago Canyon College in 1998. Membership in Phi Theta Kappa is extended each semester by the local chapter to students who have completed a minimum of 12 degree units with a minimum of grade point average of 3.0. Members receive special recognition when they graduate.

Psi Beta. Psi Beta is the national honor society in psychology for community and junior colleges. The mission of Psi Beta is professional development of psychology students through promotion and recognition of excellence in scholarship, leadership, research, and community service.

Membership in Psi Beta is extended each semester by the local chapter to students who have completed one psychology course and 12 semester hours of total college credit and have an overall GPA of 3.25 with at least a "B" average in psychology courses.

Members receive special recognition upon graduation. Sigma Chi Eta. The purposes of Sigma Chi Eta are (a) to recognize, foster, and reward outstanding scholastic achievement in communication studies; (b) to stimulate interest in the field of communication; (c) to provide an opportunity to discuss and exchange ideas in the field of communication; (d) to establish and maintain closer relationships and mutual understanding between speech communication studies faculty and students; to explore options for community college students who will transfer to a four-year college or university or enter the world of work. The Omicron Chapter at SCC was founded in 2004. Students who qualify may apply for membership by contacting the advisor, Dr. Melinda Womack. In order to become a member of a Sigma Chi Eta chapter, the student must:

- have completed at least 12 semester hours
- have completed at least three communication courses or 9 semester hours (or at least 12 quarter credit hours) of communication study;
- have a cumulative GPA of at least 3.0;
- have a communication studies GPA of at least 3.25;
- be in good standing at the college;
- display commitment to the field of

STUDENT AND ACADEMIC SUPPORT SERVICES AND OPPORTUNITIES

communication.Honors Program and Honors Courses

The SCC Honors Program is dedicated to providing an enriched learning environment for high academic achievers so that they may fulfill themselves personally and acquire the skills and knowledge necessary to succeed at the Associate degree or Baccalaureate degree level. The Honors Program encourages critical thinking, sound decision-making, cultural awareness, and effective communication skills through instructional modes that foster independence and responsibility.

Requirements to enroll in an Honors class

Regularly admitted students who meet the course prerequisites may take an Honors class. Enrollment in an Honors class does not require membership in the Honors Program. Students must be free of active disciplinary action reports.

freshmen need to bring a high school transcript to the Counseling Department to receive a signed prerequisite clearance form prior to enrolling in an Honors class. Students who completed college work while in high school need to use the college GPA and units.

Continuing College students need a minimum 3.0 cumulative GPA from all institutions attended. Transfer students will need college transcripts from all previous institutions as well as a signed prerequisite clearance form.

Special Admit students must have a minimum 3.0 GPA in any college coursework and have a minimum 3.0 GPA in high school. Requirements to join the Honors Program Submit an Honors Program application and requested documentation to Admissions and Records during the fall or spring semester. Students must be free of active disciplinary action reports.

Applications are not accepted from students who are not currently enrolled. Application, procedures, and deadlines are available on the Honors Program website: www.sccollege.edu/honors.

Freshmen:

- First-time freshmen who graduated from high school with a minimum 3.0 GPA may join the program during their first semester at SCC. High School Proficiency cannot be used. Official high school transcripts are required.
- Qualification for English 101 as indicated by the SCC English placement test or a score of 3 or higher on the AP English test. May not be involved in or found at fault in any disciplinary action as outlined in the SCC catalog. Meet with Honors Program Counselor once per semester for Comprehensive Educational Plan prior to Pre-Selection of Honors courses.
- Continuing College students: Students need a cumulative 3.0 GPA or higher in 6 or more units from all colleges attended. Qualification for ENGL 101 as indicated

by the SCC English placement test or a score of 3 or higher on the AP English test. Have no grade lower than a "C" in any college-level Honors class.

- Meet with Honors Program Counselor once per semester for Comprehensive Educational Plan prior to Pre-Selection of Honors courses.
 - May not be involved in or found at fault in any disciplinary action as outlined in the SCC catalog. Special Admit students: Current high school students are not eligible to join the Honors Program. GPA in college units completed while in high school could affect future ability to enroll in honors classes and the Honors Program.
 - Requirements to continue in the Honors Program Maintain a cumulative 3.0 GPA or higher. Earn grades of "C" or above in all Honors classes. Earn grades of "C" or above in all college-level classes while in the program. Meet with Honors Program Counselor once per semester for Comprehensive Educational Plan prior to Pre-Selection of Honors courses.
 - Complete English 101 during the first year in the Honors Program unless ENGL 101 has already been satisfied. (ENGL 101H is recommended)
 - Remain free of any disciplinary action as outlined in the SCC catalog. Requirements to complete the Honors Program Submit the Honors Program Completion Petition to Admissions and Records (E-100). The petition and deadlines are available on the Honors Program website: www.sccollege.edu/honors.
 - Maintain a cumulative 3.0 GPA in all college units, including remedial and honors coursework.
 - Complete Honors Program unit and residency requirements: Complete a minimum of 15 honors units with a minimum of 1 course from each category listed below within the Rancho Santiago Community College District.
- OR**
- Completion of 18 honors units from any category.
 - 12 of the 15 units must be completed at Santiago Canyon College. 3 units may be completed at Santa Ana College 12 of the 15 units must be completed after acceptance to the program A single course may not meet more than one

Honors Educational Category. In addition to the Honors Educational Category requirements (1-3), additional Honors units will be needed to fulfill the 15 unit requirement.

- Honors Educational Category 1: English, Communication, Arts and Humanities Honors Educational Category 2: Mathematics, Physical and Biological Sciences Honors Educational Category 3: Social and Behavioral Sciences See Honors Program website or Honors Program Counselor for course offerings. Earn grades of "C" or above in all college units, including remedial and honors coursework, while in the program. Honors courses must be taken for letter grade (P/NP grades are excluded).
- Disqualification from the Honors Program Students with a cumulative GPA below a 3.0 or who receive a "D" or "F" in an Honors class will be disqualified from the program.
- Students whose cumulative GPA falls below 3.0 anytime during their enrollment at SCC, or who receive a "D" or "F" in an Honors class will be disqualified from the Honors Program for the duration of their enrollment at SCC. Students may appeal disqualification from the Honors Program to the Honors Program Committee. Contact the Honors Program Counselor.
- Students who earn a "D" or "F" in an Honors class may repeat the non-Honors version, but they will not be allowed to complete the Honors program.

President's Scholar

The President's Scholar designation is placed on the transcript and diploma of the graduate who has achieved a cumulative grade point average of 3.5 and completed the Honors Program. All letter grades must be "C" or better. Students with Academic Renewal Without Course Repetition are not eligible for President's Scholar. Students may not receive the President's Scholar designation if an associate degree from Santiago Canyon College has already been granted. Students participating in graduation ceremonies will be presented with a medallion.

Completion of the Honors Program The designation Honors Program Completion is placed on the transcript of students who complete all Honors Program requirements. It is also placed on the diploma of students who earn an associate degree.

Language Lab

Santiago Canyon College offers a state-of-the-art language lab for students enrolled in Spanish, Italian, French, and American Sign Language courses. Our

STUDENT AND ACADEMIC SUPPORT SERVICES AND OPPORTUNITIES

main objective in the Language Lab is to provide students with a variety of directed learning activities to supplement and complement classroom instruction and enhance their language learning experience. In addition, we provide a comfortable learning environment where students are able to access other resources such as interactive computer programs, games, audio, video, and reading materials, carefully arranged and selected for students' specific level to assist them in the development of their listening, speaking, reading and writing proficiency skills.

Learning Communities

SCC Learning Communities provide interdisciplinary learning opportunities to communities of students, offering integrated education in a supportive, collaborative academic work. Learning Communities are connected courses that share common themes, activities, and assignments to create an enriched learning opportunity for students. Students who are members of a Learning Community take their courses as a group and become a community of learners. Why Should I Join a Learning Community? Students in Learning Communities get the support of a team of professors and a community of their fellow students in their Learning Community courses.

- Students in Learning Communities are more likely to fulfill their academic goals of transferring from a community college to a four-year university and of graduating from the university than traditional students.
- Students in a Learning Community get better grades in their courses—even in their courses that aren't part of the Learning Community—than traditional students.
- Students in a Learning Community get more involved in campus life and activities than traditional students and report that they enjoy their college experience more and feel they get more out of it than traditional students.

For more information, please visit our Learning Communities <https://www.sccollege.edu/Departments/LearningCommunities>

Lorenzo A. Ramirez Library

The Lorenzo A. Ramirez Library collection contains over 40,000 books in print format and over 15,000 electronic books as well as DVDs and music CDs. Full-text journals, magazines, and newspaper articles are available through online databases. Remote access to most library resources are available through the Library website. In-class library workshops and self-paced modules provide instruction in using library resources.

In addition, the Santiago Canyon College Library offers student computer workstations, laptop computers, a wireless network, group study rooms,

and an instruction lab. There are black/white and color copiers, printers, and scanners.

The Student Innovation Zone (SIZ) provides students with the opportunity to be creative in their academic work with PC, Apple computers, and multimedia editing software.

Research assistance is available in person and online. The Library can be reached at (714) 628-5001 or online at www.sccollege.edu/library.

Math Success Center

The Math Success Center (MSC) is a free service provided by SCC that provides students with supplemental learning in the classroom. Math faculty, Instructional Assistants, and student tutors are always on duty to assist students with questions from their math class. Additionally, computers are available for students to access mathematical software or complete internet-based assignments for any math class. The MSC is located in room D-209. Students can enroll in MATHCE100 on their first visit to the MSC and immediately start using the center.

Math Success Center Website. www.sccollege.edu/students/SitePages/Math-Success-Center.aspx

Online Student Services

The SCC Student Services website, www.sccollege.edu/StudentServices, is designed to inform and assist students with counseling information and eAdvising. Students can also request transcripts, apply for financial aid, find scholarships, pay fees, purchase a parking pass, download forms for most programs and services, view transfer workshops and presentations, research careers and find jobs and internships.

Pathways to Teaching Program

The Pathways to Teaching Program is designed to encourage and support students to pursue an education leading to the teaching profession. Services include academic counseling and transfer assistance, specialized workshops and events, appointments with university representatives, teacher preparation resource information, internships, volunteer opportunities and the SCC TEACH! student organization. For more information about the Pathways to Teaching Program, drop by on the Third floor of E building or call (714) 628-4928.

Rising Scholars

Project RISE is a year-round program for both credit and Noncredit students designed to empower and support formerly incarcerated and system impacted individuals. Project RISE's goal is to provide students with the knowledge and resources needed to successfully complete the students' personal and academic goals. Services include: academic and career counseling, personalized assistance with college credit enrollment and services, workshops and events specifically for individuals with an incarceration experience and guidance on applying for financial aid and registering for classes. Project RISE students also have access to referrals to community resources, including childcare, housing, food, clothing, health, and legal.

For more information on Project RISE, please contact Albert Alvano by phone at 714-628-1048 or e-mail alvano_albert@sccollege.edu.

Visit the Project RISE office at 8045 E. Chapman Ave. Room U-80 Orange, CA 92869 or online at <https://www.sccollege.edu/ce/counseling/Pages/Project-Rise.aspx>

Public Affairs

Information and publicity regarding college programs and activities is disseminated to the news media and the community through the Rancho Santiago Community College District Public Affairs office.

Scheduling Options and Definitions

Santiago Canyon College schedules two 16-week semesters (fall and spring) with a summer session, and may offer a spring intersession schedule. Courses may be offered through different modalities such as traditional face-to-face or online. For more information about online learning or classes, see Distance Education page 26.

Term = a period of a time within an academic year when courses are scheduled (fall, spring, summer, spring intersession) Semester = 16 weeks, scheduled every fall and spring Summer Session = typically offered within a 4, 6 or 8 week period, can be scheduled after spring but before fall

Spring Intersession = typically offered in 4 weeks, can be scheduled after fall but before spring In an effort to work with student schedules, Santiago Canyon College offers a variety of scheduling options during the fall and spring semesters:

Short Term = less than 16 weeks, can be 8 weeks, 10 weeks or 12 weeks Early Start / Late Start = 8 weeks, spans either the first 8-weeks or second 8-weeks Weekend = offered Fridays, Saturdays, and/or Sunday

Science Teaching and Resource Center

The Science Teaching and Resource Center (STAR Center) is designed to help students in all science classes (Astronomy, Biology, Chemistry, Geology, and Physics) to succeed. The curriculum for the center includes Question and Answer sessions, Directed Learning Activities (DLA), and Student-led study groups. All services provided through the STAR Center are geared towards engaging science students and enhancing their success.

Student Health and Wellness Services

Currently enrolled credit students who have paid their health fees are eligible for Student Health and Wellness Services (SHWS). Walk-in health services are routinely provided by registered nurses. Services of physicians and psychologists are available by appointment only. All services are provided without charge, except nominal fees for medications, laboratory tests and some medical procedures when supplies are used.

Emphasis is on health maintenance and wellness promotion. On-site health services include the diagnosis and treatment of acute short-term illnesses, pregnancy testing and Family PACT services, which include FREE hormone based contraception,

STUDENT AND ACADEMIC SUPPORT SERVICES AND OPPORTUNITIES

emergency contraception, cervical cancer screening, STI testing, and condoms. In addition, SHWS offers first aid care, short-term mental health counseling, health maintenance and wellness promotion literature, as well as blood pressure screening, cholesterol monitoring, tobacco cessation counseling, tuberculin skin testing, community referrals, emergency care and accident insurance coverage for course-related injuries. Refer to the class schedule for Student Health and Wellness Service hours, or call (714) 628-4773.

Student Support Services – TRIO

Student Support Services – TRIO (SSS-TRIO) is a federally funded program that supports underserved first generation, low-income, neurodiverse students who test into developmental Math & English achieve their educational goals. The purpose of SSS-TRIO is to provide support and resources to enable students to overcome challenges and make use of their inherent talents and abilities to succeed in college and in life. Provides personalized academic and personal growth coaching, one-on-one tutoring, holistic counseling, book loan services, calculator & laptop loan services, priority registration, Summer Bridge, placement test preparation, student success workshops, campus referral services, supplies, and additional resources for students.

To learn more about SSS-TRIO, please contact us at (714) 628-5033, visit us at A-104, or go to our website.

Supplemental Instruction

Supplemental Instruction (SI) is an academic support program that targets historically difficult courses. SI offers regularly scheduled out-of-class review sessions to all students enrolled in a targeted math or science course. SI study sessions are informal seminars where students work on practice problems, review notes, discuss readings, develop organizational tools, and prepare for Students learn how to integrate course content with reasoning and study skills. Students attend SI sessions voluntarily, and no effort is made to segregate students based on academic ability. Since SI is introduced on the first day of classes and is open to all students in the class, SI is not viewed as remedial. To learn more about the SI program and see a list of courses offering SI, visit the website. Website: <https://www.sccollege.edu/academics/areasofstudy/stem/SitePages/STEM-Supplemental-Instruction.aspx>

Embedded Tutoring

Embedded Tutoring (ET) is an academic support program that targets historically difficult courses. ET offers regularly scheduled, out-of-class tutoring sessions to all students enrolled in a targeted course. During ET sessions, students can get on-demand help with homework problems and lecture concepts. ET sessions are facilitated by student tutors who have previously and successfully completed the targeted course. Tutors attend all class lectures, take notes, and act as model students.

Transfer Success Center

The Transfer Success Center provides resources and services to assist students in researching, planning, and completing their transfer to a four-year college or

university. The Transfer Success Center coordinates various events throughout the year, including tours of universities, university representative advising appointments, transfer fairs, and a variety of workshops to help students with each step in the transfer process. In addition, the Transfer Success Center provides many useful resources such as; assistance with applications, personal statement assistance, updates via social media and e-mail, computers for use in research and completing applications, a comprehensive website, and expert advice from trained specialists. SCC's Counseling Department and the Transfer Success Center work in tandem to support students. The Counseling Center has skilled counselors available to help develop a comprehensive student education plan outlining courses needed for successful university transfer. For more information, stop by D-104-N, call (714) 628-4865, visit www.sccollege.edu/transfer, and follow us @SCCTransfer on Instagram.

Transportation

Some classes may be conducted off campus. Unless students are specifically advised otherwise, students are responsible for arranging for their own transportation to and from the class site. Although the district may assist in coordinating the transportation and/or recommending travel times, routes or caravanning, be advised that the district assumes no liability or responsibility for the transportation, and any person driving a personal vehicle is NOT an agent of the district.

Tutoring Services

Online tutoring is available through NetTutor, where all of the tutors hold bachelor's degrees, and many hold graduate degrees in their field of expertise. Online tutoring is a convenient and interactive experience for students to access tutors in a variety of subjects. Access NetTutor through your Self-Service college account.

Upward Bound Math and Science

The Upward Bound Math and Science (UBMS) program aims to strengthen the math and science skills of participating high school students. UBMS' purpose is to help students recognize and develop their potential to excel in math and science, encourage them to pursue postsecondary degrees in math and science, and ultimately careers in the math and science profession. Santiago Canyon College's UBMS program serves students enrolled at El Modena High School and Orange High School. For more information, please contact us at (714) 628-5012, visit us at A-206, or go to our website at: www.sccollege.edu/Departments/upwardboundms

Veterans Resource Center

Students interested in seeking Veterans Service Office (VSO) at Santiago Canyon College (SCC) should go to the Veterans Resource Center (VRC) in room A-210. Veterans Services assists qualified veterans with support services such as, access to VA Educational Benefits, priority registration, educational counseling, and psychological services. The VSO also provides

support to the success of students with disabilities by providing resources and information that promote access, equal opportunity and empowerment. A knowledgeable office staff specializing in veterans' affairs is prepared to assist students at SCC at (714) 628-4793. Rancho Santiago Community College District is approved by the California Bureau for Private Postsecondary training of veterans and eligible persons. Educational opportunities are available for college credit which include associate degrees, transfer degree programs, and certificates.

Eligibility

Veterans who qualify to receive benefits under the Montgomery Bill-Active Duty (Ch. 30), Montgomery Bill-Selected Active Reserve (Ch. 1606), and eligible persons under the Survivors and Dependents Educational Assistance Program (Ch. 35) are encouraged to take advantage of their educational entitlement.

Veterans with a minimum of 90 days aggregate active service on or after 9/10/01 may be eligible for the post 9/11 GI Bill® (Ch. 33). This program includes basic housing allowance (BAH), book stipend, and tuition/fees.

Veterans with a service-connected disability may be eligible for vocational rehabilitation (Ch. 31) benefits. This program provides eligible veterans with a monthly allowance as well as payment for tuition, most fees, and necessary books and supplies. For further information, applicants should seek further information regarding eligibility from the VA Regional Office, Los Angeles, 1-800-827-1000 or 1-888-442-4551 or by contacting the local Orange County Veterans Service Office, Santa Ana, (714) 480-6555.

Applying for Benefits

Each veteran and eligible person who are seeking to apply for VA benefits, must apply for these benefits by visiting the Veterans Benefits Administration website at: www.benefits.va.gov. In addition, any person who wishes to attend a college in the Rancho Santiago Community College District must follow the admissions procedures. See index for details on enrollment. A copy of discharge paper-DD214 is required of all new veterans and a copy of DD2384 of new Chapter 1606/1607 reservists who are using their educational benefits for the first time.

Post-9/11 GI Bill® and VR&E Beneficiaries (Chapter 33 and Chapter 31 beneficiaries) The Veterans Benefits and Transition Act of 2018 (Public Law 115-407) allows students that will be utilizing Ch. 33 or Ch. 31 VA benefits to attend a course of education or training for up to 90 days from the date the beneficiary provides a certificate of eligibility (COE) or valid authorization from VOC Rehab counselor. The school will not prevent enrollment, assess a late penalty fee, require students to secure alternative or additional funding or deny access to any resources available to other students who have satisfied their tuition and fee bills to the institution. Students must submit all required certification request forms directly to the Veterans Resource Center (VRC) for processing, including any additional information needed to properly certify the enrollment as described in the

STUDENT AND ACADEMIC SUPPORT SERVICES AND OPPORTUNITIES

school's institutional policies. Submission of forms will allow students to attend the course until the VA provides payment to the institution without penalty or requiring to borrow additional funds to cover mandatory tuition and fees due to late payments from the VA. Any student that does not have 100% entitlement for Ch. 33 VA benefits, will be responsible for any remaining balance after the VA submits payments directly to the school. For further information, please contact the VRC directly.

Transcripts and Program Approval

VA regulations stipulate that prior credit must be evaluated. With this in mind, the VSO requests that all official transcripts be on file with the Admissions Office by the end of the first term of attendance. This will avoid any delays in payments and/or overpayments if applicable.

Students utilizing VA Educational Benefits at SCC must select a major and each course approved prior to registering for each term. The VA requires that the VSO monitor progress towards a specific degree plan; therefore for VA certification purposes, students must enroll in courses that are part of their current educational plan specifically required for that major. College counselors are available to provide comprehensive counseling services for day and evening students; call (71) 628-4800 to schedule an appointment with Santiago Canyon College Counseling Department. If you have attended previous school(s), official transcripts must be on file before a college program can be evaluated thoroughly by the counselors.

Military Credit

SCC will only evaluate credit from regionally accredited institutions. Three units for health education and one unit for kinesiology may be granted on the basis of military service. When a veteran petitions for graduation and needs these units for graduation purposes, Veterans should seek confirmation directly with the Graduation Office.

General Information

The VA will pay education benefits for eligible veterans and dependents of veterans. The payment will depend on a number of factors including but not limited to: benefit type, benefit eligibility percent, number of active certified units, training type, etc. See the VSO for more information.

Veterans and their eligible dependents or spouses must maintain good academic standings and progress with the college as outlined in the school catalog (see Academic and Progress Probation/Dismissal). Students who fail to make academic progress will be placed on Academic Probation and/or Course Completion Probation accordingly. Students who are on probation for two consecutive terms after failing to demonstrate academic progress may lose priority registration and CCPG eligibility. Students who are on Academic and/or Progress Dismissal from the college cannot be certified for VA Educational Benefits. For further detailed information, please see the College Policies and Procedures section.

Writing Center

The Writing Center is designed to assist students in their study, practice, and communication of English. The Writing Center exists to promote student success, particularly in skills fundamental to effective communication in all disciplines, so we welcome all SCC students, not only those enrolled in English classes but also students taking any course in which writing assignments are English Department professors as well as our Writing Center Instructional Assistant, Donna Collins, staff the center in order to best serve students' needs. In working with a professor, students may focus on improving their writing in a number of areas: developing an assignment's content, organizing their ideas, and enhancing their sentence structure and vocabulary. Moreover, we believe students are most capable of writing well if they can learn to identify their own errors and develop the skills to correct those errors in a way that reveals a unique tone and style, so WC staff will assist them in using proper grammar and punctuation as well as in developing their own voices.

What the Writing Center offers

- Mini-lectures and workshops on grammar and punctuation
- One-on-one conferencing with English professors
- Guidance about the writing process, from early planning stages to final polishing ones
- Assistance with various writing assignments, including essays, resumes, and college applications and personal statements
- Directed Learning Activities worksheets
- Internet access for research

What the Writing Center does not offer

- Editing sessions
- Proofreading services
- Computer use for emails
- Computer use for typing non-academic materials*WC hours are subject to change

STUDENT LIFE AND LEADERSHIP

Student Activities

Alumni Network, Associated Student Government (ASG), Black Legacy Achievement Center of Knowledge (B.L.A.C.K.), Cafeteria/Student Lounge Student Clubs and Organizations, Student Life, and Leadership Umoja

Alumni Network

The SCC Alumni Network was founded to promote and facilitate a lifelong relationship between Santiago Canyon College and its former students to encourage ongoing alumni support for the college. Former students qualify for membership in the Network if they have completed at least nine (9) units of academic coursework at SCC.

A robust alumni network is a vital link to SCC's past and an important factor in building the reputation and financial health of the college. The network is also a resource for SCC alumni seeking to build their professional networks, becoming involved on campus, or just having fun and reconnecting with fellow Hawks. The list of benefits of being an SCC alumnus continues to grow. Alumni are also invited to join the SCC Alumni Association, which will officially launch for the 25th Anniversary of SCC in 2025. For more information, go to scccollege.edu/alumni, email alumni@scccollege.edu, or call the SCC Foundation Office at (714) 628-4790.

Associated Student Government (ASG)

The Associated Student Government was established to provide students with government and leadership experience. Opportunities are available to become involved in campus and statewide committees and councils as student representatives. In ASG, students learn firsthand about group dynamics and decision making, program planning, and running effective meetings. Additionally, there are many student clubs and organizations to join. For more information please visit www.scccollege.edu/studentlife or call (714) 628-4913.

Black Legacy Achievement Center of Knowledge (B.L.A.C.K.)

The Santiago Canyon College B.L.A.C.K. program is devised to intentionally assist Black, and all students of color, with the skills and empowerment needed to identify the strength of their legacy and use their academic cornerstones to build their own.

Description:

The Black Legacy Achievement Center of Knowledge provides students with a myriad of support systems that buttress what they have in place, and contribute where support in their lives may be scarce. Through academic counseling, social interaction with other students and SCC professionals, students will recognize the value of their experiences and the legacy gifted to them by their ancestors.

Benefits:

- Students can avail themselves to specially designed programs and activities that are created and developed to enhance the student academic experience, such that they will be able to apply their new knowledge and successfully achieve their educational goals.
- Students will engage with other students to create learning communities that allows everyone to share their understanding of their identity, strengths, talents and common interests within a safe, nurturing environment.
- Mentorship by SCC educators and leaders, as well as community members, is woven into programming and allows students to receive guidance from an eclectic cadre of dynamic people.
- Students will engage in program development and allowed to create events and activities, with the guidance of the B.L.A.C.K. professionals who are experts in the fields of academic programming and student services.

Future Development:

We invite you to continue to check back to discover the ongoing calendar of events, information and resources available to you.

Cafeteria/Student Lounge

The T-Buildings house the Associated Student Government room, Student Lounge, food services at the Hungry Hawk Cafe, and the Student Health and Wellness Services. To reserve rooms for use, call the Santiago Canyon College facilities office at (714) 628-4719.

Student Clubs and Organizations

The Inter-Club Council (ICC) represents all active student clubs and organizations on campus to promote leadership development, networking, communication skills and campus life. For a list of current student clubs and organizations, please visit student life. To form a new student club, please call (714) 628-4917.

Student Life and Leadership

The office of Student Life and Leadership promotes and supports students' co-curricular interests and provides excellent opportunities through the Student Leadership Institute (SU), the Associated Student Government (ASG), Inter-Club Council and student organizations. The office also provides a variety of services to students, faculty, and staff through assistance with student-focused event planning. For more information, please call (714) 628-4912 or visit A-206.

Umoja

The Umoja Program is a statewide community network of resources and educators, who are "committed to the personal growth and self-actualization of African American and other students". Students here at SCC will benefit from services and programs like: advising, counseling, books, learning communities, program space, food, workshops, and

much more. SCC's Umoja program is a community gathering space for African American / Black, and other students to come together to honor and celebrate Black Excellence, and to discuss the real issues that affect students and the broad African American / Black community.

Umoja Program Office: B-212 Umoja Hours: Online Chat 1:00pm to 5pm (Chat Link Below) Email: umoja@scccollege.edu

To meet with the Umoja Counselor contact 714-628-4915.

Program Services

There are many incentives and support services when you join our Umoja Program, including but not limited to:

Orientation

- Get to know the program and the school with help from Umoja Program staff and students.

Academic Counseling

- Online Educational Counseling is available to Umoja Students

Liberation Library

- Loan Books on topics of Black Excellence, Social Justice, Tips for Academic Success, and more.

Umoja Mentor Program

- Connect with Second Year Umoja Students to ease the transition of college

Increase academic skills and abilities

- Get tutored by other Umoja Students
- Motivational and educational workshops
- University and Cultural Tours
- Community service opportunities
- Attend State-Wide Umoja Community Conferences, Summits, and Symposia

Academic Competitions

Forensics Intercollegiate Athletics Model United Nations SCC Athletic Achievements

Forensics

Forensics is more commonly known as competitive speech and debate. The SCC Forensics team was one of the first signature programs to be offered when the college was first accredited. Members of the team travel to local tournaments on select weekends and perform persuasive speeches, debates, impromptu, poetry, drama, and many more. This co-curricular activity provides students with an excellent opportunity to stand out on transfer and job applications. Forensics teaches skills that are useful in any industry, but are particularly well-suited for students that are seeking careers in broadcasting, law, politics, and public relations. The team is open to all students, and students with no prior experience

STUDENT LIFE AND LEADERSHIP

Intercollegiate Athletics

Santiago Canyon College, home of the Hawks, is proud of its athletic teams and their rich athletic history. The college has fielded teams since 1999 and now offers competitive opportunities for student athletes in seven sports: men's and women's cross country, men's and women's soccer, softball, and men's and women's volleyball.

The Hawks compete in the highly competitive Orange Empire Conference (OEC) under the auspices of the California Community College Athletics Association. SCC's outstanding coaching and teaching staff, combined with an excellent system of academic assistance, has helped eligible students transfer to four-year colleges and universities.

2012 saw the opening of the new athletics and aquatics complex at Santiago Canyon College. The facility includes a fully equipped fitness center, strength lab, aerobics studio, men's and women's locker rooms, athletic training facilities, three indoor courts, a swimming pool and administrative offices.

All prospective student-athletes with questions about eligibility should contact the Director of Athletics at (714) 628-4816.

Model United Nations

Professor Cale Crammer at cale_crammer@sccollege.edu

The SCC Model United Nations program offers students the opportunity to learn about global issues and international politics in an interactive team environment. What makes MUN fun and exciting is it allows students to take what they learn in the classroom and apply it to what is going on in the real world. The program creates a space where students can come together, get involved, and build lasting friendships. Students who participate in MUN also gain essential life skills. The skills we focus on are:

- Critical and creative thinking
- Problem-solving
- Decision making
- Effective communication
- Interpersonal relationship skills
- Team and rapport building
- Conflict resolution

Perhaps the biggest highlight of the SCC MUN program is our participation in local and national MUN conferences. The team travels to exciting places like Washington, D.C., and New York. While in D.C. and New York, students get the unique opportunity to meet with diplomats and practitioners in the field. We also visit the State Department and the United Nations. These are once in a lifetime experiences that draw students back to the program semester after semester.

How to Join MUN

How do you get involved with MUN at SCC? The easiest way is for students to enroll in POLT 150 - Model United Nations. This course introduces students to global issues and the ins and outs of Model UN. It is both UC and CSU transferrable. Students who are unable to enroll in POLT 150 because of scheduling conflicts may participate in the MUN club.

Want to Learn More?

If you would like to learn more, please feel free to contact: Professor Crammer at cale_crammer@sccollege.edu

FINANCIAL AID AND SCHOLARSHIPS

Financial aid is money to help pay for college in the form of grants, work-study, loans, and scholarships to help make college affordable. Financial aid can come from federal, state, school, and/or private sources to help you pay for college.

In order to apply for any financial aid program, you must complete the Free Application for Federal Student Aid (FAFSA, www.studentaid.gov) or California Dream Act Application (CADAA, dream.csac.ca.gov). If you are required to use your parent(s) income information, refer to the federal IRS Income Tax Forms or use the IRS Data retrieval tool (FAFSA Only). The state Cal Grant application process requires you also submit GPA verification. If you have completed 16 degree-applicable units at Santa Ana College or Santiago Canyon College, your GPA will automatically be submitted to the state. If not, you will need to submit your high school GPA on the paper GPA Verification form. Cal Grant deadlines are March 2nd (maximum opportunity) and September 2nd (limited number of awards). Once you have applied for financial aid, you will receive a Student Aid Report (SAR). The SAR includes your Expected Family Contribution (EFC). An EFC is used to determine your Pell Grant and California College Promise Grant (Method C) eligibility. The California Student Aid Commission will notify you of your Cal Grant eligibility. Each college you have listed on the FAFSA or CADAA may send you additional forms to be completed and turned into the Financial Aid Office. After all required documents have been processed; you will be awarded the financial aid programs you are eligible for and an Award Offer will be emailed to you. If your family circumstances have changed, due to illness, loss of a job, etc., ask about "Special Circumstances" that could affect your eligibility.

General Eligibility Requirements:

- Be a US citizen or eligible non-citizen. (FAFSA only) or AB540 eligible (CADAA only).
- Must have a high school diploma; pass a GED exam or the California High School Proficiency Exam. Must have a valid Social Security Number. (FAFSA only)
- Meet Satisfactory Academic Progress requirements. Not be in default on any federal student loan or owe a refund on any federal grant funds.
- Be enrolled in an eligible program of study leading to a degree, transfer, or a certificate.

Withdrawals and Repayments of Financial Aid Funds: Federal regulations may require students to repay federal funds if they drop, fail or withdraw (in any combination) from all classes, drop classes after disbursement, or are dropped by the instructor due to excessive absence. Based on the date of the complete withdrawal, the Financial Aid Office is required to determine the amount, if any, of "unearned" federal financial aid received by the student. A calculation will be completed to determine if the student is required to repay any funds.

Students who successfully complete at least 6 units each semester, may not be required to repay a portion of the funds received. Dropping below half-time will affect the amount awarded and may disqualify you from certain programs.

Financial Aid Programs

Cal Grants

Cal Grants are available to California residents attending eligible California colleges who meet all criteria and are enrolled in at least 6 units. The programs are administered by the California Student Aid Commission (CSAC). Students must complete the annual FAFSA or CADAA by the deadlines of March 2nd and September 2nd for community college students. Cal Grants also have a GPA verification required by CSAC. Cal Grant award amounts are published annually by CSAC at www.csac.ca.gov.

Cal Grant A

Eligibility is based on financial need and GPA. Assistance is provided to meet tuition and fee costs at four-year universities. Awards to community college students may be placed on "reserve" for a maximum of two years until they transfer to a four-year institution.

Cal Grant B

This Grant is provided to students from low-income families with living allowance and tuition and fee assistance to attend college. This grant may be used at community colleges and universities, not to exceed four years. Cal Grant B students also receive tuition costs at the same levels as Cal Grant A, except at community colleges.

Cal Grant C

This grant is intended to assist students who are pursuing an occupational, technical, or vocational program that will result in a certificate or associate degree. Students enrolled in a transfer program are ineligible.

Cal Grant Students With Dependent Children

Cal Grant students with dependent children attending a University of California, California State University, or California Community College campus may be eligible for an access award of up to \$6,000 for qualifying Cal Grant A and B recipients and up to \$4,000 for eligible Cal Grant C recipients.

California College Promise Grant (CCPG)

The CCPG will waive enrollment fees for eligible students. As soon as your FAFSA or Dream Act Application is processed, the Financial Aid Office will determine if you are eligible for a fee waiver. If qualified, you will have the enrollment fee waived. If you do not complete a FAFSA or Dream Act, you may also apply for a fee waiver by completing the CCPG application on paper or online. This application is for low income students, children of Veterans or for students and families receiving some type of government aid. Students must meet the CCPG Academic and Progress Standards to remain eligible for the waiver. Please note: Some students may be independent on the CCPG application but dependent on the FAFSA.

California College Promise Scholarship

The Santiago Canyon College Promise Scholarship provides incoming, full-time students with one year of college, tuition free regardless of family income. General requirements include be a first-time, full-time (12+ units) college student, California resident or AB540 eligible,

and complete and submit a FAFSA or CADAA. See the First Year Support Center for more details.

Chafee Grant

This grant is available to students who are or were in foster care for at least one day, between the ages of 16 and 18 as a dependent or ward of the court and have financial need. Awards are \$5,000 per year and the program has limited funding. To apply, students must submit the FAFSA or CADAA and the separate Chafee Grant application. There is a maximum age limit of 26 as of July 1 of the award year. No payments are made beyond the age of 26.

Federal PELL Grant

Pell grant is a federally funded program for undergraduates who demonstrate need. The amount of the Pell Grant is based on the cost of attendance, the Expected Family Contribution, and the enrollment in number of units. Please check with the Financial Aid Office or visit the website for the maximum and minimum PELL award amount. If you apply late and you are eligible, you may be paid retroactively for the entire academic year. Pell Grants are limited to 12 Full Time equivalent semesters. Federal Supplemental Educational Opportunity Grant (FSEOG) This is a federally funded grant, available to undergraduates who demonstrate exceptional financial need. Priority in awarding FSEOG funds must be given to Pell Grant recipients. Minimum enrollment is six units per semester. Early applicants are given priority.

Federal Work-Study Program (FWS)

This is a federally funded program providing employment opportunities to students with financial need. Students awarded FWS are placed in part-time jobs on campus. This program provides an excellent "learning experience" through on-the-job training. Students must be enrolled in a minimum of six units to remain eligible. Early applicants are given priority.

Student Success Completion Grant (SSCG)

Cal Grant B & C Eligible Students who are attending Full-Time (12+ units) may also be eligible to receive SSCG up to \$4,000 per academic year sponsored by the California Community College Chancellor's Office.

William D. Ford Federal Direct Loan Program

All students who meet federal financial aid eligibility criteria may borrow through the Direct Loan program. Funds are borrowed directly from the federal government. Annual Direct Loan Subsidized and Unsubsidized combined limits are \$3,500 for freshmen and \$4,500 for sophomores. Additional Direct Unsubsidized loans are available for eligible students. Subsidized Direct Loan: The federal government pays the interest on this need-based loan while the student is enrolled in school, at least half-time. Unsubsidized Direct Loan: The student is responsible for paying the interest on this loan that is not need based. Additional Unsubsidized Direct Loans Available to students who meet all of the qualification requirements. The annual loan limits are \$6,000 for independent students and \$2,000 for dependent students.

Parent Loans for Undergraduate Students (PLUS): This loan is for parents who borrow on behalf of dependent students. The parents' credit will be checked by the

FINANCIAL AID AND SCHOLARSHIPS

Department of Education. Repayment of principal and interest begins immediately. The amount borrowed cannot exceed the cost of attendance, minus any other financial aid and resources received by the student.

Scholarship Program Office

Santiago Canyon College scholarships are established by community benefactors, including SCC Foundation, SCC faculty and staff, and outside organizations recognize academic achievement and offer needed financial support. There are scholarships available to students taking credit or Noncredit classes at SCC, those transferring from SCC to four-year colleges, and those entering college at SCC for the first time. Eligibility criteria, application requirements, and timelines vary. Students are invited to explore our list of scholarships and details of the application process on our website at www.sccollege.edu/scholarship. Students can contact the SCC Scholarship Office by visiting E-104 or emailing scholarship@sccollege.edu.

Student Consumer Information– Right-To-Know Disclosure Information

Federal regulations require all campuses to provide specified information to prospective and current students, staff and the general public. Listed below are those items that must be available for review per federal regulation.

The federal Higher Education Act, the federal Equity in Athletics Disclosure Act (EADA), and regulatory guidance provided in the Code of Federal Regulations (CFR) require direct individual notices of prescribed information to certain target audiences including prospective students; currently enrolled students; current employees; parents, coaches and counselors of prospective student athletes; and the general public. Disclosures are to include crime/security statistics, student completion/graduation rates, FERPA privacy/security rights, financial aid program information, and gender-specific information on athletic participation and financial support.

Please click the following link to view Consumer Information: <https://sccollege.edu/StudentServices/FinancialAid/Pages/Consumer-Information.aspx>

Student On-Campus Job Placement Office

The On-Campus Job Placement Office operates under the umbrella of the Student Support Services, aiding students in advancing their leadership skills by placing them in on-campus student work programs. Student employment can assist with education cost and also develop desirable work attitudes and habits while working in a professional environment. Upon determining eligibility, students are matched with departments based on their educational goals. This work experience is intended to compliment the educational process and to enhance future employment.

For more information, the On-Campus Job Placement Office is located in E-104 or go online at <https://www.sccollege.edu/StudentServices/StudentPlacement>.

EDUCATIONAL OPTIONS

Associate Degrees

The Associate Degree is a certification of the student's satisfactory completion of a program of study with a specific major or area of specialization. The Associate Degree is normally completed in two years, compared with the Baccalaureate Degree, which is normally completed in four years. Associate Degrees are commonly conferred by community colleges and are referenced as "local degrees". They are usually of two types, the Associate of Arts and the Associate of Science. The distinction between the Associate of Arts and the Associate of Science degrees lies in the majors. If the major is in the fields of engineering, physical or biology science, or occupational curricula, the degree conferred is usually the Associate of Science. Otherwise, the Associate of Arts degree is conferred.

Ordinarily, Associate Degrees have one of two major purposes. Either the program of study prepares the individual for transfer to a four-year college or university or the program of study is intended to prepare the student for immediate employment.

Associate Degrees for Transfer

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," an established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable course work with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated "high-unit" major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Certificate of Achievement Programs

A Certificate of Achievement (16 or more units or state-approved as low as 9 units) is a verification of achievement in a particular academic or occupational area, and it will be included on the official transcript. Certificate of Achievement programs normally include only those courses which have a direct bearing upon specialized occupational competency since the certificate has the sole objective of immediate employment in a specialized area. For this reason, there is no general education requirement in a certificate

program. To qualify for a certificate of Achievement, a candidate must meet the following requirements:

- **Courses:** Courses are designated for the specific certificate.
- **Grades:** At least a C grade in each course required for the certificate, unless otherwise specified. Credit by Examination may also be used to gain credit for required courses.
- **Pass/No Pass:** A Pass/No Pass course is acceptable toward the certificate if it is required for the certificate and (a) offered on a Pass/No Pass basis only or (b) if the Pass/No Pass is earned on the basis of credit by examination.
- **Residency:** Twelve units completed at Santiago Canyon College. (Six of the twelve units required for the certificate must be earned at Santiago Canyon College.)
- **Petition:** A petition for Certificate of Achievement must be filed by the student by deadline (see Instructional Calendar) with the Admissions and Records Office at Santiago Canyon College.

Certificate of Proficiency Programs

A Certificate of Proficiency is under 16 units and/or is not a State-approved program. This type of certificate is verification of completion in a particular subject matter. A Certificate of Proficiency will NOT be included on the official or unofficial transcript. Certificate programs include only those courses which focus on vocational skills. The sole objective is employment in a specialized area and for this reason there are no general education requirements for a Certificate of Proficiency.

Santiago Canyon College Certificate of Proficiency programs are described in the catalog section on SCC Academic Programs. To qualify for a Certificate of Proficiency, a candidate must meet the following requirements:

- **Courses:** Courses are designated for the specific certificate.
- **Grades:** At least a C grade in each course required for the certificate, unless otherwise specified. Credit by Examination may also be used to gain credit for required courses.
- **Pass/No Pass:** A Pass/No Pass course is acceptable toward the certificate if it is required for the certificate and (a) offered on a Pass/No Pass basis only or (b) if the Pass/No Pass is earned on the basis of credit by examination.
- **Residency:** At least 20% of the total units required for the certificate must be earned at Santiago Canyon College.
- A petition for Certificate of Proficiency must be filed by the student by the deadline (see Instructional Calendar) with the Admissions and Records Office at Santiago Canyon College.

Multiple Associate Degrees and Certificates

A student may earn multiple Associate Degrees and Certificates from Santiago Canyon College.

- For additional degrees and certificates, any course used to meet the prescribed graduation requirements may count toward more than one degree and certificate.
- Courses used to meet the proficiency requirements and general education requirements for the first degree may be used to fulfill these requirements for additional degrees.
- Courses used for one major may be used to meet requirements for additional majors.
- If a break in enrollment occurs, a student must comply with the proficiency, general education, and major requirements in effect at the time the student resumes attendance or those in effect in subsequent years of the student's enrollment.
- Each additional degree and Certificate of Achievement will be posted to the student's academic record and the student will receive diplomas for each degree and Certificate of Achievement earned.

ASSOCIATE DEGREE AND CERTIFICATE PROGRAMS AT SANTIAGO CANYON COLLEGE (SCC)

AA = Associate of Arts Degree AS = Associate of Science Degree AA-T = Associate of Arts for Transfer Degree
 AS-T = Associate of Science Degree for Transfer AS-UCTP = Associate in Science – University of California Transfer Pathway
 CA = Certificate of Achievement CERT = Certificate of Proficiency

Associate Degrees and Certificates of Achievement are state-approved programs and appear on student transcripts.
 Certificates of Proficiency are not state-approved programs and do not appear on student transcripts.

ASSOCIATE DEGREE REQUIREMENTS • 2024-2025

Associate Degrees

To earn an associate degree, a student must fulfill the requirements listed under I, II and III below.

I. Unit and Residency Requirements

60 UNITS of degree applicable coursework are required, with at least a 2.0 grade point average. At least 12 of the units must be earned at Santiago Canyon College and at least 6 of those units must be in courses required for the major unless students are earning an Associate Degree for Transfer (ADT).

II. General Education Requirements

The general education requirements can be met through the completion of one of the following general education plans.

Plan A: Santiago Canyon College General Education Requirements
Plan B: California State University General Education Breadth

Plan C: Intersegmental General Education Transfer Curriculum (IGETC)

Plan 3: Santiago Canyon College General Education for the Associate Degree of Science

The general education requirements may also be satisfied by submitting an official transcript showing completion of a bachelor's degree from a regionally accredited institution. Alternatively, the general education requirements for Plan A may be satisfied by submitting an official transcript showing completion of an associate of arts or associate of science degree from a regionally accredited California institution within a ten-year period. All major requirements must be completed at Santiago Canyon College within ten years of the semester and year the degree was conferred at the regionally accredited California institution. For coursework completed outside the United States, see International Transcripts Evaluation Practices section.

III. Major Requirements

Each degree specifies courses required for the major (a minimum of 18 units). Students must complete these courses with a grade of C or better. For programs of study leading to an associate degree, see SCC Academic Programs. A course may be used to satisfy a major requirement and meet a general education category requirement. Non-degree applicable courses (courses numbered N01-N99) may not be used for graduation requirements. Courses in the student's major field may not be taken under the Pass/No Pass policy except for (a) major courses for an Associate Degree for Transfer (ADT), (b) courses for which Pass/No Pass is the only grading option, and (c) units earned through Credit by Examination (CBE) or assessment. See Pass/No Pass section.

IMPORTANT NOTE: The list of courses will be subject to change year by year, but students are assured that courses taken to meet General Education requirements will be honored if they are approved for the academic year in which they are taken. Courses on this list are approved per academic year beginning Fall 2024 and are valid through Summer 2025.

IV. Proficiencies/Graduation Requirements

The required Plan A proficiencies G1: Mathematics, G2: Reading, and G3: Oral Communication may also be used to meet General Education Requirements in areas A-F where appropriate. Courses taken to meet proficiencies must be completed with a grade of C or better. The required Plan 3 proficiencies F1: Mathematics, F2: Reading may also be used to meet General Education Requirements in areas A-E where appropriate. Courses taken to meet proficiencies and the required Ethnic Studies graduation requirement must be completed with a grade of C or better.

Petition For Graduation and Catalog Rights:

Students must submit a Petition to Graduate to earn an associate degree, certificate, CSU Certification and/or IGETC Certification. Petitions for graduation should be filed in the Admissions and Records Office at Santiago Canyon College when a student has completed at least 30 units or one semester prior to the expected semester to graduate. Students who maintain continuous enrollment have the option to meet the associate degree or certificate requirements as listed in the catalog in effect at the time of first enrollment or any subsequent year.

Continuous enrollment is defined by earning a notation on a transcript (letter grade, W, NP, P or I) for at least one course during any semester, or session, within that academic year. For the purposes of the catalog, an academic year begins with the fall semester and concludes with the summer session. So long as the student remains in attendance in any one semester (fall/spring) or session (summer/ intersession) per academic year at Santa Ana College or Santiago Canyon College, the student has the ability to elect to meet the graduation requirements in effect at the time beginning his/her continuous enrollment or in more recent catalog years.

Significant changes were made to the CSU General Education Breadth Pattern Plan B effective Fall 2021 and IGETC-Plan C effective Fall 2023. However, students who began Santiago Canyon College (or another CCC or CSU) prior to Fall 2021 (CSU) or Fall 2023 (UC) will be permitted to use previous catalog years for CSU GE and IGETC pattern if they maintained the CSU continuous enrollment definition. Please consult a SCC counselor for additional information.

If a student does not earn a note on their transcript during any of the semesters, or sessions, during an academic year, then the student is no longer protected

by previous associate degree and/or certificate requirements and will be held to the additional requirements. The student must then reset their catalog rights clock to use the catalog at the time of readmission or subsequent enrollment.

SANTIAGO CANYON COLLEGE
2024-2025 Associate in Arts General Education Pattern

PLAN A

Table with 4 main sections: Area A: Natural Sciences (3 units), Area B: Social and Behavioral Sciences Select (6 units), Area C: Humanities (3 units), and Area D: Cultural Breadth (3 units). Each section includes course lists and progress tracking columns (Completed, In Progress, Need).

SCC PLAN_A_08_08_24_LA_(SS09-C)

Area F: Lifelong Understanding and Self-Development			
Select ONE course from F1 and ONE course from F2. Only one unit can be counted from F2 to satisfy Area F. 3 UNITS ARE REQUIRED			
F1 Accounting 100; Apprenticeship Child Growth and Development 107*; Child Development 107*; Counseling 101, 113, 116, 118; Interdisciplinary Studies 155; Information Studies 100/100H; Kinesiology 100, 101, 102, 104, 110*, 111; Nutrition & Food 115, 120*; Philosophy 111*; Psychology 160*, 230; Sociology 130, 220* Other Regionally Accredited College Course: _____	Completed	In Progress	Need
F2 Kinesiology 119-283 (excluding 274 and 284) Other Regionally Accredited College Course: _____			
Proficiencies: Must be completed with a grade of "C" or better (SEE BELOW FOR DETAILS)			
G1 Math _____ Other Regionally Accredited College Course: _____ AP/CLEP/IB _____	Completed	In Progress	Need
G2 Reading _____ Other Regionally Accredited College Course: _____			
G3 Oral Communication _____ Other Regionally Accredited College Course: _____			
TOTAL UNITS:			
Important Note			
General Education courses partially fulfill the requirement for an Associate degree from Santiago Canyon College. Please consult with a counselor to develop a Comprehensive Student Educational Plan (CSEP) that includes a course of study (major) and elective courses which are needed to complete the degree. Courses with an asterisk (*) may appear in more than one general education area, but may only be used to meet one general education area only.			
PLAN A			
General Education and Associate Degree Requirements			
General Education Requirements Students must complete 24 units of general education to receive an Associate of Arts degree from Santiago Canyon College. This must include a minimum of one course in General Education Areas A-F. Students completing the Liberal Arts or any other major may use a course to satisfy both a major requirement and a general education category requirement (A-F). Non-degree applicable courses may not be used for graduation requirements. Completion of the California State University general education requirements, CSU-GE/Plan B, or the University of California Intersegmental General Education Transfer Curriculum/Plan C will also fulfill the general education requirements for a Santiago Canyon College Associate Degree. Students may also satisfy the Plan A General Education requirements by submitting an official transcript of a Bachelor's degree from a regional accredited institution, or submitting transcripts that show completion of an Associate's degree from an accredited California institution within 10 years of completing all major requirements at Santiago Canyon College. Official transcripts from all colleges and universities attended must be submitted to SCC Admission and Records Office (E-101).			
Associate Degree Requirements Unit, Residency and Major Requirements Students must complete a minimum of 60 units with an overall grade point average of 2.0. At least 12 units must be earned at Santiago Canyon College and at least 6 units must be completed in courses required for the student's designated major. Students must complete courses for the major (a minimum of 18 units) with a letter grade of "C" or better. A limit of 15 units taken on a pass/no pass basis will be applied toward the degree.			
Required Proficiencies: Mathematics, Reading, Oral Communication May be used to satisfy a General Education requirement; Must be completed with a letter grade of "C" or better.			
Mathematics (graduation petition code G-1) <ol style="list-style-type: none"> Completion of Math 080C or any 3-unit math course numbered above the level of 080C OR Placement into Math 140, 150, 171, or 180 without a recommended support course based on Santiago Canyon College's qualifying profile by the Math placement process or completion of CMPR 112, 120, 121, 131, 154, or Water and Wastewater Technology 137, OR Completion of Algebra II in high school with a "C" or better grade. 			
Reading: Critical Analysis (graduation petition code G-2) <ol style="list-style-type: none"> Completion of READ 102, READ 150, or READ 151 with a grade of "C" or better; OR Completion of ENGL 102/102H, ENGL 103/103H, PHIL 110, or PHIL 111 with a grade of "C" or better. 			
Oral Communication (graduation petition code G-3) Completion of 3 units with a letter grade of "C" or better in one of the following: COMM 100, 100H, 101, 110, 111, or 134			
Catalog Rights Students who attend Santiago Canyon College at least one semester per year (fall, spring, summer) continuously may choose catalog rights on graduation, major, and general education requirements for the first year of attendance or any subsequent year of attendance. If there is a gap in continuous attendance, students must use the catalog requirements for the year of readmission or a year of subsequent continuous enrollment.			
Petition for Graduation Petitions must be filed in the Office of Admission and Records at Santiago Canyon College when a student has completed 30 units one semester before the expected graduation date or by the semester deadline listed in the class schedule or found on the Admissions page at www.sccollege.edu			
What if I have a mixture of quarter and semester unit courses? How is this calculated for CSU or IGETC certification? It will be calculated to the student's advantage per Area, using either semester or quarter units. To convert semester units to quarter units, multiply the semester by 1.5. To convert quarter units to semester units, divide the quarter units by 1.5.			

SANTIAGO CANYON COLLEGE

PLAN B

2024-2025 California State University General Education Breadth Requirements

Area A: English Language Communication and Critical Thinking Select			
@ - Complete ONE course from Area A1, A2, and A3 with a grade of "C-" or better in each course. 3 courses - minimum 9 semester or 12 quarter units required

Area C: Arts, Literature, Philosophy and Foreign Language			
Complete ONE course from Area C1 and Area C2 and a third course from either area. 3 courses - minimum 9 semester or 12 quarter units required			
C1 ARTS (ART, DANCE, MUSIC, THEATRE) Art 100/100H, 101/101H, 102/102H; Cinema Studies 103, 104; Dance 100; English 233A*, 233B*; Music 101/101H, 102, 103, 104; Theatre Arts 100 **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need
C2 HUMANITIES American Sign Language 110, 111, 116, 210; Chinese 101, 102; English 102*/102H*, 231, 232, 233A*, 233B*, 241, 242, 270, 271, 272, 278, 279, 280; French 101, 102, 194, 201, 202; History 101*/101H*, 102*/102H*, 115*, 118*, 132*, 152, 162; Italian 101, 102, 194, 195, 201, 202; Philosophy 106/106H, 108, 112, 115, 118, 120; Spanish 101/101H, 101B ¹ , 102, 110, 111, 194, 195A, 195B, 201, 202 ¹ Both courses (SPAN 101A & 101B) must be completed to meet the C2 requirement. **Other Regionally Accredited College Course: _____ AP/CLEP/IB _____	Completed	In Progress	Need
ADDITIONAL COURSE FROM C1 OR C2: _____ **Other Regionally Accredited College Course: _____ AP/CLEP/IB _____	Completed	In Progress	Need

Area D: Social, Political, and Economic Institutions - 2 courses (minimum 6 semester or 8 quarter units) required # New and returning students BEGINNING SCC Fall 2021 or later - MUST take 6-semester units from any discipline. Students starting SCC BEFORE Fall 2021 and maintaining continuous enrollment - MUST take 9-semester units from at least 2 disciplines.			
Anthropology 100/100H, 103, 104; Child Development 107*, 110; Cinema Studies 105; Communication 120/120H, 225/225H; Counseling 150, 152*; Criminal Justice 101; Economics 101, 102; Education 101; Ethnic Studies 101*, 110*, 120*, 130*, 140*; Gender, Sexuality, and Women's Studies 101, 102, 103; Geography 100/100H, 102/102H, 140; History 101*/101H*, 102*/102H*, 115*, 118*, 120/120H, 121/121H, 124, 126, 127, 132*, 133, 142, 152*, 162*, 240; Interdisciplinary Studies 155; Kinesiology 109; Political Science 101/101H, 110, 150, 201, 220, 221, 222, 230; Psychology 100/100H, 157*, 160*, 170, 180, 190*, 200*, 220, 230*, 240, 250; Sociology 100/100H, 115*, 116, 120, 130*, 150, 220, 240/240H, 286; **Other Regionally Accredited College Course: _____ AP/CLEP/IB _____	Completed	In Progress	Need
ADDITIONAL COURSE FROM D: _____ **Other Regionally Accredited College Course: _____ AP/CLEP/IB _____	Completed	In Progress	Need
ADDITIONAL COURSE FROM D: _____ **Other Regionally Accredited College Course: _____ AP/CLEP/IB _____	Completed	In Progress	Need
Area E: Lifelong Understanding and Self-Development Maximum ONE unit from Area E2 may be used 3 semester or 4 quarter units required			
E1 SELF-DEVELOPMENT COURSES Child Development 107*; Counseling 101, 113, 116, 152*; Interdisciplinary Studies 155*; Kinesiology 100, 101, 102, 104, 110, 111; Nutrition & Food 115; Psychology 157*, 160*, 190*, 230*; Sociology 115*, 130* **Other Regionally Accredited College Course: _____ CLEP _____	Completed	In Progress	Need
E2 SELF-DEVELOPMENT-KINESIOLOGY ACTIVITY COURSES Kinesiology 119-283 **Other Regionally Accredited College Course: _____			
Area F: Ethnic Studies (New and returning students BEGINNING SCC Fall 2021 or later - MUST complete Area F) Students starting SCC BEFORE Fall 2021 and maintaining continuous enrollment - do not need to complete Area F. Instead student MUST complete 9 units in Area D. Select ONE course from Area F 1 course - minimum 3 semester or 4 quarter units required			
F ETHNIC STUDIES COURSES Ethnic Studies 101*, 110*, 120*, 130*, 140* **Other Regionally Accredited College Course: _____ CLEP _____	Completed	In Progress	Need
TOTAL UNITS:			
U.S. History, Constitution, and American Ideals – (CSU Graduation Requirement) All CSU campuses have a U.S. History, Constitution, and American Ideals graduation requirement. It is not a transfer requirement but it can be completed at a California Community College or a CSU campus after transfer. The 6 units used to meet the requirement also meet units in Areas D and F.			
US-1: HISTORICAL DEVELOPMENT OF AMERICAN INSTITUTION AND IDEALS Ethnic Studies 110, 120, 130, 140; History 118, 120, 120H, 121, 121H, 124, 127 **Other Regionally Accredited College Course: _____ AP/CLEP _____	Completed	In Progress	Need
US-2: U.S. CONSTITUTION & GOVERNMENT Political Science 101, 101H **Other Regionally Accredited College Course: _____ AP/CLEP _____			
US-3: CALIFORNIA STATE & LOCAL GOVERNMENT Political Science 101, 101H **Other Regionally Accredited College Course: _____			
Important Information			
<ul style="list-style-type: none"> • *Courses with an asterisk (*) are listed in more than one area but will not be certified in more than one area. • A course with the code (F*) indicates the year a course was approved in the designated general education area. • Certification is not a CSU admission requirement. Requirements are subject to change. Please work with an SCC counselor to develop an educational plan that includes major preparation. • **Courses taken at regionally accredited colleges or universities that are not part of the California Community College system can meet general education requirements on the CSU GE/Plan B. Approval of CSU general education placement is done by the Articulation Officer via the "Pass Along" review process. See SCC Digital Catalog page, "Independent and Out-of-State Colleges and Universities" for more details. • @ - Comparable courses completed at other regionally accredited institutions can be passed along with grades of "C-" (providing the course meets CSU standards) and can be used to meet CSU GE Areas A1, A2, A3, and B4 for CSU admissions. However, if the course double counts as a general education and major requirement, a "C" or better grade is recommended for CSU GE Certification. • # - The two lower division courses in Area D can be taken in the same discipline as long as the student takes a different discipline for their upper division area D course upon transferring. 			
Requirements are subject to change. Please work with an SCC counselor to develop an educational plan that includes major preparation.			

SANTIAGO CANYON COLLEGE

PLAN C

2024-2025 IGETC - Intersegmental General Education Transfer Curriculum

May be used for General Education Certification for the University of California and/or California State University

AREA 1: ENGLISH COMMUNICATION			
UC: 2 courses - 6 semester or 8 quarter units are required. Select ONE each from group A and B. CSU: 3 courses - 9 semester or 12 quarter units are required. Select ONE each from group A, B and C.			
A. ENGLISH COMPOSITION English 100, 101*/101H* **Other Regionally Accredited College Course: _____ AP _____	Completed	In Progress	Need
B. CRITICAL THINKING/COMPOSITION English 102*/102H*, 103*/103H*; Philosophy 110; Reading 151 **Other Regionally Accredited College Course: _____	Completed	In Progress	Need
C. ORAL COMMUNICATION – Required for CSU transfer only Communication 100*/100H*, 101, 110, 111 **Other Regionally Accredited College Course: _____	Completed	In Progress	Need
AREA 2: MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING			
1 course - 3 semester or 4 quarter units are required			
SELECT ONE COURSE: Math 105, 140*, 150*, 171*, 180*/180H*, 180S*, 185, 219*/219H*, 219S*, 280, 287, 290, 295; Sociology 125*/125H* **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need
AREA 3: ARTS AND HUMANITIES			
Select ONE course from the Arts and ONE course from the Humanities. 3 courses - 9 semester or 12 quarter units are required			
A. ARTS: <u>One</u> Course Required Art 100*/100H*, 101*/101H*, 102*/102H*; Cinema Studies 103, 104; Dance 100; Music 101*/101H*, 102, 103, 104; Theatre Arts 100 **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need
B. HUMANITIES: <u>One</u> Course Required American Sign Language 111, 116, 210; Chinese 102; English 102*/102H*, 231, 232, 233A, 233B, 241, 242, 270, 271, 272, 278, 279, 280; French 102, 201, 202; History 101*/101H*, 102*/102H*, 115+, 118+, 132; Italian 102, 201, 202; Philosophy 106*/106H*, 108, 112, 115, 118, 120; Spanish 102, 111, 195A, 195B, 201, 202 **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need
Additional 3A or 3B Course: _____ **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need
AREA 4: SOCIAL AND BEHAVIORAL SCIENCES			
Select TWO courses form at least TWO different disciplines 2 courses - 6 semester or 9 quarter units are required # New and returning students BEGINNING SCC Fall 2023 or later - MUST complete 6-semester units from any discipline. Students enrolled at SCC BEFORE Fall 2023 and maintained continuous enrollment - MUST complete 9-semester units from at least 2 DIFFERENT DISCIPLINES.			
Anthropology 100*/100H*, 103, 104; Child Development 107*; Cinema Studies 105; Communication 225*/225H*; Criminal Justice 101; Economics 101, 102; Education 101; Ethnic Studies 101+, 110+, 120+, 130+, 140+; Gender, Sexuality, and Women Studies 101, 102, 103; Geography 100*/100H*, 102*/102H*, 140; History 101*/101H*+, 102*/102H*+, 115+, 118+, 120*/120H*, 121*/121H*, 124, 126, 127, 133, 142, 152, 162, 240; Interdisciplinary Studies 155; Kinesiology 109; Political Science 101*/101H*, 110, 150, 201, 220, 221, 230; Psychology 100*/100H*, 157*, 160, 170, 180, 190, 200, 220, 230, 240, 250; Sociology 100*/100H*, 115, 116, 120, 130, 150, 220, 240*/240H*, 286; **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need

Additional Area 4 Course: _____ **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need

AREA 5: PHYSICAL AND BIOLOGICAL SCIENCES			
Select ONE course from the Physical Sciences and ONE from the Biological Sciences. One course from group A or group B MUST have a corresponding lab. Lab courses are underlined. 2 courses - 7 semester or 9 quarter units are required			
A. PHYSICAL SCIENCE: <u>One</u> Course Required Astronomy 102, 103, 104; <u>Chemistry 100*</u> , <u>200A*/200AH*</u> , 200B; Earth Science 100, <u>111</u> , 120, <u>121</u> , 130, 160, 200; Geography 101*/101H*, 130*/130H*; <u>Physical Science 100</u> ; <u>Physics 100*</u> , <u>150A*</u> , <u>150B*</u> , <u>250A*</u> , <u>250B*</u> , <u>250C*</u> **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need
B. BIOLOGICAL SCIENCE: <u>One</u> Course Required Anthropology 101; <u>Biology 109*/109H*</u> , <u>115</u> , <u>139</u> , <u>149</u> , <u>177</u> , <u>190</u> , <u>211</u> , <u>213</u> , <u>215</u> , <u>221</u> , <u>229</u> , <u>231</u> , <u>239</u> , <u>249</u> , <u>259</u> , <u>290</u> ; Psychology 200+ **Other Regionally Accredited College Course: _____ AP/IB _____	Completed	In Progress	Need
C. LABORATORY ACTIVITIES: <u>One</u> Lab Course Required Anthropology <u>101L</u> ; Astronomy <u>100L</u> (Lab Activity for ASTR 102, 103 and 104); <u>Biology 109L</u> , <u>109HL</u> , <u>115</u> , <u>139</u> , <u>149</u> , <u>190L</u> , <u>211</u> , <u>213</u> , <u>215</u> , <u>221</u> , <u>229</u> , <u>231</u> , <u>239</u> , <u>249</u> , <u>259</u> , <u>290</u> ; <u>Chemistry 100*</u> , <u>200A*/200AH*</u> , <u>200B</u> ; <u>Earth Science 100L</u> , <u>111</u> , <u>121*</u> ; <u>Geography 101L</u> ; <u>Physical Science 100</u> ; <u>Physics 100*</u> , <u>150A*</u> , <u>150B*</u> , <u>250A*</u> , <u>250B*</u> , <u>250C*</u> **Other Regionally Accredited College Course: _____ AP _____	Completed	In Progress	Need
AREA 6: LANGUAGE OTHER THAN ENGLISH – REQUIRED FOR TRANSFER TO UC ONLY			
Proficiency equals two years of high school study in the same language with “C-” or better grades. Note: This is the only time a “C-” may be used for IGETC certification. OR Select ONE course from the following: American Sign Language 110, 111, 210; Chinese 101, 102; French 101, 102, 201, 202; Italian 101, 102, 201, 202; Spanish 101*/101H*, 101B, 102, 110, 111, 201, 202; **Other Regionally Accredited College Course: _____ AP/IB/SAT IISUB. _____	Completed	In Progress	Need
AREA 7: ETHNIC STUDIES –(New and returning students BEGINNING SCC Fall 2023 or later - MUST complete Area 7)			
<i>Students who enrolled at SCC before Fall 2023 and have maintained continuous enrollment do not need to complete Area 7. Instead, students MUST complete 9 units in Area 4 from 2 different disciplines.</i> Ethnic Studies 101*, 110*, 120*, 130*, 140* **Other Regionally Accredited College Course: _____	Completed	In Progress	Need
TOTAL UNITS:			
U.S. HISTORY, CONSTITUTION, AMERICAN IDEALS – CSU GRADUATION REQUIREMENT ONLY			
UC-bound students should be aware that the UC American Institutions graduation requirement varies at their campus of choice. These courses also meet the units required in Area 4: Social & Behavioral Sciences and Area 7: Ethnic Studies. US 1: Historical Development and American Institution and Ideals (One Course) Ethnic Studies 110, 120, 130, 140; <u>History 118</u> , <u>120*/120H*</u> , <u>121*/121H*</u> , 124, 127 **Other Regionally Accredited College Course: _____ AP _____	Completed	In Progress	Need
US 2: U.S. Constitution and Government AND US 3: California State and Local Government Political Science 101*/101H* **Other Regionally Accredited College Course: _____ AP _____	Completed	In Progress	Need
IMPORTANT INFORMATION AND FOOTNOTES			
All courses on IGETC must have a grade of “C” or better to meet all areas. Grades of C minus (C-) are NOT acceptable on IGETC . Each course acceptable for IGETC must have a minimum 3-semester or 4-quarter unit value. Students wishing to use a course to meet an IGETC requirement at the time of enrollment must ensure the course is on the IGETC list to count for the GE area.			
<ul style="list-style-type: none"> • Courses with an asterisk or plus sign (*) indicate one of the following reasons for credit limitation: <ul style="list-style-type: none"> ❖ No credit given for an introductory course if taken <u>after</u> a more advanced college course (such as sequential courses, Mathematics, Biological Sciences, and language courses) ❖ Credit may be limited for courses with overlapping content ❖ Duplicate credit will not be awarded for both the Honors and regular version of a course ❖ + Courses published in more than one GE area can only meet one GE area, not both, except science courses (5A/5B) and laboratory (5C); and courses that meet the CSU United States History, Constitution, American Ideals graduation requirement, US1, and US2 + US3. • Courses taken at regionally accredited colleges or universities that are not part of the California Community College system can meet general education requirements on the IGETC/Plan C. The Articulation Officer approves IGETC general education placement via the “Pass Along” review process. See the online SCC Catalog for more details. • Certification is not a UC admission requirement. Requirements are subject to change. Please work with an SCC counselor to develop a Student Educational Plan (SEP) with major preparation.			

SANTIAGO CANYON COLLEGE
2024-2025 Associate in Science General Education Pattern

PLAN 3

Table with 4 main sections: Area 1: English Composition, Oral Communication, and Critical Thinking; Area 2: Mathematics and Quantitative Reasoning; Area 3: Arts and Humanities; Area 4: Social and Behavioral Sciences. Each section includes course lists and progress tracking columns (Completed, In Progress, Need).

Area 5: Natural Sciences 3 SEMESTER/4 QUATER UNITS ARE REQUIRED Complete ONE course from either 5A or 5B.			
5A: PHYSICAL SCIENCES Astronomy 102, 103, 104; Chemistry 100*, 200A*/200AH*, 200B; Earth Science 100, 111, 120, 121, 130, 160, 200; Geography 101*/101H*, 130*/130H*; Physics 150A*, 150AC*, 150B*, 150BC*, 250A*, 250B*, 250C*; Water and Wastewater Technology 107 Other Regionally Accredited College Course: _____ AP/CLEP/IB _____	Completed	In Progress	Need
5B: BIOLOGICAL SCIENCES Anthropology 101; Biology 109*/109H*, 111, 115, 139, 149, 190, 211, 213, 215, 221, 229, 231, 239, 241, 249, 259, 290; Psychology 200** Other Regionally Accredited College Course: _____ AP/CLEP/IB _____			
Area 6: Ethnic Studies 3 SEMESTER/4 QUATER UNITS ARE REQUIRED Completed ONE Ethnic Studies course with a "C" or better grade.

TOTAL UNITS:			
Important Notes			
<p>Associate of Science Degree Requirements Units, Residency, and Major Requirements Students must complete 21 units of general education to receive an Associate of Science degree from Santiago Canyon College. This must include at least one course in General Education Areas 1-6. Students completing a STEM or Career Education major may use a course to satisfy a major and general education category requirement (Areas 1-6). Non-degree applicable courses cannot count toward graduation requirements. Students may also satisfy the Plan D General Education requirements by submitting an official transcript of a Bachelor's degree from a regionally accredited institution or submitting transcripts that show completion of an Associate of Science degree from an accredited California institution within 10 years of completing all major requirements at Santiago Canyon College. Official transcripts from all colleges and universities attended must be on file at the SCC Admission and Records Office (E-101). Students must complete a minimum of 60 units with an overall grade point average of 2.0. At least 12 units must be earned at Santiago Canyon College and at least 6 units must be completed in courses required for the student's designated major. Students must complete courses for the major (a minimum of 18 units) with a letter grade of "C" or better. A limit of 14 units taken on a pass/no pass basis can apply toward the degree.</p> <p>Credit Limitations and Other Notations: # Course does not transfer to UC *Courses with an asterisk (*) have a UC credit limitation: (1) No credit given for an introductory course if taken after a more advanced college course; (2) Credit may be limited for courses with overlapping content; (3) No Duplicate credit for both an Honors and regular version of a course. ** Courses with two asterisks (**) may appear in more than one general education area but may only be used to meet one general education area.</p> <p><u>Underlined courses meet the CSU US History, Constitutions, and American Ideals Graduation Requirements.</u> US1: ETHN 110, 120, 130, 140, HIST 118, 120/120H, 121/121H, 124, 127 US2 + US3: POLT 101/101H</p> <p>International coursework may not be used to fulfill the following general education requirements: 1A: English Composition and area 6: Ethnic Studies</p> <p>Majors that can only use Plan D to earn an Associate of Science Degree: STEM Education Programs: Astronomy AS, Biology AS, Biotechnology AS, Chemistry AS, Earth Sciences AS, Kinesiology-Fitness and Active Lifestyle AS, Kinesiology-Health Promotion AS, Kinesiology-Sport Students AS, Land Surveying AS, Pre-Nursing and Allied Health Science AS, Wastewater/Environmental Sanitation AS, Water Distribution AS, Water Treatment AS</p> <p>Career Education Programs: Accounting AS, Apprenticeship Carpentry-Acoustical Installer AS, Apprenticeship Carpentry-Concrete AS, Apprenticeship Carpentry-Drywall Finisher AS, Apprenticeship Carpentry- Drywall Finisher AS, Apprenticeship Carpentry-Drywall/Lather AS, Apprenticeship Carpentry-Finish Carpentry AS, Apprenticeship Carpentry-Framing AS, Apprenticeship Carpentry- Insulator AS, Apprenticeship Carpentry-Millwrighting AS, Apprenticeship Carpentry-Plastering AS, Apprenticeship Carpentry-Pile Driver AS, Apprenticeship Carpentry-Tilt-Up AS, Apprenticeship in Early Childhood AS, Apprenticeship Electricity-Industrial AS, Apprenticeship Electricity-Intelligent Transportation Systems Electrician AS, Apprenticeship Electricity-Sound Installer AS, Apprenticeship Electricity-Sound Technician AS, Apprenticeship Operating Engineers-Construction Safety Inspector AS, Apprenticeship Operating Engineers-Heavy Duty Repairer AS, Apprenticeship Operating Engineers-Heavy Equipment/Landscape Operator Engineer AS, Apprenticeship Operating Engineers-Plant Equipment/Rock, Sand and Gravel AS, Apprenticeship Operating Engineers-Special Inspector AS, Apprenticeship Power Lineman AS, Apprenticeship Surveying-Chainman AS, Apprenticeship Surveying- Chief of Party AS, Business Administration AS, Business Management AS, Code Enforcement and Compliance AS, Computer Information Systems AS, Computer Science AS, Construction Inspection AS, Construction Management AS, Cosmetology AS, Data Science AS, Entrepreneurship AS, Environmental Management AS, Gemology AS, General Electrician AS, General Management AS, General Marketing AS, Graphic Design AS, Maintenance Electrician AS, Maintenance Mechanic AS, Public Administration AS, Real Estate AS, Social Media AS</p> <p>Liberal Arts: Mathematics and Sciences AS</p>			

TRANSFER TO OTHER COLLEGES

Transfer Success Center

The Transfer Success Center provides resources and services to assist students in researching, planning, and completing their transfer to a four-year college or university. The Transfer Success Center coordinates various events throughout the year, including tours of universities, university representative advising appointments, transfer fairs, and a variety of workshops to help students with each step in the transfer process. In addition, the Transfer Success Center provides many useful resources such as; updates via social media and e-mail, computers for use in research and completing applications, a comprehensive website, and expert advice from trained specialists and counselors. For more information, stop by D-104-N, call (714) 628-4865, visit www.scccollege.edu/transfer, and follow us @SCCTransfer on Facebook, Twitter, and Instagram.

Transferability of Courses

This section of the catalog is designed to help students plan an academic program for transfer to a four-year college or university. It includes information about the transfer process and general education requirements. Since transfer requirements change frequently, students should meet with a counselor regularly to plan an academic program that will assure a smooth transition to the transfer institution of their choice. Four-year colleges and universities often make changes in their requirements. The requirements listed in this section were updated at the time of publication; however, changes may have occurred after publication. Current transfer information and official articulation agreements are available in the Transfer Success Center and the Counseling Center at Santiago Canyon College.

Articulation agreements are also available at www.assist.org. There are four segments of higher education in California.

the University of California (UC) system - 10 campuses

the California State University (CSU) system - 23 campuses

independent colleges and universities - 200 plus campuses

California community colleges - 116 campuses
Santiago Canyon College provides the first two years of a four-year college or university program. Santiago Canyon College offers courses to meet general education, major or elective requirements. Students can transfer a maximum of 70 units to a UC or CSU campus. All courses numbered 100 or above will transfer to a CALIFORNIA STATE UNIVERSITY campus. Courses that are transferable to the UNIVERSITY OF CALIFORNIA will be designated on the UC Transferable Course Agreement. Some of the courses which are transferable to the University of California have credit limitations. Check the UC Transferable Course Agreement to review these limitations. This list is available in the Counseling Center, Transfer Success Center, in this catalog, and at www.assist.org. Independent and out-of-state colleges and universities usually accept most courses that are transferable to the University of California and many of the courses

that are transferable to the California State University. Begin a Transfer Major at Santiago Canyon College To obtain a bachelor's degree, students need to select a course of study in which to specialize. This course of study is called a major. Almost every major requires that certain courses be completed during the first and/ or second year of college. These are called Lower-Division Major Requirements. Many of these requirements can be completed at SCC prior to transferring. (The highly specific courses in the major are called Upper-Division Requirements and these are completed after transfer). In developing a program for transfer, the first consideration in most cases should be given to completing the courses required in the transfer major or as preparation for the major. Course Requirements for Transfer Students A student can transfer from Santiago Canyon College to a four-year college or university as a junior without loss of time or credits by completing the following: Lower-Division Major Requirements. Most majors at four-year colleges and universities require the completion of one or more lower-division courses as preparation for the upper-division course work in a major. Santiago Canyon College offers courses to meet the lower-division requirements for most majors at four-year colleges and universities. Information about many specific major requirements is available in the Counseling and Transfer Success Center, or at www.assist.org. Students should meet with a counselor for additional information about major programs and requirements.

General Education Requirements. These are the courses required of students to obtain a degree regardless of major. They are designed to provide students with the knowledge, skills, and understanding which will enable them to function as intelligent and creative members of the community. Courses in writing, critical thinking, mathematics, sciences, arts and humanities, and the social sciences are included in general education.

These are courses of choice taken in addition to courses for the major and general education requirements.

Students enrolled in a transfer program can complete most of their general education and lower-division major requirements before transferring. Students who are planning to transfer to a four-year college or university should meet with a Santiago Canyon College counselor in the Counseling Center to develop a Comprehensive Student Education Plan which will identify the courses needed to transfer. Transfer students may also want to complete an associate degree. While not a requirement for transfer, the associate degree is generally recommended, and proper planning should enable students to satisfy both requirements for graduation from SCC and for transfer.

California State University

The California State University has 23 campuses located throughout the state. While each campus within the system has its own unique geographic and curricular character, all campuses offer undergraduate

and graduate instruction for professional and occupational goals as well as a broad liberal education. The CSU offers more than 1,800 bachelor's and master's degrees in some 240 subject areas. Campuses are located at Bakersfield, Channel Islands, Chico, Dominguez Hills, East Bay, Fresno, Fullerton, Hayward, Humboldt, (Cal Poly), Long Beach, Los Angeles, Monterey Bay, Northridge, Pomona (Cal Poly), Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo (Cal Poly), San Marcos, Sonoma, Stanislaus, and Vallejo (California Maritime). To obtain a bachelor's degree from the CSU system, a student must complete a minimum of 120-semester units (180 quarter units). A maximum of 70 units of transferable credit will be accepted for courses completed at a community college. Prospective CSU transfer students should consult a counselor regarding CSU admission, as requirements vary depending upon the student's status at the time of high school graduation. California State University Admissions Requirements for Transfer Students

Upper-Division Transfer

Students are eligible for upper-division transfer if they complete at least 60 transferable semester units (90 quarter units) and:

- Have an overall college grade point average of 2.0 (C) or better (2.4 for non-California residents) in all transferable units attempted. High demand majors and campuses a grade point average of 2.0 may not be sufficient to be admitted.
- Be in good standing at the last college or university attended ("good standing" means eligible to re-enroll at the last college or university attended).
- Have completed 10 general education courses (30 semester units or 45 quarter units) of basic skills courses, with a grade of C- or better, and, specifically, four courses completed in the following general education areas:
- A1 – Oral Communication, A2 – Written Communication, A3 – Critical Thinking, and B4 – Mathematics/Quantitative Reasoning.
- Intersegmental General Education Transfer Curriculum (IGETC) for CSU: IA – Written Communication, IB – Critical Thinking, IC – Critical Thinking, and 2 – Mathematical Concept and Quantitative Reasoning If the CSU GE areas A1, A2, A3, and B4 courses double-count as a major and general education requirement, it is highly recommended courses are completed with a grade of C or better for certification.
- Will complete additional general education units that comprise the total CSU general education pattern of 39 units.

Note: Some CSU campuses may impose a higher GPA admission standard based on impacted major or impacted campus status. **Lower-Division Transfer** A student may be admitted as a lower-division transfer (completion of less than 60 semester units) if the following conditions are met:

- Have completed "a-g" course requirements in high school;
- Have graduated from high school (received a

TRANSFER TO OTHER COLLEGES

high school diploma or General Educational Development, or GED, certificate); meet the Eligibility Index required of a first-time freshman;

- Have achieved an overall college GPA of at least 2.00 (This GPA is calculated using all transfer units attempted. In case of high-demand majors and campuses, a GPA of 2.00 may not be sufficient to be admitted);
- Be in good standing at the last college or university you attended. (In simple terms, "good standing" means you are eligible to re-enroll at your last college or university); and
- Have completed, with a grade of C- or better, a course in GE Section A2 in written communication and a course in GE section B4 in mathematics or quantitative reasoning.

General Education Requirements for California State University

To earn a bachelor's degree from the California State University, each student must complete a program of general education. Santiago Canyon College offers general education programs which will enable students to meet the lower-division general education requirements for all CSU campuses prior to transfer. Students can complete either the CSU General Education Breadth Requirements (Plan B) or the Intersegmental General Education Transfer Curriculum (IGETC/Plan C) for CSU.

Plan B CSU General Education Breadth Requirements

For specific courses which meet these requirements see the Educational Plans section of the online catalog. Students who complete Plan B are eligible to receive a Certificate of Achievement in General Education (CSU).

A. COMMUNICATION IN THE ENGLISH LANGUAGE AND CRITICAL THINKING – 9 units

B. THE PHYSICAL UNIVERSE AND ITS LIFE FORMS – 9 units

C. ARTS, LITERATURE, PHILOSOPHY, FOREIGN LANGUAGE – 9 units

D. SOCIAL POLITICAL AND ECONOMIC INSTITUTIONS AND BEHAVIOR; HISTORICAL BACKGROUND – 6 units

New and returning students BEGINNING Fall 2021 or later – MUST take 6-semester units from any discipline.

Students enrolled at SCC BEFORE Fall 2021 and have maintained continuous enrollment – MUST take 9-semester units from at least 2 different disciplines.

E. LIFELONG UNDERSTANDING AND SELF DEVELOPMENT – 3 units

F. ETHNIC STUDIES – 3 units

New and returning students Beginning Fall 2021 or later – MUST complete Area F

Students starting SCC BEFORE Fall 2021 and have maintained continuous enrollment – do not need to complete Area F. Instead, students MUST complete Area D.

All California State Universities have a graduation requirement in U.S. History, Constitution, and American Ideals. This requirement can be satisfied

before or after transfer to a CSU by taking coursework in three areas

US-1, US-2, and US-3. A student must take one course from each of the three areas. A student may use the same course to satisfy more than one area (US-1, US-2, US-3) if applicable. Courses meeting this requirement may also be counted toward certification in general education.

US-1: Historical Development of American Institution and Ideals:

Ethnic Studies 110, 120, 130, 140, History 118, 120, 120H, 121, 121H, 124, 127

US-2: U.S. Constitution & Government:

Political Science 101, 101H

US-3: California State & Local Government:

Political Science 101, 101H

Independent and Out-of-State Colleges and Universities

In addition to state-supported colleges and universities in California, there are many outstanding independent institutions in the state. There are also many colleges, both private and public, located throughout the United States to which Santiago Canyon College students can transfer. Each of these institutions has its own unique requirements for admission. In order to determine eligibility, students should visit the website of the university to view admission requirements or obtain a copy of the university catalog.

Santiago Canyon College has articulated general education requirements and major preparation courses with a number of independent institutions such as Chapman University, The University of San Diego, and the University of Southern California. Students transferring to independent or out-of-state institutions should meet with a Santiago Canyon College counselor in order to determine appropriate general education and major preparation requirements.

California's fully accredited independent colleges and universities provide many options at the undergraduate, graduate, and professional levels for students planning to continue their education beyond the community college. For a complete listing of independent colleges and universities in California, please visit www.aiccu.edu or the Santiago Canyon College transfer website at www.sccollege.edu/transfer.

Pass Along Policy and Procedures

Pass Along permits a student to use courses taken at colleges or universities that are not part of the California Community College system to meet general education requirements on the CSU GE/Plan B or IGETC/Plan C education plan. All completed coursework must come from a regionally accredited institution, meaning that an institution must be accredited by one of the six U.S. regional accrediting associations. The six regional accrediting associations are:

- Middle State Commission on Higher Education (MSCHE)
- New England Association of Schools and Colleges, Commission on Institutions of Higher Education (NEASC-CHE)

- Higher Learning Commission (HLC)
- Northwest Commission on Colleges and Universities (NWCCU)
- Southern Association of Colleges and Schools, Commission on Colleges (SACSCOC)
- Accrediting Commission for Community and Junior Colleges - Western Association of Schools and Colleges (ACCJC-WASC)
- WASC Senior College and University Commission (WSCUC)

Pass Along petitions are reviewed in fall and spring only and after the second week of school. To start the Pass Along process students must:

1. Be currently enrolled and actively attending Santiago Canyon College.
2. Complete twelve units of Santiago Canyon College coursework.
3. Submit official transcripts from all institutions attended to the SCC Admissions Office in E-101. An electronic transcript is considered official only if the electronic transcript is sent directly to the SCC Admissions Office. Electronic transcripts sent directly to the student are not considered official transcripts. Students are advised to obtain an extra set of transcripts for their personal files.
4. Make a copy of the course description for each course the student wants a pass-along review. The course description copy must be from the catalog year the student completed the course. If a course cannot be located, the student must contact the institution for the appropriate course description. For IGETC English pass along approval of Area IA-English Composition and/or Area IB-Critical Thinking a course syllabus of the English course must be provided. IGETC English Pass Along Petitions are reviewed by the English Department between the first through the sixth week of the fall and spring semester only.
5. Make an appointment with an SCC Counselor. Bring copies of the course descriptions/syllabi and official transcripts to the appointment. The counselor will assist the student in filling out the "Pass Along Petition." Courses submitted for IGETC pass-along approval must be completed with a grade of "C" or better. No "C-" grade can be approved for pass along on IGETC. If the CSU GE area A1, A2, A3, or B4 course double-counts for GE and a major requirement, it is recommended these courses be completed with a grade of "C" or better for certification. No "D-" grade can be approved for pass along on CSU GE Breadth (Plan B).
6. Completed Pass Along petitions are submitted to the Articulation Officer for review and take two to three weeks to process. Students will be notified by mail once a decision is made. Courses from international institutions cannot be considered for Pass Along.

TRANSFER TO OTHER COLLEGES

University of California

The University of California has ten campuses located throughout the state. Each campus within the system has its own unique geographic and academic character. The University offers bachelor's, master's, and doctoral degrees in a variety of subject areas. Campuses of the University are located at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco (Schools of Medicine, Dentistry and Pharmacy), Santa Barbara, and Santa Cruz.

To obtain a baccalaureate degree from the UC system, a student must complete a minimum of 120-semester units (180 quarter units). A maximum of 70 units of transferable credit will be accepted for courses completed at a community college.

University of California Admissions Requirements for Transfer Students

Upper-Division Transfer

The vast majority of transfer students enter the University of California at the junior level from a community college. To be eligible for admission as a junior or upper-division transfer student, a student must fulfill both of the following criteria:

1. Complete 60 semester or 90 quarter units of transferable college credit with a grade point average of at least 2.4 (2.8 for nonresidents). No more than 14-semester units (21 quarter) may be taken Pass/Not Pass, and
2. Complete the following seven-course pattern requirements and earn a grade of "C" or better in each course: or a Pass (P) grade if Pass is equivalent to a C (2.0):
 - Two transferable college courses (3 semester or 4-5 quarter units each) in English composition; and
 - One transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning; and
 - Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: arts and humanities, social and behavioral sciences, and physical and biological sciences.

Students who satisfy the Intersegmental General Education Transfer Curriculum (IGETC/Plan C) prior to transferring to UC will satisfy section 2 of the transfer admission requirements listed above.

Lower-Division Transfer

The University of California admits a limited number of transfer students before they reach junior or upper-division standing if they have met specific requirements. Lower-division transfer admission decisions vary by UC campus, and it is not a common policy for many UC campuses. If a student were to be admitted as a lower-division transfer at a UC campus the following criteria would apply:

If a student was eligible for admission to the University of California when he or she graduated from high

school- meaning the student fulfilled the Subject, Scholarship, and Examination Requirements, or was identified by the University of California as eligible in the local context and completed the Subject examination requirements in the senior year, the student is eligible for transfer if he or she has a C (2.0) average in transferable college work. If a student met the Scholarship Requirement in high school but did not satisfy the Subject requirement, the student must take transferable college courses in the missing subjects, earn a "C" or better in each required course and maintain an overall 2.0 GPA in all transferable coursework to be eligible to transfer.

NOTE: UC campuses may impose a higher GPA admission standard; please see a Santiago Canyon College counselor for more information.

General Education Requirements for the University of California

To earn a bachelor's degree from the University of California, each student must complete a program of general education. To meet the general education requirements of the University, students can complete either the Intersegmental General Education Transfer Curriculum (IGETC/Plan C) or individual campus general education requirements. Santiago Canyon College strongly recommends that students follow the IGETC rather than the individual campus general education/breadth requirements because this will usually provide more flexibility when applying for transfer. However, some UC campuses may discourage or restrict the use of IGETC for particular majors, especially majors that have many lower-division requirements that can be met at the community college. Students who began at a UC campus and who intend to transfer back to the same campus cannot use IGETC. Students who enrolled at a UC campus, leave that campus and attend Santiago Canyon College, and plan on transferring to a different UC campus may use the IGETC. Students are strongly encouraged to work with a Santiago Canyon College Counselor to develop an education plan that incorporates major preparation and appropriate general education requirements **Plan C Intersegmental General Education Transfer Curriculum (IGETC) for CSU And UC**

For specific courses which meet these requirements see the Educational Plan section of the online catalog.

1. ENGLISH COMMUNICATION – 9 units (CSU)
ENGLISH COMMUNICATION – 6 units (UC)
2. MATHEMATICAL CONCEPTS – 3 units (CSU and UC)
3. ARTS AND HUMANITIES – 9 units (CSU and UC)
4. SOCIAL AND BEHAVIORAL SCIENCE – 6 units (CSU and UC)
5. PHYSICAL AND BIOLOGICAL SCIENCES – 7-9 units (CSU and UC)
6. LANGUAGE OTHER THAN ENGLISH – 0-5 units (UC)
7. ETHNIC STUDIES – 3 units (CSU and UC) – New requirement for new and returning students starting SCC Fall 2023.

IGETC includes the California State University graduation requirement in US History, Constitution, and American Ideals for CSU bound students. Completion of the courses listed below meets the requirement, for further information or clarity it is recommended students meet with a counselor. U.S. HISTORY, CONSTITUTION, AMERICAN IDEALS – CSU GRADUATION REQUIREMENT ONLY
Not a CSU transfer requirement, but may be completed prior to transfer.

US1: Historical Development and American Institution and Ideals (one course)

Ethnic Studies 110, 120, 130, 140 (units can be used to meet Area 7: Ethnic Studies)

OR

History 118, 120*/120H*, 121*/121H*, 124, 127 (units can be used to meet Area 4: Social & Behavioral Sciences)

US 2: U.S. Constitution and Government

AND

US 3: California State and Local Government

Political Science 101/101H (units can be used to meet Area 4: Social & Behavioral Sciences)
Students following the IGETC pattern (Plan C) are strongly advised to complete all requirements prior to transfer. Completion of the pattern allows the student to petition for IGETC certification. IGETC certification means the student has met all lower-division general education requirements. Students who complete Plan C are eligible to receive a Certificate of Achievement in General Education (IGETC).

TRANSFER TO OTHER COLLEGES

Certification of General Education for Transfer to UC or CSU

- Upon a student's request, Santiago Canyon College will verify the completion of lower-division general education requirements for transfer to the University of California or the California State University. Students should request IGETC/Plan C or CSU GE/Plan B certification during the semester prior to the last term of attendance. Students who transfer without certification will have to meet the general education requirements of the specific UC or CSU campus to which they are transferring. Meeting these requirements usually necessitates taking additional courses.
- Students who have taken courses at other colleges can have these courses approved in the certification process. Using the Intersegmental General Education Transfer Curriculum or CSU General Education Breadth, Santiago Canyon College will certify (guarantee) courses taken at other California community colleges in the areas designated by the offering college. Courses taken at independent or out-of-state colleges/universities that are regionally accredited (which do not maintain a CSU GE Breadth or IGETC certification list) may be approved for certification via a "Pass Along Petition" and after a review by the Santiago Canyon College Articulation Officer. Courses are passed along for IGETC or CSU GE Breadth if they are equivalent to courses on the Santiago Canyon College or another California community college's IGETC or CSU GE Breadth pattern. Pass Along Petitions are available at the Santiago Canyon College Counseling Department and must be accompanied by the appropriate documentation.
- Students must make an appointment with a Santiago Canyon College counselor before submitting a Pass Along Petition.
- Courses from foreign institutions cannot be used in the certification process.
- Students should request IGETC certification from the last California Community College they attend prior to transferring to UC or CSU.
- Students requesting CSU GE Breadth certification must complete at least 12 units at Santiago Canyon College.
- IGETC - Partial Certification
- Partial certification is permitted if a student has completed all but two (2) courses on the IGETC/Plan C pattern. Specific rules apply to how and when the remaining courses must be completed after transfer. Please see a Santiago Canyon College counselor for guidelines.

NOTE; Transcripts from all colleges attended must be submitted to the Admission Office prior to requesting certification.

ASSOCIATE IN ARTS FOR TRANSFER (A.A.-T) OR ASSOCIATE IN SCIENCE FOR TRANSFER (A.S.-T) DEGREE REQUIREMENTS • 2024-2025

Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T) Reciprocity, Course Substitution, External Exams, and Credit by Exam Policy and Procedures

Students who have taken courses from a California Community College, a regionally accredited institution, completed an external exam such as AP, CLEP (may be used on CSU GE-Plan B only), or IB or Credit by Exam may be granted credit towards an AA-T/AS-T general education and/or major requirement. Courses will be reviewed by one of the following methods:

General Education Courses

- General education courses taken at other California Community Colleges are granted course-to-course reciprocity providing the course in question appears on the CSU-Plan B or IGETC-Plan C at the time the student completed the course.
- Non-California Community College general education courses are reviewed by the Articulation Officer via the pass-along process in accordance with the CSU-Plan B or IGETC-Plan C standards.
- Students who completed an external examination such as AP, CLEP or IB are granted credit towards general education consistent with CSU GE and IGETC policies.
- Santiago Canyon College Credit by Exam may be granted for general education only if a course is eligible and listed in the Credit by Exam section of the SCC Catalog.

Major Requirement Courses

- A major requirement with a C-ID number taken at another California Community College (CCC) is granted course-to-course reciprocity and meets the same designated C-ID major requirement found in the SCC's AA-T/AS-T.
- A major requirement completed at another California Community College that is approved as part of its AA-T or AS-T, will be applied to the corresponding Santiago Canyon College AA-T/AS-T area. Courses completed at other CCCs must be part of their AA-T/AS-T at the time the student completed the course, if a course is not part of the AA-T/AS-T then the course must be reviewed by the SCC discipline faculty in accordance with the C-ID descriptor. Courses completed at other CCCs prior to the AA-T/AS-T approval, will be "grandfathered".
- A major requirement without a C-ID number taken at another California Community College, where an AA-T/AS-T does not exist, is reviewed by the SCC discipline faculty in accordance with the C-ID descriptor.
- A non-California Community College major requirement taken at a regionally accredited

institution is reviewed by the SCC discipline faculty in accordance with the C-ID descriptor and if comparable, course-to-course substitution is granted.

- Students who completed an external examination such as AP, CLEP or IB are granted credit towards major requirements where exam-to-course comparability exists; if exam-to-course comparability does not exist, the discipline faculty reviews the external exam and determines course comparability if a course is offered (Students should be aware that external exam credit may be awarded/ counted differently by the transfer institution).
- Santiago Canyon College Credit by Exam may be granted for major requirements only if a course is eligible and listed in the Credit by Exam section of the SCC Catalog

It is strongly recommended students make an appointment with a Santiago Canyon College counselor to discuss appropriate credit placement.

UNIVERSITY OF CALIFORNIA AND SANTIAGO CANYON COLLEGE TRANSFER COURSE AGREEMENT 2024-2025

Santiago Canyon College's UC Transfer Course Agreement is published in ASSIST. The most up-to-date list is for the 2023-2024 academic year. The 2024-2025 SCC UCTCA is expected to be published by the UC Office of the President in October 2024. Please meet with your counselor to discuss which SCC courses are transferable to UC.

Santiago Canyon College Notes:

Santiago Canyon College grants unit credit for Advanced Placement (AP) Exams with a score of three, four, or five (3, 4, or 5). Official AP score reports/transcripts must be emailed directly from the College Board to SCC's Admissions & Records Office, admissions@scccollege.edu

It is strongly advised students meet with an SCC counselor, as course credit and units granted for local SCC Associate of Arts or Associate of Science degrees may differ from course credit and units granted by a transfer institution. Credit granted for AP, CLEP, or IB cannot be used to meet Santiago Canyon College's 12-unit residency requirement for Associate degrees. ***It is recommended that students not enroll in a college course comparable to the AP Exam, as credit limitations may be applied by SCC, CSU, and/or a UC campus.***

California State University (CSU) Notes:

Advanced Placement (AP) standardized exams measure how well a student has mastered the content and skills of AP courses. A student must score three or higher on the AP exams to earn college credit. Each campus in the CSU system determines how external examinations will be applied toward credit in the major. For students not already CSU-GE certified, each CSU campus will determine how to apply credit for such exams toward the local degree requirement.

1. The AP exams listed above may be incorporated into the CSU General Education Breadth requirements certification. All CSU campuses will accept the minimum units shown if the examination is included in full or subject area certification; individual campuses may choose to accept more units than those specified towards completion of general education breadth requirements.
2. These units count toward eligibility for admission. The units may not all apply toward certification of the corresponding GE-Breadth area. See Executive Orders 1036 and 1100 for details.

∞ - If a student passes more than one AP Physics exam, only 6 units of credit will apply to the baccalaureate degree and only 4 units may be used for the CSU GE certification.

**SANTIAGO CANYON COLLEGE – ADVANCED PLACEMENT GUIDE AND POLICIES – 2024-2025**

(Revised 06/24/24_LA)

The CSU policy for AP can be found at:

<http://www.calstate.edu/transfer/requirements/advanceplacementapcourses.shtml>.

University of California (UC) Notes

Student should be advised that college courses taken before or after attending UC may duplicate AP, IB, and/or A-Level examinations. Additionally, exams may duplicate each other (for example, an AP or IB exam in the same subject area). ***If a student does duplicate an exam with another exam of the same subject content, and/or an exam with a college course, we will award credit only once.***

1. Each AP exam may be applied to one IGETC area, as satisfying one course requirement, with the exception of area 6A – Language Other Than English (LOTE). Exams maybe used regardless of when the exam was taken
2. The final column reflects what the University of California will award per AP exam for admission to any UC campus.

† - Students who take the Calculus BC exam and earn a subscore of 3 or higher on the Calculus AB portion will receive 2.6 semester units for the Calculus AB exam, even if the student did not receive a score of 3 or higher on the Calculus BC examination (note that the maximum credit awarded for both exams is 5.6 semester units).

Δ - AP Exams Environmental Science, Physics C: Mechanics and Physics C: Electricity/Magnetism – UC applies 3 semester/4 quarter units toward general education area 5A + 5C, therefore, students who complete these exams will be required to complete an additional 4 semester or 5 quarter units to satisfy the minimum required 7 semester or 9 quarter units in Area 5 for IGETC certification.

‡ - The AP Government and Politics: United States and History: United States examinations partially fulfill the CSU US History, Constitution, and American Ideals graduation requirement but can be used toward the requirement. (Please note that no AP exam fulfills the California State and Local Government portion, US-3) see a counselor for more information.

The UC Policy for AP credit can be found at:

<http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/index.html>.

Advisory to Pre-med Students: Many medical schools do not accept AP credit in lieu of college level course credit to fulfill admissions requirements. Students interested in medical school should consult directly with the medical schools they are considering for information on their credit policies. Students may also want to refer to www.aamc.org or www.aacom.org.

<https://www.medschoolcoach.com/what-medical-schools-accept-ap-credits-database/>

SANTIAGO CANYON COLLEGE – COLLEGE-LEVEL EXAMINATION PROGRAM (CLEP) PLACEMENT GUIDE AND POLICIES – 2024-2025 (Revised 06/24/24-LA)

Santiago Canyon College Notes:

Santiago Canyon College grants unit credit for College Level Examination Program (CLEP) Exams with the scores outline in the guide. Official CLEP score reports/transcript must be emailed directly from College Board (<https://clep.collegeboard.org/scores>) to SCC's Admissions & Records Office, admissions@sccollege.edu

It is strongly advised students meet with an SCC counselor, as course credit and units granted for local SCC Associate of Arts or Associate of Science degrees may differ from course credit and units granted by a transfer institution. Credit granted for AP, CLEP, or IB cannot be used to meet Santiago Canyon College 12-unit residency requirement for the Associate degrees. ***It is recommended not to enroll in a college course comparable to a CLEP Exam as credit limitation may be applied by SCC or the CSU system. UC does not grant credit for CLEP exams.***

California State University (CSU)

1. The CLEP exams may be incorporated into certification of CSU General Education-Breadth requirements. All CSU campuses will accept the minimum units shown if the examination is included in full or subject area certification. Individual CSU campuses may choose to accept more units than those specified towards completion of general education requirements.
2. The CSU Minimum Semester Admission unit column reflects what each campus system-wide will minimally accept toward CSU admission.

† - If a student passes more than one CLEP exam in the same language other than English (e.g. two exams in French), then only one examination may be applied to the SCC Associate degree or CSU baccalaureate degree. For each of these tests a passing score of 50 earns 6 units of elective credit, higher scores earn more units of placement in Area C for the Associate degree or Area C2 for the CSU GE breadth requirement.

Δ - This History US I and History US 2 CLEP exams partially fulfills the CSU American Institutions graduation requirement but can be used toward the CSU US1 requirement.

SANTIAGO CANYON COLLEGE – INTERNATIONAL BACCALAUREATE (IB) EXAMINATION GUIDE AND POLICIES – 2024-2025 (Revised 06/24/24-LA)

Santiago Canyon College Notes:

Santiago Canyon College grants unit credit for International Baccalaureate (IB) Exams with the scores outlined in the guide. Official IB score reports/transcripts must be emailed directly from the International Baccalaureate organization (<https://www.ibo.org/programmes/diploma-programme/assessment-and-exams/getting-results/>) to SCC's Admissions & Records Office, admissions@sccollege.edu

It is strongly advised students meet with an SCC counselor, as course credit and units granted for local SCC Associate of Arts or Associate of Science degrees may differ from course credit and units granted by a transfer institution. Credit granted for AP, CLEP, or IB cannot be used to meet Santiago Canyon College's 12-unit residency requirement for Associate degrees. *It is recommended that students do not enroll in a college course comparable to an IB Exam, as credit limitations may be applied by SCC, CSU, or a UC Campus.*

California State University (CSU) Notes:

1. The IB exams listed above may be incorporated into the CSU General Education-Breadth requirements certification. All CSU campuses will accept the minimum units shown if the examination is included in full or subject area certification; individual CSU campuses may accept more units than those specified for completing general education requirements.
2. The column reflects the CSU system-wide minimum units awarded per exam for CSU admission eligibility. Some CSU campuses may award more than the minimum listed in the column; consult each CSU catalog for further information.

∞ - The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-natives. Language A1 and A2 are advanced courses in literature for native and non-native speakers, respectively.

If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered "Level I" and earns six units of baccalaureate credit; the higher score listed for each test is considered "Level II" and earns additional units of credit and placement in Area C2 of GE Breadth, as noted.

Δ - CSU accepts a score of 4 or higher for each of these exams.

University of California (UC) Notes:

1. The column lists how each IB exam may be applied to one IGETC area as satisfying one-course requirement, with the exception of area 6A – Language Other Than English (LOTE). Exams may be used regardless of when the exam was taken.
2. This column reflects the University of California system-wide minimum units awarded per IB exam for UC admissions eligibility.

The International Baccalaureate (IB) Organization awards a diploma or a certificate for individual IB exams. UC awards students who complete the IB diploma with a score of 30 or above with 6 quarter (4 semester) units toward their UC degree, in addition to the units earned for individual Higher-Level exams (usually 24 quarter/16 semester units). Students who receive IB certificates with scores of 5, 6 or 7 on Higher-Level exams will receive 8 quarter (5.3 semester) units.

Designated examinations are awarded elective units which may be applied to UC graduation requirements for specific subjects and/or for general education/breadth requirements, as determined by each campus.

The units granted for IB exams are not counted toward the maximum number of credits required for declaration of a major or the maximum number of units a student may accumulate prior to graduation. Students who enter the UC with IB credit do not have to declare a major earlier than other students, nor are they required to graduate earlier.

SCC ACADEMIC PROGRAMS

Departments are listed alphabetically as identified with a program heading. Faculty contact, program information, awards and courses are listed under each program. ASSOCIATE DEGREES AND CERTIFICATES Santiago Canyon College offers a variety of traditional degrees and certificates. Associate degrees are programs of study within a specific major and require general education. Certificates of achievement are programs of study in a particular academic or occupational area and exclude general education. All degrees and certificates of achievement have a State-approved program control number in parentheses which will appear on student transcripts. Certificates of proficiency are specialized vocational areas, excluding general education, which do not appear on student transcripts. Programs which lead to transfer to universities and four-year colleges do not necessarily reflect the transfer requirements of specific schools. In planning a program for transfer, it should be noted that the transfer requirements for both the major and general education vary widely. Hence it is recommended that the student review the catalog of the school of transfer and consult with the counseling staff at Santiago Canyon College in planning transfer objectives. ASSOCIATE DEGREES FOR TRANSFER California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses. Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units. To view the most current list of Santiago Canyon College's Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to www.sccollege.edu/transferdegrees.

Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

California State University (CSU) or University of California (CSU/UC): Identifies courses that are transferable to California State University (CSU) or University of California (UC). A credit limitation may exist for some courses that transfer to UC. See page 46 for additional information. **Course Identification Numbering System (C-ID):** Identifies a lower-division, transferable course commonly articulated between California Community Colleges and four-year universities.

COURSE DESCRIPTIONS

Course descriptions include the course discipline, number, title, units, class hours, requisites, and any applicable additional information such as cross-listings, C-ID, field trips, material fees, open-entry/open-exit, pass/no pass, repeatability, transferability, and credit by exam.

Course Number

100-299: Courses numbered 100-299 are transferable to California State University (CSU) or the University of California (UC) and are applicable to the associate degree. See Transferability of Courses on page 46 for additional information.

Honors: Courses numbered 100 and above followed by the letter "H" are offered as part of the Santiago Canyon College Honors Program.

001-099: Courses numbered 001-099 are not transferable to California State University (CSU) or the University of California (UC). They are applicable to the associate degree unless the course number is preceded by the letter "N".

N01-N99: Courses numbered N01-N99 are not transferable to California State University (CSU) or the University of California (UC) and are not applicable to the associate degree. These courses count toward the course load.

The college reserves the right to cancel scheduled classes.

COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent of course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course numbers. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example, COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Santiago Canyon College counselors can always help students interpret or explain this information.

CONTINUING EDUCATION INFORMATION

Mission Statement

To offer quality, tuition-free, noncredit classes, programs and services that enable students to maximize their potential by acquiring the necessary academic, technical, and workforce skills to reach their personal, educational, and career goals so that they can benefit from and contribute to society as productive, active members of their communities.

(Approved by OEC Leadership, 12-11-19)

Santiago Canyon College
Orange Education Center
1465 North Batavia Street
Orange, CA 92867
714-628-5900

The Santiago Canyon College Orange Education Center is the major adult education service provider in the Orange area. In addition, there are other sites in which instruction is offered. These facilities provide a broad-based program that meets the educational needs of the community. Open entry/open exit classes allow students to register anytime during the school year and provide maximum flexibility with course schedules. For the current class schedule, please visit the website at scollege.edu/oec or call the Orange Education Center at 714-628-5900.

Classroom Instruction

Traditional and individualized, self-paced classroom instruction is offered in academic, vocational, and basic skills areas. The open entry/open exit format allows flexibility in planning.

Convenient Community Locations

Day and evening community locations make classes conveniently available to all adults in the district.

Weekend Classes

To meet the needs of working adults, continuing education classes are also offered Fridays and Saturdays.

ADMISSIONS AND STUDENT SERVICES

Who May Attend

Persons 18 years of age or older, or high school graduates, are eligible to enroll in continuing education classes. Students currently enrolled in secondary schools who wish to attend continuing education classes may be admitted by special request of the secondary school and approval from continuing education administration.

Where to Register

Orange Education Center (CLOSED DURING CONSTRUCTION)

 714-628-5929

College and Workforce Preparation Center

1572 North Main Street
 Orange, CA 92867
 714-628-5999

Schedule of Classes

A schedule of classes is prepared each semester which includes general information, courses offered, hours, locations, and rooms. Schedules are available before registration each semester in each of the major continuing education sites and Rancho Santiago Community College District campuses. Registration is ongoing, provided there is space available in classes.

Open Enrollment

The policy of the Rancho Santiago Community College District and Santiago Canyon College is that, unless specifically exempted by statute or regulation, every course, course section, or class, reported for state aid, wherever offered and maintained by the college, shall be fully open to enrollment and participation by any person who has been admitted to the college, provided there is available space in classes.

Class Discontinuance Policy

Any class which does not have a total of at least 20 students enrolled by the beginning of instruction may be discontinued. Any class which does not maintain satisfactory attendance may be discontinued at any time during the term.

Student Identification Card

Each student may obtain a student identification card upon request. For more information, please call OEC Admissions and Records Office 714-628-5900.

Testing

A wide variety of academic, aptitude, vocational, interest, and other assessments are provided to assist the adult in educational and career planning. Diagnostic assessment tests are administered to advise placement for courses in English as a Second Language, Adult Basic Education, and High School Subjects.

Textbooks and Supplies

ESL textbooks are available for purchase (cash or check, no credit cards) at the OEC Provisional Education Facility Bookstore. A complete list of ESL textbooks required for each class, along with their costs, is posted. Supplementary books and supplies are also available. Phone 714-628-5924 for additional information. Students in classes held at Santiago Canyon College (SCC) can purchase textbooks and supplies at the Hawk Bookstore, located in A-101. For more information, phone 714-628-5900 or go to www.hawkbookstore.com.

Counseling and Guidance

Counselors are available to provide academic, career and personal counseling in a confidential office setting. Students may seek counseling for many reasons, including the planning of educational objectives, obtaining information about employment and job skills, resolving personal and family problems, examining aptitudes, interests, and achievement, finding new careers and vocational directions, and learning to adjust in a new country. Students enrolling in courses leading toward an adult high school diploma must see a counselor upon registering. Counselors are available by appointment or on a walk-in basis. For more information or to arrange an appointment, please call 714-628-5929.

CONTINUING EDUCATION INFORMATION

Scholarships

Several scholarships are made available to continuing education ESL students and high school graduates. Selection of scholarship recipients will be based upon the recommendation of teachers and counselors, financial need, academic excellence, attendance, and minimum enrollment standards. For more information, call the Counseling office at 714-628-5929.

Photography

Santiago Canyon College, a non-profit California Community College, reserves the right to use photography and video images of students and visitors, age 18 and older, taken on our property and at college-sponsored events for marketing and promotional purposes. Objection to the use of an individual's photography may be made in writing to Public Affairs and Publications, RSCCD District Office, 2323 N. Broadway, Suite 408, Santa Ana, CA 92706.

Disabled

Students Policy The College will make reasonable accommodations for individuals with disabilities. To request services, contact the office of Disabled Students Programs and Services at 714-628-4860.

Career Services

Career information, materials, interest inventories, and counseling are provided for interested students. Appointments may be made by calling 714-628-5942.

Associated Student Government

The Associated Student Government was established to provide students with government and leadership experience. Opportunities are available to become involved as student representatives. Students will learn firsthand about group dynamics and decision making, event programming, and running effective meetings. Additionally, there are student clubs to join. For more information, please call 714-628-5947.

Child Development

A child development program center is available at Santiago Canyon College. There is no fee for eligible families. Arrangements may be made by calling 714-628-6952.

Transcripts

Students may obtain an official transcript of records by filing in person or mailing a request to the Admissions and Records Office, OEC Provisional Education Facility, 1937 West Chapman Avenue, 2nd Floor, Orange, CA 92868. The first two in-person transcripts will be issued without charge, thereafter, a \$3 charge will be assessed for each additional transcript. All official transcripts are copies of the student's permanent record in the Office of Admissions and Records. Only records prepared and issued directly from that office will be considered official or certified for accuracy.

ADULT HIGH SCHOOL PROGRAM

General Information

Rancho Santiago Community College District offers a comprehensive adult high school diploma program for adults who wish to continue their formal education. The Adult High School Diploma Program at Santiago Canyon College is approved by the California Community Colleges Chancellor's office. Santiago Canyon College is accredited by the Accrediting Commission for the Western Association of Schools and Colleges (Approval #31601). Diplomas are issued by the Rancho Santiago Community College District to students who complete the required course of study and demonstrate proficiency in basic skills. Graduation ceremonies are traditionally held each spring at Santiago Canyon College. Students may complete the diploma program at any time during the year and receive verification of completion of requirements at that time. Courses designed to meet adult high school graduation requirements are offered in both the traditional classroom setting or in open entry/ open exit self-paced individualized learning. Elective credits may be earned in continuing education classes offered in a wide variety of locations throughout the community as listed in the schedule of classes published each semester.

Counseling and Guidance

Students must see a counselor to prepare an educational plan, discuss academic and career goals, and regularly update their educational plans. Counselors are available by appointment or on a walk-in basis. For more information or to arrange an appointment, please call 714-628-5929.

Registration

The Adult High School Diploma Program is available at the Santiago Canyon College. Students may obtain a schedule of classes and enroll at any time during the fall, spring, and summer semesters. For information, call 714-628-5929.

Proficiency Requirements

Proficiency must be demonstrated in basic skills areas of reading, mathematics, and composition, according to the categories listed below:

- Reading.** Students will be required to demonstrate a minimum eighth-grade reading ability as measured by an SCC Continuing Education approved reading proficiency examination.
- Mathematics.** Students will be required to demonstrate math proficiency by passing an SCC Continuing Education approved mathematics examination with a minimum score of 70%, or by passing the Math Fundamentals 2 course.
- English Composition.** Students will be required to demonstrate English composition proficiency by passing an SCC Continuing Education approved composition examination with a minimum score of 70% or by passing the Composition 2 course. To qualify for an adult high school diploma, the candidate must meet the following requirements:

The Course of Study Adult High School Graduation Requirements

The high school diploma requires a total of 160 credits taken from the following:

Subject Area	Credits
English (a maximum of 10 credits of reading; must include at least one composition course)	40.0
Mathematics	20.0
Natural Sciences (must include both a biological and a physical science course)	20.0
Social and Behavioral Sciences (must include U.S. History, American Government, Economics, World History, Geography, and Culture)	30.0
Humanities	10.0
Electives	40.0
TOTAL	160.0

Limitations on Enrollment

A student who has received a passing grade (A, B, C, D) for a high school course may not re-enroll in the same course. A student who has graduated from the Adult High School Diploma Program may not enroll in Adult Basic Education (ABE) or high school courses without written permission from an administrator.

Residency

Residency Requirement: At least 20 of the 160 required high school credits must be completed in residence at Rancho Santiago Community College District. At least 5 of the 160 required high school credits must be completed in residence at SCC's Continuing Education High School Program. Only 5 of the 20 residency credits may be challenged.

Petition for Graduation & Catalog Rights

A petition for graduation must be completed and submitted soon after the date a student completes the diploma requirements. Students who maintain continuous enrollment have the option to meet the certificate requirements as listed in the catalog in effect at the time of first enrollment or any subsequent year. Continuous enrollment is defined by earning a grade in continuing education for at least one course during any semester or session (fall/spring or summer), within that academic year. For the purposes of the catalog, an academic year begins with the fall semester and concludes with the summer session. If a student does not earn a grade on their transcript during any of the semesters, or sessions, during an academic year, then the student is no longer protected by previous diploma/certificate requirements and will be held to the additional requirements. The student must

CONTINUING EDUCATION INFORMATION

then reset their catalog rights clock to use the catalog at the time of readmission or subsequent enrollment. In the event a loss of catalog rights due to extenuating circumstances, a student wishes to waive or substitute a requirement for certificate requirements, the student could complete the appropriate form and submit to the Exceptions for Academic Regulations (EAR) Committee for final determination.

NOTE: Commencement exercises are held once a year at the end of the spring semester for those students who complete the requirements for graduation during the year or the summer session. Students transferring credits to complete the high school diploma must have Official Transcripts from all high schools and/or colleges attended on file in the Admissions and Records office prior to graduation.

Grade Reports

1. **Grade Reports:** In-class progress is reported to the student in a number of ways. Tests are often given to show individual student progress.
2. **Cumulative Records:** The district will maintain cumulative records on each current high school diploma student. These records may contain pertinent information necessary to aid students in educational planning. Placement tests follow-up, interest inventories, and other data contained in the cumulative record will be available for review by the student upon request.

POLICIES GOVERNING SOURCES OF CREDIT

Previous Secondary Schools

All credits earned in the 9th, 10th, 11th, and 12th grades recorded on an official transcript will be accepted except physical education credits and credits which are a duplication of course work for which credit was previously granted.

Trade or Business Schools

Courses that are taken in trade or business schools will be evaluated for possible high school credit equivalency. Courses in this category must be approved by the Office of Private Postsecondary Education. It is the responsibility of the student to provide to the district transcripts, certificates, and/or other records requested for the evaluation and possible awarding of credit.

Armed Forces Schools and/or Programs

Credit may be granted for completion of training programs and other valid educational experiences provided they have been certified by the United States Armed Forces Institute or by a statement on the service record, and provided they parallel 1) courses usually taught in secondary schools, and 2) vocational training courses with counterparts

in civilian life. The recommendations for credit for such programs and experiences are contained in three volumes published by the American Council on Education: The 2006 edition of the Guide To The Evaluation of Educational Experiences In The Armed Services, Vol. I-Air Force; Vol. II-Army; Vol. III-Coast Guard, Marine, and Navy. This section is to be interpreted as including:

- Officer and enlisted service school courses;
- Off-duty classes offered by the armed forces and cooperating local institutions;
- Correspondence courses offered by the United States Armed Forces Institute, the Marine Corps Institute, the Coast Guard Institute, and cooperating colleges and universities;
- United States Armed Forces Institute courses and subject examinations. (Authorization for this procedure is contained in Title V, Section 99, part C, of the California Administrative Code.

College Courses

College units to be used for high school credits may be evaluated in a ratio of 3 college units to 10 high school semester periods of credit. The college should be notified in writing when college credits are utilized to meet high school requirements. College credit equivalency recommended by the American Council on Education guides will be evaluated for high school credit on the same basis as other college credit courses.

Correspondence Courses

Courses taken by correspondence will be evaluated for possible high school credit equivalency. Courses in this category must be approved by the Office of Private Postsecondary Education. It is the responsibility of the student to provide the district transcripts, certificates, and/or other records requested for the evaluation and possible awarding of credit.

Adult School Courses

Courses taken at adult schools will be evaluated for possible high school credit equivalency. Courses in this category must be approved by the California State Department of Education. No credit will be allowed for physical education courses nor for courses from other adult schools if such courses are designated in the Rancho Santiago Community College District as "no high school credit." It is the responsibility of the student to provide the district transcripts, certificates, and/or other records requested for the evaluation and possible awarding of credit.

Work Experience

Students may obtain credit for certain types of full-time work experience or for work experience that can be related to high school subject matter.

In order to obtain credit for work experience, students must provide written verification from those employers with whom they have worked for at least one year. The Continuing Education administrators or counselors will evaluate the amount of work experience credit and the area of application. Evaluation will not be made for more credits than is necessary to meet graduation requirements and which the letters of verification justify. Combined work experience credit and consumer skills task credit may not exceed 40 credits.

Verification of work experience should be obtained by the student, requesting from each employer on official letterhead stationery the following information:

- Dates of employment.
- Job description.
- Nature of duties performed, indicating progress to more complex operations justifying a division into the beginning and advanced skills.
- Statements regarding successful performance.
- Reason for termination of employment, if applicable.
- The letter of self-employed students must be accompanied by a copy of the student's business license or W-2 form.
- Upon receipt of verification of all work experience which the student wishes to be considered for credit, an evaluation will be made on the following basis:
 - Up to 10 credits will be given for the first year of successful work experience.
 - Up to 10 additional credits to a maximum of 40 will be granted for each additional full year of employment if the student has made successful progress each year on the job.
 - After the initial 10 credits for the first year, a student may earn 5 credits for a period of six months of employment, provided there is evidence of successful progress.

Testing

The district may award a maximum of 80 high school credits on the basis of district-approved testing.

1. Mathematics Achievement Test (ITED)

Credit may be earned in mathematics by obtaining a satisfactory score on the math section of the Iowa Tests of Education Development Form X5. No other subtests are accepted for credit purposes. Ten-semester credits will be awarded for a raw score of 14, provided these credits are not previously earned math credits. (These 5 credits may be used to satisfy Math Fundamentals 2 requirements.) Fifteen-semester credits will be awarded for a raw score of 20, provided these credits are not a

CONTINUING EDUCATION INFORMATION

duplication of previously earned math credits. (These 10 credits may be used to satisfy Math Fundamentals 2 requirements, and 5 elective credits.)

2. Subject Matter Credit by Examination

Credit by examination may be earned only for courses that are specifically designated by the division curriculum committee as courses that are eligible for credit by examination. Information for receiving this credit may be obtained from a counselor in continuing education. Only 5 of the 20 residency credits may be challenged.

Regional Occupational Program Courses

Credit will be determined upon receipt of an official secondary or community college transcript which indicates credit and grades as appropriate.

Guidelines for issuance of ROP credit when not on a unified school district transcript:

- RSCCD will accept an official Grade Reporting Sheet from the Central County Regional Occupational Program in lieu of a unified school district transcript provided it has a grade and a number of total hours.
- The amount of credit issued is to be based on 16 clock hours per credit unit.
- A maximum of 20 units toward electives will be accepted in this manner.
- Students coming from outside the CCROP will have to validate their credits only through an official school district transcript.

Other Electives

1. Learning Skills A maximum of 40 credits in Learning Skills will be allowed toward high school graduation credit in the elective area, including work experience.
2. English as a Second Language (ESL) A maximum of 10 elective high school diploma credits may be awarded to students who pass English as a Second Language 304, 305, or 306.
3. Adult Basic Education (ABE) A maximum of 20 high school elective credits may be granted when students pass all or parts of the required ABE exit tests.

Adult Basic Education (ABE)

Assists students in strengthening their skills in reading, writing, spelling, mathematics, English usage, and grammar. ABE provides students with a strong educational foundation that can be used as a basis for employment preparation, entrance into high school subjects, GED preparation, HiSET preparation, and college and vocational programs. In addition, Native Language Basic Skills for Adults assists students in acquiring basic skills in their native language in order to facilitate the transition to beginning English as a Second Language courses. This program focuses on reading, math, and writing skills, as well as classroom and community coping skills.

Adult High School Diploma

Accommodates adults with varied responsibilities, backgrounds, and needs who desire to earn a high school diploma or California High School Equivalency Certificate (GED/HiSET). Individualized instruction is provided so that students may take classes that fit their personal schedules, thus enabling them to work and complete high school credits at their own pace.

Short-Term Career Education

Provides employment preparation focusing on specific career technical areas and on general workforce development skills. Provides certificate programs in occupational areas with high employment potential.

Citizenship

Introduces students to U.S. citizenship and the naturalization process, U.S. history, and government. Prepares students for the U.S. Citizenship and Immigration Services USCIS interview and exam.

English as a Second Language (ESL)

Provides English language instruction for speakers of languages other than English. Offers instruction in the beginning through advanced levels. Core classes integrate the acquisition of skills in speaking, listening, reading, and writing. Specialty classes focus on further improvement of specific skills, such as conversation, pronunciation, writing, civics, or employability. Provides certificate programs for successful completion of levels; beginning through advanced, as well as specialty courses.

Health and Safety

Provides courses specifically designed to offer lifelong education to promote the health, safety, and well-being of individuals, families, and communities.

Older Adults

Offers courses designed to meet the specific needs of older students in a variety of areas, including music, cooking, health & wellness, manipulative skills, and discussion seminars. Many classes are offered in facilities specifically serving older adults.

Parent Education

Provides courses that emphasize intellectual, physical, and emotional aspects of parenting.

Substantial Disabilities

Provides courses designed to address the educational limitations of persons with a verified physical or mental impairment that substantially limits one or more major life activities.

Workforce Preparation

Provides Workforce Preparation courses focusing on the basic skills of speaking, listening, reading, writing, mathematics, decision-making, and problem-solving skills that are necessary to participate in job-specific technical training.

PLEASE NOTE: Some workforce preparation courses are designed to meet the specific needs of adults with disabilities, including physical, intellectual, developmental, and learning disabilities.

POLICIES GOVERNING STUDENTS

Attendance

Students are expected to attend all class meetings. Students who are enrolled but absent on the first class session may be dropped. A student may also be dropped for excessive absences.

Enrollment

Students are expected to demonstrate academic progress throughout each course. Failure to meet academic goals and contracts may result in a student being dismissed from the program for more than one semester. Reentry enrollment is contingent upon a contractual agreement with the college administration.

Standards of Student Conduct

Guidelines for Student Conduct are set forth in the California Education Code, California Administrative Code, Title V, policies of the Board of Trustees, and all civil and criminal codes. Students enrolling in district educational programs assume an obligation to obey state law and district rules and regulations governing the conduct of students.

CONTINUING EDUCATION INSTRUCTIONAL PROGRAMS

Standards of Conduct for Computer Classrooms and Computer Labs

In accordance with Board Policy (BP 3720) and Administrative Regulation (AR 3720) and in an effort to extend the life of the hardware, comply with the copyright laws, and adhere to appropriate computer network conduct and usage, standards of conduct are required of all students using computer classrooms, computer labs, and the wireless network.

Academic Honesty

Students at Santiago Canyon College are expected to be honest and forthright in their academic endeavors. To falsify the results of one's research, to steal the words or ideas of another, or to cheat on an examination corrupts the essential process by which knowledge is advanced. Academic dishonesty is seen as an intentional act of fraud, in which a student seeks to claim credit for the work or efforts of another without authorization or uses unauthorized materials or fabricated information in any academic exercise. We as an institution, also consider academic dishonesty to include forgery of academic documents, intentionally impeding or damaging the academic work of others, assisting other students in acts of dishonesty, or coercing students into acts of dishonesty.

Disciplinary Action

Violations to any tenets within the standards of student conduct are subject to the following disciplinary actions: warning, reprimand, probation, restitution, removal, suspension, or expulsion. Disciplinary actions may be imposed singly or in combination.

Grading Standards

A	Superior	4 grade points per unit
B	Above Average	3 grade points per unit
C	Average	2 grade points per unit
D	Below Average	1 grade point But Passing per unit
F	Fail	0 grade points (but counted in GPA)
CIP	Currently In Progress	0 grade points
P	Pass	0 grade points
COM	Completed	0 grade points
SP	Satisfactory Progress	0 grade points
NP	No Pass	0 grade points

Credit by Examination

Credit by examination may be earned only for courses that are specifically designated as courses that are eligible for credit by examination. A student cannot take credit by examination to improve a substandard grade. High School Diploma Courses Information for receiving credit by examination may be obtained from a continuing education counselor.

High School Subjects:

English 066, 067, 068, 084, 098
 Mathematics 156, 157, 159, 163, 164, 165, 166
 Science 168, 169, 190, 191, 192, 193
 Social Sciences 215, 218, 219, 222, 229, 230
 Math Continuing Education 206, 255

Procedures for Student Complaints Regarding Grades

Education Code 76224 states: "When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor for the course; and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final."

Procedure:

1. Students shall meet with an instructor to discuss the grade.
2. If the issue is not resolved, and the student believes that the grade is based on mistake, fraud, bad faith, or incompetency (EC 76224), an appeal in writing may be made to the Area Dean of Instruction and Student Services. Forms of written appeal may be found in the office of the Area Dean of Instruction and Student Services.
3. The student may be requested to set up an appointment with the Dean of Instruction and Student Services to discuss the written complaint.
4. The Dean of Instruction and Student Services will review the allegations and may consult with the instructor.
5. The Dean of Instruction and Student Services will review the issue and will notify the student and instructor in writing of the decision.
6. The decision of the Dean of Instruction and Student Services is final.

Complaint Procedures for Students

Students may file a complaint when they believe they have been deprived of a right granted to students by the Board of Trustees in any of the policies or regulations of the Rancho Santiago Community College District. The purpose of these complaint procedures is to resolve differences as fairly and expeditiously as possible while preserving the rights of students and staff members.

Definitions Days: number of days refers to the days when the District offices are open.
 Committee: Continuing Education Student Complaint Committee.

Procedure:

1. Students shall first confer with the staff member who took action or made the ruling to which they object no later than ten days following the event which prompted the complaint. The Area Dean of Instruction and Student Services or designee will assist the student in arranging an appointment with the staff member.
2. If the difference is not satisfactorily resolved, the student shall confer with the staff member's supervisor. The Area Dean of Instruction and Student Services or designee will assist the student and staff member's supervisor.
3. If the complaint is unresolved, the student may file a written statement setting forth the nature of the complaint on the prescribed form with the Area Dean of Instruction and Student Services no later than ten days after conferring with the staff member's supervisor.
4. The complaint form shall be completed in full and shall include a full description of the complaint, times, dates and pertinent facts, and the remedy sought by the student.
5. A Student Complaint-Staff Response form will be sent to both the staff member and supervisor for completion.
6. The Area Dean of Instruction and Student Services shall forward the completed forms to the Continuing Education Student Complaint Committee chairperson for review and recommendation. The committee shall have the power to make an appropriate investigation of the complaint and shall state the findings and make a recommendation.

CONTINUING EDUCATION INSTRUCTIONAL PROGRAMS

7. If the complaint is sustained by the committee, it will recommend appropriate action for relief of the complaint and communicate this in writing to the staff member to whom the complaint was directed. If the staff member accepts the recommended action and if the student who filed the complaint is satisfied with the action, the complaint shall be considered resolved and closed.
8. If the findings of the committee do not sustain the complaint, the committee shall communicate this finding in writing to the student who filed the complaint. If the student accepts this finding, the complaint shall be considered resolved and closed.
9. If no resolution of the complaint is obtained under (7) or (8) above, the Area Dean of Instruction and Student Services shall forward the complaint together with the findings of the committee to the Chancellor for review and decision.
10. If this decision does not resolve the complaint in the opinion of the student, the Chancellor shall present the case to the Board of Trustees with the findings and recommendations. If the Board finds that the complaint is invalid, the Chancellor's recommendation shall stand in the final resolution. If the Board finds that the complaint is valid, it shall instruct the Chancellor as to how the complaint shall be resolved, and the Chancellor shall implement the Board's decision.

Student Records

Under the guidelines of the Family Educational Rights and Privacy Act of 1974, student records are confidential, and privacy is to be scrupulously maintained.

Right to Review and Challenge Records:

Under the provisions of the U.S. Department of Health, Education, and Welfare, students have the right to inspect and review any of the following files:

- admissions/records
- data processing
- financial aid
- placement
- veterans

After review and exploration, students may challenge any information relating to them if they believe the information to be inaccurate, misleading, or otherwise in violation of their rights of privacy or other rights. Forms for a challenge are available in the Area Dean of Instruction and Student Services office. District staff or other professionals who have a legitimate educational interest such as counseling and carrying out the normal operations of the educational program have access to student records. Any student has the right to file a complaint with the U.S. Department of Health, Education, and Welfare concerning alleged failure of the institution to comply with provisions above or Section 438 of the General Provision.

High School Petition Students

Secondary school students who wish to take course work in Rancho Santiago Community College District Continuing Education and have it transferred to another school must present a completed Petition for Registration in order to be considered for admission. Failure to comply fully with all conditions listed on the form may result in the immediate revocation of the petition and dismissal from Continuing Education classes.

1. Grading and Transfer of Credits: Students must satisfactorily complete all course requirements including exams, projects, papers, and attendances before credit or grades can be issued. Students are responsible for planning schedules and progress in order to earn credits in time to meet graduation deadlines in other school districts.
2. Conduct: A student's conduct must be productive, responsible, and courteous at all times. Unacceptable behavior may result in the immediate revocation of this petition and dismissal from class. Unacceptable behavior includes, but is not limited to, excessive talking, noncompliance with rules, failure to follow instructor directions, falsification of records, cheating or assisting others to cheat, destruction or theft of school property, disruption of classes, violence, or being under the influence of drugs or alcohol.

Special Rules, Regulations, and Student Obligations

Because of special program characteristics, the following programs must adhere to special rules, regulations, and student obligations beyond the Standard Guidelines for Student Conduct adopted by the Rancho Santiago Community College District. Students enrolled in any of the following programs are obligated to perform within those special program guidelines in order to maintain class attendance: any community-based organization or governmental agency with which the Rancho Santiago Community College District cooperates in a program offering.

Family Education Rights and Privacy

As required under the provisions of the Family Education Rights and Privacy Act of 1974, the Rancho Santiago Community College District will make public without student consent only certain directory information. This information consists of the following: a student's name; city of residence; a major field; participation in officially recognized activities and sports; weight, height, and age if a member of an athletic team; dates of attendance; degree and awards received; and the most recent previous educational institution or agency attended by the student. A student may request the Admissions and Records Office to withhold this information. Such requests must be in writing and submitted each semester.

Use of Public School Facilities for Adult Classes

1. Alcoholic Beverages and Controlled Substances: Both by policies instituted by local Boards of Education (Garden Grove Unified School District, Orange Unified School District, Rancho Santiago Community College District, and Santa Ana Unified School District) and California State Law specifically prohibit possession of alcoholic beverages and controlled substances on school premises at any time, by any person, regardless of age. Regulations also prohibit the use of alcoholic beverages at school events, whether on or off the campus, or the appearance at school events while under the influence of alcoholic beverages and/or controlled substances. The penalty for violation of these regulations is immediate suspension from school, followed by expulsion if imposed by the Board of Trustees. Additional penalties may be imposed by law enforcement agencies.
2. Smoking: Provisions of the Uniform Fire Code, Article 29, Section 29.06, Smoking Activity on School Property, state: "It shall be unlawful for any person or persons to engage in any smoking activity or to possess any flaming or glowing object or cause to be lighted any

CONTINUING EDUCATION INSTRUCTIONAL PROGRAMS

substance in any classroom or on school property at any time except in areas authorized by the local Board of Education." The only areas authorized for smoking are outside the school buildings in a designated smoking area. There is to be No Smoking by anyone in any of the classrooms at any time. Proper containers are provided in the smoking areas for the disposal of cigarettes.

3. Food and Beverages: Food and beverages are not to be brought into the classrooms at any time. Proper containers are provided for the disposal of trash in designated areas.

CREDIT PROGRAMS

ACCOUNTING

Accounting, AS

A.S. Degree Major

Unit Range for Completion: 20 – 20

The Associate of Science degree in Accounting prepares students for entry-level positions and promotional opportunities in accounting and administrative departments of businesses in public and private sector areas such as manufacturing, merchandising, financial service, wholesale trades, and government. Specialized training in accounting and finance principles and practices enables students to maintain accounting records and develop financial reports and make effective use of financial information for analysis and decision making. Entry-level employment opportunities include positions in accounts receivable/payable, payroll, income tax preparation, cost accounting, and a number of trainee positions. Promotional opportunities include higher-level responsibilities in these areas and the areas of general ledger, financial statement preparation and financial statement analysis.

Program Rules: Accounting, AS (units 20 - 20)

The following number of units

Major Requirements: (units 14 - 14)

The following number of units

ACCT101 Financial Accounting (units 4 - 4)

ACCT102 Managerial Accounting (units 4 - 4)

CIS101 Introduction to Microsoft Office (units 3 - 3)

CIS106 Microsoft Excel (units 3 - 3)

Select one (1) course: (units 3 - 3)

The following number of units

ACCT204 Managerial Cost Accounting (units 3 - 3)

ACCT205 Intermediate Accounting I (units 3 - 3)

Graphic Design, AS

A.S. Degree Major

Unit Range for Completion: 30 – 30

The Associate of Science degree in Graphic Design prepares students for entry into the broad field of visual communication, with an emphasis on the development of problem solving in the practical application of graphic design. These applications include design for the print media, advertising, architectural and environmental graphics, packaging, logos, corporate identity, the web and other electronic media, using both digital media tools as well as traditional hand skills. It also enables students to enter a four-year institution leading to a baccalaureate degree or into a professional art school with a graphic design emphasis.

Program Rules: Graphic Design, AS (units 30 - 30)

All of the following

Major requirements: (units 21 - 21)

The following number of units

ART110 Two-Dimensional Design (units 3 - 3)
 ART122 Graphic Design I (units 3 - 3)
 ART129 Introduction to Web Design (units 3 - 3)
 ART130 Introduction to Drawing (units 3 - 3)
 ART149 Introduction to Digital Photography (units 3 - 3)
 ART195 Introduction to Digital Media Arts (units 3 - 3)
 ART221 Graphic Design II (units 3 - 3)

Art History Requirement (units 3 - 3)

The following number of units

When an honors course is available, students can select an honors course or a non-honors course. Credit will be awarded for only one course. (units 0 - 0)
 ART100 Introduction to Art Concepts (units 3 - 3)
 ART100H Honors Introduction to Art Concepts (units 3 - 3)
 ART101 Survey of Western Art History I: Prehistory Through the Middle Ages (units 3 - 3)
 ART101H Honors Survey of Western Art History I: Prehistory Through the Middle Ages (units 3 - 3)
 ART102 Survey of Western Art History II: Renaissance Through the Twentieth Century (units 3 - 3)
 ART102H Honors Survey of Western Art History II: Renaissance Through the Twentieth Century (units 3 - 3)

Select one (2) courses from the following: (units 6 - 6)

The following number of units

When an honors course is available, students can select an honors course or a non-honors course. Credit will be awarded for only one course. (units 0 - 0)
 ART101 Survey of Western Art History I: Prehistory Through the Middle Ages (units 3 - 3)
 ART101H Honors Survey of Western Art History I: Prehistory Through the Middle Ages (units 3 - 3)
 ART102 Survey of Western Art History II: Renaissance Through the Twentieth Century (units 3 - 3)
 ART102H Honors Survey of Western Art History II: Renaissance Through the Twentieth Century (units 3 - 3)
 ART111 Three-Dimensional Design (units 3 - 3)
 ART128 Introduction to Illustration (units 3 - 3)
 ART131 Beginning Life Drawing (units 3 - 3)

Studio Arts, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 24 – 24

The Associate in Arts in Studio Arts for Transfer degree provides students with an opportunity to explore studio arts both conceptually and aesthetically by utilizing critical analysis and experimental practice. Possible careers in fine arts are studio artist, art educator, art designer, gallery personnel, museum technician, illustrator, digital media artist, animator and related fields. Successful completion of the transfer degree in studio arts guarantees the student acceptance to a local California State University to pursue a baccalaureate degree in studio arts or a related field.

Program Rules: Studio Arts, AA-T (units 24 - 24)

All of the following

Major requirements: (units 18 - 18)

The following number of units

When an honors course is available, students can (units 0 - 0)

ART101 Survey of Western Art History I: Prehistory Through the Middle Ages (units 3 - 3)
 ART101H Honors Survey of Western Art History I: Prehistory Through the Middle Ages (units 3 - 3)
 ART102 Survey of Western Art History II: Renaissance Through the Twentieth Century (units 3 - 3)
 ART102H Honors Survey of Western Art History II: Renaissance Through the Twentieth Century (units 3 - 3)
 ART110 Two-Dimensional Design (units 3 - 3)
 ART111 Three-Dimensional Design (units 3 - 3)
 ART130 Introduction to Drawing (units 3 - 3)
 ART141 Beginning Painting (units 3 - 3)

Select two (2) courses from the following (List B): (units 6 - 6)

The following number of units

ART128 Introduction to Illustration (units 3 - 3)
 ART131 Beginning Life Drawing (units 3 - 3)
 ART149 Introduction to Digital Photography (units 3 - 3)
 ART195 Introduction to Digital Media Arts (units 3 - 3)
 ART230 Intermediate Drawing (units 3 - 3)
 ART231 Intermediate Life Drawing (units 3 - 3)
 ART232 Advanced Life Drawing (units 3 - 3)
 ART233 Advanced Drawing (units 3 - 3)
 ART241 Intermediate Painting (units 3 - 3)
 ART242 Advanced Painting (units 3 - 3)

ASTRONOMY

Astronomy, AS

A.S. Degree Major

Unit Range for Completion: 25 – 25

The Associate of Science degree in Astronomy provides a foundation in astronomy and physics for students planning to transfer into a baccalaureate program in astronomy, astrophysics or astronomy education leading to a career in astronomy and/or physics research, education, or technology and programming.

Program Rules: Astronomy, AS (units 25 - 25)

The following number of units

Rule Group (units 4 - 4)

All of the following

ASTR100L Astronomy Laboratory (units 1 - 1)
 ASTR102 Introduction to Stars and Galaxies (units 3 - 3)
 Rule Group (units 3 - 6)
 At least one of the following
 ASTR103 Introduction to the Solar System (units 3 - 3)
 ASTR112 Introduction to Cosmology (units 3 - 3)
 Rule Group (units 18 - 18)
 All of the following
 CMPRI20 Introduction to Programming (units 3 - 3)
 PHYS250A Physics for Scientists and Engineers I (units 5 - 5)
 PHYS250B Physics for Scientists and Engineers II (units 5 - 5)
 PHYS250C Physics for Scientists and Engineers III (units 5 - 5)
Control Number: 33223

BIOLOGY

Biology, AS

A.S. Degree Major

Unit Range for Completion: 25 – 25

The Associate of Science degree in Biology prepares students for transfer to a four-year institution leading to a baccalaureate degree in biology or disciplines such as microbiology, botany, zoology, and careers in teaching, medicine and health sciences.

Program Rules: Biology, AS (units 25 - 25)

The following number of units

- BIOL211 Cellular and Molecular Biology (units 5 - 5)
- BIOL221 Animal Diversity and Evolution (units 5 - 5)
- BIOL231 Plant Diversity and Ecology (units 5 - 5)
- CHEM200B General Chemistry B (units 5 - 5)

Rule Group (units 5 - 10)

At least one of the following

- CHEM200A General Chemistry A (units 5 - 5)
- CHEM200AH Honors General Chemistry A (units 5 - 5)

Control Number: 11856

Biology, AS-T

A.S. Degree for Transfer

Unit Range for Completion: 37 – 37

The Associate in Science in Biology for Transfer degree prepares students for transfer to a four-year institution leading to a baccalaureate degree in biology or disciplines such as microbiology, botany, zoology, and careers in teaching, medicine and health sciences.

Program Rules: Biology, AS-T (units 37 - 37)

The following number of units

Rule Group (units 15 - 15)

All of the following

- BIOL211 Cellular and Molecular Biology (units 5 - 5)
- BIOL221 Animal Diversity and Evolution (units 5 - 5)
- BIOL231 Plant Diversity and Ecology (units 5 - 5)

Rule Group (units 5 - 15)

At least one of the following

- CHEM200A General Chemistry A (units 5 - 5)
- CHEM200AH Honors General Chemistry A (units 5 - 5)
- CHEM200B General Chemistry B (units 5 - 5)

Rule Group (units 4 - 8)

At least one of the following

- MATH180 Single Variable Calculus I (units 4 - 4)
- MATH180H Honors Single Variable Calculus I (units 4 - 4)

Rule Group (units 8 - 8)

All of the following

- PHYS150A Introductory Physics I (units 4 - 4)
- PHYS150B Introductory Physics II (units 4 - 4)

Control Number: 35110

Biotechnology Biomanufacturing Technician, CA

Certificate of Achievement

Unit Range for Completion: 19 – 19

The Certificate of Achievement in Biotechnology Biomanufacturing Technician is designed for students who wish to obtain the skills required to gain

employment in industries influenced by biotechnology as well as for incumbent workers seeking career opportunities. Upon completion of this certificate program, students will be eligible to obtain employment as laboratory assistants or biomanufacturing technicians.

Program Rules: Biotechnology Biomanufacturing Technician, CA (units 19 - 19)

The following number of units

Rule Group (units 14 - 14)

All of the following

- BIOL190 Introduction to Biotechnology (units 3 - 3)
- BIOL190L Introduction to Biotechnology Lab (units 1 - 1)
- BIOL191 Biotech A: Basic Lab Skills (units 4 - 4)
- BIOL192 Biotech B: Proteins (units 4 - 4)
- BIOL194 Quality and Regulatory Compliance in Biosciences (units 2 - 2)

Rule Group (units 5 - 10)

At least one of the following

- CHEM200A General Chemistry A (units 5 - 5)
- CHEM200AH Honors General Chemistry A (units 5 - 5)

Control Number: 32598

Biotechnology Fundamentals, CERT

Certificate of Proficiency

Unit Range for Completion: 8 – 8

The Certificate of Proficiency in Biotechnology Fundamentals is designed for students who wish to explore the field of biotechnology and obtain the basic skills required to gain employment in industries influenced by biotechnology as well as for students interested in pursuing laboratory work at the university level. Upon completion of this certificate program, students will be eligible to obtain employment as entry-level laboratory assistants.

Program Rules: Biotechnology Fundamentals, CERT (units 8 - 8)

All of the following

- BIOL190 Introduction to Biotechnology (units 3 - 3)
- BIOL190L Introduction to Biotechnology Lab (units 1 - 1)
- BIOL191 Biotech A: Basic Lab Skills (units 4 - 4)

Biotechnology Lab Assistant, CA

Certificate of Achievement

Unit Range for Completion: 12 – 13

The Certificate of Achievement in Biotechnology Lab Assistant is designed for students who wish to obtain the skills required to gain employment in industries influenced by biotechnology as well as for incumbent workers seeking career opportunities. Upon completion of this certificate program, students will be eligible to obtain employment as laboratory assistants.

Program Rules: Biotechnology Lab Assistant, CA (units 12 - 13)

The following number of units

Certificate Requirements: (units 8 - 8)

All of the following

- BIOL191 Biotech A: Basic Lab Skills (units 4 - 4)
 - CHEM100 Introductory Chemistry (units 4 - 4)
- Select BIOL 190/190L or BIOL 211: (units 4 - 5)

The following number of units

- BIOL190 Introduction to Biotechnology (units 3 - 3)
- BIOL190L Introduction to Biotechnology Lab (units 1 - 1)
- BIOL211 Cellular and Molecular Biology (units 5 - 5)

Control Number: 40639

Biotechnology Laboratory Technician:

Food Safety, CA

Certificate of Achievement

Unit Range for Completion: 10 – 11

The Certificate of Achievement in Biotechnology Laboratory Technician of Food Safety is designed for students who wish to obtain the skills required to gain employment in industries influenced by biotechnology within the food industry as well as for incumbent workers seeking career opportunities. Upon completion of this certificate program, students will be eligible to obtain employment as laboratory assistants or quality assurance/ quality control (QA/QC) technicians, especially within the food industry.

Program Rules: Biotechnology Laboratory Technician: Food Safety, CA (units 10 - 11)

The following number of units

- BIOL191 Biotech A: Basic Lab Skills (units 4 - 4)
- BIOL196 Food Safety (units 2 - 2)
- Select BIOL 190/190L or BIOL 211 (units 0 - 0)
- BIOL190 Introduction to Biotechnology (units 3 - 3)
- BIOL190L Introduction to Biotechnology Lab (units 1 - 1)
- BIOL211 Cellular and Molecular Biology (units 5 - 5)

Control Number: 32648

Biotechnology, AS

A.S. Degree Major

Unit Range for Completion: 34 – 34

The Associate of Science degree in Biotechnology is designed for students who wish to obtain the skills required to gain employment in industries influenced by biotechnology as well as for incumbent workers seeking career opportunities. Upon completion of this program, students will be eligible to obtain employment as laboratory assistants, biomanufacturing technicians, or research and development technicians. This degree can help prepare for transfer to the Biomanufacturing B.S. degree at Mira Costa or Solano Community Colleges. Additional coursework is required for entry to the B.S. programs at these campuses. Please see a counselor for guidance.

Program Rules: Biotechnology, AS (units 34 - 34)

All of the following

Major Requirements: (units 29 - 29)

The following number of units

- BIOL190 Introduction to Biotechnology (units 3 - 3)
- BIOL190L Introduction to Biotechnology Lab (units 1 - 1)
- BIOL191 Biotech A: Basic Lab Skills (units 4 - 4)
- BIOL192 Biotech B: Proteins (units 4 - 4)
- BIOL193 Biotech C: Nucleic Acids (units 4 - 4)
- BIOL194 Quality and Regulatory Compliance in Biosciences (units 2 - 2)
- BIOL202 Cell Culture Techniques (units 2 - 2)
- CHEM200A/200AH are considered the same course. Please select one course. Credit will be awarded for only one course. (units 0 - 0)
- CHEM200A General Chemistry A (units 5 - 5)
- CHEM200AH Honors General Chemistry A (units 5 - 5)
- MATH219/219H and 220 are considered the same course. Please select one. Credit will be awarded for only one course. (units 0 - 0)
- MATH219 Statistics and Probability (units 4 - 4)
- MATH219H Honors Statistics and Probability (units 4 - 4)
- MATH220 Statistics and Probability With Integrated Review (units 4 - 4)

Please select one (1) from the following: (units 5 - 5)

The following number of units

- *If planning to transfer to the Biomanufacturing B.S. programs, students must take BIOL 211 instead of BIOL 229. (units 0 - 0)
- BIOL211 Cellular and Molecular Biology (units 5 - 5)
- BIOL229 General Microbiology (units 5 - 5)

Control Number: 32599

General Biotechnology Technician, CA

Certificate of Achievement

Unit Range for Completion: 30 – 35

The Certificate of Achievement in Biotechnology Laboratory Technician is designed for students who wish to obtain the skills required to gain employment in industries influenced by biotechnology as well as for incumbent workers seeking career opportunities. Upon completion of this certificate program, students will be eligible to obtain employment as laboratory assistants, biomanufacturing technicians, or research and development technicians.

Program Rules: General Biotechnology Technician, CA (units 30 - 35)

All of the following

Certificate Requirements: (units 24 - 25)

The following number of units

- Please select BIOL190 and 190L (4 units) OR BIOL211 (5 units). (units 0 - 0)

- BIOL190 Introduction to Biotechnology (units 3 - 3)
- BIOL190L Introduction to Biotechnology Lab (units 1 - 1)
- BIOL191 Biotech A: Basic Lab Skills (units 4 - 4)
- BIOL192 Biotech B: Proteins (units 4 - 4)
- BIOL193 Biotech C: Nucleic Acids (units 4 - 4)
- BIOL194 Quality and Regulatory Compliance in Biosciences (units 2 - 2)
- BIOL202 Cell Culture Techniques (units 2 - 2)
- BIOL211 Cellular and Molecular Biology (units 5 - 5)
- CHEM200A/200AH are considered the same course. Please select one. Credit will be awarded for only one course. (units 0 - 0)
- CHEM200A General Chemistry A (units 5 - 5)
- CHEM200AH Honors General Chemistry A (units 5 - 5)

Select a minimum of six (6) units from the following (may not be a course used to satisfy the certificate requirements): (units 6 - 10)

The following number of units

- BIOL139 Health Microbiology (units 4 - 4)
- BIOL177 Human Genetics (units 3 - 3)
- BIOL197 Science, Technology, Engineering and Mathematics (STEM) Internship (units 1 - 4)
- BIOL211 Cellular and Molecular Biology (units 5 - 5)
- BIOL229 General Microbiology (units 5 - 5)
- BIOL290 Biochemistry and Molecular Biology (units 5 - 5)
- CHEM200B General Chemistry B (units 5 - 5)

Control Number: 32602

Pre-Nursing and Allied Health Science, AS

A.S. Degree Major

Unit Range for Completion: 27 – 28.5

The Associate of Science degree in Pre-Nursing and Allied Health Science prepares students for transfer to a two-year Associate Degree in Nursing, a four-year institution leading to a baccalaureate degree in nursing, or other health science career programs. Students majoring in Nursing or any other Allied Health major should inquire with a counselor regarding major courses and transfer institution requirements.

Program Rules: Pre-Nursing and Allied Health Science, AS (units 27 - 28.5)

All of the following

Chemistry (units 4 - 5)

The following number of units

- CHEM100 Introductory Chemistry (units 4 - 4)
- CHEM200A General Chemistry A (units 5 - 5)
- CHEM200AH Honors General Chemistry A (units 5 - 5)
- Biology (units 13 - 13)

The following number of units

- BIOL229 General Microbiology (units 5 - 5)
- BIOL239 General Human Anatomy (units 4 - 4)
- BIOL249 Human Physiology (units 4 - 4)
- Freshman Composition (units 4 - 4.5)

The following number of units

- ENGL101 Freshman Composition (units 4 - 4)
- ENGL101H Honors Freshman Composition (units 4 - 4)

BUSINESS

Business Administration 2.0, AS-T

A.S. Degree for Transfer

Unit Range for Completion: 28 – 29.5

The Associate in Science in Business Administration for Transfer degree provides students with a comprehensive business education in the principles and practices of all phases of business. A student graduating with an Associate in Science degree in Business for Transfer will seamlessly transfer to a California State University (CSU) to complete a bachelor's degree. Completion of the requirements guarantees students the ability to transfer to a CSU school. Students will be able to pursue a baccalaureate degree and prepare to pursue a career in the field of business, industry or government.

Program Rules: Major Requirements (units 28 - 29.5)

The following number of units

- Complete all the following (units 17 - 17)
- ACCT101 Financial Accounting (units 4 - 4)
- ACCT102 Managerial Accounting (units 4 - 4)
- BUS105 Legal Environment of Business (units 3 - 3)
- ECON101 Principles/Micro (units 3 - 3)
- ECON102 Principles/Macro (units 3 - 3)

Select One (1) Course (units 4 - 13)

- At least one of the following
- MATH150 Calculus for Biological, Management, and Social Sciences (units 5 - 5)
- MATH180 Single Variable Calculus I (units 4 - 4)
- MATH180H Honors Single Variable Calculus I (units 4 - 4)

Select One (1) Course (units 4 - 12.5)

- At least one of the following
- MATH219 Statistics and Probability (units 4 - 4)
- MATH219H Honors Statistics and Probability (units 4 - 4)
- MATH219S Statics and Probability with Support (units 4.5 - 4.5)

Select One (1) Course (units 3 - 6)

- At least one of the following
- BUS100 Fundamentals of Business (units 3 - 3)
- BUS222 Business Writing (units 3 - 3)

Control Number: 42991

Business Administration, AS

A.S. Degree Major

Unit Range for Completion: 26 – 28

The Associate of Science degree in Business Administration enables students to transfer to a four-year institution leading to a baccalaureate degree. Career opportunities exist in many areas of business administration such as accounting, financial planning and analysis, financial service specialties, management, marketing and sales, production and logistics, and systems and technology development.

Program Rules: Business Administration, AS (units 26 - 28)

All of the following

- Major requirements: (units 23 - 23)
- The following number of units
- ACCT101 Financial Accounting (units 4 - 4)
- ACCT102 Managerial Accounting (units 4 - 4)
- BUS105 Legal Environment of Business (units 3 - 3)
- BUS150 Introduction to Information Systems and Applications (units 3 - 3)
- BUS222 Business Writing (units 3 - 3)
- ECON101 Principles/Micro (units 3 - 3)
- ECON102 Principles/Macro (units 3 - 3)

Entrepreneurship, CA

Certificate of Achievement

Unit Range for Completion: 17 – 19

The Certificate of Achievement in Entrepreneurship is designed to assist the student in the development of fundamental skills necessary to open and operate a small business and/or to continue the pursuit of a bachelor's degree at a four-year college or university. Students intending to obtain a bachelor's degree in Entrepreneurship should consult the major requirements for upper-division study listed under the Business Administration major.

Program Rules: Entrepreneurship, CA (units 17 - 19)

All of the following

Certificate requirements: (units 15 - 16)

The following number of units

Rule Group (units 3 - 7)

At least one of the following

- ACCT100 Accounting for Small Business (units 3 - 3)
- ACCT101 Financial Accounting (units 4 - 4)

Rule Group (units 12 - 12)

All of the following

- BUS170 Principles of Small Business Management (units 3 - 3)
- BUS171 Business Plan for Small Business (units 3 - 3)
- BUS175 Online Entrepreneurship (units 3 - 3)
- MKTG172 Small Business Marketing and Advertising (units 3 - 3)

Select one (1) course from the following: (units 2 - 3)

The following number of units

CHEMISTRY

Chemistry, AS

A.S. Degree Major

Unit Range for Completion: 24 – 24

The Associate of Science degree in Chemistry provides basic courses for a wide variety of occupations, or prepares the student to enter a curriculum in a four-year institution leading to a baccalaureate degree. The major fields of chemistry are inorganic and organic chemistry, biochemistry, and chemical engineering. These fields provide career opportunities in industry, research, and teaching, and also entry into graduate or professional programs such as medicine, pharmacy and other related health fields.

Program Rules: Chemistry, AS (units 24 - 24)

The following number of units

Rule Group (units 5 - 10)

At least one of the following

- CHEM200A General Chemistry A (units 5 - 5)
- CHEM200AH Honors General Chemistry A (units 5 - 5)

Rule Group (units 15 - 15)

All of the following

- CHEM200B General Chemistry B (units 5 - 5)
- CHEM280A Organic Chemistry A (units 5 - 5)
- CHEM280B Organic Chemistry B (units 5 - 5)

Rule Group (units 4 - 8)

At least one of the following

- MATH180 Single Variable Calculus I (units 4 - 4)
- MATH180H Honors Single Variable Calculus I (units 4 - 4)

Control Number: 11933

CHILD DEVELOPMENT

Child and Adolescent Development, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 19 – 19

The Associate in Arts in Child and Adolescent Development for Transfer (AA-T) prepares a student to enter a California State University (CSU) as a junior to complete a baccalaureate degree in Child Development, Human Development, Child and Adolescent Studies, or Early Childhood Education. Upon completion of the AA-T in Child and Adolescent Development, students will have a general understanding of developmental theories as they pertain to the development, care, and education of young children. Students will demonstrate skill and knowledge in preparing developmentally-appropriate environments, curriculum, and assessments as they work professionally with families and team members and qualify for a Children's Center Permit.

Program Rules: Child and Adolescent Development, AA-T (units 19 - 19)

All of the following

Major requirements: (units 13 - 13)

The following number of units

Rule Group (units 6 - 6)

All of the following

CDEV107 Child Growth and Development (DS1) (units 3 - 3)

CDEV110 Child, Family and Community (DS2) (units 3 - 3)

Rule Group (units 4 .5- 12.5)

At least one of the following

MATH219 Statistics and Probability (units 4 - 4)

MATH219H Honors Statistics and Probability (units 4 - 4)

MATH219S Statics and Probability with Support (units 4.5 - 4.5)

Rule Group (units 3 - 6)

At least one of the following

PSYC100 Introduction to Psychology (units 3 - 3)

PSYC100H Honors Introduction to Psychology (units 3 - 3)

Select two (2) courses from the following (List A): (units 6 - 6)

The following number of units

CDEV108 Observation and Assessment for Early Learning and Development (DS3) (units 3 - 3)

CDEV112 Health, Safety and Nutrition for Children (units 3 - 3)

CDEV298A Practicum in Early Childhood Programs (units 3.5 - 3.5)

Control Number: 35614

Early Childhood Leadership and Administration, CERT

Certificate of Proficiency

Unit Range for Completion: 16 – 17

The Early Childhood Administrative Certificate provides the educational coursework that prepares directors, supervisors, and managers for early childhood work settings serving children from infancy through age 8. Topics include: communication, curriculum, documentation and interpretation, culturally relevant approaches to teaching and learning that include developmentally appropriate, respectful, supportive relationships with children and families, administration, marketing, and management issues, and self-care and work-life balance related to the operation of center-based early childhood education programs. Fieldwork or field-based assignments may be required. Updated immunizations per state regulations are required. A negative TB test result and state-mandated immunizations are required for certificate completion.

Program Rules: Early Childhood Leadership and Administration, CERT (units 16 - 17)

All of the following

Certificate requirements: Select six (6) courses. (units 14 - 14)

The following number of units

CDEV215 Administration I: Programs in Early Childhood Education (DS6) (units 3 - 3)

Please select MKTG113 or MKTG172. Credit will only be awarded for one course. (units 0 - 0)

Electives - Select one (1) course. (units 2 - 3)

The following number of units

CDEV221 Living and Teaching in a Diverse Society (units 3 - 3)

CDEV230 Child Guidance and Classroom Management (units 3 - 3)

COMMI00 Introduction to Interpersonal Communication (units 2 - 2)

COMMI00H Honors Introduction to Interpersonal Communication (units 2 - 2)

COMMI01 Group Dynamics (units 3 - 3)

MKTG113 Principles of Marketing (units 3 - 3)

MKTG172 Small Business Marketing and Advertising (units 3 - 3)

An additional course not used above (may not be a course used to satisfy the requirements from above) (units 0 - 0)

Infant/Toddler, CERT

Certificate of Proficiency

Unit Range for Completion: 15 – 15

The Certificate of Proficiency in Infant/Toddler meets the minimum requirements for beginning early learning professionals employed or seeking employment as teachers and/or aides in privately owned and church affiliated (Title 22) or publicly funded (Title 5) programs serving infants and toddlers. This certificate is also recommended for licensed Family Day Care Providers or Nannies.

Program Rules: Infant/Toddler, CERT (units 15 - 15)

The following number of units

CDEV107 Child Growth and Development (DS1) (units 3 - 3)

CDEV108 Observation and Assessment for Early Learning and Development (DS3) (units 3 - 3)

CDEV110 Child, Family and Community (DS2) (units 3 - 3)

CDEV116A Infant/Toddler Growth and Development (DS4)

(units 3 - 3)

CDEV116B Care and Education for Infants and Toddlers (DS3)
(units 3 - 3)

Level I - Early Childhood Exceptional Needs, CERT

Certificate of Proficiency

Unit Range for Completion: 7 – 10

The Level I - Early Childhood Exceptional Needs Certificate of Proficiency is an introductory professional development certificate for students working with children with disabilities and exceptional needs in public (Title.5) and private(Title.22) early intervention, special education, and educational settings that serve children with typical and atypical development and their families. This certificate will focus on defining typical and atypical development, the historical and societal influences, regulations, and the identification and referral processes leading to appropriate intervention. Field trips may be required. All state-mandated vaccinations must be completed.

Program Rules: Level I - Early Childhood Exceptional Needs, CERT (units 7 - 10)

The following number of units

CDEV107 Child Growth and Development (DS1) (units 3 - 3)

CDEV202 Introduction to Children from Special Populations

(units 3 - 3)

CDEV299 Cooperative Work Experience Education (units 1 - 4)

Level II - Early Childhood Exceptional Needs, CERT

Certificate of Proficiency

Unit Range for Completion: 10 – 13

The Level II - Early Childhood Exceptional Needs Certificate of Proficiency is an intermediate professional development certificate for students working with children with disabilities and special needs in public and private early intervention, special education, and educational settings that serve children with typical and atypical development and their families. This certificate will focus on the role of the teacher in designing and implementing curriculum and strategies that support young children's development. Typical and atypical development, the historical and societal influences, regulations, and the identification and referral processes leading to appropriate intervention and strategies will be addressed. Field trips may be required. All state-mandated vaccinations must be completed.

Program Rules: Level II - Early Childhood Exceptional Needs, CERT (units 10 - 13)

The following number of units

CDEV107 Child Growth and Development (DS1) (units 3 - 3)

CDEV202 Introduction to Children from Special Populations (units 3 - 3)

CDEV203 Curriculum and Intervention Strategies for Special Populations (units 3 - 3)

CDEV299 Cooperative Work Experience Education (units 1 - 4)

Preschool, CERT

Certificate of Proficiency

Unit Range for Completion: 15 – 15

The Certificate of Proficiency in Preschool meets the minimum California Community Care Licensing requirements for beginning early learning professionals employed or seeking employment as teachers and/or aides in privately owned or religious affiliated (Title 22) or publically funded (Title 5) programs serving preschoolers 2-5. This certificate is also recommended for licensed family child care providers, nannies, or early childhood recreation workers. Completion of this award leads to the Preschool Children's Center Permit.

Program Rules: Preschool, CERT (units 15 - 15)

The following number of units

CDEV107 Child Growth and Development (DS1) (units 3 - 3)

CDEV108 Observation and Assessment for Early Learning and Development (DS3) (units 3 - 3)

CDEV110 Child, Family and Community (DS2) (units 3 - 3)

CDEV111A Principles and Practices of Teaching Young Children (units 3 - 3)

CDEV111B Introduction to Curriculum for Young Children (units 3 - 3)

The School-Age Child, CERT

Certificate of Proficiency

Unit Range for Completion: 15 – 15

The Certificate of Proficiency in the School-Age Child is intended to prepare students to meet California Community Care Licensing requirements for positions requiring practical skills and knowledge to work with school-age children (PreK-Grade 3) in Title 22 (privately owned), Title 5 (publically funded) or religious affiliated after-school programs, family child care homes, cruise or camp settings, or nannies. Completion of this certificate leads to a School-Age Children's Center Permit.

Program Rules: The School-Age Child, CERT (units 15 - 15)

The following number of units

CDEV110 Child, Family and Community (DS2) (units 3 - 3)

CDEV112 Health, Safety and Nutrition for Children (units 3 - 3)

CDEV120A Development of the School-Age Child (DS5) (units 3 - 3)

CDEV120B School-Age Child Care and Recreation Activities (DS5)

(units 3 - 3)

CDEV221 Living and Teaching in a Diverse Society (units 3 - 3)

COMMUNICATION

Communication Studies, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 18 – 21

The Associate in Arts in Communication Studies for Transfer degree provides training to build and maintain personal and professional relationships through effective communication. Completion of the transfer degree in Communication prepares students to: (1) Communicate with clarity and accuracy in diverse environments, (2) Act with awareness of self amongst local and global communities, (3) Think critically, creatively and reflectively, and (4) Learn about the self in professional and interpersonal relationships. Successful completion of the transfer degree in Communication guarantees the student acceptance to a local California State University to pursue a baccalaureate degree, in preparation to pursue a career in the field of business, industry, government, social service, and/or education in such areas as teaching, public speaking, consulting, law, announcing, and public relations.

Program Rules: Communication Studies, AA-T (units 18 - 21)

All of the following

Major requirements: (units 3 - 3)

The following number of units

COMM110 Public Speaking (units 3 - 3)

Select two (2) courses from the following (List A): (units 6 - 6)

The following number of units

An additional course from List A (may not be a course used to satisfy the requirements in List A) (units 6 - 6)

The following number of units

When an honors course is available, students can select an honors course or a non-honors course. Credit will be awarded for only one course. (units 0 - 0)

COMM100 Introduction to Interpersonal Communication (units 3 - 3)

COMM100H Honors Introduction to Interpersonal Communication (units 3 - 3)

COMM101 Group Dynamics (units 3 - 3)

COMM111 Argumentation and Debate (units 3 - 3)

Select two (2) courses from the following (List B): (units 6 - 6)

The following number of units

An additional course from List A (may not be a course used to satisfy the requirements in List A) (units 0 - 0)

When an honors course is available, students can select an honors course or a non-honors course. Credit will be awarded for only one course. (units 0 - 0)

COMM120 Intercultural Communication (units 3 - 3)

COMM120H Honors Introduction to Intercultural Communication (units 3 - 3)

COMM134 Oral Interpretation (units 3 - 3)

null (units 0 - 0)

Select one (1) course from the following (List C): (units 3 - 6)

The following number of units

- An additional course from List A (may not be a course used to satisfy the requirements in List A or B) (units 0 - 0)
- COMMI30 Forensics Team (units 4 - 6)
- COMMI35 Readers' Theatre (units 3 - 3)
- COMM225 Gender Communication (units 3 - 3)
- COMM225H Honors Gender Communication (units 3 - 3)
- COMM230 Advanced Forensics Team (units 4 - 6)
- ENGLI02 Literature and Composition (units 3 - 3)
- ENGLI02H Honors Literature and Composition (units 3 - 3)
- ENGLI03 Critical Thinking and Writing (units 4 - 4)
- ENGLI03H Honors Critical Thinking and Writing (units 4 - 4)

Control Number: 30558

Communication, AA

A.A. Degree Major

Unit Range for Completion: 18 – 18

The associate degree curriculum in communication provides training for communicating and dealing with people. Completion of the associate in arts degree in communication prepares students to: (1) Communicate with clarity and accuracy, and in diverse environments, (2) Act with awareness of self and both the local and global communities of persons, (3) Think critically, creatively and reflectively, and (4) Learn about self and others, academic and professional issues. The associate in arts in communication degree prepares the student to move into a curriculum at a four-year institution leading to a baccalaureate degree, and then into careers in the field of business, industry, government, social service, or education in such areas as teaching, public speaking, consulting, law, announcing, public speaking and public relations.

Program Rules: Communication, AA (units 18 - 18)

All of the following

Relationship Emphasis (units 3 - 3)

The following number of units

Rule Group (units 3 - 6)

At least one of the following

COMMI00 Introduction to Interpersonal Communication (units 3 - 3)

COMMI00H Honors Introduction to Interpersonal Communication (units 3 - 3)

COMMI01 Group Dynamics (units 3 - 3)

Delivery Emphasis (units 3 - 3)

The following number of units

COMMI10 Public Speaking (units 3 - 3)

COMMI11 Argumentation and Debate (units 3 - 3)

Diversity Emphasis (units 3 - 3)

The following number of units

Rule Group (units 3 - 6)

At least one of the following

COMMI20 Intercultural Communication (units 3 - 3)

COMMI20H Honors Introduction to Intercultural Communication (units 3 - 3)

Rule Group (units 3 - 6)

At least one of the following

COMM225 Gender Communication (units 3 - 3)

COMM225H Honors Gender Communication (units 3 - 3)

Performance Emphasis (units 3 - 3)

The following number of units

COMMI30 Forensics Team (units 6 - 6)

COMMI34 Oral Interpretation (units 3 - 3)

COMMI35 Readers' Theatre (units 3 - 3)

COMM230 Advanced Forensics Team (units 6 - 6)

Required Electives (units 6 - 6)

The following number of units

Any of the above courses not already completed, but no more than two (2) additional units of Communication 130 or Communication 230 (units 2 - 2)

The following number of units

LIBI03 Advanced Internet Research (units 1.5 - 1.5)

Control Number: 11929

COMPUTER INFORMATION SYSTEMS

Computer Information Systems, AS

A.S. Degree Major

Unit Range for Completion: 26 – 28

The Associate of Science degree in Computer Information Systems is concerned with the development of procedures which are effective and efficient, computer languages suitable for starting these procedures, and systems for executing the procedures. This may include the ability to write programs in Visual BASIC, C++ or Java and applications such as Excel. Graduates of the program are prepared for employment as trainees in information systems, computer programming, and systems analysis. Completion of the degree provides background for curriculum at a four-year institution such as the California State University system at Fullerton or Pomona. Students intending to obtain a bachelor's degree in Computer Information Systems should consult the major requirements for upper-division standing listed under the Business Administration major at the school of their choice.

Program Rules: Computer Information Systems, AS (units 22 - 23)

All of the following

Major requirements: (units 19 - 19)

The following number of units

ACCT101 Financial Accounting (units 4 - 4)

BUSI50 Introduction to Information Systems and Applications (units 3 - 3)

BUSI05 Legal Environment of Business (units 3 - 3)

CISI06 Microsoft Excel (units 3 - 3)

Program Rules: Cosmetology, CA (units 42 - 42)

All of the following

Certificate Requirements: (units 42 - 42)

All of the following

COSM005 Health and Safety (units 7 - 7)

COSM040 Cosmetology (units 35 - 35)

Control Number: 21674

Esthetician, CA

Certificate of Achievement

Unit Range for Completion: 20 – 20

The Certificate of Achievement in Esthetician is designed to exceed minimum California Board of Barbering and Cosmetology standards. Students will experience a combination of lecture and laboratory instruction covering various topics such as manual, electrical and chemical facials. Proficiencies to be developed include principles of sanitation, client management as well as compliance with laws and administrative regulations. Courses are offered on an open enrollment basis and students may enroll at any time. Students are required to purchase a basic cosmetology kit.

Program Rules: Esthetician, CA (units 20 - 20)

The following number of units

COSM005 Health and Safety (units 7 - 7)

COSM080 Esthetician (units 13 - 13)

Control Number: 36520

COUNSELING

California State University General Education Breadth (CSU), CA

Certificate of Achievement

Unit Range for Completion: 39 – 39

Complete all CSU General Education Breadth Requirements (Plan B) to a minimum of 39 units.

Program Rules: California State University General Education Breadth (CSU), CA (units 39 - 39)

The following number of units

Control Number: 18117

Intersegmental General Education Transfer Curriculum (IGETC), CA

Certificate of Achievement

Unit Range for Completion: 34 – 34

Complete all Intersegmental General Education Transfer Curriculum Requirements (Plan C) to a minimum of 34 units.

Program Rules: Intersegmental General Education Transfer Curriculum (IGETC), CA (units 34 - 34)

The following number of units

Control Number: 18118

Liberal Arts: Arts, Humanities, and Communication, AA

A.A. Degree Major

Unit Range for Completion: 18 – 18

The integrated curriculum of the Liberal Arts degree provides a broad exposure to the arts, humanities, sciences, and social sciences, while offering the opportunity for depth of knowledge within an area of emphasis. The program will enable students to develop an appreciation and understanding of the logic, aesthetic, and ethical values that have shaped and enriched our culture and to develop intellectual maturity, a deeper understanding of themselves, others, and the world. The curriculum provides a basic framework for lifelong individual study as well as preparation for university study. These courses emphasize the study of cultural literacy, humanistic activities and the artistic expression of human beings. Students will evaluate and interpret the ways in which people through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students will also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments. This area of emphasis will prepare students for a variety of majors within the Humanities discipline including Creative Writing, English, Foreign Language, Humanities and Art, and Philosophy. It will also provide lower-division preparation for a wide range of majors within the Communications discipline. Complete general education Plan A (associate degree only, non-transfer), Plan B (CSU-GE Breadth, CSU transfer) or Plan C (IGETC, UC or CSU transfer). Students are advised to meet with a counselor to select a general education pattern most appropriate to their educational goals. Units used to satisfy an area of emphasis may be used to satisfy general education requirements.

Program Rules: Liberal Arts: Arts, Humanities, and Communication, AA (units 18 - 18)

Liberal Arts: Mathematics and Sciences, AS

A.S. Degree Major

Unit Range for Completion: 18 – 18

The integrated curriculum of the Liberal Arts degree provides a broad exposure to the arts, humanities, sciences, and social sciences, while offering the opportunity for depth of knowledge within an area of emphasis. The program will enable students to develop an appreciation and understanding of the logic, aesthetic, and ethical values that have shaped and enriched our culture and to develop intellectual maturity, a deeper understanding of themselves, others, and the world. The curriculum provides a basic framework for lifelong individual study as well as preparation for university study. The science courses in this category examine the physical universe, its life forms and its natural phenomena. These courses will assist the student in developing an appreciation of the scientific method and encourage an understanding of the relationships between science and other human activities. The mathematics courses will encourage the understanding of mathematical concepts through the development of quantitative reasoning skills. Students are required to complete at least one mathematics course within this area of emphasis. This area of emphasis will provide students with lower-division preparation for a variety of majors within the scientific disciplines, including Astronomy, Biology, Chemistry, Earth Sciences, Geology and Physics and will provide preparation for Mathematics majors. Additionally, students may undertake preparation for Nursing, Kinesiology, Public Health and other Health Science majors. Many of the courses will also assist students in prerequisite preparation for graduate programs within Health Sciences. In addition to the area of emphasis, students are required to complete a general education pattern (Plan A, B, or C). Students are advised to meet with a counselor to select the general education pattern most appropriate to their educational goals. Units used to satisfy an area of emphasis may be used to satisfy general education requirements.

Program Rules: Liberal Arts: Mathematics and Sciences, AA (units 18 - 18)

Liberal Arts: Multi-Cultural Studies, AA

A.A. Degree Major

Unit Range for Completion: 18 – 18

The integrated curriculum of the Liberal Arts degree provides a broad exposure to the arts, humanities, sciences, and social sciences, while offering the opportunity for depth of knowledge within an area of emphasis. The program will enable students to develop an appreciation and understanding of the logic, aesthetic, and ethical values that have shaped and enriched our culture and to develop intellectual maturity, a deeper understanding of themselves, others, and the world. The curriculum provides a basic framework for lifelong individual study as well as preparation for university study. These inter-disciplinary courses promote an appreciation of multi-cultural influences in contemporary society. Courses in this category encourage students to acquire the knowledge, skills and attitude needed to function effectively in a pluralistic democratic society and to interact, negotiate and communicate with peoples from diverse groups in order to create a civic and moral community that works for the common good. This emphasis will provide students with lower-division major preparation for disciplines within the area of study devoted to culture and society. These majors include Chicano Studies, Ethnic Studies, Foreign Language, Global Studies, International Development and Women's Studies. Complete

general education Plan A (associate degree only, non-transfer), Plan B (CSU-GE Breadth, CSU transfer) or Plan C (IGETC, UC or CSU transfer). Students are advised to meet with a counselor to select a general education pattern most appropriate to their educational goals. Units used to satisfy an area of emphasis may be used to satisfy general education requirements.

Liberal Arts: Social and Behavioral Sciences, AA

A.A. Degree Major

Unit Range for Completion: 18 – 18

The integrated curriculum of the Liberal Arts degree provides a broad exposure to the arts, humanities, sciences, and social sciences, while offering the opportunity for depth of knowledge within an area of emphasis. The program will enable students to develop an appreciation and understanding of the logic, aesthetic, and ethical values that have shaped and enriched our culture and to develop intellectual maturity, a deeper understanding of themselves, others, and the world. The curriculum provides a basic framework for lifelong individual study as well as preparation for university study. Courses in this category emphasize the connection between human behavior and social, political and economic institutions and promote an understanding of how societies and social subgroups operate. Students will be encouraged to apply critical thinking techniques as they evaluate the way individuals act and have acted in response to their societies. The courses will ensure opportunities for students to develop an understanding of the perspectives and methods of inquiry used in the social and behavioral sciences. This area of emphasis will provide students with lower-division major preparation for many disciplines within the social sciences including Criminal Justice, Economics, Political Science, Psychology, Sociology and History. Complete general education Plan A (associate degree only, non-transfer), Plan B (CSU-GE Breadth, CSU transfer) or Plan C (IGETC, UC or CSU transfer). Students are advised to meet with a counselor to select a general education pattern most appropriate to their educational goals. Units used to satisfy an area of emphasis may be used to satisfy general education requirements.

Social Work and Human Services, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 29.5 – 30.5

The Social Work and Human Services Associate in Arts Degree for Transfer provides an interdisciplinary exploration of courses and content that prepares students to transfer to a four-year university as either Social Work or Human Services majors. This program allows students to blend theory with fieldwork experience while incorporating critical thinking and self-exploration. Successful completion of this degree will guarantee admission to a California State University that has a similar degree program, but not to a particular campus, and allow students to complete a bachelors degree. Students are strongly encouraged to meet with a counselor to discuss transfer options.

Program Rules: Social Work and Human Services, AA-T (units 29.5 - 30.5)

- All of the following
- Required Core: (units 4 - 4)
- The following number of units
- Rule Group (units 3 - 6)
- At least one of the following
 - BIOL109 Fundamentals of Biology (units 3 - 3)
 - BIOL109H Honors Fundamentals of Biology (units 3 - 3)
- Rule Group (units 1 - 14)
- At least one of the following
 - BIOL109HL Honors Fundamentals of Biology Laboratory (units 1 - 1)
 - BIOL109L Fundamentals of Biology Laboratory (units 1 - 1)
 - BIOL149 Human Anatomy and Physiology (units 4 - 4)
 - BIOL239 General Human Anatomy (units 4 - 4)
 - BIOL249 Human Physiology (units 4 - 4)
- Required core continued: (units 19.5 - 19.5)
- The following number of units
- Rule Group (units 6 - 6)
- All of the following
 - CNSL150 Introduction to Human Services (units 3 - 3)
 - CNSL160A The Helping Professions Seminar (units 1 - 1)
 - CNSL160B Fieldwork Experience for the Helping Professions (units 2 - 2)
- Rule Group (units 3 - 6)
- At least one of the following
 - ECON101 Principles/Micro (units 3 - 3)
 - ECON102 Principles/Macro (units 3 - 3)
- Rule Group (units 4 - 12.5)
- At least one of the following
 - MATH219 Statistics and Probability (units 4 - 4)
 - MATH219H Honors Statistics and Probability (units 4 - 4)
 - MATH219S Statistics and Probability with Integrated Review (units 4.5 - 4.5)
- Rule Group (units 3 - 6)
- At least one of the following
 - PSYC100 Introduction to Psychology (units 3 - 3)
 - PSYC100H Honors Introduction to Psychology (units 3 - 3)
- Rule Group (units 3 - 6)
- At least one of the following
 - SOCI100 Introduction to Sociology (units 3 - 3)
 - SOCI100H Honors Introduction to Sociology (units 3 - 3)
- Select (2) two courses from the following (List A): (units 6 - 7)
- The following number of units
- Rule Group (units 3 - 6)
- At least one of the following
 - ANTH100 Introduction to Cultural Anthropology (units 3 - 3)
 - ANTH100H Honors Introduction to Cultural Anthropology (units 3 - 3)
- Rule Group (units 3 - 6)
- At least one of the following
 - CDEV107 Child Growth and Development (DS1) (units 3 - 3)
 - PSYC157 Introduction to Child Psychology (units 3 - 3)
- Rule Group (units 3 - 6)
- At least one of the following
 - CDEV110 Child, Family and Community (DS2) (units 3 - 3)
 - CJ101 Introduction to Criminal Justice (units 3 - 3)
- Rule Group (units 3 - 6)
- At least one of the following
 - COMM120 Intercultural Communication (units 3 - 3)
 - COMM120H Honors Introduction to Intercultural Communication (units 3 - 3)

- Rule Group (units 4 - 8)
- At least one of the following
 - ENGL103 Critical Thinking and Writing (units 4 - 4)
 - ENGL103H Honors Critical Thinking and Writing (units 4 - 4)
- Rule Group (units 3 - 6)
- At least one of the following
 - HIST120 The United States to 1877 (units 3 - 3)
 - HIST120H Honors The United States to 1877 (units 3 - 3)
- Rule Group (units 3 - 6)
- At least one of the following
 - HIST121 The United States Since 1865 (units 3 - 3)
 - HIST121H Honors the United States Since 1865 (units 3 - 3)
- Rule Group (units 3 - 12)
- At least one of the following
 - PSYC160 Introduction to Lifespan Psychology (units 3 - 3)
 - PSYC230 Psychology of Adjustment (units 3 - 3)
 - PSYC250 Introduction to Abnormal Psychology (units 3 - 3)
 - SOCI16 Social Problems (units 3 - 3)

Control Number: 37164

EARTH SCIENCE

Earth Sciences, AS

A.S. Degree Major

Unit Range for Completion: 18 – 21

The Associate of Science in Earth Sciences degree is designed to provide students who need or want broad knowledge of the Earth sciences for their profession, but do not necessarily plan on becoming professional geoscientists. In addition to the geosciences, professions where such knowledge could prove to be useful include environmental sciences, urban planning and land use, transportation, travel and tourism, education, park rangers and other recreation professionals.

Program Rules: Earth Sciences, AS (units 18 - 21)

- All of the following
- Major requirements: (units 11 - 11)
- The following number of units
- ERTH100 Physical Geology (units 3 - 3)
- ERTH100L Physical Geology Laboratory (units 1 - 1)
- ERTH111 Historical Geology (units 4 - 4)
- Please select one (1) of the following: (units 0 - 0)
- ERTH130 Environmental Geology (units 3 - 3)
- ERTH160 Oceanography (units 3 - 3)
- GEOG130 Introduction to Weather and Climate (units 3 - 3)
- Select a minimum of six (6) units from the following: (units 6 - 6)
- The following number of units
- An additional course from above (may not be a course used to satisfy the requirements in above list) (units 0 - 0)
- GEOG155 and SURV155 are considered the same course and credit will be awarded for only one course. (units 0 - 0)
- ASTRI03 Introduction to the Solar System (units 3 - 3)
- ERTH120 Earth Sciences (units 3 - 3)
- ERTH121 Earth Sciences for Educators (units 3 - 3)
- GEOG150 Exploring Maps and Geographic Technologies (units 4 - 4)
- GEOG155 Introduction to Geographic Information Systems (units 3 - 3)
- LIBI100 Library Research Fundamentals (units 3 - 3)
- LIBI103 Advanced Internet Research (units 1 - 1)
- SURV155 Introduction to Geographic Information Systems (units 3 - 3)
- Select a minimum of one (1) unit from the following: (units 1 - 4)
- The following number of units
- ERTH200 Geology of California (units 3 - 3)
- ERTH212 San Andreas Fault System Geology Field Study (units 1 - 1)
- ERTH214 Orange County Geology Field Study (units 1 - 1)

Control Number: 11934

ECONOMICS

Economics, AA

A.A. Degree Major

Unit Range for Completion: 21 – 23

The Associate of Arts degree in Economics is a program of basic courses which enable students to move into a curriculum in a four-year institution leading to a baccalaureate degree. Economics prepares the student for a number of career opportunities such as accounting and marketing in the areas of business, government and teaching.

Program Rules: Economics, AA (units 21 - 23)

The following number of units

Rule Group (units 14 - 14)

All of the following

ACCT101 Financial Accounting (units 4 - 4)

ACCT102 Managerial Accounting (units 4 - 4)

ECON101 Principles/Micro (units 3 - 3)

ECON102 Principles/Macro (units 3 - 3)

Rule Group (units 3 - 8)

At least one of the following

BUS150 Introduction to Information Systems and Applications (units 3 - 3)

MATH150 Calculus for Biological, Management and Social Sciences

(units 5 - 5)

Rule Group (units 4 - 12)

At least one of the following

MATH219 Statistics and Probability (units 4 - 4)

MATH219H Honors Statistics and Probability (units 4 - 4)

MATH220 Statistics and Probability with Integrated Review (units 4 - 4)

Control Number: 11943

Economics, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 21 – 24

The Associate in Arts in Economics for Transfer degree provides students with a program of basic courses which enables students to experience a seamless transition into a curriculum at a CSU leading to a baccalaureate degree with career opportunities in economic research, consulting, accounting, and marketing in the areas of business, teaching, and public policy. Economics is the social science that studies how individuals, businesses, and governments make choices to cope with scarcity and the incentives that influence and reconcile those choices.

Program Rules: Economics, AA-T (units 21 - 24)

All of the following

Major requirements: (units 14 - 15)

The following number of units

Rule Group (units 6 - 6)

All of the following

ECON101 Principles/Micro (units 3 - 3)

ECON102 Principles/Macro (units 3 - 3)

Rule Group (units 4.5 - 12.5)

At least one of the following

MATH219 Statistics and Probability (units 4 - 4)

MATH219H Honors Statistics and Probability (units 4 - 4)

MATH219S Statics and Probability with Support (units 4.5 - 4.5)

Rule Group (units 4 - 13)

At least one of the following

MATH150 Calculus for Biological, Management and Social Sciences (units 5 - 5)

MATH180 Single Variable Calculus I (units 4 - 4)

MATH180H Honors Single Variable Calculus I (units 4 - 4)

Select one (1) course from the following (List A): (units 4 - 4)

The following number of units

ACCT101 Financial Accounting (units 4 - 4)

MATH185 Single Variable Calculus II (units 4 - 4)

Select one (1) course from the following (List B): (units 3 - 5)

The following number of units

An additional course from List A (may not be a course used to satisfy the requirements in List A) (units 4 - 4)

The following number of units

ACCT102 Managerial Accounting (units 4 - 4)

BUS150 Introduction to Information Systems and Applications (units 4 - 4)

BUS222 Business Writing (units 3 - 3)

MATH280 Intermediate Calculus (units 3 - 3)

MATH287 Introduction to Linear Algebra and Differential Equations (units 4 - 4)

MATH290 Linear Algebra (units 5 - 5)

Control Number: 32968

EDUCATION

After School Program Assistant, CA

Certificate of Achievement

Unit Range for Completion: 9 – 10

The Certificate of Achievement in After School Program Assistant is intended to prepare a student for an entry-level position requiring practical skills and knowledge to work with children in an after-school care, tutoring, or mentoring program. Completion of this certificate leads to state certification for a School Age Assistant Permit.

Program Rules: After School Program Assistant, CA (units 9 - 10)

The following number of units

Rule Group (units 7 - 7)

All of the following

CDEV120A Development of the School-Age Child (DS5) (units 3 - 3)

CDEV120B School-Age Child Care and Recreation Activities (DS5) (units 3 - 3)

EDUC113 Educational Strategies for Tutors and Instructional Aides (units 1 - 1)

Rule Group (units 2 - 5)

At least one of the following

CNSLI18 Self Exploration and the Teaching Profession (units 2 - 2)

EDUC110 The Teaching Experience: Exploration (units 3 - 3)

Control Number: 38157

After School Program Associate Teacher, CA

Certificate of Achievement

Unit Range for Completion: 15 – 16

The Certificate of Achievement in After School Program Associate Teacher is intended to provide students with advanced skills necessary to work with K-12 students in an after-school setting, provide tutoring / homework assistance, and assist in academic enrichment programs. In combination with the completion of the SCC After School Program Assistant Certificate, this certificate of completion leads to state certification for the School Age Associate Teacher Permit.

Program Rules: After School Program Associate Teacher, CA (units 15 - 16)

The following number of units

Rule Group (units 2 - 5)

At least one of the following

CNSLI18 Self Exploration and the Teaching Profession (units 2 - 2)

EDUC110 The Teaching Experience: Exploration (units 3 - 3)

Rule Group (units 3 - 6)

At least one of the following

CDEV107 Child Growth and Development (DS1) (units 3 - 3)

PSYC157 Introduction to Child Psychology (units 3 - 3)

Rule Group (units 10 - 10)

All of the following

COMMI10 Public Speaking (units 3 - 3)

EDUC211 Classroom Practices for Diverse Learners (units 3 - 3)

EDUC113 Educational Strategies for Tutors and Instructional Aides (units 1 - 1)

ELECTRONICS TECHNOLOGY

Water System Automation, CA

Certificate of Achievement

Unit Range for Completion: 12 – 12

The Certificate of Achievement in Water System Automation is designed to prepare students for careers in the public health fields of drinking water and sanitation, as well as other fields of automation applications. This program is also designed to enable those already working in these fields to upgrade their skills. Subjects addressed include basic principles of electricity and electric power, interpretation of ladder logic diagrams, use of measurement instruments such as multimeters and oscilloscopes, laboratory construction and troubleshooting of control circuits and programmable logic controllers, and application of these technologies in the drinking water and sanitation industries.

Program Rules: Water System Automation, CA (units 12 - 12)

English, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 20 – 20

The Associate in Arts in English for Transfer degree enables students to develop proficiency in written communication and in the understanding of human nature through the study of language and literature. Completion of the transfer degree in English prepares students to (1) communicate effectively, (2) exercise critical thinking and reasoning, (3) read and write to express creativity, and (4) explore the history of significant literary works. Successful completion of the transfer degree in English guarantees the student acceptance to a local California State University to pursue a baccalaureate degree in English or a related field.

Program Rules: English, AA-T (units 20 - 20)

All of the following

Major requirements: (units 8 - 8)

The following number of units

Rule Group (units 4 - 8)

At least one of the following

ENGL102 Literature and Composition (units 4 - 4)

ENGL102H Honors Literature and Composition (units 4 - 4)

Rule Group (units 4 - 8)

At least one of the following

ENGL103 Critical Thinking and Writing (units 4 - 4)

ENGL103H Honors Critical Thinking and Writing (units 4 - 4)

Select two (2) courses from the following (List A): (units 6 - 6)

The following number of units

ENGL231 Survey of English Literature I (units 3 - 3)

ENGL232 Survey of English Literature II (units 3 - 3)

ENGL241 Survey of American Literature, 1600-1865 (units 3 - 3)

ENGL242 Survey of American Literature, 1865-Present (units 3 - 3)

ENGL271 Survey of World Literature I (units 3 - 3)

ENGL272 Survey of World Literature II (units 3 - 3)

Select one (1) course from the following (List B): (units 3 - 3)

The following number of units

An additional course from List A (may not be a course used to satisfy the requirements in List A or B) (units 3 - 3)

The following number of units

ENGL213 Creative Writing (units 3 - 3)

Select one (1) course from the following (List C): (units 3 - 3)

The following number of units

An additional course from List A (may not be a course used to satisfy the requirements in List A or B) (units 3 - 3)

The following number of units

ENGL220 Survey of the Bible As Literature (units 3 - 3)

ENGL233A Shakespeare's Comedies and Romances (units 3 - 3)

ETHNIC STUDIES

Ethnic Studies, AA

A.A. Degree Major

Unit Range for Completion: 18 – 18

The Associate in Arts Degree in Ethnic Studies is designed to provide students with a comparative and interdisciplinary examination of the unique histories, cultures, and experiences of African Americans, Asian and Pacific Islander Americans, Latino/x Americans, and Native Americans in the United States. Students will assess their own individual cultural identity/ies, build consciousness about race and ethnic relations in America, and begin to formulate and implement strategies that will challenge multiple and intersecting forms of oppression. The major prepares students to work collaboratively with diverse populations given its emphasis on group-centered leadership and communication skills, as well as, critical thinking and praxis. Completion of the associates of arts degree facilitates a pathway to move into a four-year institution leading to baccalaureate degree.

Program Rules: Ethnic Studies, AA (units 18 - 18)

All of the following

Major Requirements: (units 15 - 15)

The following number of units

Select ETHN101 or SOCI101 (units 0 - 0)

ETHN101 Introduction to Ethnic Studies (units 3 - 3)

SOCI101 Introduction to Ethnic Studies (units 3 - 3)

ETHN110 Introduction to Asian Pacific American Studies (units 3 - 3)

ETHN120 Introduction to African American Studies (units 3 - 3)

ETHN130 Introduction to Chicano Studies (units 3 - 3)

ETHN140 Introduction to Native American Studies (units 3 - 3)

Select one (1) from the following: (units 3 - 3)

The following number of units

ANTH100 Introduction to Cultural Anthropology (units 3 - 3)

ANTH100H Honors Introduction to Cultural Anthropology (units 3 - 3)

COMM120 Introduction to Intercultural Communication (units 3 - 3)

COMM120H Honors Introduction to Intercultural Communication (units 3 - 3)

ENGL279 Survey of Latinx Literature (units 3 - 3)

ENGL280 Literature of the African Diaspora (units 3 - 3)

HIST118 Social and Cultural History of the United States (units 3 - 3)

HIST124 Mexican American History in the United States (units 3 - 3)

HIST132 Modern African History (units 3 - 3)

HIST142 History of the Modern Middle East (units 3 - 3)

HIST152 Latin American History (units 3 - 3)

HIST162 Asian Civilizations (units 3 - 3)

GEMOLOGY

Gemology, AS

A.S. Degree Major

Unit Range for Completion: 18 – 18

The Associate of Science degree in Gemology provides technical and practical theory and knowledge in diamonds and colored stones including laboratory grading, identification and evaluation of gems. Employment opportunities upon completion of this program: jewelry appraiser, diamond and colored stones sales, jewelry buyer, jewelry wholesaler and laboratory gemologist.

Program Rules: Gemology, AS (units 18 - 18)

The following number of units

- GEM011 Introductory Colored Stones (units 4 - 4)
- GEM012 Advanced Colored Stones (units 4 - 4)
- GEM020 Diamonds (units 4 - 4)
- GEM030 Antique and Period Jewelry (units 3 - 3)
- GEM050 Pearls (units 3 - 3)

GENDER, SEXUALITY, AND WOMEN'S STUDIES

Gender, Sexuality, and Women's Studies, AA

A.A. Degree Major

Unit Range for Completion: 18 – 19

The Associate of Arts degree in Gender, Sexuality, and Women's Studies is a liberal arts major offering interdisciplinary perspectives on the importance of gender and sexualities in relation to issues such as race, class, ethnicity, nationality, religion, age, (dis)ability, labor, multiculturalism, globalization, and the environment. Utilizing a variety of theoretical and methodological approaches in their study of the intersections of gender and sexuality with multiple identities, students are empowered to make theoretically informed personal, social, cultural, and institutional changes. Completion of the associate of arts degree prepares students to move into a curriculum at a four-year institution leading to a baccalaureate degree.

Program Rules: Gender, Sexuality, and Women's Studies, AA (units 18 - 19)

All of the following

Major requirements: (units 15 - 15)

All of the following

- GSWS101 Introduction to Women's Studies (units 3 - 3)
- GSWS102 Money, Sex, and Power (units 3 - 3)
- GSWS103 Men and Masculinities (units 3 - 3)
- HIST127 Women in U.S. History (units 3 - 3)
- SOC220 Introduction to Gender and Sexualities (units 3 - 3)

Select three (3) to four (4) units from the following: (units 3 - 4)

GEOGRAPHY AND THE ENVIRONMENT

Geography AA-T

A.A. Degree for Transfer

Unit Range for Completion: 17 – 19

The Associate of Arts degree for Transfer curriculum in Geography provides students with a global understanding and environmental awareness. Geography students utilize a spatial perspective for analyzing physical and cultural landscapes across Earth. Geography's interdisciplinary approach is ideal for students wishing to integrate physical and social sciences. The Geography and the Environment department prepares students for entry into a curriculum at a four-year institution leading to a baccalaureate degree with career opportunities in a wide range of industries including urban planning, market research, land use analysis, transportation, travel and tourism, education as well as state, local and national government agencies.

Program Rules: Geography, AA-T (units 17 - 19)

GEOLOGY

Geology, AS-T

A.S. Degree for Transfer

Unit Range for Completion: 26 – 26

The Associate in Science in Geology for Transfer degree prepares students for transfer to a four-year college or university to complete a baccalaureate degree in a geoscience major. Geoscientists find employment with environmental companies that clean up and monitor pollution problems. Geotechnical companies also employ geoscientists to evaluate risk from earthquakes, landslides, and other geological hazards. Oil and mining companies employ geoscientists to find new resources. The federal, state, county, and city governments also employ geoscientists for many of the same functions, as well as for geoscience research, and to monitor compliance with environmental regulations. Universities, colleges, and museums offer opportunities for teaching and/or research. Successful completion of the Associate in Science in Geology for Transfer guarantees the student acceptance to a California State University campus to pursue a baccalaureate degree in geology or a related field. While it does not guarantee the student acceptance to the University of California system, it does provide the major preparation needed by geology students transferring to a University of California campus in geology or related fields.

Program Rules: Geology, AS-T (units 26 - 26)

The following number of units

HISTORY

Global Studies, CA

Certificate of Achievement

Unit Range for Completion: 12 – 12

The certificate in Global Studies within the Department of History is intended to prepare a student in the History Department with particular insights into global perspectives and historical experiences such that the student may successfully enter a globally-oriented program of study after transfer to a four-year institution. It provides students access to a concentrated course of study that offers a full scope of knowledge from lower-division survey courses centered on global states and societies. Additionally, it offers exposure to interdisciplinary education, which is central to many programs of study at four-year institutions such as international relations and global studies. Students will complete a total of 12 units, 9 of which will be in the History Department and 3 of which will be in either the Geography Department or Political Science Department. Completion of a History Department Certificate in Global Studies can be completed over one to two years.

Program Rules: Global Studies, CA (units 12 - 12)

All of the following

Certificate Requirements: (units 3 - 3)

The following number of units

HIST102 World Civilizations Since the 16th Century (units 3 - 3)

Kinesiology, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 20 – 24

The Associate in Arts in Kinesiology for Transfer degree prepares students to transfer to a four-year institution leading to a baccalaureate degree in Kinesiology. Completion of the degree also provides guaranteed admission with junior status to the CSU system in the Kinesiology major. Consult with a counselor regarding specific course requirements for your transfer institution. Upon completion of the Associate in Arts in Kinesiology for Transfer, students will have a general understanding of the human anatomy, human physiology, and mechanics of human movement, and be able to apply fitness-based concepts.

Program Rules: Kinesiology, AA-T (units 20 - 24)

All of the following

Major requirements: (units 11 - 11)

The following number of units

KINI100 Introduction to Kinesiology (units 3 - 3)
 BIOL249 Human Physiology (units 4 - 4)
 BIOL239 General Human Anatomy (units 4 - 4)

Select three (3) units from the following. Must select one (1) unit course from three different areas- Aquatics, Combatives, Dance, Fitness, or Team Sports. (units 3 - 3)

AQUATICS (units 0 - 0)

The following number of units

KINI185A Basic Swimming (units 1 - 1)
 KINI185B Intermediate Swimming (units 1 - 1)
 KINI185C Advanced Swimming (units 1 - 1)

COMBATIVES (units 0 - 0)

The following number of units

KINI25A Basic Cardio Kickboxing (units 1 - 1)
 KINI25B Intermediate Cardio Kickboxing (units 1 - 1)
 KINI28A Basic Tai Chi (units 1 - 1)

DANCE (units 0 - 0)

The following number of units

DNCE106A Introduction to Modern Dance I (units 1 - 1)
 DNCE106B Introduction to Modern Dance II (units 1 - 1)
 DNCE108A Introduction to Ballet (units 1 - 1)
 DNCE108B Introduction to Ballet (units 1 - 1)

MANAGEMENT

General Management, AS

A.S. Degree Major

Unit Range for Completion: 19 – 20

The Associate of Science degree in General Management is designed to prepare students for various management positions in business, government, and public organizations; to aid existing managers in upgrading their skills; and to assist employees for promotion to management/supervision positions.

Program Rules: General Management, AS (units 19 - 20)

All of the following

Major requirements: (units 13 - 13)

The following number of units

ACCT101 Financial Accounting (units 4 - 4)

BUSI100 Fundamentals of Business (units 3 - 3)

Select BUS120 or MGMT120. Credit will be awarded for only one. (units 0 - 0)

BUS120 Principles of Management (units 3 - 3)

MGMT120 Principles of Management (units 3 - 3)

Select BUS222 or MGMT122. Credit will be awarded for only one. (units 0 - 0)

BUS222 Business Writing (units 3 - 3)

MGMT122 Business Communications (units 3 - 3)

Select two (2) courses from the following: (units 6 - 7)

The following number of units

ACCT100 Accounting for Small Business (units 3 - 3)

ACCT102 Managerial Accounting (units 4 - 4)

BUS105 Legal Environment of Business (units 3 - 3)

BUS121 Human Relations and Organizational Behavior (units 3 - 3)

BUS150 Introduction to Information Systems and Applications (units 3 - 3)

MKTG113 Principles of Marketing (units 3 - 3)

MGMT121 Human Relations and Organizational Behavior (units 3 - 3)

BUS121 or MGMT121 are considered the same course. Credit will be awarded for only one. (units 0 - 0)

Control Number: 11861

Human Resource Management, CERT

Certificate of Proficiency

Unit Range for Completion: 12 – 12

The Certificate of Proficiency in Human Resource Management is designed to prepare students for various management positions in business, government, and public organizations; to aid existing managers in upgrading their skills; and to assist employees for promotion to management/supervision positions.

Program Rules: Human Resource Management, CERT (units 12 - 12)

The following number of units

Rule Group (units 3 - 6)

At least one of the following

MGMT120 Principles of Management (units 3 - 3)

BUS120 Principles of Management (units 3 - 3)

Rule Group (units 3 - 6)

At least one of the following

MGMT121 Human Relations and Organizational Behavior (units 3 - 3)

BUS121 Human Relations and Organizational Behavior (units 3 - 3)

Rule Group (units 6 - 6)

All of the following

MGMT135 Human Resource Management (units 3 - 3)

BUS105 Legal Environment of Business (units 3 - 3)

Supervision, CERT

Certificate of Proficiency

Unit Range for Completion: 12 – 12

The Certificate of Proficiency in Supervision is designed to prepare students for various management positions in business, government, and public organizations; to aid existing managers in upgrading their skills; and to assist employees for promotion to management/supervision positions.

Program Rules: Supervision, CERT (units 12 - 12)

The following number of units

Rule Group (units 3 - 6)

At least one of the following

MGMT121 Human Relations and Organizational Behavior (units 3 - 3)

BUS121 Human Relations and Organizational Behavior (units 3 - 3)

MGMT135 Human Resource Management (units 3 - 3)

Rule Group (units 3 - 6)

At least one of the following

MGMT122 Business Communications (units 3 - 3)

BUS222 Business Writing (units 3 - 3)

Rule Group (units 3 - 9)

At least one of the following

MGMT120 Principles of Management (units 3 - 3)

BUS120 Principles of Management (units 3 - 3)

MGMT123 Supervision (units 3 - 3)

MARKETING

Advertising, CERT

Certificate of Proficiency

Unit Range for Completion: 12 – 12

The Certificate of Proficiency in Advertising is designed to prepare students for various marketing, sales, and retail store management positions; to assist existing marketing managers and sales professionals in upgrading their skills; and to open up new career opportunities within the marketing field. Program content includes selection and buying of merchandise, advertising, sales, product distribution, customer relations, and pricing. The student will then specialize in one of the option areas: general marketing, professional selling, advertising, or retailing management. The certificate program provides practical skills for the student within specific areas of marketing.

Program Rules: Advertising, CERT (units 12 - 12)

The following number of units

MKTG112 Principles of Advertising (units 3 - 3)

MKTG113 Principles of Marketing (units 3 - 3)

MKTG115 Consumer Behavior (units 3 - 3)

MKTG135 Web Marketing and Promotion (units 3 - 3)

MODERN LANGUAGES

Modern Languages, AA

A.A. Degree Major

Unit Range for Completion: 21 – 23

The Associate of Arts degree in Modern Languages is designed to meet the needs of both the student who wishes to transfer to a four-year institution and the student who wishes to achieve basic conversational ability in the language. Completion of the associate in arts degree prepares students to transfer to a four-year institution leading to a baccalaureate degree and to possible careers requiring proficiency in multiple languages. The associate degree in modern languages requires the following: Completion of a minimum of 21 units total. Completion of a minimum of 13 units in any one language including courses numbered 201 and 202. Completion of 5 units in a second language. Completion of a minimum of 3 units of restricted electives.

Program Rules: Modern Languages, AA (units 21 - 23)

All of the following

Completion of a minimum of thirteen (13) units in any ONE language including the courses numbered 201 and 202. (units 0 - 0)

Completion of five (5) units in a SECOND language (units 0 - 0)

Completion of a minimum of three (3) units of restricted electives (units 0 - 0)

Major Requirements: (units 18 - 18)

The following number of units

FREN101 Elementary French I (units 5 - 5)

FREN102 Elementary French II (units 5 - 5)

FREN194 Conversation and Composition I (units 3 - 3)

FREN201 Intermediate French I (units 5 - 5)

FREN202 Intermediate French II (units 5 - 5)

ITAL101 Elementary Italian I (units 5 - 5)

ITAL102 Elementary Italian II (units 5 - 5)

ITAL194 Conversation and Composition (units 3 - 3)

ITAL195 Advanced Conversational Italian (units 3 - 3)

ITAL201 Intermediate Italian I (units 5 - 5)

ITAL202 Intermediate Italian II (units 5 - 5)

SPAN101 Elementary Spanish I (units 5 - 5)

SPAN101H Honors Elementary Spanish I (units 5 - 5)

SPAN101A Elementary Spanish IA (units 2.5 - 2.5)

SPAN101B Elementary Spanish IB (units 2.5 - 2.5)

SPAN102 Elementary Spanish II (units 5 - 5)

SPAN110 Spanish for Spanish Speakers I (units 5 - 5)

SPAN111 Spanish for Spanish Speakers 2 (units 5 - 5)

SPAN194 Beginning Conversational Spanish (units 3 - 3)

SPAN195A Advanced Conversational Spanish (units 3 - 3)

SPAN195B Advanced Conversational Spanish (units 3 - 3)

SPAN201 Intermediate Spanish I (units 5 - 5)

SPAN202 Intermediate Spanish II (units 5 - 5)

SPAN213 College Spanish Composition (units 3 - 3)

SPAN 201 and SPAN 110 are equivalent. SPAN 202 and SPAN 111 are equivalent Please select only one of each course to receive credit. (units 0 - 0)

Restricted Electives (units 3 - 5)

The following number of units

Any course listed above in a THIRD language (units 0 - 0)

ANTH100 Introduction to Cultural Anthropology (units 3 - 3)

ANTH100H Honors Introduction to Cultural Anthropology (units 3 - 3)

ART101 Survey of Western Art History I: Prehistory Through the Middle Ages (units 3 - 3)

ART102 Survey of Western Art History II: Renaissance Through the Twentieth Century (units 3 - 3)

NUTRITION AND FOOD

Nutrition and Dietetics, AS-T

A.S. Degree for Transfer

Unit Range for Completion: 27 – 30

The Associate in Science in Nutrition and Dietetics for Transfer degree prepares students to transfer to a four-year institution leading to a baccalaureate degree in Nutrition and Dietetics or similar major. Completion of the degree also provides guaranteed admission with junior status to the CSU system in Nutrition and Dietetics or similar major. Please consult a counselor regarding specific course requirements for your transfer institution.

Program Rules: Nutrition and Dietetics, AS-T (units 27 - 30)

All of the following

When an honors course is available, students can select an honors course or a non-honors course. Credit will be awarded for only one course. (units 0 - 0)

Major requirements: (units 16 - 16)

The following number of units

BIOL229 General Microbiology (units 5 - 5)

Select CHEM200A or CHEM 200AH. Credit will be awarded for only one. (units 0 - 0)

CHEM200A General Chemistry A (units 5 - 5)

CHEM200AH Honors General Chemistry A (units 5 - 5)

NUTRI15 Nutrition (units 3 - 3)

Select PSYC100 or PSYC100H. Credit will be awarded for only one. (units 0 - 0)

PSYC100 Introduction to Psychology (units 3 - 3)

PSYC100H Honors Introduction to Psychology (units 3 - 3)

Select two (2) courses from the following (List A): (units 8 - 10)

The following number of units

BIOL239 General Human Anatomy (units 4 - 4)

BIOL249 Human Physiology (units 4 - 4)

CHEM200B General Chemistry B (units 5 - 5)

CHEM280A Organic Chemistry A (units 5 - 5)

MATH219 Statistics and Probability (units 4 - 4)

MATH219H Honors Statistics and Probability (units 4 - 4)

MATH219S Statics and Probability with Support (units 4.5 - 4.5)

MATH 219 or MATH219H or MATH219S are considered the same course and credit will be awarded for only one. (units 0 - 0)

Select one (1) course from the following (List B): (units 3 - 4)

The following number of units

An additional course from List A (4-5 units) not used to fulfill List A requirement. (units 0 - 0)

NUTRI20 Food and Culture (units 3 - 3)

SPANISH

Spanish, AA-T

A.A. Degree for Transfer

Unit Range for Completion: 18 – 25

The Associate in Arts in Spanish for Transfer degree is designed for students who wish to transfer to the California State University system. Successful completion of the transfer degree in Spanish guarantees the student acceptance to the California State University campus leading to a baccalaureate degree in Spanish or similar major. The Associate in Arts in Spanish for Transfer Degree develops competence in the ability to understand, read, write and speak Spanish. In addition, it provides the foundation for student to acquire a better understanding and appreciation of the Spanish language and cultures of all Spanish speaking countries. Upon successful completion of the degree, student is also prepared to pursue a career in healthcare, law enforcement, public safety, public service, education, U.S. government, translation and/or interpreting, business, international relations, food services, teaching English in Spanish speaking countries, hospitality, travel industry, and other related fields.

Program Rules: Spanish, AA-T (units 23 - 23)

All of the following

Major Requirements: (units 5 - 5)

The following number of units

Rule Group (units 5 - 10)

At least one of the following

- SPAN101 Elementary Spanish I (units 5 - 5)
- SPAN101H Honors Elementary Spanish I (units 5 - 5)

Rule Group (units 5 - 5)

All of the following

- SPAN101A Elementary Spanish IA (units 2.5 - 2.5)
- SPAN101B Elementary Spanish IB (units 2.5 - 2.5)

Major Requirements (Continued): (units 15 - 15)

The following number of units

- SPAN102 Elementary Spanish II (units 5 - 5)

Rule Group (units 5 - 10)

At least one of the following

- SPAN110 Spanish for Spanish Speakers I (units 5 - 5)
- SPAN201 Intermediate Spanish I (units 5 - 5)

Rule Group (units 5 - 10)

At least one of the following

- SPAN111 Spanish for Spanish Speakers 2 (units 5 - 5)
- SPAN202 Intermediate Spanish II (units 5 - 5)

Select one (1) course from the following (List A): (units 3 - 3)

The following number of units

- SPAN194 Beginning Conversational Spanish (units 3 - 3)
- SPAN195A Advanced Conversational Spanish (units 3 - 3)
- SPAN195B Advanced Conversational Spanish (units 3 - 3)
- SPAN213 College Spanish Composition (units 3 - 3)

If a student places out of any elementary level core course(s) and is not awarded units for that course, the student must select an additional course not taken from List A or from the approved substit (units 0 - 0)

The following number of units

- ANTH100 Introduction to Cultural Anthropology (units 3 - 3)
- ANTH100H Honors Introduction to Cultural Anthropology (units 3 - 3)
- COMM120 Intercultural Communication (units 3 - 3)
- COMM120H Honors Introduction to Intercultural Communication (units 3 - 3)
- ETHNI30 Introduction to Chicano Studies (units 3 - 3)
- ENGL246 Survey of Chicano Literature (units 3 - 3)
- ETHNI01 Introduction to Ethnic Studies (units 3 - 3)
- FREN101 Elementary French I (units 5 - 5)
- GEOG100 World Regional Geography (units 3 - 3)
- GEOG100H Honors World Regional Geography (units 3 - 3)
- HIST124 Mexican-American History in the United States (units 3 - 3)
- ITALI01 Elementary Italian I (units 5 - 5)
- SOCI00 Introduction to Sociology (units 3 - 3)
- SOCI00H Honors Introduction to Sociology (units 3 - 3)
- SOC220 Introduction to Gender and Sexualities (units 3 - 3)

Control Number: 32045

SURVEY/MAPPING SCIENCES

Land Surveying, AS

A.S. Degree Major

Unit Range for Completion: 23 – 23

The Associate of Science degree in Land Surveying provides the student a thorough background in land surveying and mapping in addition to an introduction to collection, manipulation, formatting and mapping of geospatial data. The successful graduate of this program will have the technical expertise necessary for an entry level position in the fields of Geographic Information Systems, Land Surveying, and Digital Photogrammetry. The program also assists those students preparing for the State Land Surveyor-In-Training and Land Surveyor's Exams. The State Board of Registration for Professional Engineers and Land Surveyors will grant one year of experience credit for students completing an Associate Degree in Survey/Mapping Sciences.

Program Rules: Land Surveying, AS (units 23 - 23)

The following number of units

SURV118 Plane Surveying (units 4 - 4)

SURV119 Advanced Plane Surveying (units 4 - 4)

SURV205 Computer Aided Drafting Fundamentals For Surveyors (units 3 - 3)

SURV221 Advanced Problems in Surveying I (units 3 - 3)

SURV222 Advanced Problems in Surveying II (units 3 - 3)

SURV229 Legal Aspects of Land Surveying I (units 3 - 3)

SURV230 Legal Aspects of Land Surveying II (units 3 - 3)

Control Number: 11906

Land Surveying, CA

Certificate of Achievement

Unit Range for Completion: 23 – 23

The Certificate of Achievement in Land Surveying provides the student a thorough background in land surveying and mapping in addition to an introduction to collection, manipulation, formatting and mapping of geospatial data. The successful graduate of this program will have the technical expertise necessary for an entry level position in the fields of Geographic Information Systems, Land Surveying, and Digital Photogrammetry. The program also assists those students preparing for the State Land Surveyor-In-Training and Land Surveyor's Exams. The State Board of Registration for Professional Engineers and Land Surveyors will grant one year of experience credit for students completing an Associate Degree in Survey/Mapping Sciences.

WATER AND WASTEWATER TECHNOLOGY

Advanced Water Treatment Operator, CERT

Certificate of Proficiency

Unit Range for Completion: 12 – 12

The Certificate of Proficiency in Advanced Water Treatment Operations program is designed to prepare students for careers in the field of advanced water reuse and related treatment operations. Subjects addressed include water quality and public health regulations, understand advanced water reuse processes and the impact of feed water quality on production and finished water quality, advanced treatment processes, wastewater recycling and disposal, and advanced oxidation processes. Advanced Water Treatment Operators protect public health by ensuring a supply of safe and high-quality drinking water from advanced water reuse facilities. The Certificate of Achievement provides students knowledge and understanding pertaining to advanced treatment processes related to direct and indirect potable reuse operations.

Program Rules: Advanced Water Treatment Operator, CERT (units 12 - 12)

All of the following

Certificate Requirements: (units 12 - 12)

All of the following

WATR139 Water Reclamation and Reuse (units 3 - 3)

WATR151 Wastewater Treatment (units 3 - 3)

WATR252 Advanced Wastewater Treatment (units 3 - 3)

WATR254 Advanced Water Treatment Operations (units 3 - 3)

Wastewater Treatment, CERT

Certificate of Proficiency

Unit Range for Completion: 12 – 12

The Certificate of Proficiency in the Wastewater/Environmental Sanitation program is designed to prepare students for careers in the environmental protection field of waste water treatment. Subjects addressed include water quality and public health regulations, conventional wastewater treatment process operation, advanced treatment processes, and wastewater recycling and disposal.

Program Rules: Wastewater Treatment, CERT (units 12 - 12)

The following number of units

Certificate Requirements: (units 9 - 9)

All of the following

WATR137 Water Mathematics and Hydraulics (units 3 - 3)

WATR151 Wastewater Treatment (units 3 - 3)

WATR252 Advanced Wastewater Treatment (units 3 - 3)

Select one (1) of the following: (units 3 - 3)

The following number of units

WATR139 Water Reclamation and Reuse (units 3 - 3)

WATR150 Introduction to Wastewater Treatment (units 3 - 3)

WATR153 Collection Systems (units 3 - 3)

Wastewater/Environmental Sanitation, AS

A.S. Degree Major

Unit Range for Completion: 21 – 21

The Associate of Science degree in the Wastewater/Environmental Sanitation program is designed to prepare students for careers in the environmental protection field of waste water treatment. This program is also designed to enable those already working in the field to upgrade their skills. Subjects addressed include water quality and public health regulations, conventional wastewater treatment process operation, advanced treatment processes, and wastewater recycling and disposal.

Program Rules: Wastewater/Environmental Sanitation, AS (units 21 - 21)

All of the following

Major requirements: (units 12 - 12)

The following number of units

WATR137 Water Mathematics and Hydraulics (units 3 - 3)

WATR150 Introduction to Wastewater Treatment (units 3 - 3)

WATR151 Wastewater Treatment (units 3 - 3)

WATR252 Advanced Wastewater Treatment (units 3 - 3)

Select three (3) courses from the following: (units 9 - 9)

The following number of units

- WATRI36 Introduction to Water Science (units 3 - 3)
- WATRI39 Water Reclamation and Reuse (units 3 - 3)
- WATRI40 Water Utility Maintenance and Construction (units 3 - 3)
- WATRI41 Water Distribution (units 3 - 3)
- WATRI43 Electrical Wiring and Controls for Operators (units 3 - 3)
- WATRI44 Pumps and Pumping (units 3 - 3)
- WATRI46 Water Treatment Fundamentals (units 3 - 3)
- WATRI48 Water Quality (units 3 - 3)
- WATRI53 Collection Systems (units 3 - 3)
- WATRI55 California Water Resources (units 3 - 3)
- WATR242 Advanced Water Distribution (units 3 - 3)
- WATR247 Advanced Water Treatment (units 3 - 3)

Control Number: 11908

Water Conservation, CERT

Certificate of Proficiency

Unit Range for Completion: 12 – 12

This program prepares students for careers in Water Conservation, and certification by the California-Nevada Section of the American Water Works Association as a Water Use Efficiency Practitioner. Required courses explore drinking water distribution systems; regional water supply issues; current water consumption for residential, commercial, industrial, and agricultural customers; common conservation practices; and effective customer education and communication.

Program Rules: Water Conservation, CERT (units 12 - 12)

The following number of units

Certificate Requirements: (units 6 - 6)

All of the following

- WATRI38 Water Conservation Practitioner (units 3 - 3)
- WATRI55 California Water Resources (units 3 - 3)

Select one of the following: (units 3 - 3)

The following number of units

- BUS090 Principles of Project Management (units 3 - 3)
- PBLC080 Principles of Project Management (units 3 - 3)

Select one of the following: (units 3 - 3)

The following number of units

- BUS222 Business Writing (units 3 - 3)
- MGMT122 Business Communications (units 3 - 3)

Water Distribution, AS

A.S. Degree Major

Unit Range for Completion: 21 – 21

The Associate of Science degree in Water Distribution program is designed to prepare students for careers in the public health field of drinking water distribution. This program is also designed to enable those already working in the field to upgrade their skills. Subjects addressed include water quality and public health regulations, water distribution system components and operation, drinking water disinfection practices, and related water mathematics and hydraulic principles.

Program Rules: Water Distribution, AS (units 21 - 21)

All of the following

Major requirements: (units 9 - 9)

The following number of units

- WATRI37 Water Mathematics and Hydraulics (units 3 - 3)
- WATRI41 Water Distribution (units 3 - 3)
- WATR242 Advanced Water Distribution (units 3 - 3)

Select four (4) courses from the following: (units 12 - 12)

The following number of units

- WATRI36 Introduction to Water Science (units 3 - 3)
- WATRI38 Water Conservation Practitioner (units 3 - 3)
- WATRI39 Water Reclamation and Reuse (units 3 - 3)
- WATRI40 Water Utility Maintenance and Construction (units 3 - 3)
- WATRI43 Electrical Wiring and Controls for Operators (units 3 - 3)

CREDIT COURSES

ACCOUNTING

ACCT035

QuickBooks

Units: 2

Preparation of accounting records for businesses using the QuickBooks software in the Windows environment. Topics include customer transactions, vendor transactions, bank reconciliations, reports, company file setup, and customization of QuickBooks.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

ACCT100

Accounting for Small Business

Units: 3

Accounting for Small Business is a beginning course in basic accounting as applied to service or merchandising/retail small businesses. Students will learn basic accounting procedures, preparation of financial statements, banking procedures, and payroll processing. Students will complete web-based weekly assignments based on lectures and text readings. This course is recommended for entrepreneurs, CPA candidates, those seeking professional development, and business students needing an accounting foundation before enrolling in ACCT 101.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ACCT101

Financial Accounting

Units: 4

The study of accounting as an information system, examining why it is important, and how it is used by investors and creditors to make decisions. Coverage includes the accounting information system and the recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, the classified financial statements, and statement analysis. It also includes issues relating to asset, liability, and equity valuation, revenue and expense recognition, cash flow, internal controls and ethics.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

ACCT102

Managerial Accounting

Units: 4

Study of the use and reporting of accounting data for managerial planning, cost control, and decision-making purposes. The course includes broad coverage of concepts, classifications, and behaviors of costs. Topics include cost systems, the analysis and use of cost information, cost-volume-profit analysis, contribution margin, profit planning, standard costs, relevant costs, and capital budgeting.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: ACCT101 Financial Accounting

ACCT204

122 / Credit Programs

Managerial Cost Accounting

Units: 3

Presents the theory of cost behavior, cost accounting, and cost control; the use of accounting information for management planning and decision making; cost systems, budgeting, and financial performance analysis.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ACCT102 Managerial Accounting

ACCT205

Intermediate Accounting I

Units: 3

An intermediate study of accounting theory and the conceptual framework; preparation of income statements and comprehensive income, balance sheets and statements of cash flows. Coverage includes present value and accounting concepts related to the asset side of the balance sheet.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ACCT102 Managerial Accounting

AMERICAN COLLEGE ENGLISH

ACE091

Improving Oral Expression and Pronunciation

Units: 2

Students will improve pronunciation of individual sounds, word stress, intonation and connected speech through dialogues, conversations, and presentations. Emphasis is on clarity of expression through control of word endings, thought group patterns, and targeted sounds.

Former Title: ACE N81, Improving Pronunciation (Fall 2019)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

ACE094

Academic Listening and Speaking 1

Units: 2

Intermediate level students expand their speaking skills in English. They will practice different types of speaking tasks such as expressing and supporting opinions, restating what others have said, and paraphrasing what they have heard or read. This course also strengthens students' vocabulary and critical thinking skills.

Former Title: ACE 053, Expanding Academic Speaking Skills (Fall 2019)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

ACE095

Academic Listening and Speaking 2

Units: 2

High-intermediate speaking and listening skills course. Students will increase their ability to understand and summarize longer lectures, engage in group discussions and do effective presentations. Lab and online research may be required for some assignments.

Former Title: ACE 093, Refining Academic Speaking Skills (Fall 2019)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: Advisory: ACE102 Refining Academic Writing and Reading

ACE104

Academic Reading and Writing 1

Units: 4.5

Intermediate students expand their skills in grammar and in writing paragraphs. This course also strengthens students' vocabulary, reading and critical thinking skills. Laboratory is required and includes class assignments, individualized work and writing conferences with the instructor. Lab is part of the scheduled class meeting hours.

Former Title: ACE 052, Expanding Academic Writing and Reading (Fall 2019)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 36

Requisites: Prerequisite: Qualifying profile from placement process

ACE106

Academic Reading and Writing 2

Units: 4.5

Students receive intensive practice with strategies to improve their writing skills at the paragraph and short essay level. They also refine their grammar, vocabulary, reading and critical thinking skills. Lab is required and is part of the scheduled class meeting hours.

Former Title: ACE 102, Refining Academic Writing and Reading (Fall 2019)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 36

Requisites: Prerequisite: ACE104 Academic Reading and Writing I AND

Advisory: ACE095 Academic Listening and Speaking 2

ACE116

Introduction to Academic Composition

Units: 4.5

Advanced students are introduced to common academic writing tasks such as comparing/contrasting and supporting an argument. Students also produce a short research paper. The course emphasizes control of grammar, punctuation and mechanics within student papers. Students will also strengthen critical reading and vocabulary skills. Laboratory is required and includes class assignments, individualized work and writing conferences with the instructor. Lab is part of the scheduled class meeting hours.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 36

Requisites: Prerequisite: ACE106 Academic Reading and Writing 2

ANTHROPOLOGY

ANTH100

Introduction to Cultural Anthropology

Units: 3

A cross-cultural survey of the major areas of cultural anthropology including subsistence patterns, economic and political systems, family and kinship, religion, and cultural change. Also includes contemporary issues facing humankind such as the environment, resource depletion, ethnic conflict, globalization, and warfare. Emphasis is on understanding cultural diversity and cultural universals.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ANTH100H

Honors Introduction to Cultural Anthropology

Units: 3

This is a seminar style course that is enriched beyond that of ANTH 100, Introduction to Cultural Anthropology. This cross cultural survey course will focus on the four major fields of Cultural Anthropology as well as Applied Anthropology. Cultural systems over time will be studied such as religion, subsistence patterns, economics, kinship and cultural change. Globalization will be addressed as well as contemporary issues of the environment, warfare, resource depletion and ethnic conflict. Emphasis will be on critical thinking, understanding cultural diversity and cultural universals.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ANTH101

Introduction to Physical Anthropology

Units: 3

An introduction to humankind's place in nature, including evolutionary theory, principles of genetics, primate evolution and behavior, fossil evidence for human evolution, human biology and variation, growth and adaptability, and biomedical anthropology. Includes practical application of biological anthropology to human problems. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ANTH101L

Physical Anthropology Laboratory

Units: 1

Laboratory exercises and experiments designed to explore and understand the primary areas of physical anthropology: evolutionary theory, principles of genetics, comparative anatomy, physiology, behavior and ecology of vertebrates with an emphasis on nonhuman primates, analysis of fossil evidence for human evolution, human biology and variation, growth and adaptability, and biomedical anthropology. Includes both traditional and virtual laboratory experiences. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: Prerequisite: ANTH101 Introduction to Physical Anthropology

ANTH103

Introduction to Archaeology

Units: 3

This is a survey course in world archaeology. Methods of archaeological survey and excavation will be discussed as well as past and current concepts and theories. Material remains such as lithics, bone, ceramics and ecofacts will be discussed as to how they can be interpreted into social, political, economic, religious and ethnic terms. Optional field trips may be offered.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ANTH104

Language and Culture

Units: 3

General introduction to the processes of human communication. Includes the relationship between language and culture, acquisition of first and second languages, languages in contact, sociolinguistics and the effects of both language and culture on inter/intra group communication. Languages spoken in the local area are used as the basis of study.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ART

ART100

Introduction to Art Concepts

Units: 3

A study of the visual arts in relation to both personal and cultural expressions. Fundamentals of visual organization, color theory, terminology, historical art movements and concepts will be studied. Students are required to visit an art museum during the semester. Required for art majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ART100H

Honors Introduction to Art Concepts

Units: 3

Enriched exposure to a study of the visual arts in relation to personal and cultural expression with an emphasis on critical thinking and writing. Fundamentals of visual organization, color theory, terminology, historical art movements and concepts will be studied in a seminar format. Students are required to visit an art museum or gallery.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ART101

Survey of Western Art History I: Prehistory Through the Middle Ages

Units: 3

The study of art and architecture from Prehistory through the Middle Ages. Cultures and civilizations are studied through visual imagery, lectures, class discussion, reading, and research. Students are required to independently visit an art museum. Field trips may also be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

ART101H

Honors Survey of Western Art History I: Prehistory Through the Middle Ages

Units: 3

Enriched exposure to a study of art and architecture from Prehistory through the Middle Ages with an emphasis on critical thinking and writing. Cultures and civilizations are studied through visual imagery, lectures, class discussion, reading, and research. Students are required to independently visit an art museum. Field trips may also be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition OR Advisory: ENGL100 Freshman Composition with Integrated Support

ART102

Survey of Western Art History II: Renaissance Through the Twentieth Century

Units: 3

The study of Western art history from the Renaissance through the 20th century. Art movements and individual painters, sculptors, architects and printmakers will be presented within the context of the social, political and intellectual histories of their respective periods. Required for art majors. Students are required to independently visit an art museum. Field trips may also be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

ART102H

Honors Survey of Western Art History II: Renaissance Through the Twentieth Century

Units: 3

The study of Western art history from the Renaissance through the 20th century. Art movements and individual painters, sculptors, architects and printmakers will be presented within the context of the social, political and intellectual histories of their respective periods. Required for art majors. Students are required to independently visit an art museum. Field trips may also be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition OR Advisory: ENGL100 Freshman Composition with Integrated Support

ART110

Two-Dimensional Design

Units: 3

Introduction to terminology, historical concepts, and aesthetic techniques associated with two-dimensional art and composition, including the study and application of visual elements and principles of design. Application of concepts will be executed through creative projects. Required for art majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: None

ART111

Three-Dimensional Design

Units: 3

Fundamentals of visual organization as applied to objects in-the-round. Visual

space problems, structure and dimensional terminology through creative projects in various media. Required for art majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: None

ART122

Graphic Design I

Units: 3

Introduction to basic graphic design concepts, techniques, and practices resulting in the production of effective visual communications. Projects combine text with images, using current industry standards in print media, interactive technologies, and other design applications.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 54

Requisites: Advisory: ART110 Two-Dimensional Design OR Advisory: ART195 Introduction to Digital Media Arts

ART128

Introduction to Illustration

Units: 3

An introductory course to book illustration, concept art, animation, descriptive rendering, editorial illustration, and fashion drawing. The focus is on developing technical and conceptual expertise. The course examines master works by contemporary and historic artists.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 54

Requisites: Prerequisite: ART130 Introduction to Drawing

ART129

Introduction to Web Design

Units: 3

Introduction to the development and design of web sites with an emphasis on the elements and principles of design as they relate to web interfaces. Includes learning the technical requirements for colors, fonts, file optimization, effects, image resolution, and special effects. Includes creative web design projects.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 54 **Lab Hours:** 18

Requisites: None

ART130

Introduction to Drawing

Units: 3

Introductory course in expressive drawing, exploring line, form, composition, and a variety of media. Drawing from man-made objects and natural forms. Field trips may be required. Required for art majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: None

ART131

Beginning Life Drawing

Units: 3

Introduction to drawing the human form by observing live models for studies in anatomy, structure, and composition. Exposure to traditional and contemporary figurative drawing while exploring media and methods. Required for art majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Advisory: ART130 Introduction to Drawing

ART141

Beginning Painting

Units: 3

Introduction to acrylic and/or oil painting as a creative art form with exposure to historical, traditional and contemporary painting styles. Course includes principles of composition and color theory, materials selection, tools, terminology, and techniques. Students develop basic skills painting a variety of subjects. Required of art majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Advisory: ART110 Two-Dimensional Design OR Advisory: ART130 Introduction to Drawing

ART149

Introduction to Digital Photography

Units: 3

An introductory course in digital photography and imaging including basic camera functions, natural and artificial lighting, computer imaging, and image editing techniques. Aesthetics and concepts of digital photography will be analyzed in both fine art and commercial applications. Students must provide their own digital cameras.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 54 **Lab Hours:** 18

Requisites: None

ART195

Introduction to Digital Media Arts

Units: 3

Introduction to digital media arts for artists, photographers, web designers, illustrators, and animators. Includes an overview of Photoshop, Illustrator, InDesign, digital graphics terminology, careers, market applications and design components.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 54 **Lab Hours:** 18

Requisites: None

ART221

Graphic Design II

Units: 3

Intermediate level study of concepts in graphic design to assist the artist/designer in formulating aesthetic and purposeful visual communications from roughs through finished art. Creative development of solutions to problems in common print media and other design applications. Explores the combination of images and text, using hand skills, digital technology, and current graphics industry standards and practices.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 54

Requisites: Prerequisite: ART122 Graphic Design I

ART228

Intermediate Illustration

Units: 3

Further development of conceptual and technical expertise in book illustration, concept art, animation, descriptive rendering, editorial illustration, and fashion drawing. The course examines master works by contemporary and historic artists. Emphasis on developing individual creative style.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 54

Requisites: Prerequisite: ART 128 Introduction to Illustration

ART229

Multimedia Applications for the Web

Units: 3

Introduction to the use of multimedia components, images, typography, motion and audio, for designing websites. Software may include Photoshop, Dreamweaver, SoundEdit 16 and Flash. Projects include conceptualizing, storyboarding, and designing Web page layout. Application of design elements to Web page creation.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 54 **Lab Hours:** 18

Requisites: Prerequisite: ART 129 Introduction to Web Design

ART230

Intermediate Drawing

Units: 3

An intermediate course in the study of drawing designed to give students who have completed an introductory drawing course additional opportunity in graphic expression. Further exploration of materials including a wide variety of both drawing and mixed media. Students continue the development of composition and more intermediate concepts. The class emphasizes individual expression. Field trip for en plein air style of drawing may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Prerequisite: ART 130 Introduction to Drawing

ART231

Intermediate Life Drawing

Units: 3

Continued experience in drawing from the live model with opportunity for development of self-expression. Further exploration of media and techniques. Projects vary each semester.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Prerequisite: ART 131 Beginning Life Drawing

ART232

Advanced Life Drawing

Units: 3

Intensive study of the figure with further development of drawing skills, composition, technique and media utilizing the live model. Projects vary each semester.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Prerequisite: ART 231 Intermediate Life Drawing

ART233

Advanced Drawing

Units: 3

To further develop individual graphic expression. Students will plan a series of drawing problems to be executed during the semester under the instructor's direction. A further exploration of new materials and techniques that are in line with creative concepts. Field trip for en plein air style of drawing may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Prerequisite: ART 230 Intermediate Drawing

ART241

Intermediate Painting

Units: 3

An intermediate level class designed to promote and advance the creative development of those with basic skills in painting. Opportunity for further study of historical and contemporary references and to increase experience with new media, methods and techniques. Emphasis on artistic expression and individual creative problems.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Prerequisite: ART 141 Beginning Painting

ART242

Advanced Painting

Units: 3

An advanced level studio course providing opportunity for further refinement of painting skills with increasing exposure to contemporary styles. Emphasis on research and individual creative problems in painting. Exploration into a personal mode of expression through development of media, technique and style.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 36 **Lab Hours:** 72

Requisites: Prerequisite: ART 241 Intermediate Painting

ART249

Intermediate Digital Photography

Units: 3

An intermediate course in digital photography and imaging that allows students to take the technical information received from Art 149 and apply it to a variety of concepts. This course focuses on projects that explore photographic subjects including portrait, landscape, still life, and commercial photography. Students must provide their own digital camera with manual controls.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 54 **Lab Hours:** 18

Requisites: Prerequisite: ART 149 Introduction to Digital Photography

ART250

Advanced Studio Concepts

Units: 3

Intensive study in visual arts for majors with studio emphasis. This class offers art majors exposure to contemporary art directions, trends and job markets. Students will be given different studio problems each semester which will help them build a personal portfolio. Field trips are required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

**Lecture Hours:** 36 **Lab Hours:** 27**Requisites:** None

AMERICAN SIGN LANGUAGE

ASL110

American Sign Language I

Units: 4

This entry-level course is designed to introduce students to American Sign Language (ASL) and fingerspelling as it is used within American Deaf culture. Instruction includes preparation for visual/gestural communication followed by intensive work on comprehension through receptive language skills, development of basic conversational skills, modeling of grammatical structures, and general information about American Deaf culture. American Sign Language 110 is equivalent to two years of high school ASL. Students are required to attend at least one off-campus event.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 72 **Lab Hours:** 18**Requisites:** None

ASL111

American Sign Language II

Units: 4

The second course in the study of American Sign Language (ASL) focuses on increased vocabulary development, intermediate comprehension and conversational skills, application of grammatical structures and practice in the receptive and expressive language aspects of ASL, as well as appreciation of American Deaf culture and history. Students are required to attend at least two off-campus events.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 72 **Lab Hours:** 18**Requisites:** Prerequisite: ASL 110 American Sign Language I

ASL113

Introduction to Interpreting for the Deaf

Units: 3

The study of the history of sign language interpreting and the theoretical foundations and technical skills needed to interpret in professional settings for deaf and hard of hearing children and adults. The roles, responsibilities, and ethics of interpreters providing interpreting services in various professional settings will be examined. Field trips may be required.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None

ASL116

Introduction to Deaf Studies

Units: 3

This is an introductory course exploring the cultural, educational, linguistic, and audiological experiences of people who are deaf, hard of hearing, deaf/blind, and late-deafened in America. Students will be exposed to historical and current perspectives in trends, philosophies, ideologies, and the Deaf community as a subculture of American society. Students may be required to attend at least one off-campus event.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None

ASL210

American Sign Language III

Units: 4

The third course in the study of American Sign Language (ASL) emphasizes advanced ASL syntax, non-manual markers, vocabulary, and fingerspelling enabling students to participate in more complex conversations with Deaf community members. The course also emphasizes expressive skills in narrative form. Students are required to attend three off-campus events.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 72 **Lab Hours:** 18**Requisites:** Prerequisite: ASL 111 American Sign Language II

ASTRONOMY

ASTR100L

Astronomy Laboratory

Units: 1

Explores techniques used to study properties of celestial objects and astronomical phenomena. Field trips to local planetaria and/or dark sky locations may be included.

Previous Title: Astronomy 140, Astronomy Laboratory (2017)

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** Prerequisite: ASTR 102 Introduction to Stars and Galaxies OR

Prerequisite: ASTR 103 Introduction to the Solar System OR Prerequisite:

ASTR 104 Introduction to Cosmology

ASTR102

Introduction to Stars and Galaxies

Units: 3

Surveys the development of astronomy, current research and observations of stars, galaxies and large-scaled structures in the universe. Explores light and gravity to understand the properties and evolution of stars, neutron stars, black holes, galaxies and the universe structures and changes.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None

ASTR103

Introduction to the Solar System

Units: 3

Surveys the history of astronomy, recent research and space flight observations of the planets, moons, and other solar system objects. Explores light and gravity to understand formation, properties and motion of Solar System objects.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None

ASTR104

Introduction to Cosmology

Units: 3

Principles of astronomy stressing the origin, structure, and evolution of the universe. Discussions to include light, matter, gravity, stellar evolution, cosmology, relativity, the Big Bang Theory, and the expansion of the universe.

Former Title: ASTR 112, Introduction to Cosmology (Fall 2023)

Transferability: Transferable to both UC and CSU

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

BIOLOGY

BIOL097

Introduction to Work Experience

Units: 0.5

This course introduces work experience through an on-campus, supervised volunteer experience in the biosciences, including an introduction to new or expanded responsibilities. Fifty-four hours of unpaid work equals one unit of course credit. Student repetition is allowed per Title 5, Section 55253. Students may earn a maximum of 14 units of credit for work experience.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 180

Requisites: None

BIOL109

Fundamentals of Biology

Units: 3

Principles of biology stressing the relationship of all organisms from anatomical, physiological and ecological points of view. Includes cell machinery, genetics, reproduction, embryology, animal behavior, botany, ecology, evolution and human physiology. Designed for non-biology majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: BIOL109L Fundamentals of Biology Laboratory OR Advisory: BIOL109HL Honors Fundamentals of Biology Laboratory

BIOL109H

Honors Fundamentals of Biology

Units: 3

Traditional Biology enriched in breadth and depth by extensive outside reading assignments and guest lecture presentations. Emphasis is on individual preparation for discussion and analysis of pertinent topics using critical oral and written expression. Designed for non-biology majors. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: BIOL109L Fundamentals of Biology Laboratory OR Advisory: BIOL109HL Honors Fundamentals of Biology Laboratory

BIOL109HL

Honors Fundamentals of Biology Laboratory

Units: 1

Hands-on laboratory experiments to identify and illustrate significant organisms and their structures. Emphasis is placed on the relationship of all organisms from an anatomical, physiological, and ecological framework. Content correlates to Biology 109/109H lecture material. Field trips required.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: Prerequisite: BIOL109 Fundamentals of Biology OR Prerequisite: BIOL109H Honors Fundamentals of Biology

BIOL109L

Fundamentals of Biology Laboratory

Units: 1

Laboratory experiments to identify and illustrate significant organisms and their structures. Emphasis is placed on the relationship of all organisms from an anatomical, physiological, and ecological framework. Content correlates to Biology 109/109H lecture material. Field trips required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: Prerequisite: BIOL109 Fundamentals of Biology OR Prerequisite: BIOL109H Honors Fundamentals of Biology

BIOL111

Marine Biology

Units: 4

This course covers basic concepts of marine ecosystems including oceanographic principles, ecology, and a survey of marine habitats and diversity of marine organisms. Field trips required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: None

BIOL115

Concepts in Biology for Educators

Units: 4

An investigation in the basic principles of Biology and Science with content appropriate for future multiple-subject teachers and secondary through high school. The course material is presented within the context of the human experience and includes cell biology, physiology, genetics, evolution, ecology, and the interaction of humans with the environment. The course is taught from an inquiry-based strategy using active learning. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: None

BIOL139

Health Microbiology

Units: 4

Presents practical and theoretical aspects of medical microbiology to meet the needs of those in allied health professions. Provides basic knowledge of the microbial world by covering diversity, structure, metabolic and genetic characteristics, cultivation and control. Emphasis is placed on human-microbe interactions especially infectious diseases. Laboratory deals with identification, growth, and control of microorganisms. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Advisory: BIOL109 Fundamentals of Biology OR Advisory: BIOL109H Honors Fundamentals of Biology OR Advisory: BIOL149 Human Anatomy and Physiology

BIOL149

Human Anatomy and Physiology

Units: 4

Introduces human anatomy and physiology stressing the interrelationships between normal and abnormal structure and function. Laboratory may include the dissection of mammalian tissues. Designed for students in the allied health sciences and as a life science general education course. May not meet requirements for

kinesiology or Bachelor of Science in Nursing (BSN) majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: None

BIOL177

Human Genetics

Units: 3

Introductory course in genetics. Topics include the principles of Mendelian genetics, mechanisms of mitosis and meiosis, process of transcription, translation and protein synthesis, non-Mendelian patterns of inheritance, the cell cycle, and cell structure. Discussions relevant to current social concerns about genetics covering topics such as cloning, DNA profiling, genetic engineering, prenatal diagnosis, gene therapy, and genomics.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

BIOL190

Introduction to Biotechnology

Units: 3

Introduction to the field of biotechnology including a history of its origin and development, a survey of modern industrial applications and accomplishments, ethical considerations, and career paths.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: Qualifying profile from the mathematics placement process

BIOL190L

Introduction to Biotechnology Lab

Units: 1

This laboratory is a general examination of biology as it relates to the field of biotechnology. The laboratory addresses basic skills and techniques common to the biotechnology industry. Topics include the measurement of activity and quantity of proteins, growth and manipulation of bacteria, genetic engineering and antibody methods. The course is intended as a laboratory class for students majoring in applied biology and as a general education laboratory option for all students.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: Co-Requisite: BIOL190 Introduction to Biotechnology

BIOL191

Biotech A: Basic Lab Skills

Units: 4

Introduction to the fundamental skills necessary for any biotechnology laboratory. Skills include maintenance of an industry standard notebook; preparation and sterilization of solutions, reagents, and media; utilization of good aseptic technique, proper use and maintenance of laboratory equipment, adherence to quality control protocols, and laboratory safety regulations.

Previous Title: Biotechnology A: Basic Lab Skills (2017)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Advisory: Qualifying profile from the mathematics placement process

BIOL192

Biotech B: Proteins

Units: 4

Fundamental skills in applied biotechnology necessary for any biotechnology laboratory but particularly focused on downstream manufacturing processes in biomanufacturing. Skills include maintenance of an industry standard notebook, preparation and sterilization of solutions, reagents and media; utilization of good aseptic technique, proper use and maintenance of laboratory equipment, adherence to quality control protocols, lab safety regulations, in vitro translation, large scale expression, purification, modification, western blot analysis, enzyme-linked immunosorbent assay (ELISA), antibody tagging, and fluorescent microscopy. Compliance with industry standards and regulations will be incorporated into course procedures.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Prerequisite: BIOL191 Biotech A: Basic Lab Skills

BIOL193

Biotech C: Nucleic Acids

Units: 4

This course introduces the fundamental skills in applied biotechnology focusing on the upstream research and development process. Skills include the maintenance of an industry standard notebook; preparation and sterilization of solutions, reagents, and media; utilization of good aseptic technique; proper use and maintenance of laboratory equipment; adherence to quality control protocols, lab safety regulations; DNA/RNA extraction and purification, bioinformatics, polymerase chain reaction, electrophoresis, DNA sequencing, recombinant DNA technology, DNA cloning, fluorescence in situ hybridization, Southern blot analysis, and in vitro transcription. Compliance with industry standards and regulations will be incorporated into course procedures.

Previous Title: Biotechnology C: Nucleic Acids (2017)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Prerequisite: BIOL191 Biotech A: Basic Lab Skills

BIOL194

Quality and Regulatory Compliance in Biosciences

Units: 2

This course will cover quality assurance and regulatory compliance for the biosciences industries. Topics will span quality control and Federal Drug Administration (FDA) regulations for the biotechnology, biopharmaceutical, biomedical device and food industries. Theories and application of quality assurance and quality control will be presented and several different quality systems will be discussed such as GMP (good manufacturing practices), ISO9000 (International Standards Organization), Six Sigma and Lean.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

BIOL196

Food Safety

Units: 2

This course covers the regulatory agencies that oversee and the methodologies prescribed to ensure a safe food supply. The basics of quality assurance and quality improvement as applied to the food industry as well as The Food Safety Modernization Act, hazard analysis critical control points (HACCP), product traceability, food allergens, and food contaminants including microorganisms are presented. Illnesses known to result from ingestion of contaminated foods are discussed.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: Advisory: BIOL139 Health Microbiology OR Advisory: BIOL229 General Microbiology AND Advisory: BIOL194 Quality and Regulatory Compliance in Biosciences

BIOL197

Science, Technology, Engineering and Mathematics (STEM) Internship

Units: 1

This is an Internship of supervised paid or unpaid work experience in the student's major which could include new or expanded responsibilities. 75 hours paid work or 60 hours of unpaid work equals one unit. A maximum of 4 units is allowed per semester. Limitation of 16 units in occupational cooperative education courses. May require field experience. Open Entry/Open Exit.

Transferability: Transferable to CSU only

Entrance Skills: Successful completion of 10 units within the Biotechnology Program

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 60

Requisites: None

BIOL202

Cell Culture Techniques

Units: 2

Students will learn eukaryotic cell culture techniques that include working under aseptic conditions, sterile techniques, media preparation, quantification and passage of cell lines. Laboratory experience prepares students for work in industry.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 54

Requisites: Prerequisite: BIOL191 Biotech A: Basic Lab Skills

BIOL211

Cellular and Molecular Biology

Units: 5

An investigation into the molecular and cellular basis of life, including the evolution of cells, cell structure and function, energy and information flow, cellular reproduction, genetics, and the molecular basis of inheritance. Required of majors in Biology, Medicine, Forestry, and Agriculture.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: CHEM200A General Chemistry A OR Prerequisite: CHEM200AH Honors General Chemistry A OR Prerequisite: Qualifying profile from the mathematics placement process AND Prerequisite: Eligible for ENGL 100 or ENGL 101/101H

BIOL213

Animal Diversity and Evolution

Units: 4

This course is intended for biology majors and surveys the diversity, structure, function, evolution, and taxonomy of the major animal phyla. Topics also include behavior, development, comparative anatomy, and evolutionary relationships, emphasizing the principles and mechanisms of microevolution and macroevolution, accentuating molecular and morphological phylogeny. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Prerequisite: Qualifying profile from the mathematics placement process AND Advisory: BIOL211 Cellular and Molecular Biology AND Advisory: Eligible for ENGL 100 or ENGL 101/101H

BIOL215

Plant Diversity and Ecology

Units: 4

This course is intended for biology majors and surveys the diversity, structure, function, and taxonomy of prokaryotes and the eukaryote kingdoms of Protista, Fungi, and Plantae. Topics include development, morphology, physiology, taxonomy and systematics, and population, community, and ecosystem ecology principles. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Prerequisite: Qualifying from the mathematics placement process. AND Advisory: BIOL211 Cellular and Molecular Biology

BIOL221

Animal Diversity and Evolution

Units: 5

This course is intended for biology majors and surveys the diversity, structure, function, evolution and taxonomy of the major animal phyla. Topics also include behavior, development, comparative anatomy, and evolutionary relationships with an emphasis on the principles and mechanisms of microevolution and macroevolution accentuating molecular and morphological phylogeny. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: Equivalent course from the mathematics placement process AND Advisory: BIOL211 Cellular and Molecular Biology

BIOL229

General Microbiology

Units: 5

Introduction to microorganisms, their classification, structure, biochemistry, growth, control and their interactions with other organisms and the environment. Designed for biology, preprofessional, and prenursing (BSN) majors. This course may also include an optional field trip.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: BIOL109 Fundamentals of Biology AND Prerequisite: BIOL109L Fundamentals of Biology Laboratory OR Prerequisite: BIOL109H Honors Fundamentals of Biology AND Prerequisite: BIOL109HL Honors Fundamentals of Biology Laboratory OR Prerequisite: BIOL139 Health Microbiology OR Prerequisite: BIOL149 Human Anatomy and Physiology OR Prerequisite: BIOL211 Cellular and Molecular Biology OR Prerequisite: BIOL239 General Human Anatomy OR Prerequisite: BIOL249 Human Physiology OR Prerequisite: CHEM100 Introductory Chemistry

BIOL231

Plant Diversity and Ecology

Units: 5

This course is intended for biology majors and surveys the diversity, structure, function and taxonomy of the kingdoms Protista, Fungi, and Plantae. Topics include development, morphology, physiology, taxonomy and systematics, and the principles of population, community, and ecosystem ecology. Field trips required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: Equivalent course from qualifying profile from the math placement process AND Advisory: BIOL211 Cellular and Molecular Biology

**BIOL239****General Human Anatomy****Units:** 4

Structure of the human body. Systems, organs, and tissues are studied from human skeletons, models, charts, slides, and computer programs. Laboratory includes the dissection of a cat and periodic demonstrations of a prosected cadaver as available.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 54**Requisites:** None**BIOL241****Organismal Biology****Units:** 4

This course is intended for biology majors and surveys the diversity, structure, function, evolution, taxonomy, and ecology of organisms. Topics include development, comparative anatomy, physiology, taxonomy, systematics, evolutionary relationships (through the principles and mechanisms of microevolution and macroevolution), and the principles of population, community, and ecosystem ecology. Field trips required.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 54

Requisites: Prerequisite: College-level math or any other course with Intermediate Algebra as a prerequisite. AND Advisory: BIOL211 Cellular and Molecular Biology AND Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

BIOL249**Human Physiology****Units:** 4

Microscopic, macroscopic and dynamic view of the human physiological processes. The lecture portion includes a thorough consideration of both "cell and systems" physiology. Laboratory work includes the use of techniques used in basic research, an introduction to the use of standard medical equipment, and the performance of medical lab tests. Non-invasive experiments are performed on students enrolled in the class.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 54**Requisites:** Prerequisite: BIOL239 General Human Anatomy**BIOL259****Environmental Biology****Units:** 4

Environmental Biology includes the study of ecosystems, population dynamics, classification, diversity of plant and animal species, effects of pollutants at both the cellular and organismal levels, and principles of ecology. Field trips required.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 54**Requisites:** None**BIOL290****Biochemistry and Molecular Biology****Units:** 5

Introduction to biochemistry and molecular biology. Included are discussions of biological macromolecules, energy production, metabolic pathways and regulation, genetic code, genomics, DNA replication, transcription and RNA processing,

translation, and gene regulation. Laboratory activities will include use of visible and UV spectroscopy, chromatography, cell fractionation, ultracentrifugation, protein purification, electrophoresis, and recombinant DNA methods. This course is designed for biology majors, health pre-professionals, and biotechnology majors.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 108

Requisites: Prerequisite: BIOL211 Cellular and Molecular Biology AND Prerequisite: CHEM100 Introductory Chemistry

BUSINESS**BUS090****Principles of Project Management****Units:** 3

Utilizing project planning tools and techniques, learn how to define, plan, execute, and deliver projects of all types and sizes. Emphasizes practical application using case studies to organize, schedule, and manage projects effectively. Industry guest speakers included.

Transferability: Not transferable**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Anti-Requisite: PBLC080 Principles of Project Management**BUS100****Fundamentals of Business****Units:** 3

An introduction to the basic fundamentals of business. A survey of marketing management, production, accounting, finance, and economics and how they interrelate in the business environment.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None**BUS105****Legal Environment of Business****Units:** 3

Fundamental legal principles pertaining to business transactions. Introduction to the law as an instrument of social and political control in society. Topics include sources of law and ethics, contracts, torts, agency, judicial and administrative processes, employment law, forms of business organizations, and domestic and international governmental regulations.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None**BUS120****Principles of Management****Units:** 3

Principles, methods, and procedures essential to the successful management of human and financial resources. Planning, decision making, staffing, directing, motivating, leading, communicating, controlling, and the application of managerial skills.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Anti-Requisite: MGMT120 Principles of Management

BUS121

Human Relations and Organizational Behavior

Units: 3

The role of the manager and management's relationship to employees. Includes the application of motivational theories, communications, leadership, and organizational structure.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: MGMT121 Human Relations and Organizational Behavior

BUS127

Introduction to E-Commerce

Units: 3

Electronic commerce from a managerial perspective focusing on the retailing, business-to-business and service industries. Topics include: E-Commerce infrastructure, intranets and extranets, electronic payment systems, marketing research, advertising, E-Commerce strategies, and privacy issues.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

BUS130

Personal Finance

Units: 3

This course is an integrative approach to personal finance focusing on practical financial decision making as well as the social, psychological, and physiological contexts in which those decisions are made. Students will examine their relationships with money, set personal goals, and develop a plan to meet those goals. Topics include consumerism, debt, healthcare, investing, retirement, long-term care, disability, death, and taxes.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

BUS150

Introduction to Information Systems and Applications

Units: 3

Introduction to computer concepts and management information systems. Application software used to solve business problems.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

BUS170

Principles of Small Business Management

Units: 3

Practical business skills needed to start and operate a small business. Includes information on risk management, site location, legal aspects, financing, budgeting, merchandising, promotion, and management techniques.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

BUS171

Business Plan for Small Business

Units: 3

Business planning for the opening or continued successful operation of a small business through the preparation of a written business plan.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: BUS170 Principles of Small Business Management

BUS175

Online Entrepreneurship

Units: 3

This class is designed to help potential online entrepreneurs develop startup procedures, explore ideas and implement plans. Students will learn how to build and implement a business strategy for the Internet, including business specific considerations, online marketing and Ecommerce strategies.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

BUS222

Business Writing

Units: 3

Overview of oral and written communication skills used in business; emphasizes guidelines for improving writing and speaking skills, common solutions to common communication problems, ethical issues facing business communicators today, instructions on how to identify areas of legal vulnerability, and tested techniques for communicating successfully in today's high-tech, international business environment. Designed for students transferring to a university.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

CHILD DEVELOPMENT

CDEV107

Child Growth and Development (DS1)

Units: 3

Examines the progression of development in the physical, cognitive, social, and emotional domains and identifies developmental milestones for children from conception through adolescence. Emphasis on interactions between biological processes and environmental factors. Students will observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. Field-based assignments may be required. No credit for students who have taken Psychology 157.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: PSYC157 Introduction to Child Psychology

CDEV108

Observation and Assessment for Early Learning and Development (DS3)

Units: 3

Introduces the appropriate use of assessment and observation tools and strate-

gies to document young children's development and learning. The use of findings to inform and plan learning environments and experiences are emphasized. Recording strategies, rating systems, portfolios, and multiple assessment tools will be discussed, along with strategies for collaboration with families and professionals. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV107 Child Growth and Development (DS1)

CDEV108B

Observation and Assessment in Transitional Kindergarten and Kindergarten

Units: 3

This course is designed for those working with students in transitional kindergarten, kindergarten, and early primary classrooms emphasizing the appropriate use of assessment to support school-age child development and learning. Covers various methods of observation and data collection including tools, strategies, time management, and legal and ethical responsibilities. Highlights the use of research to provide the basis for family partnerships and to Plan Differentiated instruction and classroom environments. Field trips and fieldwork assignments may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV107 Child Growth and Development (DS1) AND Prerequisite: CDEV110 Child, Family and Community (DS2)

CDEV110

Child, Family and Community (DS2)

Units: 3

This course examines processes of socialization focusing on the interrelationship of family, school, and community and the influence of multiple societal contexts. Explores the role of collaboration between family, community, and schools in supporting children's development. Field trips and field-based assignments may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CDEV111A

Principles and Practices of Teaching Young Children

Units: 3

An examination of the historical context and theoretical perspectives of developmentally appropriate practices in early care and education. Examines the role of the early childhood educator; identifying best practices for environmental design, curriculum, and teaching strategies. Explores teacher-child relationships, professional ethics, career pathways, and professional standards. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV107 Child Growth and Development (DS1) AND Prerequisite: CDEV108 Observation and Assessment for Early Learning and Development (DS3)

CDEV111B

Introduction to Curriculum for Young Children

Units: 3

Developmentally appropriate curriculum and environments for children birth through age eight. Students will use knowledge of children's development, theories of learning and development, and examples from various models of developmentally appropriate practice to plan environments and curriculum in all content areas to support children's development and learning integrated throughout indoor and outdoor settings. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV107 Child Growth and Development (DS1) AND Prerequisite: CDEV108 Observation and Assessment for Early Learning and Development (DS3) AND Prerequisite: CDEV111A Principles and Practices of Teaching Young Children

CDEV112

Health, Safety and Nutrition for Children

Units: 3

Laws, regulations, standards, policies, procedures, and best practices related to health, safety, and nutrition in care and education settings for children birth through middle childhood. Includes the teacher's role in prevention strategies, nutrition and meal planning, integrating health, safety, and nutrition experiences into daily routines, and overall risk management. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV107 Child Growth and Development (DS1) AND Advisory: CDEV110 Child, Family and Community (DS2)

CDEV116A

Infant/Toddler Growth and Development (DS4)

Units: 3

A study of infants and toddlers from pre-conception to age three including physical, cognitive, language, social, and emotional growth and development. Applies theoretical frameworks to interpret behavior and interactions between heredity and environment. Emphasizes the role of family and relationships in development. Partially fulfills the requirements for state licensing. With Child Development 116B, this class fulfills infant/toddler specialization for Child Development Center permits. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV107 Child Growth and Development (DS1) AND Prerequisite: CDEV108 Observation and Assessment for Early Learning and Development (DS3)

CDEV116B

Care and Education for Infants and Toddlers (DS3)

Units: 3

Applies current theory and research to the care and education of infants and toddlers in group settings. Examines essential policies, principles and practices that lead to quality care and developmentally appropriate curriculum for children birth to 36 months. This class partially fulfills the requirements for state licensing. With Child Development 116A, this course fulfills infant/toddler specialization for Child Development Center permit. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are

required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV107 Child Growth and Development (DS1) AND Prerequisite: CDEV108 Observation and Assessment for Early Learning and Development (DS3) AND Prerequisite: CDEV116A Infant/Toddler Growth and Development (DS4)

CDEV123A

Preschool and Early Primary Development (TK) (DS5)

Units: 3

This course examines the theories and developmental processes focusing on children 3-8 emphasizing the interactions between maturational processes and environmental factors influencing development in the physical, cognitive, social, emotional, and language domains. Examines CA Learning Foundations Physical development guidelines including movement skills and concepts and perceptual-motor skills and active physical play. Fulfills partial requirements for the School-Age Child Development Permit. Fieldwork assignments may be included. This course is designed for teaching professionals working in prekindergarten, transitional kindergarten, and early education classrooms. Fieldwork may be required.

Former Title (2022): Child Development 120A - Development of the School-Age Child (DS5)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV107 Child Growth and Development (DS1) AND Advisory: CDEV110 Child, Family and Community (DS2)

CDEV123B

Transitional Kindergarten and Early Primary Teaching, Principle and Practices (DS5)

Units: 3

Examines theories of development and the developmental processes focusing on children ages 3-6. Developmental benchmarks in the physical, cognitive, social, emotional, and language domains are identified as well as the multiple influences that impact children's development. This course is designed for those working with students in transitional kindergarten, kindergarten, and early education classrooms.

Former Title (2022): Child Development 120B - School-Age Child Care and Recreation Activities (DS5)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV123A Preschool and Early Primary Development (TK) (DS5)

CDEV201

Technology and Media in Early Learning Environments

Units: 3

This course provides students knowledge about and experience with technological tools used in early childhood settings. Students will have the opportunity to evaluate the impact of technology as it relates to growth and development of children and developmentally appropriate practices. Emphasis will be on basic knowledge and practice in a wide variety of current and emerging technologies and how to integrate them into the learning environment. Field trips and fieldwork assignments may be required. By the third week of the semester, verification of the state-mandated Tdap vaccination, MMR immunization, and negative TB test will be required.

Former title (2022): Child Development 200, Introduction to Technology in Early Childhood Education

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CDEV202

Introduction to Children from Special Populations

Units: 3

Introduces the variations in the development of children with special needs ages birth through eight and the resulting impact on families. Includes an overview of historical and societal influences, laws relating to children with special needs and inclusion, and the identification and referral process. Field trips and field-based assignments may be required.

Former Title: CDEV 205, Introduction to Children with Special Needs (2022)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV107 Child Growth and Development (DS1)

CDEV203

Curriculum and Intervention Strategies for Special Populations

Units: 3

Covers curriculum and intervention strategies for working with children with special needs in partnership with their families. Focuses on the use of observation and assessment in meeting the individualized needs of children in inclusive and natural environments. Includes the role of the teacher as a professional working with families, as well as collaboration with interdisciplinary teams, and cultural competence. Field trips may be required.

Former Title: CDEV 206, Curriculum and Intervention Strategies for Children with Special Needs (2022)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV202 Introduction to Children from Special Populations AND Advisory: CDEV107 Child Growth and Development (DS1) AND Advisory: CDEV110 Child, Family and Community (DS2)

CDEV204

Education and Collaboration of Care for Special Populations

Units: 3

This course will provide teachers, intervention assistants, administrators, and parents the tools necessary to support and empower families of children with disabilities and other special needs in early childhood and school-age programs.

Techniques, strategies, and resources will be provided to support children in a natural and/or inclusive educational setting and to help guide parents to be advocates for their children. Field trips may be required. Vaccinations as mandated by state statutes are required.

Former Title (2022): Child Development 207 - Supporting and Empowering Families of Children with Special Needs

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV202 Introduction to Children from Special Populations

CDEV212A

Language and Literacy Development in Early Childhood

Units: 3

Introduction to the language and literacy development domain in the California Preschool Learning Foundations and Frameworks including the strands of listening, speaking, reading, and writing. Provides practical considerations for implementing the curriculum frameworks developed for this domain. Applicable to required or professional development units for Child Development Permit holders, preschool, transitional kindergarten, and early-primary teachers.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV107 Child Growth and Development (DS1) AND Advisory: CDEV110 Child, Family and Community (DS2)

CDEV212B

Teaching Strategies, Materials, and Assessments for Language Development

Units: 3

A practical course that provides opportunities for students to develop strategies, hands-on materials, curriculum, and assessments for language development. Emphasis on materials, activities, and assessment tools that support language development for children from birth through age 8 using the CA Learning Foundations and Frameworks. Applicable to required or professional development units for Child Development Permit holders, pre-school, transitional kindergarten, and early-primary teachers. CDEV 212A must be completed before 212B. Field trips and fieldwork assignments may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV212A Language and Literacy Development in Early Childhood

CDEV213

English and Multi-Language Learners in Early Childhood Education

Units: 3

Introduction to the English Language Learners domain of the California Preschool Learning Foundations and California Curriculum Framework including the strands of listening, speaking, reading, and writing. Provides practical strategies for implementing the Curriculum Framework for English and Multi-Language Learners. Applicable to required or professional development units for Child Development Permit holders, Preschool Permit holders, Preschool Transitional Kindergarten, and early primary teachers. Field trips and/or fieldwork assignments may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV212A Language and Literacy Development in Early Childhood AND Advisory: CDEV212B Teaching Strategies, Materials, and Assessments for Language Development

CDEV215

Administration I: Programs in Early Childhood Education (DS6)

Units: 3

Introduction to the administration of early childhood programs. Covers program types, budget, management, regulations, laws, development and implementation of policies and procedures. Examines administrative tools, philosophies, and techniques needed to organize, open, and operate an early care and education program. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: Twelve (12) units in early childhood education

CDEV216

Administration II: Personnel and Leadership in Early Childhood Education (DS6)

Units: 3

This course acquaints students with effective strategies for personnel management and leadership in early care and education settings. Includes legal and ethical responsibilities, supervision techniques, professional development, and reflective practices for a diverse and inclusive early care and education program. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV215 Administration I: Programs in Early Childhood Education (DS6) AND Advisory: Twelve (12) units in early childhood education

CDEV217

Creative Music and Performing Arts for Early Learners

Units: 3

Introduction to the performing arts domain of the California Preschool Learning Foundations and Frameworks including strands of music, drama, and dance. Provides practical strategies for implementing the curriculum frameworks developed for this domain. Explores musical expression through songs and ballads, the elements of music, and diverse types of instruments as used in the early childhood curriculum. Includes the study of musical growth and development in young children and the use of music as a classroom management tool. Applicable to required or professional development units for Child Development Permit holders, pre-school, transitional kindergarten, and early-primary teachers. Field trips and fieldwork assignments may be required. By the third week of the semester, verification of the state-mandated Tdap vaccination, MMR immunization, and negative TB test will be required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CDEV218

Visual Art Experiences for Early Learning Environments

Units: 3

Introduction to the visual arts domain of the California Preschool Learning Foundations and Frameworks including artistic expression and response, and skills using various art media. Emphasizes the child's ability (ages 2 through 8 years) to represent and expressively use art mediums and techniques. Includes theoretical, as well as, practical applications and explores the role of adults in fostering creativity. Provides practical strategies for implementing the curriculum frameworks developed for this domain. Applicable to required and/or professional development units for Child Development Permit holders, preschool, transitional kindergarten, and early-primary teachers. Field trips and fieldwork assignments may be required. By the third week of the semester, verification of the state-mandated Tdap vaccination, MMR immunization, and negative TB test will be required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CDEV221

Living and Teaching in a Diverse Society

Units: 3

Examines the impact of various societal influences on the development of children's social identity. Covers developmentally appropriate, inclusive, and anti-bias approaches. Self-examination and reflection on issues related to social identity,

stereotypes, and bias will be emphasized. Field trips and field-based assignments may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CDEV222

Trauma-Informed Teaching and Care in Early Childhood Settings

Units: 3

Specific emphasis on the experience of trauma and the effects on life-long development. Develop classroom strategies to promote resilience and well-being, including self-care for professionals. Fieldwork and field trips may be required.

Former Title (2022): Child Development 220 - The Child As Victim

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV107 Child Growth and Development (DS1) AND Advisory: CDEV110 Child, Family and Community (DS2)

CDEV229

Brain Development and Learning

Units: 2

This class explores the development of the brain for children from birth through adolescence, and how behavior and learning are affected. Brain-based learning strategies will be used to teach new ways of approaching learning including how to understand diverse learning styles. This course is designed for educators, parents, and students who are interested in knowing more about how the brain operates and how the environment affects the brain. Field trips and fieldwork assignments may be required. By the third week of the semester, verification of the state-mandated Tdap vaccination, MMR immunization, and negative TB test will be required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

CDEV233

Brain-Compatible Guidance and Behavior Management in Early Learning Environments

Units: 3

Appropriate for classroom teachers in various settings, students will identify developmentally appropriate behaviors, challenging behaviors and the various influences that effect children's behavior. Students will analyze children's behaviors and select strategies to make positive changes. Emphasizes the connection between children's social and emotional development and their success in the classroom, and how the teachers' perceptions, experiences, and behavior influence child behaviors. May require field experience.

Former Title: CDEV 230, Child Guidance and Classroom Management (2021)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CDEV107 Child Growth and Development (DS1) AND Advisory: CDEV110 Child, Family and Community (DS2) AND Advisory: CDEV202 Introduction to Children from Special Populations

CDEV234

Brain-Compatible Guidance and Classroom Management for Social-Emotional Development through the Primary Years

Units: 3

Introduction to the social and emotional development domain of the California Preschool Learning Foundations and Frameworks including the strands of self, social interaction, and relationships. Using current cognitive research, provide practical strategies for implementing the curriculum frameworks developed for this domain. Applicable to required or professional development units for Child Development Permit holders, pre-school, transitional kindergarten, and early-primary teachers. Field trips and fieldwork assignments may be required.

Former Title: CDEV 234, Brain-Compatible Guidance and Classroom Management for Early Learning Setting (2021).

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CDEV236

Engineering, Math, and Science Strategies for Primary Learning Environments

Units: 3

This course introduces the science and mathematics domains of the California Preschool Learning Foundations and Frameworks and Engineering concepts. Includes the strands of science, math, and engineering. Provides practical strategies for implementing the curriculum frameworks developed for these domains. Applicable to the required or professional development units for the Child Development Permit holders, pre-school, transitional kindergarten, and, professional development for Early Primary teachers. Field trips and field assignments may be required. Fieldwork may be required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CDEV260

Adult Supervision and Mentoring in Early Learning and Education Programs

Units: 3

Methods and principles of supervising student teachers, volunteers, staff, and other adults in early learning and education settings. Emphasis is on the roles and development of early learning professionals as mentors and leaders. Field trips and field-based assignments may be required.

Former Title: CDEV 250, Adult Supervision and Mentoring in Early Care and Education Programs (Fall 2022)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV111B Introduction to Curriculum for Young Children OR Prerequisite: CDEV116B Care and Education for Infants and Toddlers (DS3) OR Prerequisite: CDEV123B Transitional Kindergarten and Early Primary Teaching, Principle and Practices (DS5)

CDEV297

Reflective Practice - Analyzing and Applying Teacher Strategies in the Classroom Reflective Practice

Units: 3

This course is designed for teachers working in early childhood or transitional kindergarten settings. Students will examine their teaching philosophy and engage in the reflective practice cycle process. Students will use a variety of instructional strategies, including purposeful play, to assess and support children's learning and development. This course is intended to be a capstone course. Field trips and fieldwork assignments may be required. By the third week of the semester, verification of the state-mandated Tdap vaccination, MMR immunization, and negative TB test will be required.

Former Title: CDEV 297, Analyzing and Applying Teacher Strategies in the Classroom (2022)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CDEV111B Introduction to Curriculum for Young Children OR Prerequisite: CDEV116B Care and Education for Infants and Toddlers (DS3) OR Prerequisite: CDEV123B Transitional Kindergarten and Early Primary Teaching, Principle and Practices (DS5)

CDEV298A

Practicum in Early Childhood Programs

Units: 3.5

Under guided supervision in a Rancho Santiago Community College District (RSCCD) Child Development Center or approved mentor site, students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement and evaluate approaches and strategies, and techniques that promote development and learning. Field trips and field-based assignments required. A negative TB test result and state-mandated immunizations are required for certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 81

Requisites: Prerequisite: CDEV110 Child, Family and Community (DS2) AND Prerequisite: CDEV111B Introduction to Curriculum for Young Children AND Prerequisite: CDEV112 Health, Safety and Nutrition for Children AND Prerequisite: CDEV221 Living and Teaching in a Diverse Society

CDEV298B

Practicum in Infant/Toddler Programs

Units: 3.5

Under guided supervision in a Rancho Santiago Community College District (RSCCD) Child Development Center or approved mentor site, students will demonstrate developmentally appropriate early childhood program planning and teaching competencies under the supervision of ECE/CD faculty and other qualified early education professionals. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement, and evaluate approaches, strategies, and techniques that promote development and learning. Includes exploration of career pathways, professional development, and teacher responsibilities. Fieldwork and state-required immunizations are required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 81

Requisites: Prerequisite: CDEV110 Child, Family and Community (DS2) AND Prerequisite: CDEV112 Health, Safety and Nutrition for Children AND Prerequisite: CDEV116B Care and Education for Infants and Toddlers (DS3) AND Prerequisite: CDEV221 Living and Teaching in a Diverse Society

CDEV298C

Practicum in Transitional Kindergarten

Units: 3.5

Designed for students at the end of their Transitional Kindergarten certificate program, student teachers will participate supervised practice in a Transitional kindergarten classroom demonstrating developmentally appropriate teaching competencies, making connections between theory and practice and professional teaching behaviors, relationships with children and families, play-based approaches to teaching, learning, and assessment, knowledge of curriculum content areas will be emphasized as students design, implement, and evaluate experiences. Field-based assignments are required. Completion of state-mandated immunizations and negative TB test are required for certificate completion.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 81

Requisites: Prerequisite: CDEV108B Observation and Assessment in Transitional Kindergarten and Kindergarten AND Prerequisite: CDEV123A Preschool and Early Primary Development (TK) (DS5) AND Prerequisite: CDEV123B Transitional Kindergarten and Early Primary Teaching, Principle and Practices (DS5)

CDEV299

Cooperative Work Experience Education

Units: 4

This work experience course of supervised employment is designed to assist students to acquire career awareness and work habits in early childhood, K-12, and afterschool programs. 75 hours of paid work or 60 hours of unpaid work equals one unit of course credit. Course may be repeated up to the maximum unit allowed per Title 5, Section 55253. Field trips may be required. Open Entry/ Open Exit

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 300

Requisites: None

CHEMISTRY

CHEM100

Introductory Chemistry

Units: 4

This course prepares students for Biology and Chemistry 200 by exploring the basic concepts of matter such as: atomic structure, formulas, equation writing, nomenclature, gases, and kinetic theory. Properties of solutions and the mole concept in quantitative chemistry will be emphasized.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

CHEM200A

General Chemistry A

Units: 5

This is the first semester of a year-long sequence covering the fundamental principles and concepts of chemistry and is intended for students studying physical science, life science, and engineering. The topics are to include, but not limited to, atomic structure, quantum theory, periodic properties, stoichiometry, oxidation-reduction, molecular structure and bonding, gas laws, states of matter, solutions, chemical kinetics and chemical equilibrium. This course is a requirement to earn a degree in the physical science, life science, and engineering majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: CHEM100 Introductory Chemistry OR Prerequisite: Passing score on the chemistry placement test OR Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

CHEM200AH

Honors General Chemistry A

Units: 5

An in-depth Honors study of the fundamental principles and concepts of chemistry. This course is intended for students studying physical science, life science,

and engineering. The topics are to include, but not limited to, atomic structure, quantum theory, periodic properties, stoichiometry, oxidation-reduction, molecular structure and bonding, gas laws, states of matter, solutions, chemical kinetics and chemical equilibrium. This course is a requirement to earn a degree in the physical science, life science, and engineering majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: CHEM100 Introductory Chemistry OR Prerequisite: Passing score on the chemistry placement exam OR Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

CHEM200B

General Chemistry B

Units: 5

Continuation of Chemistry 200A, including but not limited to ionic equilibrium, acid and base equilibrium, thermodynamics, electrochemistry, nuclear chemistry, organic chemistry and descriptive chemistry.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: CHEM200A General Chemistry A OR Prerequisite: CHEM200AH Honors General Chemistry A

CHEM280A

Organic Chemistry A

Units: 5

This course is the first semester of a year of organic chemistry. This course will cover structure and bonding, nomenclature, descriptive chemistry, reaction mechanisms, synthetic methods and IR spectroscopy for different functional groups including alkanes, alkenes, alkynes, alkyl halides, alcohols, and ethers. Laboratory will include separations/purifications identification, and simple syntheses.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: CHEM200B General Chemistry B

CHEM280B

Organic Chemistry B

Units: 5

This course is the second semester of a year of organic chemistry (continuation of Chemistry 280A). It includes units on structure elucidation, aromatic compounds, carbonyl compounds, carboxylic acids and their derivatives, amines, and classes of biologically important compounds. More complex synthetic routes are explored. Laboratory work includes multi-step syntheses and unknown identification. Reaction mechanisms and use of spectroscopic techniques continue to be emphasized. This course is intended for science majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 108

Requisites: Prerequisite: CHEM280A Organic Chemistry A

CHINESE

CHNS101

Elementary Chinese I

Units: 5

Practice and integration of pronunciation, grammar, vocabulary, and common idioms through listening, speaking, reading, and writing to begin to express thoughts

orally and in writing. The class will also introduce students to cultural, social, and linguistic items appropriate to Chinese-speaking societies. Chinese 101 is equivalent to two years of high school Chinese.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: None

CHNS102

Elementary Chinese II

Units: 5

Continuation of Chinese I which furthers training in language skills providing avenues for the expression of ideas in both oral and written forms and provides enhanced study of cultural and socio-linguistic knowledge aspects appropriate to Chinese-speaking societies. Chinese 102 is equivalent to the third year of high school Chinese.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: Prerequisite: CHNS101 Elementary Chinese I

CINEMA STUDIES

CINE103

History of Film to 1945

Units: 3

A survey course exploring film as an art form and developing an appreciation of historical, artistic and technical advances from the 1890s to 1945.

Former Title: TV/Video Communications 103, History of Film to 1945 (2018)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE104

History of Film From 1945 to Present

Units: 3

A lecture/visual aids course exploring film as an art form and developing appreciation of historical, artistic and technical advances.

Previous Title: TV/Video Communications 104, History of Film From 1945 to Present (2018)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE105

Mass Media and Society

Units: 3

Exploration of the history, effects, and role of mass media in U.S. society. Examines major media forms (TV, radio, film, newspapers, magazines, ads, internet) in our information-conscious culture. Field trips may be required.

Previous Title: TV/Video Communications 105, Mass Media and Society (2018)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE107

Great Directors

Units: 3

This class involves a survey and critical analysis of films by various film directors within the Film Industry. The class will deconstruct a film director's work (instructor's choice) throughout the course of the semester, focusing specifically on technical, thematic and socio-cultural similarities that span the director's career. Students will be expected to articulate specific insights into the director's work through essay writing and exams. Emphasis on auteur theory, film style and visionary contributions to film history.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE108

Film Genres

Units: 3

Critical survey of a variety of film genres, including gangster, musical, comedy, film noir, Westerns, and others. Hollywood, independent and international examples, from different time periods.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE122

Screenwriting for Digital Media

Units: 3

Writing scripts for digital media. Scriptwriting fundamentals, format, dramatic structure; and applying skills to use in the form of non-narrative and narrative scripts for clients and employers.

Previous Title: TV/Video Communications 122, Screenwriting for Digital Media (2018)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE124

Introduction to Digital Media Production

Units: 3

This course introduces Digital Single Lens Reflex (DSLR) video acquisition, dual channel audio acquisition, lighting and non-linear digital editing equipment. Students will use professional procedures from pre-production through post-production to develop, produce and execute to completion various commercial and industrial video formats applicable to digital production.

Previous Title: TV/Video Communications 124, Introduction to Digital Media Production (2018)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 54

Requisites: None

CINE130

Film Appreciation

Units: 3

This course provides a background in understanding the aesthetics used in television, motion pictures, video games, and digital media and explores the development and impact of mediated messages. The interplay and structuring of elements of sight, sound, and motion as message components, and their capacity

to generate impressions, stimulate feelings, shape attitudes, and convey information are examined.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE150A

Film/TV Producing I

Units: 3

Introduction to all aspects of planning the production of film and TV projects. Students are taught the skills to estimate, calculate, negotiate and evaluate all costs, legal concerns, insurance issues, permits, and pitfalls. Project budgets and organization for shorts, music videos, commercials, documentaries, and low-budget narrative films are examined.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CINE150B

Film/TV Producing II

Units: 3

Continued study of planning the production of feature film and large-scale TV projects. Students are taught the skills to estimate, calculate, negotiate and evaluate all costs, legal concerns, insurance issues, permits, and pitfalls. Project budgets and organization for feature films are examined.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CINE150A Film/TV Producing I

COMPUTER INFORMATION SYSTEMS

CIS101

Introduction to Microsoft Office

Units: 3

Basics of Microsoft Office, a suite of applications for Windows (Word, Excel, Access, and PowerPoint). Acquire skills for creating, formatting, printing, and editing business documents.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CIS103

Microsoft Word

Units: 3

Step-by-step procedures are taught for creating, editing, and printing business documents with Microsoft Word.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CIS105

Introduction to Microsoft Excel

Units: 1.5

Introduction to Excel spreadsheets including formatting, graphics, and formulas common to business applications. Prepares student for MS Excel Certification.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 27 **Lab Hours:** 0

Requisites: None

CIS106

Microsoft Excel

Units: 3

Introduction to Microsoft Excel and how it facilitates solving business problems. Covers data management and reporting using spreadsheets, charts, database tools and macros.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CIS110

Introduction to Microsoft Project

Units: 3

Provides basic knowledge of how to plan a project, identify and create tasks, estimate workloads and duration, setup project schedules, maintain the schedule, assign resources, connect resources to tasks, setup a project budget, track progress utilize reports and close a project using Microsoft Project software. (No credit if the student has taken PBLC 110.)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: PBLC 110 Introduction to Microsoft Project

CIS111

Python Programming

Units: 3

This course is an introduction to fundamental concepts and techniques for writing software in the Python programming language. This course covers the syntax and semantics of data types, expressions, exceptions, control structures, input/output, methods, classes, and pragmatics of Python programming.

Transferability: Transferable to both UC and CSU

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CIS159

Introduction to iOS/iPhone Mobile App Development

Units: 3

Introduction to mobile application development for iPhones and other iOS devices using beginning programming concepts and skills.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CIS259

Advanced iOS/iPhone Mobile App Development

Units: 3

Advanced techniques for mobile application development for iPhones and other iOS devices using Objective-C programming.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CIS159 Introduction to iOS/iPhone Mobile App Development

CRIMINAL JUSTICE

CJ101

Introduction to Criminal Justice

Units: 3

This course introduces students to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement, theoretical explanations of crime, responses to crime, components of the system, and current challenges to the system. The course examines the evolution of the principles and approaches utilized by the justice system and the evolving forces that have shaped those principles and approaches. Although justice structure and process are examined in a cross cultural context, emphasis is placed on the US justice system, particularly the structure and function of US police, courts, and corrections. Students are introduced to the origins and development of criminal law, legal process, and sentencing and incarceration policies.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

COMPUTER SCIENCE

CMPR100

The Computer and Society

Units: 3

An introduction to the area of computers and their relationship to today's information society. Examines a broad overview of topics including: hardware, software, networking, information technology, and the internet. The student will explore the implication and effect of technology on society, careers and ethics.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CMPR105

Visual BASIC Programming

Units: 3

Introduction to programming and Visual BASIC. Emphasis on programming fundamentals and the creation of applications with Visual BASIC. No previous programming experience is required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CMPR112

Java Programming

Units: 3

Introduction to object-oriented program design. Overview of the Java programming language, including developing applications for web pages and stand-alone applications.

Transferability: Transferable to both UC and CSU

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

CMPR120

Introduction to Programming

Units: 3

Introduction to programming concepts including data types, mathematical operations, elementary input/output, and the basic control structures of sequence, selection, iteration and functions. Program design techniques utilizing structured and object-oriented methodologies will be emphasized.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 18

Requisites: Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better.

CMPR121

Programming Concepts

Units: 3

Continuing introduction to programming concepts, development of algorithms utilizing functions, classes and the primary control structures. Program I/O; strings and arrays; data types: classes and objects. Documentation techniques.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 18

Requisites: Prerequisite: CMPR120 Introduction to Programming

CMPR122

Programming Concepts and Methodology I

Units: 3

Introduces the discipline of computer science using a high-level language, utilizing programming and practical hands-on problem solving. This is the first course in a sequence of courses that is compliant with the standards of the Association for Computing Machinery (ACM).

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CMPR120 Introduction to Programming

CMPR129

Introduction to Computer Organization

Units: 4

Presents the organization and structure of computers at hardware and software levels: analysis and synthesis of combinatorial and sequential logic, data representation and manipulation, language structures and translation, and process administration and management.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: CMPR120 Introduction to Programming

CMPR131

Data Structures Concepts

Units: 3

Application of simple Data Structures Concepts (ADT's) including linked structures, stacks, queues and trees. Use of pointers, recursion, sorting algorithms, classes and object-oriented programming to implement Data Structures.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CMPR121 Programming Concepts

CMPR132

Programming Concepts and Methodology II

Units: 3

Application of software engineering techniques to the design and development of large programs: data abstraction and structures and associated algorithms. This is the second course in a sequence of courses that is compliant with the standards of the Association of Computing Machinery (ACM).

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CMPR122 Programming Concepts and Methodology I

CMPR149

Discrete Structures for Computer Science

Units: 3

This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include: Functions; Relations and Sets; Basic Logic; Proof Techniques; Basics of Counting; Graphs and Trees; and Discrete Probability. This course is compliant with the standards of the Association for Computing Machinery (ACM).

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: MATH140 College Algebra OR Advisory: MATH219 Statistics and Probability OR Advisory: MATH219H Honors Statistics and Probability OR Advisory: MATH219S Statistics and Probability with Support OR Advisory: MATH105 Mathematics for Liberal Arts Students AND Prerequisite: CMPR122 Programming Concepts and Methodology I

CMPR154

Computer Architecture and Organization

Units: 3

The organization and behavior of real computer systems at the assembly language level. Topics include number systems and data representation, addressing techniques, memory management, interrupt handling, recursion, subroutines, arrays, and the implementation of high-level language constructs at the machine-language level. This course is compliant with the standards of the Association for Computing Machinery (ACM).

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CMPR122 Programming Concepts and Methodology I

CMPR157

Introduction to Robotics

Units: 3

Introduction to Robotics Programming using the LEGO Mindstorms platform. Basic mechanical, electronics, and control issues in Robotics are discussed, including the design and implementation of robotic systems. Students program a robot using several programming languages including the LEGO "NXT-G" programming language, as well as Robot C.

Previous Title: Introduction to Robotics Programming (2016)

Transferability: Transferable to CSU only

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CMPR213

C# Programming

Units: 3

Study of C# programming. Topics covered include the .NET environment, object-oriented programming, relational databases, and creation of graphical user interfaces.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: CMPR121 Programming Concepts

COUNSELING

CNSL101

Educational, Personal, Cultural, and Career Exploration

Units: 3

Designed to promote academic and career success by exploring student development from an educational, sociological, psychological and physiological perspective. Exploration of higher education opportunities, potential career interests and a focus on educational planning. Recommended for students planning to complete an associate degree and/or transfer to a university. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CNSL106

Inquiries Into Higher Education

Units: 1

A comprehensive and advanced study of selecting and completing an academic plan, developing goals and objectives, and choosing a college major. Topics include study techniques, assessing interests and skills, and planning a major.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: None

CNSL110

University Transfer Research

Units: 2

Development and enhancement of decision-making strategies for transfer students. Identification of education/career goals. Analysis, comparison, and evaluation of university admission, major, and post-graduate requirements and student services. On-site research/field study at universities. Field trips required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

CNSL111

Learning Skills Development

Units: 1

Application of educational/psychological principles in the development of effective learning skills for college courses. Topics also include identifying diversities of cultural influence, learning style, time management, textbook study/comprehen-

sion, note-taking, research preparation, and testing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: None

CNSL113

Learning Strategies for College Success

Units: 3

This comprehensive course is designed to promote academic success by exploring the students' development from an educational, sociological, psychological and physiological perspective. Students will learn critical thinking strategies and communication techniques for their educational, professional, and interpersonal achievement. Students will also cultivate effective learning strategies that will assist them in developing study habits for college academic success. Students will be introduced to lifestyle techniques that will promote a healthy work/ life balance as it pertains to their current lives as college students and to their future working adult lives.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CNSL116

Career/Life Planning and Personal Exploration

Units: 3

The course is designed to assist students in successfully establishing and achieving education, career and life goals. Students are guided through a reflective process that focuses on values, interests, personality, skills and learning styles. Career and education options are researched, and students are exposed to college resources and support services. Decision making models and goal setting techniques are examined and will be used to develop short and long term education, career and life plans. Materials fee required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

CNSL118

Self Exploration and the Teaching Profession

Units: 2

An exploration of "self" through a reflective process that focuses on values, interests, skills and personality as applied to the teaching profession and alternate professional choices. Topics include personal effectiveness, increasing cultural sensitivity, psychological and sociological forces within the workplace, career ladders and options, and academic preparation required for employment. Decision making models and goal setting techniques are examined and will be used to develop short and long term education, career, and life plans. Materials fee required.

Transferability: Transferable to CSU only

CNSL150

Introduction to Human Services

Units: 3

The history and philosophy of human services including theoretical frameworks, the function and orientation of human services organizations and the roles and qualifications of human services workers. Through a multidisciplinary approach, an examination of the impact of cultural, societal, and ethical issues facing the human services field will frame how target populations are served.

Transferability: Transferable to both UC and CSU

Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

CNSL152
Philosophy of Helping
Units: 3

This course engages foundational concerns of the helping professions such as educators, social workers and other human services from individual, communal, and societal perspectives. Explore ways society provides help that are empowering and authentic for those being helped, and tensions that inevitably arise when we try to formalize the helping relationship. In addition to exploring the skills that lead to caring, competent, and effective practice, students will develop a personal philosophy of helping that is critical and reflective.

Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

CNSL160A
The Helping Professions Seminar
Units: 1

The Helping Professions Seminar affords students the opportunity to incorporate the academic knowledge learned in the prerequisite and co-requisite courses while acquiring work experience in a social work/human services setting. Weekly supervision will be provided to foster problem solving, cultural competency, reflection, and self-evaluation as students gain insight into their future role as helping professions practitioners.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 18 **Lab Hours:** 0
Requisites: Prerequisite: CNSL150 Introduction to Human Services AND Co-Requisite: CNSL150 Introduction to Human Services AND Prerequisite: PSYC100 Introduction to Psychology OR Prerequisite: PSYC100H Honors Introduction to Psychology OR Prerequisite: SOCI100 Introduction to Sociology OR Prerequisite: SOCI100H Honors Introduction to Sociology

CNSL160B
Fieldwork Experience for the Helping Professions
Units: 2

Fieldwork experience provides the opportunity for students to incorporate academic knowledge learned in the prerequisite/corequisite courses and gain life-long skills through supervised training hours in a helping professions setting. This course is designed to assist students with an opportunity to examine, apply, and develop skills that would enable them to gain employment in the human services field. With the approval of the instructor, students will select their fieldwork placement that supports their career goals.

Transferability: Transferable to CSU only

Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

CNSL198
Philosophy of Helping
Units: 3

This course engages foundational concerns of the helping professions such as educators, social workers and other human services from individual, communal, and societal perspectives. Questions explored in this course include, how as a society do we provide help in ways that are empowering and authentic for those being helped and what are the tensions that inevitably arise when we try to formalize the helping relationship? In addition to exploring the skills that lead to caring, competent, and effective practice, students will develop a personal philosophy of helping that is critical and reflective.

COMMUNICATION

COMM100
Introduction to Interpersonal Communication
Units: 3

Introduction to communication skills of listening, perception, language usage, non-verbal communication, and conflict management; emphasizing methods of overcoming barriers to effective communication in interpersonal relationships.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

COMM100H
Honors Introduction to Interpersonal Communication
Units: 3

Enriched approach for honors students. Highly interactive seminar mode of instruction. Stresses the development of analytical thinking, writing, and speaking skills. An introduction to communication skills of listening, perception, language usage, non-verbal communication, and conflict management, emphasizing methods of overcoming barriers to effective communication in interpersonal relationships.

Transferability: Transferable to both UC and CSU
Entrance Skills: A high school or college GPA of 3.0 or above
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

COMM101
Group Dynamics
Units: 3

Principles and methods of communication as applied in the small group setting. Emphasis on communication skills, processes, and operations in the small group. Includes understanding group dynamics and cooperative problem solving.

Transferability: Transferable to both UC and CSU

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

COMM110 Public Speaking

Units: 3
 Teaches critical thinking skills in relation to public speaking. Emphasis on the process, principles, and major facets of critical thinking with practice through oral presentations.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

COMM111 Argumentation and Debate

Units: 3
 Principles of debate techniques with emphasis on methods of logical analysis and reflective thinking. Practical application through adaptation of material to forms of debate on current issues.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

COMM120 Intercultural Communication

Units: 3
 A general view of the sociological, psychological, and communication patterns of major cultural groups. Special emphasis on the methods, skills, and techniques necessary for effective intercultural and crosscultural communication.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

COMM120H Honors Introduction to Intercultural Communication

Units: 3
 Enriched for honors students. In-depth, seminar format examination of sociological, psychological, and communication patterns of major cultural groups. Methods, skills, and techniques for effective intercultural communication. Stresses analytical thinking skills.

Transferability: Transferable to both UC and CSU
Entrance Skills: A high school or college GPA of 3.0 or above
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

COMM130 Forensics Team

Units: 4
 This course is designed to prepare students to participate in intercollegiate speech competition. Instruction and direction for the preparation, creation and performance of interpretation of literature programs, limited preparation speeches, readers' theater, public debate, and general public address. Students are

required to participate in off-campus forensics events.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: None

COMM134 Oral Interpretation

Units: 3
 Performance of prose, poetry, and drama; practice in speaking, interpretation, and analysis of literature, with training in the principles of effective delivery.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

COMM135 Readers' Theatre

Units: 3
 Research, construct, rehearse, and perform interpretation of literature in an ensemble theatrical setting. Learn basic elements of choral reading, singing, and movement. Field trips may be required.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

COMM190 Communication and New Media

Units: 3
 Introduction to emergent technology and mediated communication, with an emphasis on the impact that new media has on human communication. Examples of new media include--but are not limited to--online dating, gaming, social media, blogging, and podcasts. The course offers an overview of relevant theories and critical issues while providing students with the opportunity to apply communication skills using new media.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

COMM225 Gender Communication

Units: 3
 Practical application, techniques, and in-depth analysis of sex and gender communication regarding language usage, biological and social influences, mass media, power abuses, long-term relationships, the workplace, friendships, and education.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Advisory: COMM100 Introduction to Interpersonal Communication OR Advisory: COMM100H Honors Introduction to Interpersonal Communication OR Advisory: COMM101 Group Dynamics OR Advisory: COMM110 Public Speaking OR Advisory: COMM111 Argumentation and Debate

COMM225H

Honors Gender Communication

Units: 3

Enriched approach in application, techniques and in-depth analysis of male and female communication regarding language usage, biological and social influences, mass media, marriage, organizations, same-sex/cross-sex friendships and education. Students will be required to do individual/group professor-guided research.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: COMM100 Introduction to Interpersonal Communication OR Advisory: COMM100H Honors Introduction to Interpersonal Communication OR Advisory: COMM101 Group Dynamics OR Advisory: COMM110 Public Speaking OR Advisory: COMM111 Argumentation and Debate

COMM230

Advanced Forensics Team

Units: 4

This course is designed to prepare students to participate at an advanced level in intercollegiate speech competition. Includes instruction and direction for the junior competition of interpretation of literature programs, limited preparation speeches, readers' theater, public debate, and general public address. Focuses on mentoring and coaching novice members. Students are required to participate in off-campus forensics events.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: Advisory: COMM130 Forensics Team

COSMETOLOGY

COSM005

Health and Safety

Units: 7

Instruction in the theory and practical applications of health and safety practices for Cosmetology and Esthetician as required by Section 7316 of the Barbering and Cosmetology Act. Must be enrolled in the Cosmetology or Esthetician program. Students are required to purchase a basic supply kit as part of the program. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 100 **Lab Hours:** 100

Requisites: None

COSM040

Cosmetology

Units: 0.5-35

Principles and practices in cosmetology. Preparation for Board Examination for licensing by the State of California Board of Barbering and Cosmetology. Laboratory participation includes student demonstration that all performance objectives have been met. Students are required to purchase a basic cosmetology kit. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 9-450 **Lab Hours:** 9-550

Requisites: None

COSM050

Manicuring

Units: 0.5-13.5

Complete instruction of nail care as required by the State Board of Barbering and Cosmetology for licensure preparation. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 125 **Lab Hours:** 275

Requisites: None

COSM070

Barbering

Units: 4-48

Principles and practices in barbering. Preparation for Board Examination for licensing by the State of California Board of Barbering and Cosmetology. Laboratory participation includes student demonstration that all performance objectives have been met. Basic cosmetology kit at student's expense. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 385 **Lab Hours:** 1115

Requisites: None

COSM080

Esthetician

Units: 0.5-13

Instruction in the theory and practical applications of all practices of an esthetician as required by Section 7316 of the Barbering and Cosmetology Act. Students are required to purchase a basic esthetician kit. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 9-162 **Lab Hours:** 226.8

Requisites: None

DANCE

DNCE100

Dance History and Appreciation

Units: 3

The development of dance in Western Europe and the U.S. from ancient times to the present. Explores dance as an emerging art form from the Renaissance to the 21st century. Emphasizes the contemporary dance heritage of the United States. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

DNCE106A

Introduction to Modern Dance I

Units: 1

An introduction to modern dance emphasizing movement technique, dance vocabulary and creative individual expression. Includes an introduction to choreographic principles and the historical/cultural context of American modern dance. For the student with little or no dance experience. Previous Title: Dance 106A, Introduction to Modern Dance (2017)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: None

DNCE106B

Introduction to Modern Dance II

Units: 1

This course further explores the technical and expressive elements of modern dance. Students will practice floor exercises, axial/positional movements, and locomotor patterns at an intermediate level. Deepening an understanding of historical significance, dance vocabulary, and creative individual expression. Strengthening an understanding of choreographic principles and cultural context of American modern dance.

Previous Title: Dance 106B, Introduction to Modern Dance (2017)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: Advisory: DNCE106A Introduction to Modern Dance I

DNCE108A

Introduction to Ballet

Units: 1

Introduction to basic ballet emphasizing movement technique, dance vocabulary, and creative individual expression. Student learns basic ballet barre exercises, center work, and short dance works. Includes an introduction to choreographic principles and cultural context of ballet. For the student with little or no dance experience.

Previous Title: Dance 108A, Introduction to Ballet (2017)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: None

DNCE108B

Introduction to Ballet

Units: 1

This course further explores the technical and expressive elements of ballet technique, dance vocabulary, and creative individual expression. Students will practice ballet barre exercises, center work, and short dance works at an intermediate level. Strengthening an understanding of historical significance, choreographic principles and cultural context of ballet.

Previous Title: Dance 108B, Introduction to Ballet (2017)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: Prerequisite: DNCE108A Introduction to Ballet

DNCE115A

Introduction to Tap Dance

Units: 1

Introduction to basic tap dance technique. Focuses on the mastery of basic tap steps and simple dance combinations. Recommended for theatre and dance majors. For the student with little or no dance experience. Field trips may be required.

Previous Title: Dance 115A, Introduction to Tap Dance (2017)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: None

DNCE115B

Introduction to Tap Dance

Units: 1

This course further explores the technical and expressive elements of tap dance. Students will practice skills necessary for execution of traditional tap dance steps and sequences at an intermediate level. Strengthening intermediate steps leading to combination work in complete dances.

Previous Title: Dance 115B, Introduction to Tap Dance (2017)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: Advisory: DNCE115A Tap Dance Fundamentals

DNCE119A

Introduction to Jazz Dance

Units: 1

Introduction to jazz dance technique emphasizing elementary movement technique, vocabulary and creative expression. Includes an introduction to composition and cultural context of jazz. For students with little or no dance experience.

Previous Title: Dance 119A, Introduction to Jazz Dance (2017)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: None

DNCE119B

Introduction to Jazz Dance

Units: 1

This course further explores the technical and expressive elements of jazz dance. Students will practice body alignment, locomotor movements, hitch kicks, and leaps. Deepening an understanding of jazz dance, movement technique, vocabulary, and creative expression. Strengthening an understanding of composition and cultural context of traditional and contemporary jazz dance forms.

Lecture Hours: 9 **Lab Hours:** 27

Requisites: None

DNCE204A

Dance Production I

Units: 2

Concert dance production experience culminating in public performances. Includes production basics, with an emphasis on performance techniques and working with faculty/student choreographers to create original dances. By audition only prior to enrollment. Former Title: DNCE 204A, Dance Production (Spring 2024)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Audition

Lecture Hours: 18 **Lab Hours:** 54

Requisites: None

DNCE204B

Dance Production II

Units: 2

Continued study in concert dance production culminating in public performances. Includes a range of production basics and advanced dance production methods, with an emphasis on choreography to create original dance work. Course differs from 204A. Former Title: DNCE 204B, Dance Production (Spring 2024)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 54

Requisites: None

DNCE205

Performance Ensemble

Units: 2

Pre-professional ensemble to provide performance experience for advanced students. Concert tour/performance field trips may be required. Repertoire and casting vary each semester.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Audition

Lecture Hours: 18 **Lab Hours:** 54

Requisites: None

DNCE250A

Hip-Hop Dance I

Units: 2

Introduction to hip-hop dance emphasizing movement technique, vocabulary, and creative expression. Includes an introduction to choreographic principles, improvisation, and cultural context of hip-hop.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 54

Requisites: None

DNCE250B

Hip-Hop Dance II

Units: 2

Continued study in hip-hop dance emphasizing movement technique, vocabulary, and creative expression. Includes improvisation, more difficult combinations, student compositions, and the cultural context of hip-hop. Movement repertoire differs from 250A.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 54

Requisites: Advisory: DNCE250A Hip Hop Dance I

DNCE251

Hip Hop Dance III

Units: 2

Instruction for the continuing dance student in advanced level hip-hop dance technique and further development of performance skills. Emphasis will be placed on combinations, choreography, performance style, and cultural context of hip-hop. Dance 250B is recommended prior to enrollment in this course.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 54

Requisites: Advisory: DNCE250B Hip-Hop Dance II

ECONOMICS

ECON101

Principles/Micro

Units: 3

Introduction to microeconomics, including basic economic concepts, analysis of markets, efficiency, consumer and firm behavior, industry structures, market failure, and resource markets. For economics, business, and certain engineering and computer science majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

ECON102

Principles/Macro

Units: 3

Introduction to macroeconomics, including basic economic concepts, analysis of markets, national income accounting, employment, inflation, short-run business cycle fluctuations, long-run growth trends, monetary and fiscal policies, and international economic issues. Intended for economics, business, and certain engineering/computer science majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

EDUCATION

EDUC101

American Schools and Society

Units: 3

Introduction to the historical, sociological and psychological goals of American schools as a social/political institution. Topics include equality of educational opportunity; student diversity and multicultural education; economic, societal and political influences; teacher roles and responsibilities; curriculum standards; and the globalization of education.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

EDUC110

The Teaching Experience: Exploration

Units: 3

An exploration of the teaching profession both from academic understanding and from experience gained through 20 hours of classroom observations, assisting in schools and educational centers and designing, preparing and teaching standards based lessons in grades K-12. Topics will include instructional techniques and skills for the teaching profession, exploration of anti-racist teaching strategies and diverse student learning and roles and responsibilities of teachers.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

EDUC113

Educational Strategies for Tutors and Instructional Aides

Units: 1

An examination of effective educational support strategies for tutors and instructional paraprofessionals with a focus on the reading, math and writing skills of school-age children. Students are placed in local K-8 classrooms, tutoring centers, and/or after school programs to apply strategies and gain experience tutoring and working with school-age children.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: None

EDUC200

Introduction to Elementary Classroom Teaching

Units: 3

Introduction to educational theory and practice, assessing issues and standards for teaching in California's culturally and linguistically diverse K -12 school settings; explores instructional methods for teaching, historical and philosophical foundations of the American education system, contemporary educational issues, California's curriculum standards and teacher performance standards. Students participate in 45 hours of structured observation in an elementary classroom in cooperation with a certificated classroom teacher.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: EDUC101 American Schools and Society AND Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition

EDUC206

Proficiency in Educational Technologies for Teachers

Units: 3

Develop personal proficiency in educational technologies to facilitate teaching process. Develop digital literacy through use of presentation, spreadsheet, word processing and publication software, and interactive online tools; Internet search and retrieval; information literacy; electronic communication and collaboration; awareness of legal and ethical issues in the digital world.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

EDUC209

Roles and Responsibilities of the Special Education Paraprofessional

Units: 3

This course is designed to train persons who work as classroom paraprofessional/teaching assistants in the public schools. The course provides an overview of paraprofessional roles and responsibilities including legal, instruction, evaluation and behavioral issues. Supports current legislation for paraprofessionals. May require field trips or field experience.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

EDUC211

Classroom Practices for Diverse Learners

Units: 3

Prepares individuals to assist teachers in various settings to support diverse learners (individuals who have disabilities, are second language learners, are gifted, etc.). Topics will include lesson planning, adapting academics: reading, mathematics, science, art, job coaching, behavioral support, etc.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

EDUC220

Introduction to Secondary Teaching

Units: 3

Introduction to the history, philosophy, and sociology of secondary education. This course will cover the California Teacher Performance Expectations and Assessment; needs of special populations, cultural competency and critical consciousness for educators, English learners, and struggling readers; content standards and major curriculum reform documents. Students participate in 40 hours of structured observation and internship in a local secondary classroom. Former Title: Education 210, The Teaching Experience: Secondary Education (2020)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ELECTRICIAN

ELCT041

General Electrician 1

Units: 3

First semester of a five-year program for certified electrical trainees. Covers tools and fasteners, knot tying, math and materials, building materials and safety, and residential blueprints. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 **Lab Hours:** 45

Requisites: None

ELCT042

General Electrician 2

Units: 3

Second semester of a five-year program for certified electrical trainees. Covers DC theory, series circuits, parallel circuits and combination circuits. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 **Lab Hours:** 45

Requisites: Prerequisite: ELCT041 General Electrician 1

ELCT043

General Electrician 3

Units: 3

Third semester of a five year program for certified electrical trainees. Covers codeology, test instruments and sine waves, three-phase systems, residential and commercial blueprints, mechanical bending. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 **Lab Hours:** 45

Requisites: Prerequisite: ELCT042 General Electrician 2

ELCT044

General Electrician 4

Units: 3

Fourth semester of a five-year program for certified electrical trainees. Covers electrical theory, transformers, and National Electrical Code application. Meets

the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 Lab Hours: 45

Requisites: Prerequisite: ELCT043 General Electrician 3

ELCT045

General Electrician 5

Units: 3

Fifth semester of a five-year program for certified electrical trainees. Covers the National Electrical Code, grounding, industrial blueprints, and earth testing. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 Lab Hours: 45

Requisites: Prerequisite: ELCT044 General Electrician 4

ELCT046

General Electrician 6

Units: 3

Sixth semester of a five-year program for certified electrical trainees. Covers advanced motor control and code as applied to motor protection. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 Lab Hours: 45

Requisites: Prerequisite: ELCT045 General Electrician 5

ELCT047

General Electrician 7

Units: 3

Seventh semester of a five-year program for certified electrical trainees. Covers electronics and programmable logic controllers. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 Lab Hours: 45

Requisites: Prerequisite: ELCT046 General Electrician 6

ELCT048

General Electrician 8

Units: 3

Eighth semester of a five-year program. Provides related and supplemental instruction in code calculations and electrical grounding and bonding. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 Lab Hours: 45

Requisites: Prerequisite: ELCT047 General Electrician 7

ELCT049

General Electrician 9

Units: 3

Ninth semester of a five-year program for certified electrical trainees. A cover-to-cover study of the National Electrical Codebook to prepare for the California State Electrical Examination. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 Lab Hours: 45

Requisites: Prerequisite: ELCT048 General Electrician 8

ELCT050

General Electrician 10

Units: 3

Final semester of a five-year program. Provides related and supplemental instruction in jobsite management and photovoltaic systems. Meets the requirement as a state-certified training course. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 35 Lab Hours: 45

Requisites: Prerequisite: ELCT049 General Electrician 9

ELCT051

Quality Safety Program and First Aid

Units: 1.5

OSHA workplace requirements, the identification and use of safe work practices, coping with accidents and emergency situations, and one person CPR for inside wireman apprentices. American Red Cross certificate available upon successful completion. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 20 Lab Hours: 10

Requisites: None

ENGLISH

ENGL100

Freshman Composition with Integrated Support

Units: 4.5

This course is designed for students who want to develop competence in college-level composition through extended instruction and practice. Students read, analyze, discuss, and think critically using various sources in order to compose in a variety of academic, professional, and civic contexts, including digital environments. Additional hours in the Writing Center are required for practice in refining sentence skills, grammar, research, study habits, and reading strategies.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 Lab Hours: 36

Requisites: Prerequisite: ACEI 16 Introduction to Academic Composition OR Prerequisite: Qualifying profile from the English placement process.

ENGL101

Freshman Composition

Units: 4

This course emphasizes expository and argumentative essays and the research paper, allowing students to gain familiarity with learning approaches connected to successful writing and to compose in a variety of academic, professional, and civic contexts, including digital environments.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 Lab Hours: 0

Requisites: Prerequisite: ACEI 16 Introduction to Academic Composition OR Prerequisite: Qualifying profile from the English placement process.

ENGL101H

Honors Freshman Composition

Units: 4

This course provides an enriched exposure to expository and argumentative es-

says and the research paper, requiring in-depth analysis of issues and substantive treatment of student-selected topics.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: ACEI 116 Introduction to Academic Composition OR Prerequisite: Qualifying profile from English placement process.

ENGL102

Literature and Composition

Units: 4

A second semester course in composition and literature that uses literature to develop critical thinking skills with extensive readings selected from the four major genres.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGL102H

Honors Literature and Composition

Units: 4

An enriched approach designed for honors students. A second semester course in composition and literature that uses literature to develop critical thinking skills with extensive readings selected from the four major genres.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGL103

Critical Thinking and Writing

Units: 4

This course focuses on developing critical thinking, reading, and writing skills by studying established argumentative methods and models and applying them to contemporary issues. Emphasis will be on logical reasoning and analytical and argumentative skills necessary for critical writing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGL103H

Honors Critical Thinking and Writing

Units: 4

This course will emphasize an enriched and intensive exploration of historical and contemporary issues as well as encourage an application of critical thinking, writing and reading skills to established argumentative methods and models through student-initiated discussion and problem-solving in a seminar setting.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated

Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGL213

Creative Writing

Units: 3

This course offers an introduction to writing techniques focusing on the four literary genres: poetry, drama, short story, and personal memoir. Class will be conducted in a workshop format with an emphasis on writing and critiquing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGL231

Survey of English Literature I

Units: 3

Introductory study of representative selections of British literature from the Anglo-Saxon period to the neo-classical period. Emphasis on authors best exemplifying their period, such as Chaucer, Shakespeare, Spenser, Jonson, Milton, Donne, Dryden, Johnson, Behn, Pope, and others.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGL232

Survey of English Literature II

Units: 3

Introductory study of representative selections from the English Romantic Movement to the present. Emphasis on those authors best exemplifying their period, such as Blake, Wordsworth, Coleridge, Byron, the Shelleys, Keats, Tennyson, Arnold, Carlyle, the Brownings, Dickens, the war poets, Yeats, Wilde, Woolf, Joyce, Lawrence, Mansfield, and Larkin.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGL233A

Shakespeare's Comedies and Romances

Units: 3

Study of a select number of plays to discover how Shakespeare uses the genres of comedy and romance to explore the human condition as it relates to historical, philosophical, social, political, and aesthetic contexts. Augmented by films and, if available, appropriate field trips. Different selections in English 233A and 233B.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

**ENGL233B****Shakespeare's Tragedies and History Plays****Units:** 3

Study of a select number of plays to discover how Shakespeare uses tragedy and history plays to explore the human condition as it relates to historical, philosophical, social, political, and aesthetic contexts. Augmented by films and, if available, appropriate field trips. Different selections in English 233A and 233B.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition**ENGL241****Survey of American Literature, 1600-1865****Units:** 3

This course provides a survey of America's greatest works of literature from 1600-1865, emphasizing the relationship between various works and general movements in American culture and literary history.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition**ENGL242****Survey of American Literature, 1865-Present****Units:** 3

The course provides a survey of America's greatest works of literature and their contributions to the American culture from 1865 to present, emphasizing the relationship between literary and intellectual history.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition**ENGL270****Children's Literature****Units:** 3

This course offers a study of literature for children, emphasizing the history, trends, issues, and evaluation of all major genres: picture books, poetry, drama, traditional literature, non-fiction, and fiction, including full-length works.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition OR Prerequisite: ENGL100 Freshman Composition with Integrated Support**ENGL271****Survey of World Literature I****Units:** 3

Survey of selections from world masterpieces from the beginnings of writing through the 1600s. Literary works studied in historical context for artistic form, influence on their and others' cultures, and general contribution to understanding human experience.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition**ENGL272****Survey of World Literature II****Units:** 3

Survey of world literary masterworks since the Renaissance studied for artistic form, cultural influence, and contributions to modern and contemporary thought.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition OR Prerequisite: ENGL100 Freshman Composition with Integrated Support**ENGL278****Survey of Literature by Women****Units:** 3

An historical survey of literature by women, including short stories, novels, plays, poetry, and non-fiction.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition**ENGL279****Survey of Latinx Literature****Units:** 3

Examines Latinx literary movements of the largest racial-ethnic minority in the United States. Studies the historical, sociopolitical, and cultural concerns of Latinx communities and discusses how these texts continue to shape and inform the ongoing debates surrounding citizenship, belonging, and space-based identities. (Formerly English 246)

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition**ENGL280****Literature of the African Diaspora****Units:** 3

A survey of African, African American, and Afro Caribbean literature from pre-colonialism to the present. Literature, such as autobiographical works, poetry, short stories, drama, folk tales, novellas, and novels, will be included to introduce and explore the qualities of African, African American, and Afro Caribbean writing. This course will examine the historical, sociopolitical, and cultural complexities in African literature and in the literature of the African diaspora.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

ENGINEERING

ENGR220

Statics

Units: 3

An introductory course on the analysis of forces acting on objects and structures in equilibrium. Topics include equilibrium of particles, forces and friction, and static equilibrium of rigid bodies.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: MATH185 Single Variable Calculus II AND Prerequisite: PHYS250A Physics for Scientists and Engineers I

ENGR225

Dynamics

Units: 3

Fundamentals of kinematics and kinetics of particles and rigid bodies. Topics include Newton's laws of motion, kinematics of particles, planar and three dimensional motion of rigid bodies, conservation principles, and an introduction to vibrations.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ENGR220 Statics

ENGR230

Network Analysis

Units: 5

An introductory course on the modeling and analysis of electrical networks. Topics include basic network theorems, steady state analysis, Laplace and Fourier transforms.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 54

Requisites: Prerequisite: PHYS250B Physics for Scientists and Engineers II AND Co-Requisite: MATH287 Introduction to Linear Algebra and Differential Equations or prior completion OR Co-Requisite: MATH295 Differential Equations or prior completion

EARTH SCIENCE

ERTH100

Physical Geology

Units: 3

Introduction to physical geology with an emphasis on the processes that change and shape Earth both internally and externally. Appropriate for students in any major. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ERTH100L Physical Geology Laboratory

ERTH100L

Physical Geology Laboratory

Units: 1

Identification of common minerals and rocks, topographic and geologic map exercises demonstrating the work of water, wind, ice, gravity, and effects of tectonic activity. Content correlates to Earth Science 100 lecture material. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: Prerequisite: ERTH100 Physical Geology

ERTH111

Historical Geology

Units: 4

Introduction to historical geology, investigating the history of Earth as preserved in the rock record with an emphasis on North America. Appropriate for students in any major. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: None

ERTH120

Earth Sciences

Units: 3

Investigating the processes that shape and form Earth and define its place in the solar system through the sciences of geology, oceanography, meteorology and astronomy. Appropriate for students in any major. Field trips may be required. Not open to students who are enrolled in or have credit in Earth Science 121.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ERTH121

Earth Sciences for Educators

Units: 4

Investigating the processes that shape and form Earth and define its place in the solar system through the sciences of geology, oceanography, meteorology and astronomy. This course is appropriate for students in any major, but oriented towards enhancing the Earth sciences knowledge of future teachers. Field trips may be required. Not open to students who are enrolled in or have credit in Earth Sciences 120.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 54

Requisites: None

ERTH130

Environmental Geology

Units: 3

Introductory geology course emphasizing the fundamentals of environmental geology and the Earth system, including the interaction between, and impacts of, humans with the geological environment. Also emphasized are the interconnections among the geosphere, hydrosphere, atmosphere, and biosphere. Appropriate for students in any major. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ERTH160

Oceanography

Units: 3

Introduction to oceanography and the processes that form, shape and change Earth's oceans. Appropriate for students in any major. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ERTH200

Geology of California

Units: 3

Introduction to the geology of California emphasizing tectonic processes, geologic structures, physiographic provinces, landforms, natural resources, geologic history, rocks and minerals, and the natural hazards of our state. Appropriate for students in any major. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: EARTH100 Physical Geology OR Advisory: EARTH120 Earth Sciences OR Advisory: EARTH21 Earth Sciences for Educators OR Advisory: GEOG101 Introduction to the Natural Environment OR Advisory: GEOG101H Honors Introduction to the Natural Environment

ERTH212

San Andreas Fault System Geology Field Study

Units: 1

Introductory exploration of the geology and tectonic history of the San Andreas Fault in California. Appropriate for students in any major. Mandatory orientation along with two, one-day field trips.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: None

ERTH214

Orange County Geology Field Study

Units: 1

Introductory exploration of the geology of Orange County, California. Included are its geologic history such as mountain building, volcanic activity, faulting, coastal processes, stratigraphy and mineral resources. Appropriate for students in any major. Mandatory orientation along with two, one-day field trips.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: None

ELECTRONICS TECHNOLOGY

ETEC110

DC Circuits

Units: 3

This course is an in-depth study of Direct Current (DC) electronic circuits. Students will learn how to interpret and create electrical schematics. Other topics include Ohm's Law, Kirchhoff's Laws, resistance, capacitance, and inductance. Lab activities will include the use of multimeters, power supplies, and oscilloscopes; building and analyzing common DC Circuits; and validating theoretical calculations by testing circuit performance.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 48 **Lab Hours:** 18

Requisites: None

ETEC120

AC Circuits

Units: 3

This course is an in-depth study of Alternating Current (AC) electrical circuits. This course focuses on the math describing AC circuits, specifically the relationships between impedance, resistance, and reactance. Students will use these concepts to anticipate power factors and learn how to mitigate large inductive loads. Students will design, analyze, build, and test resistance/conductance/capacitance (RLC) circuits, inductance motor drivers, and filter circuits for audio signals. Lab work will include validating theoretical calculations by building circuits and testing them for expected performance.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 48 **Lab Hours:** 18

Requisites: None

ETEC130

Programmable Logic Controllers

Units: 3

Students will learn how to connect Programmable Logic Controllers (PLCs), upload and backup programs, and obtain diagnostic data from operational PLCs. Students will interpret and draw ladder logic diagrams, and document and implement control processes using ladder logic programming on PLCs. Lab activities will include connecting various process sensors to PLC inputs as well as connecting relays to outputs to drive motor contactors, indicators, and handshaking.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 48 **Lab Hours:** 18

Requisites: Advisory: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better.

ETHNIC STUDIES

ETHN101

Introduction to Ethnic Studies

Units: 3

This introductory course will take an intersectional and interdisciplinary approach to the examination of the cultural, economic, educational, and political issues that impact the four historically racialized groups (Native Americans, African Americans, Asian Americans, and Latinx Americans) within the United States. This course will analyze how racial formations have been constructed and contested, as well as, provide theories and tools to understand and combat racism across multiple relations of power.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Anti-Requisite: SOC101 Introduction to Ethnic Studies

ETHN110

Introduction to Asian Pacific American Studies

Units: 3

This introductory course will take an intersectional and interdisciplinary approach to the examination of the cultural, economic, educational, and political issues that may impact Asian and Pacific Islander Americans. Topics that will be addressed include, but are not limited to, Asian Pacific American history, identity construction, gender, class, sexual orientation, religion, language, stereotypes, sovereignty, anti-Asian violence, generational status, immigration, labor, and social justice, and liberation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ETHN120

Introduction to African American Studies

Units: 3

This introductory course will take an intersectional and interdisciplinary approach to the examination of the cultural, economic, educational, and political issues that may impact African Americans. Topics that will be addressed include, but are not limited to, origins of African American/Africana Studies, African American history, gender, class, sexual orientation, religion, family dynamics, educational attainment, labor, empowerment, anti-racism, and liberation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ETHN130

Introduction to Chicano Studies

Units: 3

This introductory course will take an intersectional and interdisciplinary approach to the examination of the cultural, economic, educational, and political issues that may impact Chicanas/os/x/e. Topics that will be addressed include, but are not limited to, Chicano history, identity construction, gender, class, sexual orientation, religion, language, educational attainment, generational status, immigration, labor, decolonization, and liberation.

Former Title: CHST 101, Introduction To Chicano Studies (2020)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

ETHN140

Introduction to Native American Studies

Units: 3

This introductory course will take an intersectional and interdisciplinary approach to the examination of the cultural, economic, educational, and political issues that may impact Native Americans. Topics that will be addressed include, but are not limited to Native American history, languages, gender, sexual orientation, class, labor, health, land conflicts, sovereignty, stereotypes, anti-Indigenous violence, identity construction, tribal recognition, cultural permanence, decolonization, self-determination, and liberation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

FRENCH

FREN101

Elementary French 1

Units: 5

A college-level French course focusing on fundamentals of pronunciation, grammar; basic vocabulary, idioms, and simple conversation and composition, including supplementary cultural readings. French 101 is equivalent to two years of high school French.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: None

FREN102

Elementary French II

Units: 5

A college-level French course focusing on further training in pronunciation, more extensive vocabulary development, conversation, grammar, reading, and composition. French 102 is equivalent to the third year of high school French. Additional hours in the Modern Language Lab required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: Prerequisite: FREN101 Elementary French I

FREN194

Conversation and Composition I

Units: 3

Course emphasizes extensive practice in oral expression and listening comprehension in the context of French culture, daily life, and topics of current interest.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: FREN101 Elementary French I

FREN201

Intermediate French I

Units: 5

A college-level French class focusing on expansive review of usage and grammar, discussion in French of interpretive reading material, and conversation and composition.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: Prerequisite: FREN102 Elementary French II

FREN202

Intermediate French II

Units: 5

A college-level French class focusing on a specialized review of grammar and composition; discussion in French of history and culture based on literary materials.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None
Lecture Hours: 90 **Lab Hours:** 18
Requisites: Prerequisite: FREN201 Intermediate French I

GEMOLOGY

GEM011

Introductory Colored Stones

Units: 4
 Introduction to identification, appreciation, and evaluation of colored gemstones. Overview of the world colored-stone industry. Experience using gemological testing equipment and procedures to identify the most commonly seen varieties of natural and synthetic-fashioned gemstones.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: None

GEM012

Advanced Colored Stones

Units: 4
 Advanced identification, appreciation, and evaluation of colored gemstones. Overview of the world colored-stone industry. Further experience using gemological testing equipment to identify the most commonly seen varieties of both natural and synthetic-fashioned gemstones.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: Advisory: GEM011 Introductory Colored Stones

GEM015

Colored Stones and Diamond Lab

Units: 1
 Laboratory experience in testing and identification of colored gemstones and/or full grading of diamonds for clarity, color, cut and carat weight.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 0 **Lab Hours:** 54
Requisites: Advisory: Previous or concurrent enrollment in another Gemology course

GEM020

Diamonds

Units: 4
 Full range of diamond grading techniques, history, diamond substitutes, physical and optical properties, all types of synthetic, techniques of valuing/pricing, famous diamonds, detecting enhancements.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: None

GEM030

Antique and Period Jewelry

Units: 3
 The history, techniques, styles, and periods of antique and period jewelry. Identification of period pieces from Georgian to Retro, including authentic vs. reproductions. Includes types of metals and materials, stone cutting, setting techniques, and types of gemstones used.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

GEM050

Pearls

Units: 3
 Introduction to the history, appreciation, and evaluation of natural and cultured pearls, including an overview of the world pearl industry. Pearl identification and grading techniques covering the physical and optical properties for judging the luster, surface, shape, color, and size of the various types.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

GEOGRAPHY AND THE ENVIRONMENT

GEOG100

World Regional Geography

Units: 3
 The study of major world political and natural regions. The location of the regions on earth, the physical and cultural elements that lend the regions with their identities, and ways in which these elements related to the regions' inhabitants and economies.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

GEOG100H

Honors World Regional Geography

Units: 3
 Enriched and intensive study, including seminar approach with individual written and oral presentations of major world political and natural regions. The location of the regions on earth, the physical and cultural elements which provide the regions with their identity and ways in which these elements relate to the regions' inhabitants and economies.

Transferability: Transferable to both UC and CSU
Entrance Skills: A high school or college GPA of 3.0 or above
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

GEOG101

Introduction to the Natural Environment

Units: 3
 Introduction to the physical elements of geography: maps, earth/sun relationships, meteorology and climatology, natural vegetation, soils, and geomorphology. Former Title: Physical Geography (2021)

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

GEOG101H

Honors Introduction to the Natural Environment

Units: 3

Introduction to the physical elements of geography: maps, earth/sun relationships, meteorology and climatology, natural vegetation, soils, and geomorphology.

Former Title: Honors Physical Geography (2021)

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

GEOG101L

Introduction to the Natural Environment Laboratory

Units: 1

Laboratory exercises and experiments designed to explore and understand the primary areas of physical geography. Exercises and applications related to map scales and projections, stereoscopic, topographic and aerial photo interpretation, meteorological tools and models and weather prognostication, geomorphologic models and processes, and landform interpretation. Field trips may be required.

Former Title: Physical Geography Laboratory (2021)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: Prerequisite: GEOG101 Physical Geography OR Prerequisite: GEOG101H Honors Physical Geography

GEOG102

Cultural Geography

Units: 3

An introductory survey of the geography of culture, and the influences of the physical environment on culture, along with the impact of human activity on the environment, and the role of culture within societies and social groups. The course includes global patterns of population, migration, religion, language, agriculture, politics, customs, resources, and urban and rural settlement.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

GEOG102H

Honors Cultural Geography

Units: 3

An enriched and intensive study, including seminar approach with individual written and oral presentations on the geography of culture, and the influences of the physical environment on culture, along with the impact of human activity on the environment, and the role of culture within societies and social groups. The course includes global patterns of population, migration, religion, language, agriculture, politics, customs, resources, and urban and rural settlement.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

GEOG130

Introduction to Weather and Climate

Units: 3

This course examines Earth's weather and climate patterns from a geographic perspective. Students explore the basic principles of weather and climate as well as causes and effects. Emphasis is placed on understanding various elements and controls of weather and climate. Techniques and principles involved in interpreting weather data, weather charts and maps, and weather forecasting will also be

introduced. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

GEOG130H

Honors Introduction to Weather and Climate

Units: 3

Enriched and intensive study, including seminar approach with individual written and oral presentations on Earth's weather and climate patterns from a geographic perspective. Students explore the basic principles of weather and climate as well as causes and effects. Emphasis is placed on understanding various elements and controls of weather and climate. Techniques and principles involved in interpreting weather data, weather charts and maps and weather forecasting will also be introduced. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

GEOG140

California Geography

Units: 3

A thematic approach to California's geographical issues, processes and topics relevant to geography including climate, landforms, natural vegetation, water resources, cultural landscape, ethnic diversity, urban and agricultural regions, and the economy. This course explores the physical and human landscapes that have evolved as a result of the human-environment interface. Field trips may be required.

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

GEOG155

Introduction to Geographic Information Systems

Units: 3

This course introduces basic scientific principles of Geographic Information Systems (GIS) as they relate to working with data that have important spatial orientation and organization. Geographic concepts and theories are used to develop scientific methods for proper communication of the data and the solution of problems that have spatial relationships. The adaptability of GIS to a wide variety of applications useful for many disciplines is presented. The course covers basic concepts in mapping and orientation, the development of map scales and comparison of different coordinate systems and data error analysis.

Transferability: Transferable to both UC and CSU

Entrance Skills: Familiarity with PC and Windows operating environment

Limitations of Enrollment: None

Lecture Hours: 45 **Lab Hours:** 27

Requisites: Anti-Requisite: SURV155 Introduction to Geographic Information Systems

GEOG160

Regional Field Studies

Units: 1

This field studies course analyzes the cultural and physical geography of a region. Students will observe and interpret the physical and cultural processes of the region. Topographical maps will be utilized to interpret land use and terrain. Specific content will vary by geographic region. Field Trips are required.

Transferability: Transferable to CSU only

Entrance Skills: None

**KIN127B****Intermediate Yoga****Units:** 0.5-1

This intermediate level yoga class is an exercise program that emphasizes the practice of postures that strengthen the body, improve flexibility and create a feeling of well-being.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN127C****Advanced Yoga****Units:** 0.5-1

This advanced yoga class is an exercise program that emphasizes the practice of postures that strengthen the body, improve flexibility and create a feeling of well-being.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN128A****Basic Tai Chi****Units:** 1

This course is designed to give instruction in the ancient Chinese art of Tai Chi. Students will learn movement patterns designed to generate, circulate and harmonize internal energy flows for mental and physical health enhancement.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN140A****Basic Circuit Weight Training****Units:** 0.5-1

This course introduces the basic principles related to the acquisition of muscular strength and endurance. Students will explore training techniques through the use of body weight and light weight equipment. Instruction is provided in the areas of functional fitness and the physiological adaptation process that occurs as a result of circuit training.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN140B****Intermediate Circuit Weight Training****Units:** 0.5-1

This course is designed for students with prior resistance training experience. Principles and training techniques for the development of muscle tone, muscle strength, and muscular endurance will be taught, as well as the use of weight-bearing exercises to promote cardiovascular health benefits. Students will utilize weights, variable resistance machines, and other resistance equipment to advance their total body fitness.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN140C****Advanced Circuit Weight Training****Units:** 0.5-1

This course is designed for students possessing advanced knowledge and experience with resistance training exercises. Students will utilize weights, variable resistance machines, and a wide variety of weight-bearing activities and equipment to perform high intensity exercise. Muscular development will be achieved through implementation of a resistance training program built upon advanced modes of training and the principles of exercise physiology.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN146B****Intermediate Strength Training****Units:** 0.5-1

This high intensity strength training course is designed for students who possess significant experience in the use of free weight equipment. Students will apply proper weight lifting techniques and training periodization to develop muscular strength and power through the use of dumbbells and Olympic bar weights. Instruction is provided in advanced strength training theory.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN146C****Advanced Strength Training****Units:** 0.5-1

This course is designed for students with advanced knowledge and extensive experience in free weight strength training. Instruction will focus on training methods applicable to multi-joint powerlifting, Olympic lifting, and sport strength and conditioning. Students will develop individualized workout programs that emphasize the development of muscular strength, power, agility, and explosiveness.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None

KIN160A

Basic Basketball

Units: 0.5-I

To introduce and establish basketball fundamentals with a view to encouraging life-time fitness.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 30-54

Requisites: None

KIN160B

Intermediate Basketball

Units: 0.5-I

Intermediate level course to further develop passing, dribbling and various types of shooting. Emphasis will be placed on small group defense, small group offense, rules, special situations and strategies.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 30-54

Requisites: None

KIN163A

Basic Indoor Soccer

Units: 0.5-I

A basic level soccer course to develop fundamental soccer skills in an indoor facility.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 30-54

Requisites: None

KIN166A

Basic Flag Football

Units: I

An introductory course to establish basic flag football fundamentals and rules with a view to encouraging life-time fitness.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN168A

Basic Volleyball

Units: 0.5-I

This course introduces the fundamental strategies and skills of volleyball, including setting, passing, spiking, blocking and serving, as well as the beginning concepts of team and tournament play.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 30-54

Requisites: None

KIN168B

Intermediate Volleyball

Units: 0.5-I

An intermediate volleyball class to improve volleyball skills, in the areas of passing, setting, hitting, serving and blocking, as well as basic offensive and defensive sys-

tems of play. The course includes discussions of rules and strategy.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 30-54

Requisites: None

KIN170A

Basic Golf

Units: I

This course provides golf instruction and practice. Emphasis is placed on the fundamentals of the grip, stance, alignment, and the techniques and practice of the short game strokes of pitching, chipping and putting. Topics include the rules, terminology, safety procedures, values, etiquette, equipment, and history of golf. This course is designed for all students interested in playing golf as part of a fitness lifestyle or kinesiology majors.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN185A

Basic Swimming

Units: 0.5-I

Introductory basic swimming skills, with an emphasis on water safety.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN185B

Intermediate Swimming

Units: 0.5-I

Intermediate swim skills, emphasizing the four competitive swim strokes. Speed and endurance swimming will also be emphasized in a training environment.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN185C

Advanced Swimming

Units: 0.5-I

Advanced swim skills developed with emphasis on the five competitive swim strokes. Advanced speed and endurance training will be emphasized in a training environment.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN200

Conditioning for Athletes-Men

Units: I

An instructor supervised exercise program designed for athletes who participate in men's sports. Emphasis will be on the development of speed, endurance, flexibility, and strength.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN201

Conditioning for Athletes-Co-Ed

Units: 1

An instructor supervised exercise program designed for athletes who participate in sports. Emphasis will be on the development of speed, endurance, flexibility, and strength.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN202

Conditioning for Athletes-Women

Units: 1

An instructor supervised exercise program designed for athletes who participate in women's sports. Emphasis will be on the development of speed, endurance, flexibility, and strength.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN203

Speed and Agility-Men

Units: 1

This class is designed for male athletes to increase running speed. This class includes instruction on linear speed, non-linear speed, and jumping ability using state of the art plyometric training and speed specific training tools.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN204

Speed and Agility-Women

Units: 1

This class is designed for female athletes to increase running speed. This class includes instruction on linear speed, non-linear speed, and jumping ability using state of the art plyometric training and speed specific training tools.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN240

Basketball Team- Men

Units: 3

A high-level competitive program in Basketball for male athletes with exceptional athletic talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to competing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN241

Basketball Team- Women

Units: 3

A high-level competitive program in Basketball for female athletes with exceptional athletic talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to competing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN242

Basketball Team Off-Season Men

Units: 0.5-1

A high-level, competitive practice and skills program in basketball for male students with exceptional athletic talent.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN244

Theory of Basketball

Units: 2

A general overview of rules, regulations, strategies, techniques, skill evaluation, mental preparation, conditioning, and history of the game in order to understand, play, and enjoy basketball.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

KIN245

Volleyball Team- Men

Units: 3

A high-level competitive program in Volleyball for male athletes with exceptional athletic talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to competing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN246

Volleyball Team- Women

Units: 3

A high-level competitive program in Volleyball for female athletes with exceptional athletic talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to competing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN247

Volleyball Team Off-Season - Men

Units: 0.5-1

A high-level, competitive practice and skills program in volleyball for male students with exceptional athletic talent.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN248

Volleyball Team Off-Season - Women

Units: 0.5-1

A high-level, competitive practice and skills program in volleyball for female students with exceptional athletic talent.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN249

Beach Volleyball Team - Women

Units: 3

A high-level competitive intercollegiate Beach Volleyball program for female athletes with exceptional talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to competing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN255

Cross Country Team-Men

Units: 3

A high-level, competitive program for male students with exceptional cross country talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to participation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN256

Cross Country Team-Women

Units: 3

A high-level, competitive program for female students with exceptional cross country talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to participation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN257

Cross Country Team-Off Season

Units: 0.5-1

This course teaches the fundamental principles and techniques of efficient, high intensity distance running. The course helps develop and improve physical fitness and performance in terms of both running endurance and running speed. Optional field trips may be offered.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN270

Soccer Team- Men

Units: 3

A high-level, competitive program in soccer for male athletes with exceptional athletic talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to participation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN271

Soccer Team- Women

Units: 3

A high-level, competitive program in soccer for female athletes with exceptional athletic talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to participation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 162

Requisites: None

KIN272

Soccer Team Off Season-Men

Units: 0.5-1

A high-level, competitive practice and skills program in soccer for male students with exceptional athletic talent.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

KIN273

Soccer Team Off Season-Women

Units: 0.5-1

A high-level, competitive practice and skills program in soccer for female students with exceptional athletic talent.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

**KIN274****Theory of Soccer****Units:** 2

A general overview of the history of the game, its rules, tactics, techniques, conditioning and overall preparation to understand, play and enjoy soccer.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 36 **Lab Hours:** 0**Requisites:** None**KIN281****Softball Team-Women****Units:** 3

A high-level, competitive program in softball for female student athletes with exceptional athletic talent. Students must meet California Community College Athletic Association (CCCCAA) eligibility requirements and pass a health screening prior to participation.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 162**Requisites:** None**KIN283****Softball Team Off Season-Women****Units:** 0.5-1

Basic skills and fundamentals of catching, throwing, pitching, hitting and base running will be covered. Offensive and defensive techniques and strategies will be practiced.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 0 **Lab Hours:** 54**Requisites:** None**KIN284****Theory of Softball****Units:** 2

A general overview of rules, regulations, strategies, mental preparation, skill evaluation and the history of the sport of softball.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 36 **Lab Hours:** 0**Requisites:** None**MATHEMATICS****MATH080A****Integrated Mathematics I****Units:** 3

The fundamental purpose of Integrated Math I is to formalize and extend the mathematics that students learned in prior mathematics courses. The critical areas, organized into units, deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomena, and in part by applying linear models to data that exhibit a linear trend. Integrated Math I uses properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge from prior grades. The final unit in the course ties together the algebraic and geometric ideas studied. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. This course is intended for dual enrollment students seeking to enhance

their preparation for college mathematics.

Transferability: Not transferable**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: Recommendation from qualifying profile from the Mathematics placement process**MATH080B****Integrated Mathematics II****Units:** 3

Integrated Mathematics II focuses on quadratic expressions, equations, and functions, comparing them to linear and exponential relationships from Mathematics I across six critical areas. The extension of rational numbers is needed, introducing real and complex numbers for solving all quadratic equations. The course explores the connection between probability and data through conditional probability and counting methods. The study of similarity leads to understanding right triangle trigonometry, connecting to quadratics through Pythagorean relationships. Circles, with quadratic algebraic representations, complete the course, emphasizing the application of Mathematical Practice Standards for a coherent and logical understanding of mathematics. This course is intended for dual enrollment students seeking to enhance their preparation for college mathematics.

Transferability: Not transferable**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.**MATH080C****Integrated Mathematics III****Units:** 5

In Integrated Math III, students integrate and apply the mathematics they have learned from their earlier courses. This course includes standards from the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability. The Standards for Mathematical Practice complement the content standards so that students increasingly engage with the subject matter as they grow in mathematical maturity and expertise. This course is intended for dual enrollment students seeking to enhance their preparation for college mathematics.

Transferability: Not transferable**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 90 **Lab Hours:** 0**Requisites:** Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.**MATH105****Mathematics for Liberal Arts Students****Units:** 4

An overview of mathematics for the liberal arts student. Topics include problem-solving, financial management, probability, statistics, and selected other topics such as set theory, geometry, logic, mathematical modeling, and the history of mathematics. Includes integrated review.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 72 **Lab Hours:** 0**Requisites:** Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Prerequisite: Qualifying profile from the mathematics placement process.

MATH140

College Algebra

Units: 4

Survey of advanced topics in algebra: equations, inequalities and functions involving polynomials, rationals, exponentials, and logarithms with applications and graphing; sequences and series.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

MATH150

Calculus for Biological, Management, and Social Sciences

Units: 5

Single and multi-variable calculus including limits, derivatives, integrals, exponentials and logarithmic functions, and partial derivatives. Applications are drawn from Biology, Social Science, and Business.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 0

Requisites: Prerequisite: MATH140 College Algebra OR Prerequisite: qualifying profile from the Mathematics placement process

MATH150S

Calculus for Biological, Management, and Social Sciences with Support

Units: 5.5

Single and multivariable calculus, including limits, derivatives, integrals, exponentials and logarithmic functions, and partial derivatives. Applications are drawn from Biology, Social Science, and Business. This course includes support for the concepts and skills introduced in Calculus for Biological, Management, and Social Sciences.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 36

Requisites: Prerequisite: MATH140 College Algebra OR Prerequisite: qualifying profile from the Mathematics placement process

MATH171

Precalculus and Trigonometry

Units: 5

Study of polynomial, rational, absolute value, exponential, logarithmic, and trigonometric functions, their graphs and applications. Use of trigonometric identities. An introduction to polar coordinates, sequences, series, and analytic geometry. Preparation for the Calculus sequence.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 0

Requisites: Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

MATH180

Single Variable Calculus I

Units: 4

Limits and continuity, derivatives and integrals of algebraic, trigonometric, and other transcendental functions. Applications including extrema tests, related rates and areas.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: MATH170 Pre-Calculus Mathematics OR Prerequisite: MATH171 Precalculus and Trigonometry OR Prerequisite: Qualifying profile from the mathematics placement process

MATH180H

Honors Single Variable Calculus I

Units: 4

An in-depth honors level study of limits and continuity, derivatives and integrals of algebraic, trigonometric, and transcendental functions with the emphasis on theory and challenging problems. Applications include extrema tests, related rates and areas.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: MATH170 Pre-Calculus Mathematics OR Prerequisite: MATH171 Precalculus and Trigonometry OR Prerequisite: Qualifying profile from the mathematics placement process

MATH180S

Single Variable Calculus I with Integrated Support

Units: 4.5

Limits and continuity, derivatives and integrals of algebraic, trigonometric, and other transcendental functions. Applications including extrema tests, related rates and areas. Includes integrated review of core mathematical skills needed to be successful in Calculus I. Intended for students that prefer to supplement learning with prerequisite skills for Calculus I.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 36

Requisites: Prerequisite: MATH171 Precalculus and Trigonometry OR Prerequisite: Qualifying profile from the mathematics placement process

MATH185

Single Variable Calculus II

Units: 4

Applications of integrals, including volumes, work, arc length, and surface area. Integration techniques, differential equations, conics, parametric equations, polar coordinates, improper integrals, sequences and infinite series.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: MATH180 Single Variable Calculus I OR Prerequisite: MATH180H Honors Single Variable Calculus I

**MATH199****Mathematics Independent Study****Units:** 1

Students can increase their knowledge in particular areas of mathematics through individual study and/or in small groups under the direction of a mathematics professor. Science, Technology, Engineering and Mathematics (STEM) majors and future teachers are encouraged to enroll in independent study for mathematics. Divisional approval required.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Enrollment in at least one other class at either Santa Ana College or Santiago Canyon College and must show evidence of competence in their academic major and the area in which they propose to do independent study.

Lecture Hours: 18 **Lab Hours:** 0

Requisites: Prerequisite: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

MATH203**Fundamental Concepts of Elementary Mathematics****Units:** 4

This course emphasizes problem solving techniques and mathematical structure associated with numeration, set theory, elementary number theory, the real number system, ratio, proportion and patterns. Designed for prospective elementary teachers, this course includes activity-based explorations implementing the common core state curriculum standards.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 18

Requisites: None

MATH219**Statistics and Probability****Units:** 4

Introduction course in statistical reasoning. Includes descriptive statistics, graphical displays of data, probability and sampling distributions, confidence intervals, hypothesis testing, regression, contingency tables, ANOVA, and non-parametric statistics. Includes the use of technology.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

MATH219H**Honors Statistics and Probability****Units:** 4

This honors course is an enhanced format for an introduction course in statistics and probability by using a seminar approach, applying statistical software and presenting individual research. This course includes descriptive statistics, graphical displays of data, probability and sampling distributions, confidence intervals, hypothesis testing, regression, contingency tables, ANOVA and non-parametric statistics, with applications designed around the individual interests of students. Includes the use of technology.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

MATH219S**Statistics and Probability with Support****Units:** 4.5

First course in statistical reasoning. Includes descriptive statistics, graphical displays of data, probability and sampling distributions, confidence intervals, hypothesis testing, regression, contingency tables, ANOVA, and non-parametric statistics, and the use of technology. Includes integrated review of core mathematical skills needed to be successful in statistics and probability. Intended for students who prefer to supplement learning with prerequisite skills for statistics and probability. Previous Title: Math 220- Statistics and Probability with Integrated Review (Fall 2024)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 36

Requisites: None

MATH225**Introduction to Data Science****Units:** 4

An introduction to foundations of data science. Applications include real data from a wide range of fields. Students will use computer software for statistical analysis.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: Qualifying profile from the Mathematics placement process or Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better.

MATH230**Statistical Computing and Exploratory Data Analysis****Units:** 4

Introduces key concepts in statistical computing. Techniques such as exploratory data analysis, data visualization, simulation, and optimization methods, are presented in the context of data analysis within a statistical computing environment.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: MATH225 Introduction to Data Science

MATH270**Discrete Mathematics****Units:** 3

This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics include: Functions, Relations and Sets; Basic Logic; Proof Techniques; Basics of Counting, Graphs and Trees; and Discrete Probability. This course is compliant with the standards of the Association for Computing Machinery (ACM).

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: CMPR122 Programming Concepts and Methodology I AND Anti-Requisite: CMPR149 Discrete Structures for Computer Science

MATH280

Intermediate Calculus

Units: 4

Vectors and three-dimensional space, functions of several variables, partial derivatives and multiple integrals. Vector calculus, Green's Theorem, Stoke's Theorem, and the Divergence Theorem.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: MATH185 Single Variable Calculus II

MATH287

Introduction to Linear Algebra and Differential Equations

Units: 5

Topics include matrices, determinants, vector spaces, linear systems of equations, linear product spaces, first and second-order differential equations, systems of differential equations, and the Laplace transform.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 0

Requisites: Prerequisite: MATH185 Single Variable Calculus II

MATH290

Linear Algebra

Units: 3

Systems of linear equations, matrix algebra, matrix theory, determinants, vector spaces, inner products, orthogonality, eigenvalues, eigenvectors, linear transformations, applications, and proofs of elementary properties of linear algebra.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: MATH185 Single Variable Calculus II AND Advisory: MATH280 Intermediate Calculus or concurrent enrollment

MATH295

Differential Equations

Units: 3

Introduction to ordinary differential equations including both quantitative and qualitative methods as well as applications from a variety of disciplines. Discusses both theoretical and practical aspects of solution techniques, including nth order linear equations, series solutions, Laplace Transform, and systems of first order linear equations.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: MATH185 Single Variable Calculus II

MATHN40

College Algebra Support Course

Units: 0.5

Review of algebraic and arithmetic techniques required in Math 140. Practice reading and identifying important information for solving application problems, and implementing study skills to promote success in Math 140. This course is designed to provide just-in-time remediation for students who did not place directly into Math 140, or for students that would like to supplement their learning with prerequisite skills needed for Math 140.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 36

Requisites: Co-Requisite: MATH140 College Algebra

MATHN41

Precalculus Support Course

Units: 0.5

A review of mathematics needed to be successful in Precalculus. Topics are drawn from Algebra and Trigonometry. Intended for students who did not directly place into Math 170, Math 171, or for students who would like to supplement their learning with prerequisite skills.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 36

Requisites: Co-Requisite: MATH170 Pre-Calculus Mathematics OR Co-Requisite: MATH171 Precalculus and Trigonometry OR Co-Requisite: MATH180 Single Variable Calculus I OR Co-Requisite: MATH180H Honors Single Variable Calculus I

MATHN42

Single Variable Calculus I Support Course

Units: 0.5

This course offers support for the concepts and skills introduced in first-semester calculus. The course provides additional instruction in the algebra and trigonometry necessary to complete calculus problems, in addition to providing support for calculus topics like calculating limits, finding derivatives, and understanding antiderivatives.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 36

Requisites: Co-Requisite: MATH180 Single Variable Calculus I OR Co-Requisite: MATH180H Honors Single Variable Calculus I

MATHN44

Calculus for Biological, Management, and Social Sciences Support Course

Units: 0.5

This course offers support for the concepts and skills introduced in Calculus for Biological, Management, and Social Sciences. The course provides additional instruction in algebra topics necessary to complete calculus problems in addition to providing support for calculus topics like calculating limits, finding derivatives, and understanding antiderivatives.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 36

Requisites: Co-Requisite: MATH150 Calculus for Biological, Management, and Social Sciences

MANAGEMENT

MGMT120

Principles of Management

Units: 3

Principles, methods, and procedures essential to the successful management of human and financial resources. Planning, decision making, staffing, directing, motivating, leading, communicating, controlling, and the application of managerial skills.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: MGMT120 Principles of Management

MGMT121

Human Relations and Organizational Behavior

Units: 3

The role of the manager and management's relationship to employees. Includes the application of motivational theories, communications, leadership, and organizational structure.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: MGMT121 Human Relations and Organizational Behavior

MGMT122

Business Communications

Units: 3

Professional and conversational oral and written communication skills used in business. Emphasis on writing and speaking skills, solutions to communication problems, ethical issues, and techniques for communicating successfully in today's business environment. Designed for professionals seeking career advancement. Not intended for students seeking an AST in Business Administration.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MGMT123

Supervision

Units: 3

A practical, skill-building approach to learning and understanding first-line management and supervision. Designed to provide beginning and experienced supervisors with a hands-on situational approach using supervisory skills.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MGMT135

Human Resource Management

Units: 3

Introductory course covers the goals, activities, and challenges of human resources. Includes equal employment opportunity and diversity, recruitment and selection, leadership and motivation, training and development, compensation, employee and labor/management relations.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MARKETING

MKTG112

Principles of Advertising

Units: 3

A study of the impact of advertising on the American economy and how it fits within the broader disciplines of business and marketing and how it relates to journalism and the field of communication and the use of persuasive techniques with products, services, or ideas. Discover what advertising people do and how they do it, the artistic creativity and technical expertise required and career opportunities within the field.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MKTG113

Principles of Marketing

Units: 3

An introduction to modern marketing concepts and issues in an organization as well as the effects of marketing on society. Content includes an overview of marketing in the global business environment, buyer behavior, target marketing, and the marketing mix.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MKTG114

Professional Selling

Units: 3

An introductory course covering sales presentations, communication styles, techniques, and practices. Includes using sales techniques during job interviews and other aspects of "Selling Yourself" for career enhancement. Covers objectives in selling from the perspective of the consumer, business, and society.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MKTG115

Consumer Behavior

Units: 3

The investigation and analysis of why consumers select, purchase, use, and dispose of goods and services to satisfy their personal and business needs.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MKTG135

Web Marketing and Promotion

Units: 3

How to include the Internet in a business marketing plan. Covers advertising and promoting products, services, or ideas on the Internet, audience identification,

search engine strategies, and other basics of increasing business effectiveness with Internet usage.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MKTG150

Introduction to Social Media

Units: 3

An introduction to social media history, marketing, and channels. Students will study, plan, organize, and create digital content.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MKTG151

Social Media Marketing

Units: 3

Evaluate the main social platforms used for digital marketing. Demonstrate an understanding of user needs, goals, and success metrics. Examine how marketers incorporate effective social media content generated by the brand, influencers, or users. Assess the role of social media agencies to decide when to outsource media campaigns.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MKTG172

Small Business Marketing and Advertising

Units: 3

Techniques for small business marketing including planning, customer research, advertising, media selection, budgeting and scheduling, and the evaluation of marketing effectiveness.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MUSIC

MUS061

Basic Piano Skills 1

Units: 1

Group instruction for beginners emphasizing note reading, basic keyboard skills, and sight reading. Practice outside of class required. Practice pianos available on campus.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: None

MUS101

Music Appreciation

Units: 3

Designed to increase awareness and appreciation of music from the European classical tradition in relation to general culture and history. Develops basic

understanding of musical elements and deepens students' experience of music. Recommended for non music majors. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MUS101H

Honors Music Appreciation

Units: 3

An enriched approach designed for honors students. The European classical music tradition through study of musical elements, stylistic features, culture, and history. Readings, guided listening assignments, required concert attendance, and special projects. Recommended for non-music majors. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MUS102

World Music

Units: 3

Music from the Far East, Southeast Asia, Africa, the Middle East, Europe, and the Americas. Students are guided to enjoy and to understand music from diverse cultures. Investigation of the interconnections of cultural aesthetics and musical styles. Concert attendance and assigned listening required. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MUS103

Jazz in America

Units: 3

A historical survey of the development and evolution of jazz in America from its earliest roots in African and European music. The study will also include the social and economic conditions which influenced this art form. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MUS104

Rock Music History and Appreciation

Units: 3

Historical survey of rock music from its beginning in the '50s to the present. All Rock and Pop styles will be discussed. Personalities and musical styles will be related to the sociology of the time period being studied. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

MUS121

Beginning Voice

Units: 1

Group instruction designed to develop basic principles of solo and choral voice production, diction, breath control, and posture. Practice outside of class

required. Recommended for non-music majors and music majors not studying privately. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: None

MUS122

Intermediate Voice

Units: 1

Group instruction designed to develop intermediate principles of solo and choral voice production, diction, breath control and posture. Vocal analysis of each student emphasized. Practice outside of class required. Song literature matched to student level II. Designed for both music majors and non music majors. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: Prerequisite: MUS121 Beginning Voice

MUS123

Advanced Voice

Units: 1

Advanced principles of solo and choral vocal production. Vocal exercises and song literature in English and other languages included. Practice outside of class required. Recommended for non music majors and for music majors not studying privately. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: Prerequisite: MUS122 Intermediate Voice

MUS124

Advanced Vocal Production and Repertoire

Units: 1

Continuation of group instruction for students who have completed three semesters of voice and can perform at an advanced level. Further develops advanced vocal and choral production in a variety of styles and techniques. Instruction includes advanced English and foreign language song literature. Practice outside of class required. Designed for both music majors and non music majors. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: Prerequisite: MUS123 Advanced Voice

MUS126

Collegiate Choir

Units: 1

Mixed chorus for general interest singers. Rehearses and performs a variety of music, including classical, folk tunes, and songs from Broadway musicals. Each semester requires performance of a variety of new repertoire. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: Students should be able to repeat musical phrases given to him/her from musical instrument or from vocal singing

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

MUS127

Concert Chorale

Units: 1

Rehearsal and performance of standard and current choral classic repertoire (Renaissance, Baroque, Classical, Romantic, and Contemporary). Designed to train students in mixed ensemble singing. Public performance emphasized. Each semester requires performance of a variety of new and different repertoire. Designed for students who have basic singing skills. Field trips required.

Transferability: Transferable to both UC and CSU

Entrance Skills: Some music-reading ability is recommended and students should have one or two semesters of vocal technique class (Music 121, 122 or 123).

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

MUS128

Masterworks Chorale

Units: 1

Rehearsal and performance of standard and current masterworks repertoire. Designed to train students in oratorio ensemble singing. Public performance emphasized. Each semester requires performance of a variety of new and different repertoire. Designed for students who have basic singing skills. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: Some music-reading ability is recommended and students should have one or two semesters of vocal technique class (Music 121, 122 or 123).

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

MUS129

Chamber Choir

Units: 1

Rehearsal and performance of chamber choir repertoire from various historical periods. Course designed for festival and concert performance. Each semester requires the performance of new repertoire. Field trips are required.

Transferability: Transferable to both UC and CSU

Entrance Skills: Some music-reading ability is recommended and students should have one or two semesters of vocal technique class (Music 121, 122 or 123).

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 72

Requisites: None

MUS161

Class Piano I

Units: 1

Group instruction for beginners emphasizing note reading, basic keyboard skills, chord patterns, and sight-reading. Practice outside of class required. Practice pianos available on campus. Required for music majors whose principal instrument is not piano.

Transferability: Transferable to both UC and CSU

Entrance Skills: Students should have access to a piano or a keyboard to practice his/her assignments outside of class

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: None

MUS162

Class Piano II

Units: 1

Group instruction for those possessing basic piano skills but still classified as beginners. Emphasizes note reading, keyboard technique, chord patterns, sight-reading. Daily practice required. Practice pianos available on campus. Required for music majors whose principal instrument is not piano.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: Advisory: MUS061 Basic Piano Skills I OR Advisory: MUS161 Class Piano I

MUS163

Class Piano III

Units: 1

Instruction for students who have completed two semesters of piano and are ready for the intermediate level. Emphasizes building technique, sight-reading, and performance. Daily practice required. Practice pianos available on campus.

Transferability: Transferable to both UC and CSU

Entrance Skills: Students should have access to a piano or a keyboard to practice his/her assignments outside of class

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: Advisory: MUS162 Class Piano II

MUS164A

Intermediate Piano Repertoire I

Units: 1

Instruction for intermediate level students. Emphasizes solo material, technique, sight-reading, interpretation, and performance. Daily practice required. Practice pianos available on campus.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: Advisory: MUS163 Class Piano III

MUS164B

Intermediate Piano Repertoire II

Units: 1

Continuation of instruction for advanced intermediate level students. Emphasizes solo material, technique, sight-reading, and performance. Daily practice required. Practice pianos available on campus.

Transferability: Transferable to both UC and CSU

Entrance Skills: Students should have access to a piano or a keyboard to practice his/her assignments outside of class

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: Advisory: MUS164A Intermediate Piano Repertoire I

MUS182

Musical Ensemble

Units: 1

Study and performance of standard and contemporary music literature. Public concerts on campus and in community each semester. Concert tour/performance field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Audition

Lecture Hours: 0 **Lab Hours:** 54

Requisites: None

MUS185

Beginning Classical Guitar

Units: 1

Basic instruction in guitar technique and music nomenclature as related to performance of entry level solo and ensemble repertoire. Student must furnish nylon string guitar.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: None

MUS186

Intermediate Classical Guitar

Units: 1

Intermediate instruction in solo, duo and trio repertoire. Emphasizes technique studies and performance styles of 18th century music. Student must provide nylon string guitar.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 18

Requisites: Advisory: MUS185 Beginning Classical Guitar

MUS187

Advanced Classical Guitar

Units: 1

Instruction at the advanced level in solo, duo and trio repertoire. Emphasizes advanced technical studies and etudes and performance styles of 16th through 20th century music. Student must provide nylon string guitar.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: Advisory: MUS186 Intermediate Classical Guitar

MUS188

Advanced Classical Guitar Technique and Repertoire

Units: 1

Further develops advanced technique and solo performance through study of Renaissance, Baroque, and Classic ornamentation and various performance styles of 16th through 20th century music. Student must provide nylon string guitar.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 9 **Lab Hours:** 27

Requisites: Advisory: MUS187 Advanced Classical Guitar

NUTRITION AND FOOD

NUTR115

Nutrition

Units: 3

A study of scientific concepts of nutrition relating to the functioning of nutrients in the basic life process. Emphasis is on individual needs, food sources of nutrients, current nutrition issues and diet analysis.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ENGL100 Freshman Composition with Integrated Support OR Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H

Honors Freshman Composition

NUTR120

Food and Culture

Units: 3

This course examines the regional, ethnic, cultural, religious, historical, and social influences on food patterns, cuisines, and health and the perspective of traditional and contemporary food customs within cultures. Major emphasis on United States cultures, including Native American, Hispanic American, African American, and Asian American. Opportunities to explore personal cultural food experiences.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PUBLIC WORKS

PBLC050

Fundamentals of Public Works

Units: 3

Provides basic knowledge of Public Works, including history and development, department functions, careers opportunities and future trends. Emphasis is placed on math problems, communication and computer application. Field trips may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC051

Infrastructure Construction and Maintenance

Units: 3

Focuses on the infrastructure construction and maintenance processes of public facilities including equipment and material procurement, scheduling, financing, project management, and permitting. Field trips may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC061

Plan Interpretation and Cost Estimating

Units: 3

Reading and interpreting construction plans related to public works infrastructure projects, including roadway, water, sewer, storm drain and traffic improvements. Related concepts include basic mathematical formulas and conversions, construction materials and equipment, surveying, project management, contract documents, costing, quantifying and computer applications.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC063

Construction Materials and Testing

Units: 3

Provides basic knowledge properties of methods of use and testing procedures of construction materials used in Public Works. Common materials of construction include portland cement concrete, masonry, timber, iron, steel, plastic, soil and bituminous materials. Optional field trip may be offered. Field trips may be

required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC067

Environmental Management

Units: 3

Provides an overview of the processes and requirements to obtain environmental clearance for Public Works construction projects, including other non-environmental related permits. Emphasis is placed on studies as they relate to impacts and mitigations. Field trips may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC068

Fundamentals of Storm Water Management

Units: 3

Provides basic knowledge of regulatory storm water discharge permits administered by Regional Water Quality Control Board. Emphasis is placed on permit compliance requirements for contractors, business owners, residents and government agencies. Field trips may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC069

Green Infrastructure Construction

Units: 3

Presents practice of alternative methods for stormwater management. Practices to maintain healthy waters, provide environmental benefits and support sustainable communities while providing flood mitigation, energy use reduction and air quality management. Field trips may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC070

Construction Inspection

Units: 3

Certification focuses on inspection techniques and procedures for examining materials and evaluating methods used in Public Works construction projects. Emphasis is placed on evasive compliance with contract documents. Field trips may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC074

Contract Administration

Units: 3

Presents techniques, methods and processes used to manage Public Works con-

struction projects. Emphasis placed on planning, scheduling, execution, controlling and closure, and evaluation of extra work, claims, disputed work and project documentation. Field trips may be required.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PBLC080

Principles of Project Management

Units: 3

Utilizing project planning tools and techniques, learn how to define, plan, execute, and deliver projects of all types and sizes. Emphasizes practical application using case studies to organize, schedule, and manage projects effectively. Industry guest speakers included.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: BUS090 Principles of Project Management

PBLC084

Code Enforcement Officer Safety

Units: 1

This 40-hour certification course is designed to provide a minimal level of training in municipality officer safety. The course has been developed for anyone who has enforcement authority in land-use, zoning, law, health, building and safety regulations and inspections. Course topics include, a review of, Code Enforcement Officer Senate Bill 296, Code Enforcement Officer Safety and identifying and recommendations in developing appropriate safety standards for the profession. Students will be able to identifying threats and risk, hazardous situations, discussion of case law, dangerous verbal and non-verbal behaviors.

Transferability: Not transferable

Cooperative Work Experience Education

Units: 1

This course will provide students majoring in the Public Works the opportunity to apply knowledge and skills gained from college courses in a professional work setting. Students must be enrolled in a minimum of six Public Works units. Job site experience will train the student in additional job skills that will transfer classroom learning to the workplace. Credit may be accrued at the rate of one (1) to four (4) units per semester for a maximum of sixteen (16) units. Additionally, students must work 75 paid hours or 60 non-paid hours per unit earned. Open Entry/Open Exit

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 0 **Lab Hours:** 60

Requisites: Co-Requisite: Six (6) units in Public Works courses.

PHILOSOPHY

PHIL099

Humanities: What, Why & How to Succeed

Units: 1

An introduction to the general concept of the humanities and its various disciplines: history; philosophy; religion; literature; the arts, as well as how they interrelate. Students will develop critical thinking, speaking, and writing skills through presentations, discussions, and both informal and formal compositions. Students will gain academic support and acquire skills and strategies that apply to disciplines within the Humanities Guided Pathway.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: Anti-Requisite: HIST099 Humanities: What, Why & How to Succeed

PHIL106

Introduction to Philosophy

Units: 3

A survey of historical and contemporary ideas on ways to have to live the good life.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PHIL106H

Honors Introduction to Philosophy

Units: 3

An enriched approach designed for honors students in a seminar setting. A survey of historical and contemporary ideas on how to live the good life.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PHIL108

Ethics

Units: 3

Introduction to key historical and modern theories of philosophical ethics and the application of these theories to ethical issues facing society today. Assists in clarifying our thinking about morality/ethics. The course increases awareness of values in personal and contemporary issues.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PHIL110

Critical Thinking

Units: 4

College level critical thinking, reading and composition. Promotes rational self awareness, independent thinking, and improved academic expression. Examines philosophical methods of reasoning and composition, and the uses of informal logic and criticism in personal life, college, work, and democratic society.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

PHIL111

Introductory Logic

Units: 4

Beginning course in formal and applied logic. Covers cognitive language, formal argument, proof, basic propositional and predicate logic, and philosophy of logic. Emphasizes active student involvement and practical application to college life.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

PHIL112

World Religions

Units: 3

A philosophical overview of the world's great religions. Includes historical origin and growth of each religion, major doctrines, and influence. Religions dealt with include Primitive, Hinduism, Jainism, Buddhism, Taoism, Confucianism, Judaism, Christianity and Islam.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PHIL115

Philosophy of Religion

Units: 3

An introduction to the philosophical analysis of religious beliefs and concepts, including the nature of religion, the nature and existence of some kind of ultimate reality, the problem of evil, the meaning of religious language, the authenticity of religious experiences, the relation between religion and ethics, the relation between religion and science, and religious diversity.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PHIL118

History of Philosophy

Units: 3

An introduction to philosophy from a historical perspective: getting acquainted with the thoughts of the world's great philosophers. Provides a survey of the dominant philosophies of the ancient, medieval, and modern worlds.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PHIL120

Introduction to Social and Political Philosophy

Units: 3

A critical examination of rights theory, liberty, justice, individualism, community, state power, political authority, natural law, property, social contract theory, ideology, obedience, alienation, and various forms of social order (e.g., democracy, totalitarianism, theocracy, socialism) from the perspective of social and political philosophy, including multi-cultural and feminist viewpoints and critiques.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PHYSICS

PHYS100

Conceptual Physics

Units: 4

A conceptual introduction to physics. Topics include: mechanics, fluids, thermodynamics, sound, light, electricity, magnetism, and modern physics. Recommended for all students interested in a conceptual approach to physics or students planning to take more advanced courses in physics.

Transferability: Transferable to both UC and CSU

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: None

PHYS150A Introductory Physics I

Units: 4
 A trigonometry-based physics course. Topics include: mechanics, thermodynamics, fluids, oscillatory motion, and sound. Students that have successfully completed Physics 210 or Physics 279 may not enroll in Physics 150A.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: Prerequisite: MATH171 Precalculus and Trigonometry

PHYS150AC Introductory Physics I - Calculus

Units: 1
 This course expands on the topics covered in Physics 150A by adding the application of calculus to problems in physics. Topics will include motion graphs, motion with non-constant acceleration, variable forces, wave motion, and thermodynamics.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 18 **Lab Hours:** 0
Requisites: Prerequisite: MATH180 Single Variable Calculus I OR Prerequisite: MATH180H Honors Single Variable Calculus I AND Co-Requisite: PHYS150A Introductory Physics I

PHYS150B Introductory Physics II

Units: 4
 A trigonometry-based physics course. Topics include: light, electricity, magnetism and modern physics. Students that have successfully completed Physics 211 at Santa Ana College may not enroll in Physics 150B.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: Prerequisite: PHYS150A Introductory Physics I

PHYS150BC Introductory Physics II - Calculus

Units: 1
 This course expands on the topics covered in Physics 150B by adding the application of calculus to problems in physics. Topics will include electric fields, Gauss' Law, Ampere's Law, Faraday's Law, light, and quantum mechanics.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 18 **Lab Hours:** 0
Requisites: Prerequisite: PHYS150A Introductory Physics I AND Prerequisite: PHYS150AC Introductory Physics I - Calculus AND Co-Requisite: PHYS150B Introductory Physics II

PHYS250A Physics for Scientists and Engineers I

Units: 5
 Principles of classical mechanics including particle dynamics, forces, work, energy, momentum, rotational motion, equilibrium, harmonic motion, gravity and fluid dynamics. This course is designed for students majoring in physical sciences and engineering.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 54
Requisites: Prerequisite: MATH180 Single Variable Calculus I OR Prerequisite: MATH180H Honors Single Variable Calculus I AND Advisory: PHYS100 Conceptual Physics or high school Physics

PHYS250B Physics for Scientists and Engineers II

Units: 5
 Introduces the basic principles of thermodynamics, electricity and magnetism. The main topics are the laws of thermodynamics, kinetic theory of gases, electrostatics, circuits, magnetism, electro-magnetic induction, and Maxwell's equations. This course is designed for students majoring in physical sciences and engineering.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 54
Requisites: Prerequisite: MATH185 Single Variable Calculus II AND Prerequisite: PHYS250A Physics for Scientists and Engineers I

PHYS250C Physics for Scientists and Engineers III

Units: 5
 Introduces the basic principles of mechanical waves, sound, light, geometrical and wave optics, special relativity and quantum mechanics. This course is designed for students majoring in physical sciences and engineering.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 54
Requisites: Prerequisite: PHYS250B Physics for Scientists and Engineers II AND Advisory: MATH280 Intermediate Calculus

POLITICAL SCIENCE

POLT101 American Government and Politics

Units: 3
 Study of United States national government and California state and local governments. Satisfies graduation requirement for American institutions and state requirements for California state government.
 Previous Title: Political Science 101, Introduction to American Government (2018)

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

POLT101H Honors American Government and Politics

Units: 3
 A student-oriented exploration of the historical and contemporary principles of American government and politics. Study groups and individual computer-based research focus on basic political concepts of American national and state governments. Satisfies graduation requirement for American Institutions and state requirements for California state government.
 Previous Title: Political Science 101H, Honors Introduction to American Government (2018)

Transferability: Transferable to both UC and CSU
Entrance Skills: A high school or college GPA of 3.0 or above
Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

POLT110 **Introduction to Political Science** **Units:** 3

An introduction to political science designed to familiarize students with basic political concepts, political ideologies, political systems, and subfields within political science.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

POLT150 **Model United Nations** **Units:** 4

An introductory course in the study of the United Nations. The focus will be on the role of the United Nations in world politics in relation to the success and failure of theories of collective security, international disputes resolution, human rights, peacekeeping attempts and technological cooperation. Prepares students for individual and team Model United Nations events for intercollegiate United Nations conferences and competitions. Students are required to attend Model United Nations conferences.

Former Title: POLT 150, Introduction to Model United Nations (Fall 2019)
Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: Prerequisite: POLT 101 American Government and Politics OR Prerequisite: POLT101H Honors American Government and Politics OR Prerequisite: POLT220 International Politics

POLT201 **Introduction to Comparative Politics** **Units:** 3

A study of the histories, political cultures, and governmental arrangements of various nations and regions around the world. Comparative study is made of the industrialized democracies, the former communist countries, and the developing, and non-developing countries.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

POLT220 **International Politics** **Units:** 3

Introduction to basic principles and issues of international politics. Focus is on concepts of security, power, diplomacy, war, terrorism and globalization. Examines problems of rich versus poor nations in context of the new world order.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

POLT221 **Women in American Politics** **Units:** 3

A historical and philosophical study of the role women play in the politics of the

United States as voters, candidates, policy makers, and activists. Attention will be devoted to topics of gender representations in popular culture, feminism, and the Women's Rights Movement in the U.S. This course will consider the intersectionality of race, class, gender, and sexuality when evaluating economic and reproductive rights as well as gendered violence.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Advisory: POLT101 American Government and Politics OR Advisory: POLT101H Honors American Government and Politics

POLT230 **Political Theory** **Units:** 3

The course will explore the history of political theory from Plato to the present. Such concepts as liberty, equality, power, authority and justice will be examined.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

POLT235 **Identity Politics** **Units:** 3

An inquiry into the history of racial/ethnic minority groups in American politics with an emphasis on political coalitions among different minority groups in contemporary politics.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

PHYSICAL SCIENCE

PSC100 **Survey of Chemistry and Physics** **Units:** 4

An introduction to the basic principles of physics and chemistry including matter, physical and chemical properties, energy, motion, thermodynamics, electricity and magnetism, light, atomic structure, bonding, solutions and chemical reactions. The inter-dependence of chemistry and physics will be emphasized. Designed for non-science majors, concepts are introduced in lab through inquiry and further developed during discussion.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54

Requisites: Advisory: Completion of any mathematics course at the Intermediate Algebra level or above with a grade of "C" or better. OR Qualifying profile from the mathematics placement process.

PSYCHOLOGY

PSYC100 **Introduction to Psychology** **Units:** 3

An introduction to the major theories, methods, concepts, ethical issues, and findings in the major fields in psychology including (but not limited to): research methods, biological bases of behavior; perception, learning, memory, cognition, emotion, motivation, development, personality, social, and abnormal psychology.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC100H

Honors Introduction to Psychology

Units: 3

Content-enriched course for honors students emphasizing application and critical analysis of psychological concepts. An introduction to the major theories, methods, concepts, ethical issues, and findings in the major fields in psychology including (but not limited to): research methods, biological bases of behavior, perception, learning, memory, cognition, emotion, motivation, development, personality, social, and abnormal psychology.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC110

Introduction to Companion Animal Psychology

Units: 3

An introduction to the major concepts, methods, ethical issues, and findings in companion animal psychology including: research methods, biological bases of behavior, perception, learning, memory, cognition, emotion, motivation, development, personality, and social behavior. Explores issues surrounding problem behaviors including prevention, basic skills training, and behavior modification for anxiety and aggression.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC114

Introduction to Animal Learning and Behavior

Units: 3

Explores relatively permanent changes in behavior based on experience. Focuses on theoretical and applied aspects of sensitization, habituation, Pavlovian conditioning, operant conditioning, generalization, discrimination, stimulus control, and biological limits on learning.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC118

Behavior Modification

Units: 3

Explores principles and techniques for changing patterns of behavior using reinforcement, punishment, extinction, shaping, fading, chaining, and stimulus control. Examines measurement of behavior change and the ethics of behavior change procedures.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC122

Dog Training

Units: 3

Explores the practical application of learning theory to dog training. Focuses on recognizing body language, puppy skill development, teaching basic manners (e.g., sit, stay) and solving simple behavior problems (e.g., barking, digging).

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC157

Introduction to Child Psychology

Units: 3

Survey of human development from conception through adolescence. Covers major theories of development (cognition, perception, language, personality, etc.) and their application to parenting, teaching, and other interactions with children. (No credit if student has taken Child Development 107.)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: CDEVI07 Child Growth and Development (DSI)

PSYC160

Introduction to Lifespan Psychology

Units: 3

An overview of human development from conception through death, including biological and environmental influences. Psychological theories and research regarding physical, cognitive, social and emotional development over the lifespan will be examined.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC170

Multicultural Psychology

Units: 3

Introduces students to important issues related to cultural diversity in the field of psychology. Major areas of psychology will be explored from a multicultural perspective, including research, mental health, social psychology, and identity development. Exploration of historically underrepresented populations in the U.S. will be emphasized.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

PSYC180

Psychology of Gender

Units: 3

This course will examine psychological research and theory on gender with consideration of sociocultural and historical influences. Topics to be covered will include, but will not be limited to, the following: gender identity development, masculinity and femininity, sexual orientation, gender roles, stereotypes, prejudice, and discrimination, as well as gender differences in physiology, communication, mental health, the workplace and relationships. Additional focus will be given to the effects of race, ethnicity, socioeconomic status and other forms of culture on gender.

Transferability: Transferable to both UC and CSU

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

PSYC190
Psychology of Human Sexuality

Units: 3
 An overview of human sexuality through a psychological lens with additional focus on biological, sociocultural, and historical perspectives and influences. Topics to be explored will include, but will not be limited to, the following: sexual anatomy and physiological arousal; sexual attitudes and values; sexual behaviors, dysfunction, disorders and treatments; relationships and communication; inter-connections to cultural identities (e.g., race, gender identity, sexual orientation, age, religion, etc.); sexual violence; contraception and pregnancy; and sexually transmitted infections and prevention. Current sex norms and various aspects of interpersonal and individual sexual adjustment will also be discussed. (No credit if a student has taken IDS 155.)

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

PSYC200
Introduction to Biological Psychology

Units: 3
 Explores relationships between physiological structures of the body and human behavior. Focuses on the organization and function of the brain, spinal cord, peripheral nervous system, glands, sensory and perceptual systems. Relates physiological functioning to motivated behavior, addiction, and psychological disorders.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Prerequisite: PSYC100 Introduction to Psychology OR Prerequisite: PSYC100H Honors Introduction to Psychology

PSYC220
Introduction to Research Methods in Psychology

Units: 4
 Emphasizes methods of study in psychology including: sound and ethical experimental design, analysis of variables contributing to experimental results, data treatment, and communicating findings.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 54
Requisites: Prerequisite: MATH219 Statistics and Probability OR Prerequisite: MATH219H Honors Statistics and Probability OR Prerequisite: MATH219S Statistics and Probability with Support AND Prerequisite: PSYC100 Introduction to Psychology OR Prerequisite: PSYC100H Honors Introduction to Psychology

PSYC230
Psychology of Adjustment

Units: 3
 Application of theory and research in psychology to deal effectively with the adjustment demands of everyday life. Covers topics such as: interpersonal relationships, stress, health, time management, and working, with consideration for the influence of factors such as culture, gender, ethnicity, historical cohort, and socio-economic status. Includes exercises for increasing self-awareness, self-motivation, and self-management of everyday problems.

Former Title: Psychology 230, Psychology and Effective Behavior (2020)
Transferability: Transferable to both UC and CSU

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

PSYC240
Introduction to Social Psychology

Units: 3
 An exploration of individual human behavior in relation to the social environment, examining the power of the situation, social interaction and social groups. Emphasized topics will include: aggression, prejudice, attraction, attitudes, group dynamics, self-development and social cognition. (No credit if student has taken Sociology 240.)

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Anti-Requisite: SOC240 Introduction to Social Psychology

PSYC250
Introduction to Abnormal Psychology

Units: 3
 This course is an introduction to the scientific study of psychopathology and atypical behaviors. An investigation of abnormal behavior from an integrative approach utilizing the biological, psychological and sociocultural perspectives. A comprehensive survey of theory and research in abnormal psychology with identification, etiology, intervention and prevention being presented.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Prerequisite: PSYC100 Introduction to Psychology OR Prerequisite: PSYC100H Honors Introduction to Psychology

REAL ESTATE

RE102
Real Estate Principles

Units: 3
 Provides basic information about real estate and prepares students for advanced study in specialized courses. Includes deeds, titles, agency, contracts, mathematics, finance, appraisal, escrow, leases. Required for the California real estate salesperson license.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

RE103
Legal Aspects of Real Estate

Units: 3
 California real estate law including contracts, ownership, estates, easements, landlord-tenant, trust deeds, liens, agency, security devices, and land use. Applies towards: (1) required course for the California real estate salesperson licensing and (2) California real estate broker's license requirements.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

**RE105****Real Estate Practice****Units:** 3

Operation of the real estate business and the role of the agent. Includes listing, prospecting, sales techniques, use of current real estate forms; financing, title insurance, escrow, and taxation. This course is required for the educational requirement for the California real estate salesperson license and may be applied toward the California real estate broker license requirements.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None**RE106****Real Estate Finance****Units:** 3

Analysis of real estate financing. Covers the mortgage market, lenders, conventional and government-backed loans, processing and closing loans, foreclosures. Applies towards the partial fulfillment for the educational requirements for (1) California real estate salesperson license and (2) California real estate broker license.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None**RE110****Real Estate Economics****Units:** 3

Covers the factors influencing real estate values. Includes business cycles, regional and community growth, influences on real estate development. Applies towards the partial fulfillment for the educational requirements for (1) California real estate salesperson license and (2) California real estate broker license.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None**RE112****Real Property Management****Units:** 3

Principles and practices of managing residential, apartment, commercial, and income properties. Covers property management, leases and contracts, collections, rent schedules, tenant selection and supervision, and budgets. Applies towards the partial fulfillment for the educational requirements for (1) California real estate salesperson license and (2) California real estate broker license.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None**RE114****Appraisal Principles and Procedures****Units:** 3.5

The principles and procedures of appraisal used to estimate market values; location analysis, standards and ethics, and the sales comparison, cost, and income approaches for residential properties. The course applies 60 hours of educational instruction towards the requirements for licensure from the California Office of Real Estate Appraisal (OREA). The course is required for the appraisal licenses for Trainee, Residential, Certified Residential, and Certified General license. The

course meets the requirement for the Department of Real Estate (DRE) Brokers License and qualifies as one of the required courses for the Salespersons License.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 63 **Lab Hours:** 0**Requisites:** None**RE116****Residential Real Estate Appraisal****Units:** 3.5

Studies in residential market analysis and highest and best use; residential appraiser site valuation and cost approach; and residential sales comparison and income approach. The course applies 60 hours of educational instruction towards the requirements for licensure from the California Office of Real Estate Appraisal (OREA). The course is required for the appraisal licenses for Trainee, Residential, Certified Residential, and Certified General license. The course meets the requirement for the Department of Real Estate (DRE) Brokers License and qualifies as one of the required courses for the Salespersons License.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 63 **Lab Hours:** 0**Requisites:** None**RE117****Residential Report Writing and Case Studies****Units:** 1

Residential report writing and case studies in appraisal to include theories, techniques, and procedures of using various residential forms and reports for appraisal. The course applies 16 hours of educational instruction towards the requirements for licensure from the California Office of Real Estate Appraisal (OREA). The course is required for the appraisal licenses for Trainee, Residential, Certified Residential, and Certified General license.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 18 **Lab Hours:** 0**Requisites:** None**RE151****Fundamentals of Escrow****Units:** 3

This course covers the principles and current practices of the escrow process in California. Topics include terminology, documentation, escrow instructions, encumbrances, interest adjustments, reconveyance, mortgages, insurance, taxes, and fees, other processing details pertinent to the handling of an escrow from inception to closing including fiduciary and ethical responsibilities. This course is one of the elective courses for the real estate salesperson or broker license requirement as set forth by the California Bureau of Real Estate (BRE).

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** None**RE153****Real Estate License Preparation****Units:** 3

Real estate licensure preparation. Fundamental information regarding the practice of real estate with an emphasis on real estate law, principles, practice, and other topics covered in the state licensure examination. An important preparation for those intending to take the California real estate salesperson's or broker's license examination.

Former Title: Real Estate 053, Real Estate License Preparation (2020)

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Prerequisite: RE102 Real Estate Principles OR Prerequisite: RE105 Real Estate Practice

RE155
Real Estate the Ethical Way
Units: 2

Familiarizes students, as future or current real estate professionals, with the Realtor(TM) Code of Ethics. Provides examples of ethically challenging situations in real estate transactions and daily work. Examines duties and responsibilities. Provides analytical strategies for ethical decision making.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36 **Lab Hours:** 0
Requisites: None

RE160
Real Estate Employability Skills
Units: 1

Students will enhance basic soft skills, workplace skills, interpersonal skills, communication skills, and leadership skills.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 18 **Lab Hours:** 0
Requisites: None

RE171
Real Estate Cooperative Work Experience/Career Internship
Units: 1

Through a set of learning objectives established by the student, on-the-job supervisor and instructor, students will extend their classroom-based occupational learning by working at a job related to their major and to their occupational goal. One to four units of Real Estate Cooperative Work Experience/Career Internship require 60 - 240 non-paid hours of work or 75 - 300 paid hours of work per semester. Open Entry/Open Exit

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 0 **Lab Hours:** 60
Requisites: Advisory: RE102 Real Estate Principles AND Advisory: RE105 Real Estate Practice

READING

READ101
Introduction to Academic Reading
Units: 3

Instruction toward students' mastery of higher-level vocabulary, reading comprehension at the level of proficiency, critical evaluation of college-level text, and improvement of reading rate.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

READ102
Academic Reading
Units: 3

Introduces a repertoire of reading strategies aimed at preparing students for comprehension of complex college-level reading material. Advanced reading strategies provide the foundation for the development of critical reading and the recognition of patterns of academic thought. Reading strategies for specific disciplines, including the Social Sciences, Business, Humanities and the Arts, Mathematics and the Natural Sciences are presented.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

READ128
Expanding ESL Reading Skills
Units: 1

This course is designed to help students approach intermediate-level reading materials in their ACE/ESL courses by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for American College English (ACE) courses, including: ACE 052 and ACE 053.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: ACE052 Expanding Academic Writing and Reading and Students are advised to concurrently enroll in American College English 052 OR Advisory: Qualifying profile from the placement process.

READ129
Refining ESL Reading Skills
Units: 1

This course is designed to help students approach low-advanced reading materials in their content area courses by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for American College English (ACE) courses, including: ACE 093 and ACE 102.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: ACE102 Refining Academic Writing and Reading and Students are advised to concurrently enroll in American College English 102. OR Advisory: Qualifying profile from the placement process.

READ130
Reading Strategies for Across the Curriculum
Units: 1

This course is designed to help students approach difficult reading materials in their content area courses by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for discipline specific courses.

Transferability: Transferable to CSU only
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: Students should be concurrently enrolled in another discipline course.

READ131
Reading in Apprenticeship
Units: 1

This course is designed to help students approach challenging and varied reading tasks on topics related to Apprenticeship courses by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for discipline-specific courses in Career Education-Apprenticeship, which includes: Carpentry, Cosmetology, Electrician, Maintenance Mechanic, Operating Engineers, Power Lineman, and Surveying.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: Concurrently enrolled in an SCC Apprenticeship course

READ132

Reading in Career Education

Units: 1

This course is designed to help students approach challenging and varied reading tasks on topics related to Career Education courses by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for discipline-specific courses in Career Education (CE), which includes: American Sign Language, Biotechnology, Business and Computer Related Programs, Careers in Education, Child Development, Code Enforcement, Criminal Justice, Digital Media Arts, Graphic Design, Gemology, Public Works, Real Estate, Survey/Mapping Sciences, TV/Video Communications, and Water Utility Science.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: Students should be concurrently enrolled in an SCC Career Education (CE) course.

READ134

Reading in the Social Sciences

Units: 1

This course is designed to help students approach challenging and varied reading tasks on topics related to Social Science areas by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for discipline-specific courses in Cultural, Behavioral, and Social Sciences, which includes: Anthropology, Chicano Studies, Economics, Ethnic Studies, Gender Sexuality, and Women's Studies, Geography, History, Global Studies, International Development, Political Science, Psychology, and Sociology.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: Students should be concurrently enrolled in an SCC Cultural, Behavioral, or Social Science course.

READ136

Reading in STEM

Units: 1

This course is designed to help students approach challenging and varied reading tasks on topics related to STEM areas by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for discipline-specific courses in Science, Technology, Engineering, and Mathematics (STEM), which includes: Anatomy, Astronomy, Biology, Chemistry, Environmental Science, Geology/Earth Science, Kinesiology, Microbiology, Nutrition and Dietetics, Oceanography, Physics, and Computer Science; Aerospace, Architectural, Biomedical, Chemical, Civil, Computer, Electrical, Environmental, Geomatics, Industrial, and Mechanical Engineering; Algebra, Calculus, Liberal Arts Math, Statistics and Probability, and Trigonometry.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: Concurrently enrolled in an SCC STEM course

READ138

Reading in the Humanities

Units: 1

This course is designed to help students approach challenging and varied reading tasks on topics related to the Humanities areas by introducing several effective reading strategies, such as those from the Reading Apprenticeship Project. This is a support course for discipline-specific courses in the Humanities, which includes: Art, Communication, English, Literature, Modern Languages, Performing Arts, and Philosophy.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 18 **Lab Hours:** 0

Requisites: Advisory: Students should be concurrently enrolled in an SCC Humanities course.

READ150

Critical Reading

Units: 3

This course addresses the relationship between critical reading and critical thinking, including emphasis on the development of critical reading and thinking skills that facilitate the interpretation, analysis, criticism, and advocacy of ideas encountered in academic reading.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: ENGL101 Freshman Composition OR Advisory: ENGL101H Honors Freshman Composition OR Advisory: ENGL100 Freshman Composition with Integrated Support

READ151

Critical Reading and Analysis

Units: 3

Critical Reading and Analysis is a course for students from all academic disciplines who seek to develop the relationship between critical reading and critical thinking through logical reasoning and analysis. Students gain experience in research strategies, annotation, metacognition, and formal critical response writing.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: ENGL100 Freshman Composition with Integrated Support OR Prerequisite: ENGL101 Freshman Composition OR Prerequisite: ENGL101H Honors Freshman Composition

SOCIOLOGY

SOC100

Introduction to Sociology

Units: 3

The scientific study of human societies and behavior focusing on the process of social construction, social location, social interaction, patterns of social inequality, and the influence of social institutions on individuals as members of social groups. Special emphasis provided to explain factors promoting social stability and social change. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

SOC100H

Honors Introduction to Sociology

Units: 3

A seminar-style, content enriched course to provide a critical and extensive exploration of the sociological perspective, methods, and theories of social inter-

action, stability, change, social construction, social institutions, and social location. Focuses on the importance of sociology for understanding individual and group behavior in a social context and provides a comprehensive understanding of and scientific way of thinking about society. Field trips may be required.

Transferability: Transferable to both UC and CSU
Entrance Skills: A high school or college GPA of 3.0 or above
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

SOC101 Introduction to Ethnic Studies

Units: 3
This introductory course will take an intersectional and interdisciplinary approach to the examination of the cultural, economic, educational, and political issues that impact the four historically racialized groups (Native Americans, African Americans, Asian Americans, and Latinx Americans) within the United States. This course will analyze how racial formations have been constructed and contested, as well as, provide theories and tools to understand and combat racism across multiple relations of power.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Anti-Requisite: ETHN101 Introduction to Ethnic Studies

SOC115 Death and Dying

Units: 3
This course includes various perspectives on death, both cross-cultural and historical. Examines beliefs, traditions, rituals and practices surrounding death; health care systems (the hospital and the dying patient, hospice, etc.); death and the process of dying; bioethics – dying in the technology age; euthanasia, suicide, funerals, grief, and bereavement; the law and death, including living wills, organ donation, and autopsies; and life after death – old and new meanings. Field trips may be required.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

SOC116 Social Problems

Units: 3
An extensive survey of contemporary social trends and problems through an intersectional sociological analysis concentrating on their contributing factors, complexities, consequences, and possible solutions. Special emphasis will be placed on the U. S., with consideration of the global perspective. Field trips may be required.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

SOC120 Introduction to Sociological Research Methods

Units: 3
This course introduces students to the principles of sociological research and design. Students will examine the roles of variables, hypotheses, and sociological theory in research, and discuss issues of ethics in research. It will review quantitative and qualitative methods of data collection, analysis, and reporting, including survey, observational, and experimental research methods. Optional field trips may be offered.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: Prerequisite: SOC100 Introduction to Sociology OR Prerequisite: SOC100H Honors Introduction to Sociology AND Advisory: MATH219 Statistics and Probability OR Advisory: MATH219H Honors Statistics and Probability OR Advisory: MATH219S Statistics and Probability with Support

SOC125 Introduction to Statistics in Sociology

Units: 3
An introduction to the basic statistical methods and analyses commonly used in sociological and social justice research. Topics include: descriptive and inferential statistics usually include levels and types of measurement; measures of central tendency and dispersion; normal, t, and chi-square distributions; probability and hypothesis testing; correlation and regression. Applications of statistical software to sociology and/or other social science and social justice data required.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

SOC125H Honors Introduction to Statistics in Sociology

Units: 3
An introduction to the basic statistical methods and analyses commonly used in sociological and social justice research. Topics include: descriptive and inferential statistics usually include levels and types of measurement; measures of central tendency and dispersion; normal, t, and chi-square distributions; probability and hypothesis testing; correlation and regression. Applications of statistical software to sociology and/or other social science and social justice data required.

Transferability: Transferable to both UC and CSU
Entrance Skills: A high school or college GPA of 3.0 or above
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

SOC130 Relationships, Marriages, and Family Dynamics

Units: 3
In-depth examination of the sociological study of the process of developing intimate relationships leading to committed partnerships and marriages with emphasis on the intersectionality of communication, understanding relationship dynamics, parenting and reproduction, diverse family systems, familial conflict and stress, and changing familial structures. In addition, this course will determine the role of social institutions in establishing cultural norms around the development of relationships, marriages, and families. Fields trips may be required.

Transferability: Transferable to both UC and CSU
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

SOC160 Introduction to Criminology

Units: 3
This course is a study of theories of crime and criminal behavior, including an explanation of crime, socio-historical contexts of crime, crime as a social construct, correlative factors of criminal activity, and how crime is measured. Major sociological and social science theories will be explored surrounding the issues of crime and criminal behavior including a critical intersectional approach to the analysis of institutional and interactional experience with crime and criminality. Optional field trips may be offered.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

SOC210

Sociology of Medicine

Units: 3

This course analyzes the social contexts of health, illness, medicine, and medical care. Through empirical research and theory, changing concepts of health, illness and medical practice are examined through their socio-historical, interactional, institutional, and intersectional contexts. Topics include: social epidemiology, the biomedical and social construction of health/illness, the medical model, the experience of illness, the transformations of health professions including the health work force, inequalities of and access to health care, medical technology, and global comparisons of health care and health care reform. Optional field trips may be offered.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

SOC220

Introduction to Gender and Sexualities

Units: 3

This course applies sociological theory and method to the study of gender and sexuality from a cross-cultural perspective. It includes historical and contemporary analysis of masculinities and femininities and their relationship to social institutions, such as the family, schools, the military, religion, mass media, and popular culture. It examines the impact of economic and political change on sexuality, and gender expectations and practices. The approach uses macro-level analysis of institutional effects on gender construction and sexuality, and micro-level analysis of socialization and "doing gender." It considers how the intersecting axis of race, class, gender, and sexuality shape individual and group experience. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

SOC230

Drugs and Society

Units: 3

This course introduces concepts, theories and perspectives associated with the sociological analysis of drugs and alcohol, including an examination of historical trends in drug consumption, the creation and enforcement of illicit substances, legal drugs, psychedelic drugs, the war on drugs, discrimination, as well as addiction and harm reduction. Empirical findings along with institutional, intersectional, and interactional analysis will be used with the sociological perspective. Optional field trips may be offered.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

SOC240

Introduction to Social Psychology

Units: 3

A sociological exploration of the interlocking dynamics of the individual and society. Through an examination of the power of the situation, social interaction, and social groups, topics include: aggression, prejudice, attraction, attitudes, group

dynamics, self-development and social cognition. Field trips may be required. (No credit if student has taken Psychology 240.)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: PSYC240 Introduction to Social Psychology

SOC240H

Honors Introduction to Social Psychology

Units: 3

A sociological exploration of the interlocking dynamics of the individual and society. Through an examination of the power of the situation, social interaction, and social groups, topics include aggression, prejudice, attraction, attitudes, group dynamics, self-development, and social cognition. Field trips may be required. (No credit if a student has taken Psychology 240.)

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Anti-Requisite: PSYC240 Introduction to Social Psychology

SOC286

Introduction to LGBTQ Studies

Units: 3

The Introduction to LGBTQ Studies offers an intersectional examination of issues related to the gay, lesbian, bisexual, transgender, and queer experience. Taught from the sociological perspective, this course includes historical and contemporary analyses of the LGBTQ+ community and their relationship to social institutions, and institutional power. The Introduction to LGBTQ Studies also surveys political, legal, and cultural values and actions with a focus on social justice. Field trips may be required.

Transferability: Transferable to both UC and CSU

Requisites: None

SPANISH

SPAN101

Elementary Spanish I

Units: 5

Introduction of the Spanish language and culture with emphasis on the development and acquisition of listening, speaking, reading and writing skills. Includes interaction and application of the language in cultural context at the beginning level. Designed for students with very little knowledge or no knowledge of Spanish. Spanish 101 is equivalent to two years of high school Spanish.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: None

SPAN101A

Elementary Spanish IA

Units: 2.5

Introduction to Spanish language and culture with emphasis on the development and acquisition of listening, speaking, reading and writing skills. Includes interaction and application of the language in cultural context at the beginning level. Designed for students with very little knowledge or no knowledge of Spanish. Spanish 101A and Spanish 101B together are equivalent in units and content to Spanish 101 and equivalent to two years of high school Spanish.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 45 **Lab Hours:** 9

Requisites: None

SPAN101B

Elementary Spanish IB

Units: 2.5

Continue introduction of Spanish language and culture with emphasis on the development and acquisition of listening, speaking, reading and writing skills. Includes interaction and application of the language in cultural context at the beginning level. Designed for students with very little knowledge or no knowledge of Spanish. Spanish 101A and Spanish 101B together are equivalent in units and content to Spanish 101 and equivalent to 2 years of high school Spanish.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 45 **Lab Hours:** 9

Requisites: Prerequisite: SPAN101A Elementary Spanish IA

SPAN101H

Honors Elementary Spanish I

Units: 5

Enhanced and enriched introduction of the fundamentals of the Spanish language and culture with emphasis on the development and acquisition of listening, speaking, reading, and writing skills. Includes interaction and application of the language in cultural context at the beginning level. Designed for students with very little knowledge or no knowledge of Spanish. Spanish 101H is equivalent to two years of high school Spanish.

Transferability: Transferable to both UC and CSU

Entrance Skills: A high school or college GPA of 3.0 or above

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: None

SPAN102

Elementary Spanish II

Units: 5

A college level Spanish class focusing on further training of the Spanish Language and culture. Additional emphasis on the development and acquisition of listening, speaking, reading, and writing skills. Includes interaction and application of the language in cultural context. Designed for students who took Spanish 101. Spanish 102 is equivalent to the third year of high school Spanish.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 18

Requisites: Prerequisite: SPAN101 Elementary Spanish I OR Prerequisite: SPAN101H Honors Elementary Spanish I OR Prerequisite: SPAN101A Elementary Spanish IA AND Prerequisite: SPAN101B Elementary Spanish IB OR Prerequisite: Two years of high school Spanish.

SPAN110

Spanish for Spanish Speakers 1

Units: 5

The course is designed for heritage speakers of Spanish or other linguistically qualified students. It provides instruction that builds upon the existing four basic language skills: listening, speaking, reading, and writing; placing emphasis on acquiring proficiency using formal Spanish at the intermediate level. The course will also focus on language challenges particular to heritage speakers such as orthography, the inappropriate mix of English and Spanish, and contrasts between standard Spanish and regional variations. It will also increase awareness of linguistic registers, discuss items beyond the familiar routine and develop an appreciation for Hispanic cultures as manifested in Spanish speaking countries and in the United States. This course is entirely conducted in Spanish.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 0

Requisites: None

SPAN111

Spanish for Spanish Speakers 2

Units: 5

This course continues to provide instruction that builds upon the existing reading, writing, speaking and listening skills, with emphasis on the mastery of formal written communication at the intermediate-advanced level while integrating authentic cultural and literary readings. The course will also continue to increase awareness of linguistic registers, discuss items beyond the familiar routine and expand upon their appreciation for Hispanic cultures as manifested in Spanish speaking countries and in the United States. This course is entirely conducted in Spanish.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 90 **Lab Hours:** 0

Requisites: Prerequisite: SPAN110 Spanish for Spanish Speakers I

SPAN115

Practical Communication in Spanish for Teachers

Units: 2

Course emphasizes development of basic reading, oral, and written communication skills in Spanish for realistic situations in a classroom environment. Course also familiarizes students with the culture of Spanish-speakers.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: Advisory: SPAN101 Elementary Spanish I OR Advisory: SPAN101H Honors Elementary Spanish I OR Advisory: SPAN101B Elementary Spanish IB

SPAN194

Beginning Conversational Spanish

Units: 3

Development of conversational and composition skills. Review of language structure through discussions, conversations, readings, and compositions dealing with Spanish speakers' culture and current events.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: SPAN101 Elementary Spanish I or Spanish 101B or two years of high school Spanish OR Prerequisite: SPAN101H Honors Elementary Spanish I or Spanish 101B or two years of high school Spanish.

SPAN195A

Advanced Conversational Spanish

Units: 3

Further development of conversational skills. Review of language structures as well as reinforcement of new vocabulary and idioms through discussions of reading selections dealing with historical and current events to deepen appreciation of Hispanic cultures.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: SPAN102 Elementary Spanish II

**SPAN195B****Advanced Conversational Spanish****Units:** 3

In this course students continue to develop conversational skills. Provides avenues for the expression of ideas and discussions on an array of topics to deepen appreciation of Hispanic cultures.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Prerequisite: SPAN195A Advanced Conversational Spanish**SPAN201****Intermediate Spanish I****Units:** 5

A college-level Spanish class focusing on expansive review of usage and grammar, discussions of interpretive readings, conversation, and composition.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 90 **Lab Hours:** 18**Requisites:** Prerequisite: SPAN102 Elementary Spanish II**SPAN202****Intermediate Spanish II****Units:** 5

A college-level Spanish class focusing on a specialized review of grammar and composition, discussions in Spanish of history and culture based on literary materials.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 90 **Lab Hours:** 18**Requisites:** Prerequisite: SPAN201 Intermediate Spanish I**SPAN213****College Spanish Composition****Units:** 3

Comprehensive review and application of Spanish grammar and emphasis on the development of writing based on discussions, cultural, and literary materials.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0

Requisites: Prerequisite: SPAN110 Spanish for Spanish Speakers I Previous or concurrent enrollment or three years of high school Spanish OR Prerequisite: SPAN201 Intermediate Spanish I Previous or concurrent enrollment or three years of high school Spanish

SURVEY/MAPPING SCIENCES**SURV118****Plane Surveying****Units:** 4

History of and careers in surveying. Introduction to survey measurements, distance, direction and elevations with math review. Fundamentals of traverse computations and adjustment. Recording field measurements by hand and electronically.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 54

Requisites: Prerequisite: High School or College Trigonometry, or Precalculus
SURV119

Advanced Plane Surveying**Units:** 4

Emphasis on coordinate geometry calculations. Route surveying with horizontal and vertical curves. Topographic surveying and mapping. Construction surveying. Introduction to geospatial technologies, boundary surveying and surveys of public lands. Field surveying projects. Assists in passing the land surveyor-in-training exam.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 54

Requisites: Prerequisite: SURV118 Plane Surveying or possession of a valid Certificate as a Land Surveyor-In-Training (LSIT) issued by any state AND Advisory: A course that is known as trigonometry or contains trigonometric concepts.

SURV155**Introduction to Geographic Information Systems****Units:** 3

This course introduces basic scientific principles of Geographic Information Systems (GIS) as they relate to working with data that have important spatial orientation and organization. Geographic concepts and theories are used to develop scientific methods for proper communication of the data and the solution of problems that have spatial relationships. The adaptability of GIS to a wide variety of applications useful for many disciplines is presented. The course covers basic concepts in mapping and orientation, the development of map scales and comparison of different coordinate systems and data error analysis.

Transferability: Transferable to both UC and CSU**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 45 **Lab Hours:** 27

Requisites: Anti-Requisite: GEOG155 Introduction to Geographic Information Systems AND Advisory: Familiarity with PC and Windows operating environment

SURV205**Computer Aided Drafting Fundamentals For Surveyors****Units:** 3

A first course in computer drafting with applications in land surveying specifically intended for students with land surveying training or experience.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0**Requisites:** Advisory: SURV119 Advanced Plane Surveying**SURV221****Advanced Problems in Surveying I****Units:** 3

Measurement analysis, adjustments, geodesy, state plane coordinates, global position system.

Transferability: Not transferable**Entrance Skills:** None**Limitations of Enrollment:** None**Lecture Hours:** 54 **Lab Hours:** 0

Requisites: Advisory: MATH160 Trigonometry AND Advisory: SURV119 Advanced Plane Surveying

SURV222**Advanced Problems in Surveying II****Units:** 3

Introduction to photogrammetry emphasizing concepts and calculations. Route

surveying includes horizontal and vertical curves, volume calculations and construction staking.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: MATH160 Trigonometry AND Advisory: SURV119 Advanced Plane Surveying AND Advisory: SURV221 Advanced Problems in Surveying I

SURV229

Legal Aspects of Land Surveying I

Units: 3

Basic elements of the U.S. Public Land Survey System, including background, history, and subdivisions of sections and restoration of lost corners. Principles of preparing land descriptions for surveyors and title company personnel. Common pitfalls and how to avoid them.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

SURV230

Legal Aspects of Land Surveying II

Units: 3

Principles and techniques of boundary control. Interpretation of land descriptions, voluntary and involuntary transfer of property, senior rights, simultaneous conveyances, sequential conveyances, and case law pertaining to boundary disputes.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: SURV229 Legal Aspects of Land Surveying I

THEATRE ARTS

THEA100

Introduction to Theatre

Units: 3

An introduction to the art and concepts of theatre through a study of modern and historical theories of dramatic structure, playwriting, directing, design, and acting. Attendance at live theatre is required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

THEA110

Acting Fundamentals

Units: 3

A study of acting involving the development of acting techniques, styles and disciplines. Provides the student with theory and practical experience with varied characterizations. Emphasizes individual growth and acquired skills necessary to the acting craft.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 54 **Lab Hours:** 18

Requisites: None

THEA111

Intermediate Acting

Units: 3

Further study in the art of acting for the stage, investigating in-depth character study, role portrayal, special problems, and personal technique. Acting skills developed through use of exercises, monologues, and scenes from contemporary theatre.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 54 **Lab Hours:** 18

Requisites: Advisory: THEA110 Acting Fundamentals

THEA118

Fundamentals of Scene Study

Units: 2

A continued study for the novice actor in the preparation and presentation of scenes from contemporary drama. Students prepare scenes with partners for performance and critique. Recommended for acting majors. Field trips may be required.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 54

Requisites: Advisory: THEA110 Acting Fundamentals

THEA121

Beginning Performance Ensemble

Units: 2.5

A study of the standards and expectations for an actor in auditions, casting, rehearsal and performance in a departmental production. All students will be cast in project plays for public presentation.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 36

Requisites: Prerequisite: Audition

THEA122

Beginning Production Showcase

Units: 3

A study of the performer's process in the development of a character in a live stage performance. Rehearsal and performance hours arranged. Additional hours are required for technical rehearsals, dress rehearsals and performances.

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 54

Requisites: Prerequisite: Audition

THEA180A

Rehearsal and Performance: Drama - Minor/Supporting Role

Units: 2

This course provides experience in the preparation and public performance of a minor or supporting role in a dramatic theatrical production. Students will discover the complexities of working as an ensemble member, while learning to craft a role that is believable and dimensional.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 54

Requisites: Advisory: THEA110 Acting Fundamentals AND Prerequisite: Audition

**THEA180B****Rehearsal and Performance: Drama - Leading Role****Units:** 2

This course provides intensive experience in the preparation and public performance of a leading role in a dramatic theatrical production. Students will develop their acting techniques and personal process, while learning to negotiate the demanding responsibilities necessary to sustain them through rehearsal and production alike.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals**THEA181A****Rehearsal and Performance: Comedy - Minor/Supporting Role****Units:** 2

This course provides experience in the preparation and public performance of a minor or supporting role in a comedic theatrical production. Students will learn the requisites of comedic performance and learn how to craft a role that is both dimensional and engaging.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals**THEA181B****Rehearsal and Performance: Comedy - Leading Role****Units:** 2

This course provides intensive experience in the preparation and public performance of a leading role in a comedic theatrical production. Students will learn the skills and timing needed to play in diverse comedic genres while developing personal process through acquired comedic techniques.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals**THEA182A****Rehearsal and Performance: One-Act Plays****Units:** 2

This course provides experience in the preparation and public performance of one or more roles in a series of One-Act plays. Students will learn the techniques of creating and performing multiple characters and will further develop their personal performance techniques in plays of diverse styles.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals AND Prerequisite: Audition**THEA182B****Rehearsal and Performance: Original One-Act Plays****Units:** 2

This course provides experience in acting, writing and/or directing in one or more original One-Act plays. Students will learn the collaborative process of developing and executing scripts, characters, concepts, and production needs of the short play format, culminating in public performance.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals AND Prerequisite: Audition**THEA183A****Rehearsal and Performance: Musical - Minor/Supporting Role****Units:** 2

This course provides experience in the preparation and public performance of a minor or supporting role in a Musical Theatre production. Students will learn to develop the basic acting, dance, and vocal performance skills required for Musical Theatre, while crafting a believable character when working as an ensemble member.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals AND Prerequisite: Audition**THEA183B****Rehearsal and Performance: Musical - Leading Role****Units:** 2

This course provides intensive experience in the preparation and public performance of a leading role in a musical theatre production. Students will continue to develop their vocal, dance, and acting skills, techniques, and personal process, while learning to negotiate the demanding responsibilities of musical theatre performance.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals AND Prerequisite: Audition**THEA186A****Beginning Technical Theatre Production****Units:** 2

This course is intended for students interested in hands-on training and experience in the various backstage areas of technical support for a major Theatre Arts production. Students will be part of the technical team, working with the director, stage manager, designers, and crew heads, while serving as a production crew member.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals AND Prerequisite: Interview**THEA186B****Intermediate Technical Theatre Production****Units:** 2

Students will gain technical theatre experience working as a crew head in one of the following production areas: Stage management, directorial associate, scenery, properties, costuming, makeup, lighting, and/or sound.

Transferability: Transferable to CSU only**Entrance Skills:** None**Limitations of Enrollment:** Course Family**Lecture Hours:** 18 **Lab Hours:** 54**Requisites:** Advisory:THEA110 Acting Fundamentals AND Prerequisite: Interview

THEA186C

Advanced Technical Theatre Production

Units: 2

This course explores the artistic and organizational techniques and practices required of a stage manager, assistant director, production manager, and designer/coordinators. Students will be involved as members of a Santiago Canyon College Theatre Arts artistic production team working on a major production.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: Course Family

Lecture Hours: 18 **Lab Hours:** 54

Requisites: Advisory:THEA110 Acting Fundamentals AND Prerequisite: Interview

WATER & WASTEWATER TECHNOLOGY

WATR048

Wastewater Operator Exam Review

Units: 0.5

This course provides a comprehensive review of topics from multiple courses in the Water Utility Science program in order to prepare students for the California State Water Resources Control Board, Wastewater Treatment Operator examinations.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 9 **Lab Hours:** 0

Requisites: Advisory:WATR111 Wastewater Treatment

WATR054

Advanced Treatment Exam Preparation

Units: 0.5

This course provides a comprehensive review of topics from multiple courses in the Water Utility Science program in order to prepare students for the California State Water Resources Control Board, Water Treatment Operator T3 and T4 examinations.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 9 **Lab Hours:** 0

Requisites: None

WATR056

Treatment Exam Preparation

Units: 0.5

This course provides a comprehensive review of topics from multiple courses in the Water Utility Science program in order to prepare students for the California State Water Resources Control Board, Water Treatment Operator T1 and T2 examinations.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 9 **Lab Hours:** 0

Requisites: None

WATR057

Water Distribution Test Preparation

Units: 0.5

This course provides a comprehensive review of topics from multiple courses in the Water Utility Science program in order to prepare students for the California State Water Resources Control Board, Water Distribution Operator D1 and D2 examinations.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 9 **Lab Hours:** 0

Requisites: None

WATR059

Advanced Distribution Exam Preparation

Units: 0.5

This course provides a comprehensive review of topics from multiple courses in the Water Utility Science program in order to prepare students for the California State Water Resources Control Board, Water Distribution Operator D3, D4, and D5 examinations.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 9 **Lab Hours:** 0

Requisites: None

WATR136

Introduction to Water Science

Units: 3

An overview of Water Science topics including water sources and supply, water quality and regulations, water transmission and distribution, and treatment of water and wastewater. Discussions will include applicable science and math principles, current events, and Water careers. Optional field trips may be offered. Former Title:WATR020 Introduction to Water Science (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR137

Water Mathematics and Hydraulics

Units: 3

Practical application of mathematics to perform unit conversions and to calculate areas, volumes, flow rates, pressures, velocities, chemical dosages, and related hydraulic calculations used in water system operations.

Former Title:WATR 050 Water Mathematics and Hydraulics (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR138

Water Conservation Practitioner

Units: 3

Theoretical and practical training in applied water use efficiency. Includes residential, commercial, and landscape customers, water uses, budgets, demand management, water audits, best management practices, rate structures, program design and management. Preparation for American Water Works Association (AWWWA) Grade 1 and 2 Water Conservation Practitioner certification. Optional field trips may be offered.

Former Title:WATR 052, Water Conservation Practitioner (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR139

Water Reclamation and Reuse

Units: 3

Fundamentals of reclaimed water, includes case studies and history of reclaimed water development. Planning, design and construction of reclaimed distribution systems. Problems regarding marketing, legislation and regulations for reclaimed water. Includes microbiology and health/safety issues. Optional field trips may be offered.

Former Title:WATR 085,Water Reclamation and Reuse (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR140

Water Utility Maintenance and Construction

Units: 3

Overview of procedures, equipment, tools, and terminology used in water utility maintenance and construction.Topics include related math calculations and atlas map reading.This course is intended for individuals with minimal field experience who are seeking a career in the Water Industry. Field trips may be required.

Former Title:WATR 060 Water Utility Maintenance and Construction (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR141

Water Distribution

Units: 3

Presents basic concepts of drinking water distribution, including water sources, water quality, and distribution system components. Water mathematics topics addressed include volume, flow rate, velocity, and chemical feeding calculations. Assists in the preparation for the California State Water Resources Control Board level D1 and D2 Water Distribution Operator certification exams. Optional field trips may be offered.

Former Title:WATR 061,Water Distribution (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite:WATRI37 Water Mathematics and Hydraulics

WATR143

Electrical Wiring and Controls for Operators

Units: 3

Theoretical and practical skills needed to perform preventive maintenance and minor repair of basic electrical wiring and control systems used in water and wastewater facilities. Optional field trips may be offered.

Former Title:WATR 063, Electrical Wiring and Controls for Operators (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR144

Pumps and Pumping

Units: 3

Basic pump theory, operation, and repair.Assists operators and technicians in the design, selection, installation and maintenance of various dynamic and positive displacement pumps.Topics include pumps and pump components, hydraulics, and pumping system efficiencies. Optional field trips may be offered.

Former title:WATR 064, Pumps and Pumping (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR145

Backflow Prevention Devices

Units: 3

Theory, testing, and maintenance of backflow prevention devices in water systems. Prepares the journeyman plumber, plant maintenance operator, and water utility operator to become a certified tester in Orange County.Also prepares the student for the American Water Works Backflow Prevention certification exam.

Former Title:WATR065 Backflow Prevention Devices (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 45 **Lab Hours:** 27

Requisites: None

WATR146

Water Treatment Fundamentals

Units: 3

Presents the basic operating principles and techniques of the conventional surface water treatment process of coagulation, flocculation, sedimentation, and filtration, plus those of common disinfection processes. Assists in preparation for Grade T1 and T2 Water Treatment Operator certification examination given by the California State Water Resources Control Board, Division of Drinking Water Programs. Optional field trips may be offered.

Former Title:WATR 071,Water Treatment Fundamentals (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite:WATRI37 Water Mathematics and Hydraulics

WATR148

Water Quality

Units: 3

Examines basic principles of chemistry and microbiology and applies them to drinking water quality and related state and federal regulations. Optional field trips may be offered.

Former Title:WATR 073 Water Quality (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR149

Water Quality Laboratory Analysis

Units: 3

This course will present the theory and science behind common analytical methods used in drinking water and wastewater laboratories. Pertinent principles of chemistry and biology will be explored in lecture, and actual procedures will be demonstrated and conducted in the laboratory.No previous study in laboratory sciences is required. Field trips may be required.

Former Title:WATR 074 Water Quality Laboratory Analysis (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 45 **Lab Hours:** 27

Requisites: None

WATR150

Introduction to Wastewater Treatment

Units: 3

This course provides an overview of the basic principles of wastewater treatment, including wastewater characteristics, collection systems, preliminary, primary, secondary, and tertiary treatment, wastewater recycling, and residual handling. It is intended both for students preparing to become certified wastewater treatment operators and students interested in discovering how the environmental impacts of human activities are minimized through modern wastewater treatment technologies. Field trips may be required.

Former Title:WATR 080 Introduction to Wastewater Treatment (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR151

Wastewater Treatment

Units: 3

Presents the basic operating principles and techniques of conventional wastewater treatment, including preliminary, primary, and secondary treatment processes, as well as wastewater quality assessment, wastewater collection, and wastewater disposal. Successful completion provides students with 48 Certification for Wastewater Professionals (CWEA) contact hours and 8 State Water Resources Control Board (SWRCB) educational points. Prepares students for SWRCB Wastewater Treatment Plant Operator exam-Grades 1 and 2. Optional field trips may be offered.

Former Title:WATR 081 Wastewater Treatment (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite:WATRI37 Water Mathematics and Hydraulics

WATR153

Collection Systems

Units: 3

Sewer construction, inspection and testing, cleaning methods, safety, elementary hydraulics, pipeline repair, equipment maintenance, communications, and record keeping. Successful completion provides students with 48 CWEA contact hours and 4 SWRCB educational points. Preparation for CWEA Wastewater Collection System exam all Grades. Optional field trips may be offered.

Former Title:WATR 083 Collection Systems (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR155

California Water Resources

Units: 3

A detailed examination of the supply and demand of water in California. Topics addressed include California's geography and climate, State history and the effects of population growth, water rights, water quality, water uses, the hydrologic cycle, groundwater, and surface water resources. Also addressed are the major water projects in the State and the government agencies responsible for these projects, including projects and agencies that provide water to Orange County. Optional field trips may be required.

Former Title:WATR 107 California Water Resources (Fall 2023)

Transferability: Transferable to both UC and CSU

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: None

WATR156

Water Utility Management

Units: 3

This course explores various supervision and management issues of particular relevance to the Water Utility Industry, including water quality regulations, other water industry regulations, employee safety programs, facilities security, emergency response, governing body interactions, and public relations. Field trips may be required.

Former Title:WATR 092 Water Utility Management (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Advisory: BUS222 Business Writing

WATR199

Work Experience Education

Units: 4

This course is designed for students majoring in Water Utility Science. Students must be enrolled in a minimum of six Water and Wastewater Technology Program units. Job site experience will train the student in additional job skills to enhance academic learning from the classroom to the workplace. Students can earn 0.5-4 units, where 54 work hours equals one unit of course credit. Units may be awarded in increments of 0.5 units. Per Title 5, student repetition is allowed. Students may earn a maximum of 14 units of credit for work experience education by repeating the course up to three times. It may be either paid or unpaid. Open Entry/Open Exit

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 0 **Lab Hours:** 300

Requisites: Prerequisite: Successful completion of 6 units in Water Utility Science

WATR242

Advanced Water Distribution

Units: 3

Presents advanced concepts of drinking water distribution, including water quality regulations, distribution system components, maps and records, and supervisory and management topics. Advanced water mathematics topics addressed include applied systems and pump hydraulics. Assists in the preparation for the California State Water Resources Control Board level D2, D3, and D4 Water Distribution Operator certification exams. Optional field trips may be offered.

Former Title:WATR 062, Advanced Water Distribution (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite:WATRI41 Water Distribution

WATR247

Advanced Water Treatment

Units: 3

Examines advanced topics in conventional drinking water treatment processes and disinfection, as well as non-conventional treatment processes. Assists in preparation for Grade T2 and T3 Water Treatment Operator certification examination given by the California State Water Resources Control Board, Division of Drinking Water Programs. Optional field trips may be offered.

Former Title:WATR 072, Advanced Water Treatment (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite:WATRI46 Water Treatment Fundamentals

WATR252

Advanced Wastewater Treatment

Units: 3

Presents advanced operating principles and techniques of conventional wastewater treatment. Also presents operating principles and techniques of advanced processes including activated sludge, disinfection, tertiary treatment and sludge handling. Successful completion provides student with 48 Certification for Wastewater Professionals (CWEA) contact hours and 8 State Water Resources Control Board (SWRCB) educational points. Prepares student for SWRCB Wastewater Treatment Plant Operator exam-Grades 1 through 5. Optional field trips may be offered.

Former Title: WATR 082, Advanced Wastewater Treatment (Fall 2023)

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: WATR151 Wastewater Treatment

WATR254

Advanced Water Treatment Operations

Units: 3

The advanced water treatment operations course presents the basic operating principles of advanced treatment processes used for potable water reuse. Processes such as membranes, ozone, biological activated carbon or biofiltration, and advanced oxidation are evaluated and discussed. Assists in preparation for the Advanced Water Treatment Operator (AWTO) certification examination given by the American Water Works Association (AWWA) and the California Water Environment Association (CWEA). Optional field trips may be offered.

Transferability: Transferable to CSU only

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 54 **Lab Hours:** 0

Requisites: Prerequisite: Any one of the following will satisfy the prerequisite for WATR254:

- 1) Proof of a passing grade for the SWRCB T2 Water Treatment certification exam
- 2) Possession of a valid SWRCB T2 (or Higher) Water Treatment certification
- 3) Proof of a passing grade for the SWRCB Grade 2 Wastewater Treatment certification exam
- 4) Possession of a valid SWRCB Grade 2 (or higher) Wastewater Treatment certification

NONCREDIT PROGRAMS

ADULT BASIC EDUCATION

Adult Basic Education/Adult Secondary Education Reading, COM

Certificate of Competency

The Certificate of Competency in ABE/ASE Reading is designed to prepare students for higher level reading skills used in high school courses, General Education Development (GED) Preparation, and college courses.

Program Rules: Adult Basic Education/Adult Secondary Education Reading, COM (hours 144 - 144)

The following number of hours

HSRDG093 Building Reading Skills 1 (hours 72 - 72)

HSRDG094 Building Reading Skills 2 (hours 72 - 72)

ADULTS WITH SPECIAL NEEDS

Effective Communication Skills, CC

Certificate of Completion

The Certificate of Completion in Communication Skills for Adults is designed to develop the foundational communication skills necessary for successful employment and continuing education.

Program Rules: Effective Communication Skills, CC (hours 240 - 240)

The following number of hours

WKPR002 Self-Advocacy (hours 60 - 60)

WKPR006 Communication Skills for Successful Employment (hours 60 - 60)

WKPR007 Social Skills and Necessary Etiquette (hours 60 - 60)

WKPR008 Building Critical Thinking Skills (hours 60 - 60)

Control Number: 36214

Employment Readiness, CC

Certificate of Completion

Provides courses designed to meet specific needs of students with intellectual and learning disabilities focusing on basic education and job skills. Provides certificate programs in educational and employment areas with opportunities to transfer to content courses or directly into the workforce.

Program Rules: Employment Readiness, CC (hours 180 - 180)

The following number of hours

- WKPR003 Getting Around Town (hours 60 - 60)
- WKPR004 Choosing the Right Employment Path (hours 60 - 60)
- WKPR005 Safety on the Job (hours 60 - 60)

Control Number: 36215

Technical Skills for Higher Learning, CC

Certificate of Completion

The Certificate of Completion in Technical Skills for Higher Learning is designed to provide students the necessary knowledge and technical skills for entry-level support employment and continuing education.

Program Rules: Technical Skills for Higher Learning, CC (hours 152 - 152)

The following number of hours

- WKPR009 Beginning Computers (hours 60 - 60)
- WKPR011 Introduction to Handling Money (hours 60 - 60)
- WKPR014 Basic Finances in the Workforce (hours 32 - 32)

Control Number: 36216

Transition to Higher Learning, CC

Certificate of Completion

The Certificate of Completion in Transition to Higher Learning is designed to give students with intellectual, developmental, and learning disabilities the necessary knowledge and skills to be successful in their college career and future employment. Students will become familiar with college rules and guidelines as well as demonstrate an ability to address and meet their needs.

Program Rules: Transition to Higher Learning, CC (hours 120 - 120)

The following number of hours

- WKPR001 Transition to Higher Learning (hours 0 - 0)
- WKPR002 Self-Advocacy (hours 60 - 60)

Control Number: 36217

Understanding and Supporting Employees with Disabilities, CC

Certificate of Completion

Designed for employers, the Certificate of Completion in Understanding and Supporting Employees with Disabilities provides strategies to create and maintain an inclusive, equitable, and compliant workplace successfully integrating employees with disabilities.

Program Rules: Understanding and Supporting Employees with Disabilities, CC (hours 80 - 80)

The following number of hours

- WKPR100 Understanding Employees with Disabilities in the Workplace (hours 40 - 40)
- WKPR101 Strategies for Working with Employees with Disabilities (hours 40 - 40)

Control Number: 36369

Office Leadership Skills, CC

Certificate of Completion

The Certificate of Completion in Office Leadership Skills is designed to give students the necessary knowledge and skills to support entry-level front office workers looking for a promotion. The program provides training in public speaking and beginning budgeting skills necessary for payroll services.

Program Rules: Office Leadership Skills, CC (hours 184 - 184)

The following number of hours

- WKPR002 Self-Advocacy (hours 60 - 60)
- WKPR007 Social Skills and Necessary Etiquette (hours 60 - 60)
- WKPR014 Basic Finances in the Workforce (hours 32 - 32)
- WKPR015 Public Communications (hours 32 - 32)

Control Number: 37803

Office Technology, CC

Certificate of Completion

The Certificate of Completion in Office Technology is designed to prepare students in acquiring or improving critical thinking, communication skills, and basic

online safety awareness necessary for employment.

Program Rules: Office Technology, CC (hours 120 - 120)

The following number of hours

- WKPR009 Beginning Computers (hours 60 - 60)
- WKPR018 Social Media and Online Safety in the Workplace (hours 60 - 60)

Control Number: 38399

Working with Students with Disabilities, CC

Certificate of Completion

This program provides students with classroom discussion about creating an inclusive classroom for students with disabilities by developing an understanding of different approaches in teaching. It also provides students with in-class strategies to help all students succeed.

Program Rules: Working with Students with Disabilities, CC (hours 80 - 80)

The following number of hours

- WKPR102 Understanding Students with Disabilities (hours 40 - 40)
- WKPR103 Strategies for Instructing Students with Disabilities (hours 40 - 40)

Control Number: 38400

Diversity in the Workforce, CC

Certificate of Completion

The Certificate of Completion in Diversity in the Workforce is designed to give students the necessary knowledge and skills to be successful in the workforce or for future employment. Students will become familiar with different cultures and their influence as well as demonstrate an ability to communicate with a diverse population.

Program Rules: Diversity in the Workforce, CC (hours 120 - 120)

All of the following

- WKPR019 Different Communication Styles in the Workforce (hours 60 - 60)
- WKPR020 Different Cultures in the Workplace (hours 60 - 60)

Control Number: 43227

Making Remote Employment Work for You, CC

Certificate of Completion

The Certificate of Completion in Making Remote Employment Work for You is designed to prepare students in acquiring or improving their soft skills and technology skills necessary for employment.

Program Rules: Making Remote Employment Work for You, CC (hours 80 - 80)

All of the following

- WKPR021 Introduction to Working Remotely (hours 40 - 40)
- WKPR022 Soft Skills Necessary for Employees Who Work Remotely (hours 40 - 40)

Control Number: 43259

Introduction to Artificial Intelligence (AI) in the Workforce, COM

Certificate of Completion

The Certificate of Completion in Introduction to Artificial Intelligence (AI) in the Workforce is designed to give students the basic knowledge and skills to be successful in the workforce or for future employment. Students will become familiar with AI and the applications that can support success in the workforce.

Program Rules: Introduction to Artificial Intelligence (AI) in the Workforce, COM (hours 80 - 80)

All of the following

Certificate Requirements: (hours 80 - 80)

All of the following

- WKPR023 Introduction to AI in the Workforce (hours 40 - 40)
- WKPR024 Introduction to Applications of AI in the Workforce (hours 40 - 40)

Control Number: 44233

CUSTODIAL TECHNICIAN

Custodial Technician, CC

Certificate of Completion

The Certificate of Completion in Custodial Technician is designed to give students the necessary knowledge and skills to hold a custodial technician position. Students will learn safety standards and basic training of hazard materials (HAZMAT) set by California's Occupational Safety and Health Administration (CAL-OSHA) and Department of Transportation (DOT).

Program Rules: Custodial Technician, CC (hours 96 - 96)

The following number of hours

VCST101 Custodial Technician (hours 60 - 60)

VCST102 Basic Hazmat Safety Standards (hours 36 - 36)

Control Number: 36900

ESL INTEGRATED

ESL for Citizenship, COM

Certificate of Competency

The Certificate of Competency in ESL for Citizenship enhances the English language skills of limited-English speaking students while preparing them for the United States Citizenship Exam and civic preparation.

Program Rules: ESL for Citizenship, COM (hours 168 - 360)

The following number of hours

ESL120 ESL for Citizenship (hours 72 - 144)

ESL303 Intermediate Low (hours 96 - 216)

Requisites: None

ESL260**Seminar for Intermediate ESL Students**

Provides instruction in intermediate English language skills (reading, writing, listening, speaking) on topics of concern to English as a Second Language students. Students will use teamwork and communication skills to enhance learning. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: ESL302 Beginning High

ESL270**Seminar for Advanced ESL Students**

Provides instruction in advanced English language skills (reading, writing, listening, speaking) and related digital literacy skills, on topics of value and importance to Advanced English as a Second Language students. Students will use teamwork, communication, critical thinking and creative thinking skills to enhance learning. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: ESL304 Intermediate High

ESL300**Literacy**

This is an ESL class for students who are not yet literate in English. Emphasizes communicative competence and basic functional language skills to meet immediate communication needs, including verbal and nonverbal strategies. Develops the ability of second language learners to recognize and read letters and numbers, and copy and produce the alphabet, numerals, and simple personal information. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: None

ESL301**Beginning Low**

For students with some literacy in English. Emphasizes language skills in everyday situations and immediate needs of adult English learners, focusing on listening comprehension and beginning oral production of simple conversations, reading of practiced words and phrases, and completing simple writing tasks in the context of school, work, and community. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL300 Literacy

ESL302**Beginning High**

Emphasizes comprehending and participating in simple conversations, communicating survival needs, and reading and performing written tasks in the context of college and career readiness and civic participation. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL301 Beginning Low

ESL303**Intermediate Low**

Emphasizes comprehending and participating in conversations, communicating needs and opinions, reading from academic and informational text, and performing written tasks. Exposes students to authentic spoken and written content to prepare students for college, the workplace, and civic participation. Five high school elective credits may be granted upon passing the course. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL302 Beginning High

ESL304**Intermediate High**

Emphasizes expanding oral language, critical and creative thinking skills in English, and reading comprehension of authentic academic and informational text. Written tasks focus on academic and workforce preparation, as well as increased community and civic participation. Five high school elective credits may be granted upon passing the course. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL303 Intermediate Low

ESL305**Advanced Low**

Emphasizes higher-level language skills, reading more complex passages with increased understanding, analysis, and improving academic and informational writing skills. Prepares students for academic and workforce success and civic participation. Five high school elective credits may be granted upon passing the course. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL304 Intermediate High

ESL306**Advanced High**

Prepares students for academic and workforce success and civic participation. Emphasizes high-level language skills, conversations that convey complex thought patterns, and reading and writing strategies. This course uses authentic academic, informational, and technical reading materials that expand the use of creative and critical thinking skills. Five high school elective credits may be granted upon passing the course. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL305 Advanced Low

ESL440

Beginning Multilevel

Provides instruction for students in various levels of beginning English proficiency. Emphasizes speaking, listening, reading, and writing English in familiar contexts. Recommended for students in Literacy, Beginning Low, and Beginning High ESL levels. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 216 **Lab Hours:** 0

Requisites: None

ESL500

Intermediate Multilevel

Provides instruction for students in various levels of intermediate English proficiency. Emphasizes creative oral language activities, introductory critical thinking skills, and academic writing tasks. Recommended for students in Intermediate Low and Intermediate High ESL levels. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 216 **Lab Hours:** 0

Requisites: Advisory: ESL302 Beginning High

ESL510

English for Work 1

Prepares beginning level, non-native English-speaking students to enter the workforce for general or specific occupations. Focuses on workplace communication, work-related vocabulary skills, job applications and postings, workplace safety and issues, and vocational readings with emphasis on verbal communication through basic language skills instruction. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: None

ESL520

English for Work 2

Prepares intermediate level non-native English speaking students to enter the workforce or a vocational program for general or specific occupations. Focuses on communicating in the workplace, job safety, work-related vocabulary skills, workplace culture/issues, career pathways, and vocational readings with an emphasis on verbal communication through intermediate language skills instruction. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL510 English for Work 1

ESL606

Computer Skills for ESL Students

Students will learn basic computer skills to assist their English language learning. Emphasizes vocabulary and terminology related to computers, basic typing and word processing, website navigation, Internet safety, and email. Students will also use various English language software programs to practice their English. The class is open to ESL students of all levels. Open Entry/Open Exit. Former Title: ESL 606, Interactive Language Training (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72-144 **Lab Hours:** 0

Requisites: None

ESL800

ESL for Healthcare Careers

Prepares intermediate and advanced-level ESL students with the language skills required to explore medical vocational programs in Career Education (such as Behavior Technician, Caregiver/Personal Care Aid, Lactation Educator Specialist, Nursing Assistant, and Medical Billing). Expand vocabulary and communicative ability to inquire about healthcare sector occupations. Comprehensive overview of the various pathways within the allied health field and certificate requirements. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 32 **Lab Hours:** 0

Requisites: Advisory: ESL303 Intermediate Low

ESL801

ESL for Patient Care Skills

Provides English language learners the foundation they need to succeed in CNA and Personal Caregiver programs. Covers medical vocabulary and common healthcare terms and concepts in English. Topics include understanding medical instructions, workplace communication, patients' rights, vital signs, body mechanics, patient care procedures, asepsis and sepsis, nutrition, and patient hygiene assistance. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 64-96 **Lab Hours:** 0

Requisites: Advisory: ESL303 Intermediate Low

ESL SPEAKING

ESL530

American English Pronunciation

Develops English language fluency and productive and receptive skills as they relate to sound discrimination, sound inventory, stress, intonation, linking, prominence, and rhythm. The course aims to help students understand English and be understood while functioning within communicative, employment, and academic contexts. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96-216 **Lab Hours:** 0

Requisites: Advisory: ESL302 Beginning High

ESL570

Conversation 1

Introduces intermediate conversational strategies in listening, language use, and non-verbal communication. Presents oral skills necessary for initiating, maintaining, and closing conversations. Emphasis on oral skills that assist in social encounters and expansion of listening and speaking skills. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72-144 **Lab Hours:** 0

Requisites: Advisory: ESL302 Beginning High

ESL580

Conversation 2

Introduces advanced conversational strategies in listening, language use, and nonverbal communication. Presents oral expressions necessary for enhancing conversation and listening skills. Emphasizes differences between formal and informal language based on attitudes and cultures in the United States. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72-144 **Lab Hours:** 0
Requisites: Advisory: ESL304 Intermediate High

ESL WRITING

ESL010

ESL Writing

Introduces non-native English speakers to an overview of the writing process including activities to improve student composition skills. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: ESL302 Beginning High

ESL601

Advanced Grammar and Writing

Emphasizes control of more advanced grammar structures in writing, with a focus on complex sentences, punctuation, verb tenses and forms, and word order. Writing instruction focuses on pre-collegiate skills: anticipating the needs and questions of readers, creating clear main ideas with strong support and development, using effective transition strategies, and learning to edit. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 96 **Lab Hours:** 0

Requisites: Advisory: ESL303 Intermediate Low

HIGH SCHOOL DIPLOMA/GED

HSART020

Literature Brought to Life

Provides students with critical reading, thinking, and writing skills through the study of literature. Literary samples include novels, poetry, short stories, and other selected works of literature. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Anti-Requisite: HSENG020 Literature Brought to Life

HSART070

Short Stories

Introduces the student to the short story as a literary form so that the student will learn how the individual elements work together to present a theme or effect. The student will study the development of the short story and will read selected short stories from various periods. (No credit if a student has taken HSENG 070.) Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Anti-Requisite: HSENG070 The Short Story

HSART828

Understanding America Through Art

Provides an overview of American civilization through arts and crafts from the colonial period through the 20th century, interpreting arts and crafts in their historical context. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSART837

The Film As Art

Traces the history of film from the recording of a single event through the silent film era to current classic films, and identifies the ways films reflect the values of American culture. Culminates in the use of classic and contemporary elements as a basis for modern film. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSART845

Drawing and Painting 1

Provides a beginning level studio course which introduces students to the world of visual art. Students will learn to draw and use a variety of materials and techniques to explore the elements of art and principles of design. Primary emphasis will be on drawing and creating works of art. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSART846

Drawing and Painting 2

Introduces students to visual arts with an emphasis on learning to paint and create original art works. Students will employ a wide variety of materials and techniques as they explore the elements of arts and principles of design. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSART845 Drawing and Painting I

HSENG020

Literature Brought to Life

Provides students with critical reading, thinking, and writing skills through the study of literature. Literary samples include novels, poetry, short stories, and other selected works of literature. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Anti-Requisite: HSART020 Literature Brought to Life

HSENG030

AP English 1A

Prepares students to take the Advanced Placement Examination. Colleges and universities give advanced placement and/or college credit based on the results of the AP examination. Areas of study include critical analysis of literature and writing assignments requiring focused practice in exposition, argument, personal narrative, and fictional or poetic forms. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG050

English Through Literature 11B

Provides students with the opportunity to study the literature of the United States from 1850-present. Language arts skills of reading, analysis, interpretation and writing are emphasized. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSENG063 English Through Literature I | A

HSENG051

English Through Literature 12B

Provides students with the opportunity to study some of the central works/authors in British and world literature. Language arts skills of reading, analysis, interpretation and writing are emphasized. MulOpen Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSENG064 English Through Literature I 2A

HSENG052

English Language Arts 1

Provides students with a basic introduction to composition writing. Emphasis is on improving sentence writing skills, including recognizing subject and predicate, proper writing mechanics, avoiding fragments and run-ons, and composing simple, compound, and complex sentences. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG053

English Language Arts 2

Expands the development of language arts skills through reading and actively responding to various works of literature. Presents concepts of English grammar, mechanics, and punctuation through a primary text and technology-enhanced instruction. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG063

English Through Literature 11A

Integrates language arts skills and reading analysis interpretation and writing through a literature-based curriculum. Survey course which allows the student an opportunity to study some of the central works in American literature. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: Tenth-grade English or equivalent

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG064

English Through Literature 12A

Integrates language arts skills and reading analysis interpretation and writing through world literature. This course allows the student to study some central works in world literature. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: Eleventh-grade English or equivalent

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG066

English Fundamentals 2

Introduces and reinforces the basic concepts of sentence structure, punctuation, grammar, parts of speech, and sentence writing skills. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG067

English Fundamentals 3

An intermediate English course that expands on parts of speech, grammar, punctuation, sentence patterns, and sentence skills to develop a student's writing ability. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG068

English Fundamentals 4

An advanced course in English grammar, parts of speech, punctuation, sentence patterns, and sentence skills to further develop a student's writing ability. Open Entry/Open Exit

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG070

The Short Story

Introduces the student to the short story as a literary form so that the student will learn how the individual elements work together to present a theme or effect. The student will study the development of the short story as a genre and will read selected short stories from various periods authors and cultures. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Anti-Requisite: HSART070 Short Stories

HSENG072

Poetry

Introduces poetry as a literary form. Examines the fundamentals of poetry through the reading of poetry from a variety of authors and periods. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG076

The Novel

Introduces the student to the novel as a genre and how the individual literary elements work together to present a central purpose. The student will study the elements of the novel and will utilize critical reading, thinking, and writing skills to analyze assigned readings. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG083

Composition 1

Provides instruction and practice in the communication of ideas in written form. Emphasis on mastery of sentence, paragraph, and essay skills including organization in terms of unity, support, and coherence. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG084

Composition 2

Provides instruction in writing a well-developed unified essay. Introduces students to practical writing skills and research methods. Meets the composition proficiency requirement. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSENG083 Composition 1

HSENG085

Composition 3

Prepares college bound students with advanced writing assignments that require in-depth research culminating in the production of expository and argumentative essays and a 1500 word-final argumentative research paper. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSENG084 Composition 2

HSENG086

College Preparatory Composition

Provides development of critical reading, academic writing, and academic research skills to prepare students for transfer level associate degree courses. Students will utilize the writing process in extended practice with expository and argumentative essays, will respond to academic reading, and will develop academic research skills and documentation techniques. Emphasis will be placed on refining writing in terms of grammar and sentence skills. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSENG083 Composition 1

HSENG098

Building Vocabulary 3

Provides practice in using context clues to develop vocabulary, including practice with synonyms, antonyms, and analogies. Builds reading comprehension skills and creates a strong vocabulary foundation that enables students to be better readers, writers, thinkers, and test-takers. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG201

Survey of English Level 1

Introduces students to the development of language arts skills through reading and active response to works of literature. Multi-media approaches are utilized. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG202

Survey of English Level 2

Expands the development of language arts skills through reading and active response to works of literature. Multi-media approaches are utilized. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG203

Survey of English Level 3

Explores the literature of the United States from the earliest English settlers to the present. Examines genres and characteristics of various literary movements. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSENG204

Survey of English Level 4

Integrates the language arts skills of reading, analysis, interpretation, and writing through literature. Examines central works in world and British literature. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSGED031

GED Test Preparation

Provides pre and post testing and individualized prescriptive instruction in preparation for the GED test. Covers test-taking strategies and the fundamentals of

social studies, mathematics, science, writing, and reading. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 360 **Lab Hours:** 0

Requisites: None

HSMTH101

Introduction to Calculus 1A

Prepares students to take the Mathematics Advanced Placement Examination. Colleges and universities may give advanced placement and/or college credit based on the results of the AP examination. Areas of study include: functions, limits, continuity, and derivative. The graphing calculator is used extensively in the course and on the AP examinations. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSMTH102

Introduction to Calculus 1B

Prepares students to take the Mathematics Advanced Placement Examination-BC level. Colleges and universities may give advanced placement and/or college credit based on the results of the AP examination. Areas of study include integrals and polynomial approximations. The graphing calculator is used extensively in the course and on the AP examinations. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSMTH103

Math Study Skills Support 1A

This course is designed to assist math students in developing positive attitudes, habits, and techniques in the areas of solving word problems, test-taking strategies, note taking, time management, study skills, strategies for utilizing math textbooks and coping with math anxiety. Open Entry/Open Exit. 1HS credit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSMTH104

Math Study Skills Support 1B

This course is designed to assist math students in applying positive attitudes, habits, and techniques in the areas of solving word problems, test-taking strategies, note taking, time management, study skills, strategies for utilizing math textbooks and coping with math anxiety. Open Entry/Open Exit. 1 HS credit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 15 **Lab Hours:** 0

Requisites: None

HSMTH120

Integrated Math 1A

Provides instruction in expressions and problem solving, solving linear equations, linear equations and inequalities, introduction to functions, exponential equations and functions, and sequences and modeling with functions. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSMTH121

Integrated Math 1B

Provides instruction in systems of equations, describing data, linear models for data, transformations, constructions and congruence, and analytic geometry. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH120 Integrated Math 1A

HSMTH122

Integrated Math 2A

Provides instruction in the number system, quadratic polynomials, factoring and solving quadratic equations, functions, quadratic functions and models, and conditional probability. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH121 Integrated Math 1B

HSMTH123

Integrated Math 2B

Provides instruction in geometric reasoning, area and volume, circles, right triangle trigonometry, and conic sections. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH122 Integrated Math 2A

HSMTH124

Integrated Math 3A

Provides instruction in polynomials beyond quadratics to graphing, problem solving, working with rational expressions, and statistical and probability tools, such as the standard normal distribution, to understand data. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH123 Integrated Math 2B

HSMTH125

Integrated Math 3B

Provides instruction in making inferences using simulations, experiments, and surveys. In geometry, students extend trigonometric concepts to general triangles, use trigonometric functions to model periodic processes, and use mathematical modeling by making use of well-developed skills with various mathematical tools. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH124 Integrated Math 3A

HSMTH154

Pre-Algebra A

Covers language, symbolism, and fundamental operations skills required to pre-

prepare students for success in Algebra I. Number and operation sense, estimation skills, and the ability to judge reasonableness of results will be strengthened in the context of practical applications and problem solving. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH159 Math Fundamentals 2

HSMTH155

Pre-Algebra B

Covers language, symbolism, and fundamental operations skills required to prepare students for success in Algebra I and Geometry. Data analysis, spatial thinking, and the ability to judge reasonableness of results will be strengthened in the context of practical applications and problem solving. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH154 Pre-Algebra A

HSMTH156

Essential Mathematics 1

Provides the student with practice in math skills that are applicable to everyday situations. Percents, graphs, proportions, and units of measurement are included. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: ABE009 Academic Skills AND Advisory: HSMTH159 Math Fundamentals 2

HSMTH157

Essential Mathematics 2

Provides the student with practice in basic computational skills of mathematics, algebra, and geometry. Practical applications are included. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH156 Essential Mathematics 1

HSMTH158

Math Fundamentals 1

Introduces students to basic math skills including whole numbers, fractions, and decimals. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSMTH159

Math Fundamentals 2

Provides instruction in the areas of decimals, percents, measurements, formulas, equations, ratios, and proportions. Provides learning activities that allow for remediation of difficulties and mastery of necessary skills. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Prerequisite: HSMTH158 Math Fundamentals 1

HSMTH161

Introduction to Trigonometry 1A

Study of the trigonometric functions, angles and the unit circle, equations and identities, graphs and applications. The graphing calculator is used extensively throughout the course. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSMTH163

Algebra 1A

Provides instruction in sets, numbers, formulas, monomials, exponents, square roots, the laws of the sign, binomials, and simultaneous equations. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH159 Math Fundamentals 2

HSMTH164

Algebra 1B

Provides instruction in coordinate systems; graphing of linear equations; simultaneous equations with fractions; ratios; proportions; factoring; formulas; inequalities and square roots. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH163 Algebra 1A

HSMTH165

Algebra 2A

Provides students with a course of study in: equations and inequalities; linear equations and functions; systems of linear equations and inequalities; matrices and determinants; quadratic functions; polynomials and polynomial functions; and powers, roots and radicals. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH164 Algebra 1B

HSMTH166

Algebra 2B

Provides students with a course of study that includes: exponential and logarithmic functions; rational equations and functions; quadratic relations and conic sections; sequences and series; probability and statistics; trigonometric ratios and functions; trigonometric graphs. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH165 Algebra 2A

HSMTH167

Geometry A

This course covers topics in basic geometry, reasoning and proofs, perpendicular and parallel lines, congruent triangles, properties of triangles, and quadrilaterals. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: Completion of ten (10) credits in algebra

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSMTH168

Geometry B

This course covers topics in transformations, similarity, right triangles, trigonometry, circles, areas of polygons and circles, surface area and volume. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH167 Geometry A

HSMTH176

College Preparation Algebra 1A

This course offers an introduction to basic algebra concepts, math vocabulary, and algebraic operations, linear equations, inequalities, system of linear equations, exponents and polynomials. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH159 Math Fundamentals 2

HSMTH177

College Preparation Algebra 1B

This course offers an introduction to basic algebra concepts, math vocabulary, algebraic operations, solutions and applications of first and second-degree equations, geometric concepts, graphs, rational expressions, and equations. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH176 College Preparation Algebra 1A

HSMTH180

Introduction to Trigonometry 1B

Extends the study of trigonometry, analytical geometry, functional analysis, and algebraic techniques needed in preparation for the study of calculus. The graphing calculator is used extensively throughout the course. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSMTH161 Introduction to Trigonometry 1A

HSOTH040

Introduction to Academic Pathways and Programs

Exploration of educational pathways with exposure to college resources and support services as students develop strategies for academic success. Information will be presented in academic format, and students will be required to demonstrate mastery through participation in student-centered, hands-on activities. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSOTH050

Basics of Leadership Part 1

Introduces applied leadership and self-development skills. Information will be presented in academic format, and students will be required to demonstrate mastery through participation in student-centered, hands-on activities. Open Entry/Open Exit. 2.5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

HSOTH153

Supervised Tutoring

Supervised one-to-one and small group tutoring in academic subject, for students enrolled at Rancho Santiago Community College District in courses(s) for which tutoring is requested. Exam review sessions offered in some areas. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSOTH202

Basics of Leadership Part 2

Introduces applied leadership and self-development skills. Information will be presented in academic format, and students will be required to demonstrate mastery through participation in student-centered, hands-on activities. Open Entry/Open Exit. 2.5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

HSOTH505

Spanish 2A

Further develops the student's control of the Spanish language through listening, speaking, reading, and writing activities with emphasis being placed upon listening and speaking. Develops the student's knowledge of cultural topics. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSOTH510

Spanish 2B

Further develops the student's control of the Spanish language through listening, speaking, reading, and writing activities with emphasis being placed upon listening and speaking. Develops the student's knowledge of cultural topics. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

**HSOTH513****Spanish 4A**

Provides instruction in listening, speaking, reading, and writing skills. Students will express themselves using an ever-increasing vocabulary, present- and past-tense verbs, articles, and adjectives. Grammar is practiced with a variety of learning styles in mind. Throughout the course, students experience the culture, people, geographical locations, and histories of the Spanish-speaking world. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSOTH514**Spanish 4B**

Provides instruction in listening, speaking, reading, and writing skills. Students will express themselves using an ever-increasing vocabulary, present- and past-tense verbs, articles, and adjectives. Grammar is practiced with a variety of learning styles in mind. Throughout the course, students experience the culture, people, geographical locations, and histories of the Spanish-speaking world. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSRDG089**Reading Proficiency Development**

Enables students to become proficient in practical, content, and reference skills as well as improve general comprehension and vocabulary skills. This course provides preparation for the reading proficiency examination. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSRDG090**Reading Improvement**

This course concentrates on two main approaches to improve reading skills: speed reading, which increases the number of words that can be read in a minute, and use of reading strategies to extract information from a text in the most effective way possible. Students will advance and adjust their individual reading rates appropriate to purpose. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSRDG093**Building Reading Skills 1**

Provides an opportunity for skill development in word recognition, comprehension, study and content reading skills which are necessary for success in the High School Subjects program. Computer-aided instruction is included. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSRDG094**Building Reading Skills 2**

Provides an opportunity for skill development in word recognition, general and inferential comprehension, critical thinking and content reading skills which are necessary for success in the High School Subjects program. Computer-aided instruction is included. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSS338**Workforce Preparation**

Provides instruction, exposure to career assessment tools, demonstration, identification, and discussion of topics that are critical for success in the 21st century workplace. Open Entry/Open Exit. 1 HS credit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 15 **Lab Hours:** 0

Requisites: None

HSS400**High School Equivalency Test Preparation**

Provides pre- and post-testing and individualized prescriptive instruction in preparation for a High School equivalency exam. Covers test-taking strategies and the essentials of reading, writing, mathematics, science, and social studies. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 180 **Lab Hours:** 0

Requisites: None

HSS401**High School Equivalency Test Preparation - Mathematics**

Provides pre- and post-testing and individualized prescriptive instruction in preparation for a High School equivalency exam. Covers test-taking strategies and the essentials of mathematics. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSS402**High School Equivalency Test Preparation - Writing**

Provides pre- and post-testing and individualized prescriptive instruction in preparation for a High School equivalency exam. Covers test-taking strategies and the essentials of writing. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSS403**High School Equivalency Test Preparation - Reading**

Provides pre- and post-testing and individualized prescriptive instruction in preparation for a High School equivalency exam. Covers test-taking strategies and the essentials of reading. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSS404

High School Equivalency Test Preparation - Science

Provides pre- and post-testing and individualized prescriptive instruction in preparation for a High School equivalency exam. Covers test-taking strategies and the essentials of science. Open Entry/Open Exit. 5 HS credits.

Transferability:

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSS405

High School Equivalency Test Preparation - Social Science

Provides pre- and post-testing and individualized prescriptive instruction in preparation for a High School equivalency exam. Covers test-taking strategies and the essentials of social studies. Open Entry/Open Exit. 5 HS credits.

Transferability:

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSS500

Orientation to High School and Online Learning

This course will transition students into our High School Program by familiarizing them with department and division resources. Also students will be introduced to online learning and testing. Open Entry/Open Exit. 2.0 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 30 **Lab Hours:** 0

Requisites: None

HSS770

Orientation to College

Introduces college services and programs. Identifies and explores programs and services designed to assist students entering college credit courses. Open Entry/Open Exit. 1.5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 8 **Lab Hours:** 0

Requisites: None

HSSCI100

Chemistry 1B

Extends the study of properties that can be used to identify matter and the techniques to measure those properties. Core topics include thermochemistry, gases, liquids and solids, solutions, chemical equilibrium, acids and bases, and organic chemistry. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSSCI184 Chemistry 1A

HSSCI168

Life Science 1

Surveys the principles and concepts of life science, including the study of organisms and their environment. Cells, plants, protists, heredity, and diversity of life will be examined. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSSCI169

Life Science 2

Surveys the principles and concepts of life science, including the study of animals, ecology, and the human body. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSSCI168 Life Science 1

HSSCI182

Physiology 1A

Develops an understanding of the structure and functions of the systems of the body and their relationships. Fundamental topics include structural and functional organization of the human body, cell physiology, integration of skeletal, muscular and nervous systems. Study of other organisms is included to complement an understanding of the human body. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSSCI183

Physiology 1B

Develops an understanding of the structure and function of the systems of the body and their relationships. Fundamental topics include structural and functional organization of the human circulatory, respiratory, digestive, excretory, endocrine, and reproductive systems. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: Advisory: HSSCI182 Physiology 1A

HSSCI184

Chemistry 1A

Presents the introduction to the study of properties that can be used to identify matter and the techniques to measure those properties. The process of science for obtaining and analyzing information will be stressed. Measurement and mathematics will be emphasized. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSSCI190

Physical Science 1

Surveys the principles and concepts of physical science, including matter, atoms, chemical bonds and reactions, solutions, acids and bases, and carbon chemistry. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSCI191

Physical Science 2

Surveys the principles and concepts of physical science including motion, force, work, energy, waves, light, and sound, electricity, and magnetism. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: Advisory: HSSCI190 Physical Science I

HSSCI192

Basic Science 1

Surveys basic principles and concepts of general science including Earth, space, and physical science. Examines minerals, rocks, the atmosphere, weather, climate, and the earth in space. Discusses properties and classes of matter, Newton's Laws of Motion, energy and energy resources. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSCI193

Basic Science 2

Surveys principles and concepts of life and ecological science. Examines life structure and classification, cellular processes, heredity, evolution, body systems, plants, ecology, and conserving resources. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSCI196

Health Science

Provides a basic foundation in personal health, nutrition, body functions, first aid and community health. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSOC215

Introduction to Economics

Introduces the basic concepts of economics. Explores the basic questions of every economic system. Examines money, the role of consumers, workers, businesses, and governments. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSOC216

World Cultures 1A

A general survey of world history and culture from the fourteenth century Italian Renaissance to the nineteenth century and the Industrial Age. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSOC217

World Cultures 1B

A general survey of world history and culture from World War I to the present including modern industrialization and globalization. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSOC218

U.S. History 1: Colonization to Industrialization

Surveys events, movements, and personalities in United States history from the colonial period through reconstruction, westward expansion, and industrialization. Includes immigration, plight of Native and African Americans, reform movements, and geographical influences in the history of the United States. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSOC219

U.S. History 2: The Shaping of Modern America

Examines United States history from the beginning of industrialization to present. Emphasizes the emergence of America on the international, economic, geographical, social, and political scene. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: Advisory: HSSOC218 U.S. History I: Colonization to Industrialization

HSSOC222

Government 1: United States Federal Government and Politics

Examines the development of the federal government from colonial times and the structure of contemporary government. Explores the economic, social, and political influence on American citizens and their civic duties and responsibilities. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

HSSOC229

World History, Geography, and Culture 1

Presents various historical time periods that shape the world events. Begins with the foundations of civilization and continues on to the Industrial Age. Open

Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

HSSOC230

World History, Geography, and Culture 2

Relates the human story by reviewing perspectives on specific historical events in the context of a broad world view. The historical time frame begins with World War I and continues through to the present including modern industrialization and globalization. Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

MATHCE100

Math Study Skills and Basic Skills Support

This course is designed to assist math students in developing positive attitudes, habits, and techniques including areas of problem-solving, test-taking strategies, study skills, time management, mindset, coping with math anxiety, and basic skills needed to be successful in a math course. This course is designed to assist math students to develop positive attitudes, habits, and techniques in application to their current credit math course. Includes areas of problem-solving, test-taking strategies, study skills, time management, mindset, coping with math anxiety, and basic skills needed to be successful in a math course. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 100 **Lab Hours:** 0

Requisites: None

MATHCE206

College Preparation Essential Mathematics

This course includes operations of whole numbers, fractions, decimals, integers and working with percentages, ratio, proportion, measurement, mensuration geometry, basic algebra and applied word problems. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 144 **Lab Hours:** 0

Requisites: None

MATHCE255

College Preparation Algebra

This course includes an introduction to basic algebra concepts, properties of real numbers, factoring, exponents and radicals, solving and graphing linear equations, polynomials and rational algebraic expressions, and linear systems of equations, solving quadratic equations and applications. Open Entry/Open Exit. 10 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 144 **Lab Hours:** 0

Requisites: Advisory: HSMTH159 Math Fundamentals 2

MUSCE126

Chorale Music

Provides a beginning level studio course which introduces students to the world of chorale singing. Students will learn to rehearse and perform a variety of music, including classical, folk tunes, and songs from Broadway musicals. Each semester

requires performance of a variety of new repertoire. Field trips are required.

Open Entry/Open Exit. 5 HS credits.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

GERENTOLOGY

OAP200

Health and Wellness

Provides information and discussion related to current and relevant health and wellness topics. Students will research techniques, decision making, and communication skills to enhance learning. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

OAP202

Healthy Aging and Wellness for Older Adults

This course is designed to discuss the nutritional requirements and dietary needs of people in the advancing years. Topics to be addressed include relevant symptoms of aging, common age-related illnesses due to poor nutrition, tips for healthy aging, diet, and lifestyle.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP204

Joint Health and Mobility for Older Adults

This course provides information on the risk factors and effects of joint injuries and joint health issues with aging. There is also a focus on how joint and mobility training helps promote health, safety, and vitality in older adults. Information on the prevention of joint injuries and demonstrations of fitness exercises to maintain and improve joint health.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP205

Strength and Stamina for Older Adults

This course is to provide discussion and appropriate fitness exercises for older adults to maintain or improve their health and wellness. The appropriate fitness exercises are focused on muscle strengthening, flexibility, cardiovascular endurance, balance, and mobility. Also, principles of basic anatomy and physiology will be discussed through lectures.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP456

Movies and Music for Older Adults

This course will explore the beginnings, development and role that music plays in the film industry.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP457

Music Arts for Older Adults

Provides a positive framework for developing and enhancing music appreciation, vocal and instrumental skills. Emphasis will be on activities designed to encourage creative expression. Open Entry/Open Exit.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP458

History of Rock and Roll for Older Adults

This course provides an opportunity for adults to discover the history, development and prominent artists in the rock and roll industry.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP460

Music Appreciation for Older Adults

This course provides an opportunity for adults to survey the development and styles of music through history.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP461

World Music for Older Adults

This course provides adults with an opportunity to create a global perspective of how people from different countries express music to reflect their culture and national identity.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP462

Basic Music Theory: How Music Works for Older Adults

This course explores the basic building blocks of music and examines the sights, sounds, and impact that music has on the person. Topic to be addressed include pitch, notation, rhythm, melody, harmony, ear training, scales and triads.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP518

Creative Cooking for Older Adults

Enhances awareness of current cooking techniques, basic nutrition, and consumer awareness. A variety of cooking appliances and methods are utilized. Open Entry/Open Exit.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

OAP519

Nutrition for Older Adults to Preserve Brain Function & Promote Health

Provides information and discussion related to current and relevant nutrition research on nutrients that preserve, and support brain health and overall wellness topics are covered. Students research cooking and food storage techniques that enhance the bioavailability of these nutrients in foods.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP520

Sustainable Cooking in the Southwest & Selected Geographical Regions for Older Adults

Provides information and discussion related to sustainable agriculture, basic nutrient management, and exploration of the local community food systems. Students research shopping, cooking, and food storage techniques that support a sustainable diet in selected geographical regions.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 36-72 **Lab Hours:** 0
Requisites: None

OAP800

Introduction to Keyboarding, Basic Windows and Navigating the Internet

Provides introductory instruction for keyboarding by touch and learning MS Windows. Introduces students to Windows: navigation, views, commands, file management, desktop customization and simple Accessory programs. Introduces students to the Internet. Topics include types of Internet connections, research and data retrieval techniques, and e-mail. Open Entry/Open Exit.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

OAP802

Seminar for Older Adults

Provides information and a discussion forum related to the examination of concerns common to older adults. Discovers specific needs and interests and examines current news events as interpreted through historical background and current political/regional developments and changes. Open Entry/Open Exit.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 72 **Lab Hours:** 0
Requisites: None

OAP803

Explore World Heritage Sites for Older Adults

The course explores where each world heritage site is located and its physical characteristics, including location, significant meaning, and historical and cultural background to help students better understand and expand the general knowledge the famous places in the world.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP804

Top Inventors of all Times for Older Adults

The course is to provide information and a discussion forum about the world of invention and innovation. The lecture explains the inventor's stories of what motivated the individuals to invent, process of invention, and any obstacles that might have come up. Also, the course is to examine the impacts of invention and innovation on society.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP823

Manipulative Skills for Older Adults

Concentrates on improvement of motor skills and decision making through utilization of a variety of art media and techniques. Provides opportunities for analysis and decision making skills while exercising basic manipulative skills. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

OAP824

Beginning Crochet for Older Adults

Concentrates on improvement of motor skills and decision making through utilization of crochet techniques. Provides opportunities for analysis and decision-making skills while learning about materials, terminology, and history associated with beginning crochet.

Transferability:

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP825

Beginning Acrylic Painting for Older Adults

Concentrates on improvement of motor skills and decision making through utilization of acrylic painting techniques. Provides opportunities for analysis and decision-making skills while learning about materials, terminology, and history associated with beginning acrylic painting .

Transferability:

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP826

Beginning Watercolor Painting for Older Adults

Concentrates on improvement of motor skills and decision making through utilization of watercolor painting techniques. Provides opportunities for analysis and decision-making skills while learning about materials, terminology, and history associated with beginning watercolor painting .

Transferability:

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP827

Introduction to Arts and Crafts for Older Adults

Concentrates on improvement of motor skills and decision making through utilization of craft techniques. Provides opportunities for analysis and decision-making skills while learning about materials, terminology, and history associated with crafts.

Transferability:

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP828

Beginning Quilting for Older Adults

Concentrates on improvement of motor skills and decision making through utilization of quilting techniques. Provides opportunities for analysis and decision-making skills while learning about materials, terminology, and history associated with beginning quilting.

Transferability:

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

OAP829

Hand Embroidery

Concentrates on improvement of motor skills and decision making through utilization of a variety of hand embroidery and art media techniques. Provides opportunities for analysis and decision-making skills while exercising basic manipulative skills.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36-72 **Lab Hours:** 0

Requisites: None

CHILD DEVELOPMENT/EARLY CARE EDUCATION

PRNT532

Effective Parenting

Provides parents with an overview of child development milestones. Includes varied strategies for problem solving, effective communication, positive discipline and child-centered activities. Raises awareness of substance abuse, gangs, suicide, and peer pressure. Encourages parents to take an active role to ensure the academic success, health and safety, and social well-being of their children. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 27 **Lab Hours:** 0

Requisites: None

PRNT544

Preparation for Childbirth

Provides prospective parents with information regarding the intellectual, physical, and emotional components of the birth process. Emphasizes exercise techniques for relaxation, labor, birth, and post-natal care. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

HEALTH EDUCATION

SAFE877

Health Issues & Concepts

Provides a basic foundation in the following health topics: mental, family, and social health; the stages of the life cycle; medicine and drugs; diseases and disorders. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 72 **Lab Hours:** 0

Requisites: None

SAFE898

Substance Abuse

Provides instruction and discussion on the following components: addictive substances, physiology of addiction, stages of addiction, coping strategies, family systems, cognitive/behavioral principles, family relationships, and relapse prevention. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Requisites: None

LEARNING SKILLS HANDICAP

SSD200

Issues and Concepts for Adults With Developmental Disabilities

Provides information related to topics of everyday interest and importance to adults with developmental disabilities. Examines issues of relevance and provides a forum for discussion and exploration of various topics, such as current events, cultural awareness and health. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 100 **Lab Hours:** 0

Requisites: None

SSD787

Employment Preparation for Adults with Developmental Disabilities

Assists adults with developmental disabilities attain a higher functional level for the purpose of employment. Teaches skills necessary to establish and maintain productive interpersonal relationships, social interaction, and etiquette related to home, community, and vocational settings. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 100 **Lab Hours:** 0

Requisites: None

SSD788

Independent Living Skills for Adults with Developmental Disabilities

Assists adults with developmental disabilities attain a higher functional level for independent living in these areas: health and nutrition, personal appearance, communication, manners, money management, safety and consumer awareness, transportation, social interaction, and practical reading, writing and math skills related to home and community settings. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 100 **Lab Hours:** 0

Requisites: None

SSD793

Physical Activities for Adults with Developmental Disabilities

Assists adults with developmental disabilities acquire the skills necessary to maximize physical capabilities through physical activities tailored to their abilities. Students will be guided through independent and group activities to develop fitness awareness. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 100 **Lab Hours:** 0

Requisites: None

OFFICE TECHNOLOGY/ COMPUTER APPLICATIONS

VBUS010

Adobe Dreamweaver

Provides introductory instruction on Adobe Dreamweaver, one of the industry's leading web authoring tools. Students will learn how to create, publish, manage, and maintain a website. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS012

Workforce Readiness

Provides instruction in office skills for employment preparation. Students will learn communication, decision-making, interpersonal, leadership, lifelong learning, and job seeking skills. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS013

MS Outlook

Provides introductory instruction on Microsoft Outlook, one of the industry's leading personal data management applications. Students will learn how to better

manage their electronic communications, schedules, tasks, and contact information using Outlook's E-mail, Calendar, Task, and Contact components. Open Entry/Open Exit.

Former title: Introduction to Personal Management using Microsoft Outlook (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS014

Social Media

Provides introductory instruction on how to incorporate social networks and mobile technology in a business environment utilizing applications and tools such as Instagram, LinkedIn, Facebook, Twitter, wikis, blogs, Pinterest, Snapchat, and YouTube. Open Entry/Open Exit.

Former Title: Introduction to Mobile and Social Media Tools (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS1030

Home-Based Business

This course provides an overview of the process of planning, launching, and operating a home-based business. Students will learn to distinguish between the various forms of home-based businesses and explain how they can be supported by business models. Open Entry/Open Exit.

Former Title: How to Build a Home-Based Business (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS035

Generative AI for Small Business

Introductory course on how to employ generative artificial intelligence (GenAI) tools for a small business. Applies use cases for using AI in small businesses, including research, creating tables and schedules, generating images for logos, conducting a SWOT (strengths, weaknesses, opportunities, and threats) analysis, and developing a business plan with the assistance of GenAI tools. Open entry / open exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS040

Accounting for Non-Accountants

Designed for those who may be interested in building a home-based business, this course introduces general accounting principles, including basic terminology, processes, and an overview of financial statements. An emphasis is placed on utilizing accounting methods to generate and interpret financial information in real-life situations to make managerial and financial decisions. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS096

Digital Photography

Provides introductory instruction on using digital still and digital video cameras. Introduces students to camera selection, basic features, compositional guidelines, how to transfer files from the camera to the computer, basic image editing, use of photos/videos in common applications, and output options. This course is designed to be taken independently or concurrently with courses, such as Adobe Photoshop or Premiere. Open Entry / Open Exit.

Former Title: Introduction to Use of Digital Cameras and Photography (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS097

eCommerce

Provides introductory instruction to online commerce on the Internet. Platforms include eBay, Amazon, Etsy, and Shopify. Topics include privacy and security issues, searching techniques, auction bidding, secure payment methods, selling techniques, and protecting consumer rights. Open Entry / Open Exit.

Former Title: Introduction to Personal Commerce on the Internet (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS101

3D Modeling using Blender

Provides introductory instruction on 3D modeling and basic animation using Blender software. Introduces students to Blender's interface, 3D space, animation and modeling features, surfaces, and textures, and uses. Open Entry / Open Exit.

Former Title: Introduction to 3D Modeling using Blender (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory: VBUS119 Keyboarding and Basic Windows

VBUS102

Adobe InDesign

Provides introductory instruction on desktop publishing using Adobe InDesign. Introduces students to navigation of InDesign's work area, document setup, placement of text and graphics within frames, styles, color and transparency features, and how to export and print professional-quality InDesign files. Open Entry / Open Exit.

Former Title: Introduction to Adobe InDesign (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory: VBUS119 Keyboarding and Basic Windows

VBUS103

MS Project

Provides introductory instruction on the use of Microsoft Office Project software. Students will learn how to set up a project, manage project files, create a task list, schedule tasks, view a schedule, define and assign resources and costs, track a project, analyze progress, and revise a schedule. Open Entry / Open Exit.

Former Title: Introduction to MS Project (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS105

3D Animation using Blender

Provides introductory instruction for creating short 3D animations using Blender software for viewing on the Internet or in other multimedia formats. Students learn to create animations using Blender's tools and timeline, e.g., trajectory, lighting, bones, and movements. Students will gain an understanding of the basics needed to succeed as an animator. Open Entry / Open Exit.

Former Title: Introduction to 3D Animation using Blender (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS107

Seminar in Adobe Tools

Explores and provides instruction in evolving Creative Cloud applications for the personal computer such as design, web, and video/audio tools. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS109

Adobe Premiere Video Editing

Provides introductory instruction on desktop digital video production and editing using industry-standard software. Includes capturing, importing, assembling, and editing video, audio, and still images. Open Entry / Open Exit.

Former Title: Introduction to Desktop Video Editing using Adobe Premiere (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS117

Adobe Acrobat

Introduces students to portable document formats created with Adobe Acrobat. Students learn how to convert simple and complex documents to PDF files; navigate, edit, and annotate PDF files; and distribute PDF files via the Internet. Open Entry / Open Exit.

Former Title: Introduction to Document Processing using Adobe Acrobat (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 30 **Lab Hours:** 0

Requisites: None

VBUS118

Microsoft Windows Overview

Provides introductory instruction for learning MS Windows. Introduces students to Windows: navigation, views, commands, file management, desktop customization, Help, and other Windows programs; for example, address book and electronic communications. Open Entry/Open Exit.

Former Title: Introduction to Windows (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS119

Keyboarding and Basic Windows

Provides introductory instruction for keyboarding by touch and learning MS Windows. Introduces students to Windows: navigation, views, commands, file management, desktop customization, and simple Accessory programs, such as WordPad, Character Map, Calculator, and Paint. Scanning and working with simple graphics is also explored. This course or Introduction to Windows is highly recommended prior to taking other courses taught within the Windows environment. Open Entry / Open Exit.

Former Title: Introduction to Keyboarding and Basic Windows (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS120

Adobe Animate

Provides introductory instruction for creating short Adobe Animate movies for viewing on the Internet or for viewing in other multimedia formats. Students learn to create animations using Animate's drawing tools, layers, and timeline. Students also are given an opportunity to explore Animate's libraries, preview movies, save, and publish Animate's documents. Open Entry / Open Exit.

Former Title: Introduction to Animations using Adobe Animate (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS121

Computer Applications Basics

Provides individual skill-building assistance on industry-standard computer applications, e.g. Web, MS Office, Adobe Creative Suite/Cloud, and Multi-Media applications. Open Entry / Open Exit.

Former Title: Introduction to Computer Software Applications (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS130

3D Printing

This course is designed to teach students how to use a 3D printer and the technology behind it. Students will learn about the different plastic filaments that are used and how to feed them into the printer for optimal performance. Students will also learn about various components of the printer, calibration techniques, software, and design methods. An emphasis is placed on familiarizing students with the use of 3D printing in the areas of personal applications, engineering, design, manufacturing, and possible future applications of this exciting technology. Open Entry/Open Exit.

Former Title: Introduction to 3D Printing (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS140

Google Applications

This course provides an overview of Google Applications, a collection of cloud computing, productivity, and collaboration tools, with an emphasis on their use of effective workplace communication. Applications covered include Google Documents, Sheets, Slides, Drive, and Forms. Open Entry / Open Exit.
Former Title: Introduction to Google Applications for Work (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS150

Digital Marketing

This course is an introduction to the use of digital marketing methods to research market conditions in local, regional, or national areas, and to gather information to determine potential sales of a product or service. Students will learn how to use marketing tools to gather and analyze information on competitors, prices, and sales. Open entry / Open exit.
Former Title: Introduction to Digital Marketing (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS152

Digital Marketing Analytics

This course is an introduction to the theory and practice of digital marketing analytics. Students will explore the theory of web analytics and how they are used in real-world business situations. An emphasis is placed on identifying the appropriate analytics tools to collect, analyze, and visualize data from the web, using that data to make decisions that impact an organization, its stakeholders, and its customers. Open entry / Open exit.
Former Title: Introduction to Digital Marketing Analytics (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS150 Digital Marketing

VBUS160

Financial Services and Investments

Provides an introduction to financial services with an emphasis on the Securities Industry Essentials (SIE) exam. Topics include: 401(k), IRA, Stocks, Mutual Funds, Bonds, Precious Metals, Bank Accounts, and Cryptocurrencies (such as Bitcoin). The roles of financial advisors, bankers, and other financial services personnel will be explained. Open entry / Open exit.
Former Title: Introduction to Financial Services and Investments (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS161

Bitcoin and Digital Assets

Provides an introduction to Bitcoin and other digital assets. An emphasis is placed on how they work, how they are obtained, and how to incorporate them into an investment plan. Open entry / Open exit.
Former Title: Introduction to Bitcoin and Digital Assets (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

224 / Non-Credit Programs

VBUS242

Adobe Illustrator

Provides introductory instruction in computer graphics and design. Includes basic design concepts, use of illustration tools, and modification of art work and text layout. Open entry / Open exit.
Former Title: Introduction to Vector Graphics using Adobe Illustrator (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS119 Keyboarding and Basic Windows

VBUS257

Seminar in Business Applications

Explores and provides instruction in evolving standard software applications commonly used in business. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VBUS258

Navigating the Internet

Introduces students to the Internet. Topics include types of Internet connections, e-mail, research, and data retrieval techniques. Open entry / Open exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

VBUS260

Introduction to Word Processing using MS Word

This course provides instruction in concepts and techniques of Microsoft Word. Students will learn procedures of creating, editing, and formatting office/business documents of varying complexities. They will create business letters and tables, use mail merge, illustrate documents with graphics, and more. A passing grade may be awarded if a student completes and passes all the required assignments and final exam. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS119 Keyboarding and Basic Windows

VBUS261

MS Access

Provides instruction in basic concepts addressing typical database objects, including tables, queries, forms, and reports with MS Access software. Open entry/ Open exit

Former Title: Introduction to Databases using MS Access (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS119 Keyboarding and Basic Windows

VBUS262

MS Excel

Provides students with instruction to spreadsheet concepts and software using Microsoft Office Excel. Students will learn how to create a worksheet, use formulas and functions, insert charts and tables, and more. Open entry / Open exit

Former Title: Introduction to Spreadsheets using MS Excel (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS119 Keyboarding and Basic Windows

VBUS302

HTML Basics

Provides introductory instruction to web page development. Topics include web page design elements: HTML; graphic images, movie and sound formats; and testing pages on cross platforms. Open Entry/Open Exit.

Former Title: Introduction to Web Page Development using HTML Basics (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS119 Keyboarding and Basic Windows

VBUS303

Adobe Photoshop

Provides introductory instruction to electronic imaging using Adobe Photoshop software. Topics include beginning Photoshop features, scanner basics, image and file formats, color, importing/exporting of files, and printing. Open entry / Open exit.

Former Title: Introduction to Electronic Imaging using Adobe Photoshop (Fall 2023)

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS119 Keyboarding and Basic Windows

VBUS304

MS PowerPoint

Provides students with instruction on how to use PowerPoint features (e.g., templates, layouts, pictures, graphics, animation, multi-media assets) to create engaging presentations. Students will also discuss best practices for using PowerPoint as a visual aid for any presentation. Open entry / Open exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: Advisory:VBUS119 Keyboarding and Basic Windows

VDOG020

Concepts in Dog Training

Provides an introduction to basic concepts of dog training, including proper techniques to socialize shelter dogs for placement in private homes. Emphasizes techniques for training animals to perform specific tasks or improve obedience.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 20 **Lab Hours:** 0

Requisites: None

VDOG030

Practical Dog Training

Applies the concepts of dog training to the actual training of a shelter dog preparing it for adoption in a family home.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 160 **Lab Hours:** 0

Requisites: None

VFOTO100

How to Fly a Drone

This course will provide the student with introductory instruction and the opportunity for hands-on training to learn to fly a drone, as well as prepare to study for the Federal Aviation Administration 14 CFR Part 107 certification exam which is required for anyone desiring to fly drones for commercial purposes, or for the Recreational UAS Safety Test (TRUST) exam for recreational flyers.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VFOTO101

Drone Photography and Video

Course will cover basics of drone photography and video production - from the capture standpoint as it relates to drone imaging as well as important camera settings for capturing great images, and aircraft settings for enabling smooth cinematic movement for videography. Students will also learn the basics of digital asset management and editing of drone still images and video using Adobe Lightroom, Photoshop, and Premiere.

Transferability: Not transferable

Fundamentals of Cabinetry/Furniture Refinishing, Pre-Apprentice

Provides instruction in basic cabinetry/furniture construction, refinishing and repair with an emphasis on the use of hand and power tools.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 180 **Lab Hours:** 0

Requisites: Advisory:VCNST859 Introduction to Cabinetry/Furniture Refinishing Pre-Apprentice

CUSTODIAL TECHNICIAN

VCST101

Custodial Technician

Prepares students for employment in custodial services. This course provides essential training for custodial work in a private and public facility. Students will learn safety standards set by California's Occupational Safety and Health Administration (Cal-OSHA), proper usage and maintenance of tools, and general

maintenance procedures. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 60 **Lab Hours:** 0

Requisites: None

VCST102

Basic Hazmat Safety Standards

Prepares students for basic training of hazardous materials. Topics include labeling, packaging, identifying and handling of hazardous materials. Students will learn basic Department Of Transportation (DOT) HAZMAT safety standards set by California's Occupational Safety and Health Administration (Cal-OSHA). Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: Advisory:VCST101 Custodial Technician

FOOD PROCESSING & RELATED TECHNOLOGY

VFOOD005

Food Handler Test Preparation

This course prepares students for employment in commercial and institutional food kitchens. Includes employee terminology, responsibilities, and training when preparing, handling, and serving food to the public. The course covers six key areas; basic food safety, good personal hygiene, controlling time and temperature, preventing cross-contamination, cleaning and sanitizing, and detailed food industry safety guidelines. Prepares the students for ServSafe Food Handler Certification. Open Entry/Open Exit.

Transferability: Not transferable

Entrance Skills: None

Limitations of Enrollment: None

Lecture Hours: 36 **Lab Hours:** 0

Requisites: None

VFOOD010

Food Service Manager Test Preparation

Prepares students for employment in commercial and institutional food kitchens. Topics include an introduction to basic food service administration, personal hygiene and food safety/sanitation, storage, terminology, equipment, food service math and science, nutrition, procedures, and employment preparation. Prepares students for the ServSafe® Food Protection Manager Certification. Open Entry/Open Exit.

VOCATIONAL MEDICAL

VMED010

Overview of the Nursing Assistant Training Program

This course is designed to provide an introduction to the clinical and theoretical requirements for the Certified Nursing Assistant (CNA) Training Program. All students enrolled in this class participate in CPR education/simulation. Students have the option to obtain their CPR certification from another provider, should they choose to do so.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 10 **Lab Hours:** 0
Requisites: None

VMED011

Certified Nursing Assistant (CNA) Training

Designed for students who want to become Certified Nursing Assistants (CNA), this course includes theory and clinical segments designed to prepare them to complete the CNA certification and potentially seek employment as entry-level healthcare assistants. Upon completion, the student will be prepared to take the California certification exam. Students must complete all lecture hours and clinical training hours to be eligible to take the certification exam.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 240 **Lab Hours:** 0
Requisites: Advisory:VMED010 Overview of the Nursing Assistant Training Program

VMED020

Overview of the Medical Assistant Training Program

Designed for students interested in becoming medical assistants, this course provides an overview of the areas of study in the medical assistant training program, including medical terminology, body systems, human diseases, clinical procedures, microbiology and surgical assisting. An emphasis is placed on the required course-work to take the exam to become a Registered Medical Assistant (RMA).

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 10 **Lab Hours:** 0
Requisites: None

VMED021

Medical Terminology for Medical Assistants

Designed for students interested in becoming medical assistants, this course is an introduction to medical terminology, including the techniques of medical word building using basic word elements. Topics include: major suffixes in the surgical, diagnostic, symptomatic groups and related suffixes; suffixes denoting adjective, noun, singular and plural forms of medical words; major prefixes denoting position, number and measurement, negation, direction and anatomical, physiological and pathological terms.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 60 **Lab Hours:** 0
Requisites: Advisory:VMED020 Overview of the Medical Assistant Training Program

VMED022

Business Procedures for Medical Assistants

Designed for students interested in becoming medical assistants, this course covers the role of communications, ethics, health insurance, pharmacology, book-keeping/records, office management, personal organization (supplies, equipment use and maintenance, mail/postage), ergonomics, and safety factors.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 180 **Lab Hours:** 0
Requisites: Advisory:VMED020 Overview of the Medical Assistant Training Program

VMED023

Body Systems for Medical Assistants

Designed for students interested in becoming medical assistants, this course covers the systems of the human body. Students will learn about cell structure and special senses, the endocrine system, the skeletal system, the muscular system, the integumentary system, the circulatory system, the respiratory system, the nervous system, the digestive system, the urinary and the reproductive systems.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 60 **Lab Hours:** 0
Requisites: Advisory:VMED020 Overview of the Medical Assistant Training Program

VMED024

Human Diseases and Disorders for Medical Assistants

Designed for students interested in becoming medical assistants, this course is an overview of human diseases. It covers pathology and oncology, diseases of the eyes/ears, skeletal system diseases and disorders, muscular system diseases and disorders, endocrine diseases and disorders, skin diseases, diseases of the blood and immune systems, respiratory diseases and disorders, neurological disorders, gastrointestinal disorders, diseases of the urinary system and disorders of the reproductive systems.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 60 **Lab Hours:** 0
Requisites: Advisory:VMED020 Overview of the Medical Assistant Training Program

VMED025

Clinical Procedures for Medical Assistants

Designed for students interested in becoming medical assistants, this course provides an introduction to clinical procedures. Students will learn how to perform the following procedures: complete physical examinations (CPX), eye and ear lavages, bandaging and wound care, handling emergencies using mobility assisting devices, electrocardiography and mounting the results record, cardiopulmonary resuscitation (CPR), pulmonary function tests, hemoglobin and glucose testing, and taking throat cultures. Students will also learn how to use clinical charting abbreviations, universal precautions and sterile techniques, assist with pap and pelvic examinations, perform pregnancy tests, set up rectal trays, assist with pediatrics, and prepare special diets.

Transferability: Not transferable
Entrance Skills: None
Limitations of Enrollment: None
Lecture Hours: 120 **Lab Hours:** 0

APPRENTICESHIP PROGRAMS

Apprenticeship Carpentry, Acoustical Installer, AS A.S. Degree Major

The Associate of Science degree in Apprenticeship Carpentry, Acoustical Installer provides the required related and supplemental instruction for interior systems apprentices in the technical skills required in the trade. Successful completion may result in journeyworker status. Interested apprentices should contact the Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Program Rules: Apprenticeship Carpentry, Acoustical Installer, AS (units 25.5 - 26)

All of the following

Major requirements: (units 19.5 - 19.5)

The following number of units

ACA061A Acoustical Ceilings (units 1.5 - 1.5)

ACA062 Standard Acoustical Grids (units 1.5 - 1.5)

ACA063 Suspended Ceilings (units 1.5 - 1.5)

ACA064 Acoustical Soffits (units 1.5 - 1.5)

ACA066 Concealed/Glue-Up/Staple-Up Systems (units 1.5 - 1.5)

ACA067 Designer and Specialty Trims (units 1.5 - 1.5)

ACA068 Metal Pan and Security Systems (units 1.5 - 1.5)

ACA071A Orientation (units 2 - 2)

ACA071B Safety and Health Certifications (units 2 - 2)

ACA071C Tool/Equipment Applications (units 1.5 - 1.5)

ACA074A Print Reading (units 2 - 2)

ACA079A Drywall/Acoustical Ceilings (units 1.5 - 1.5)

Select four (4) courses from the following: (units 6 - 6.5)

The following number of units

ACA061B Advanced Acoustical Ceiling Layout (units 1.5 - 1.5)

ACA061C Advanced Acoustical Ceiling Installation (units 1.5 - 1.5)

ACA065 Prefab/Sound Panels (units 1.5 - 1.5)

ACA072A Basic Metal Framing (units 1.5 - 1.5)

ACA073C Framing Curves and Arches (units 1.5 - 1.5)

ACA074B Advanced Print Reading (units 2 - 2)

ACA083 Door/Door Frames (units 1.5 - 1.5)

Control Number: 31107

Apprenticeship Carpentry, Acoustical Installer, CA Certificate of Achievement

The Certificate of Achievement in Apprenticeship Carpentry, Acoustical Installer provides the required related and supplemental instruction for interior systems apprentices in the technical skills required in the trade. Successful completion may result in journeyworker status. Interested apprentices should contact the Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Apprenticeship Carpentry, Concrete, AS A.S. Degree Major

The Associate of Science degree in Apprenticeship Carpentry, Concrete is designed to provide the related and supplemental instruction required for carpentry apprentices. Concrete finishers place and finish concrete floors, driveways, sidewalks, curbs, bridge decks and other concrete structures. They apply architectural exposed, patterned or stamped, broomed and smooth finishes on concrete surfaces. They are skilled at repairing, waterproofing and restoring concrete surfaces. Successful completion may result in journeyworker status. Interested apprentices should contact the Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Program Rules: Apprenticeship Carpentry, Concrete, AS (units 25.5 - 26.5)

All of the following

Major requirements: (units 19.5 - 19.5)

The following number of units

ACA004C Print Reading (units 2 - 2)

ACA021A Orientation (units 2 - 2)

ACA021B Safety and Health Certifications (units 2 - 2)

ACA021E Tool/Equipment Applications (units 1.5 - 1.5)

ACA025A Foundations and Flatwork (units 1.5 - 1.5)

ACA026A Tilt-Up Panel Construction (units 1.5 - 1.5)

ACA026B Wall Forming (units 1.5 - 1.5)

ACA026C Gang Forms/Columns (units 1.5 - 1.5)

ACA026D Abutments (units 1.5 - 1.5)

ACA027C Beam and Deck Forming (units 1.5 - 1.5)

ACA027D Stairs and Ramp Forming (units 1.5 - 1.5)

ACA028A Bridge Construction (units 1.5 - 1.5)

Select four (4) courses from the following: (units 6 - 7)

The following number of units

ACA021C Basic Wall Framing (units 1.5 - 1.5)

ACA022A Commercial Floor Framing (units 1.5 - 1.5)

ACA023B Basic Roof Framing (units 1.5 - 1.5)

ACA024A Basic Commercial Framing (units 1.5 - 1.5)

ACA024D Transit Level/Laser (units 2 - 2)

ACA025D Advanced Print Reading (units 2 - 2)

ACA028E Bridge Falsework (units 1.5 - 1.5)

ACA029A Rigging (units 1.5 - 1.5)

ACA029C Solar Installer Level I (units 1.5 - 1.5)

ACA095 Water Treatment Facilities (units 1.5 - 1.5)

Control Number: 13235

Apprenticeship Carpentry, Concrete, CA Certificate of Achievement

The Certificate of Achievement in Apprenticeship Carpentry, Concrete is designed to provide the related and supplemental instruction required for carpentry apprentices. Concrete finishers place and finish concrete floors, driveways, sidewalks, curbs, bridge decks and other concrete structures. They apply architectural exposed, patterned or stamped, broomed and smooth finishes on concrete surfaces. They are skilled at repairing, waterproofing and restoring concrete surfaces. Successful completion may result in journeyworker status. Interested apprentices should contact the Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Apprenticeship Carpentry, Drywall/Lather, AS A.S. Degree Major

The Associate of Science degree in Apprenticeship Carpentry, Drywall/Lather provides the related and supplemental instruction required for interior systems apprentices. Drywall/Lathers install metal stud framing, drywall, and lath according to layout plans, blueprints, and specifications. They frame and construct walls and ceilings to the necessary height and dimensions, and complete the construction for the interior/exterior of a building including the heavy gage framing and application for the exterior of the project. Successful completion may result in journeyworker status. Interested apprentices should contact the Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Program Rules: Apprenticeship Carpentry, Drywall/Lather, AS (units 26 - 26)

All of the following

Major requirements: (units 20 - 20)

The following number of units

- ACA071A Orientation (units 2 - 2)
- ACA071B Safety and Health Certifications (units 2 - 2)
- ACA071C Tool/Equipment Applications (units 1.5 - 1.5)
- ACA072A Basic Metal Framing (units 1.5 - 1.5)
- ACA072B Basic Lathing (units 1.5 - 1.5)
- ACA073A Framing Ceilings and Soffits (units 1.5 - 1.5)
- ACA073B Framing Suspended Ceilings (units 1.5 - 1.5)
- ACA073C Framing Curves and Arches (units 1.5 - 1.5)
- ACA074A Print Reading (units 2 - 2)
- ACA074B Advanced Print Reading (units 2 - 2)
- ACA075A Light Gage Welding AWS - A (units 1.5 - 1.5)
- ACA083 Door and Door Frames (units 1.5 - 1.5)

Select six (6) units from the following: (units 6 - 6)

The following number of units

- ACA072C Advanced Lathing (units 1.5 - 1.5)
- ACA074C Air, Moisture and Thermal Barrier (units 1.5 - 1.5)
- ACA075B Light Gage Welding LAC (units 1.5 - 1.5)

Apprenticeship Carpentry, Millwrighting, AS A.S. Degree Major

The Associate of Science degree in Apprenticeship Carpentry Millwrighting provide the required related and supplemental classroom instruction in the technical skills and knowledge required in the trade for state-indentured apprentices. The work of the Millwright involves installing conveyor systems, escalators, gas and steam turbines, and generators. Millwrights install and do maintenance on machinery in factories and do much of the precision work in nuclear power plants. Skilled construction Millwright mechanics study and interpret prints or working drawings, and then apply their knowledge and expertise to move, assemble, and erect machinery and rotating equipment. Interested apprentices should contact the Millwright Apprenticeship and Training Committee and the Apprenticeship Office at Santiago Canyon College.

- AMW033 Conveyor Systems (units 1.5 - 1.5)
- AMW034 Drives, Pulleys and Belts (units 1.5 - 1.5)
- AMW036B Machinery Installation and Erection - B (units 1.5 - 1.5)
- AMW037 Turbine Maintenance (units 1.5 - 1.5)
- AMW039 Compressor Theory and Maintenance (units 1.5 - 1.5)
- AMW051 Solar Installer Level I (units 1.5 - 1.5)

Control Number: 11986

Apprenticeship Carpentry, Millwrighting, CA Certificate of Achievement

The Certificate of Achievement in Apprenticeship Carpentry Millwrighting provide the required related and supplemental classroom instruction in the technical skills and knowledge required in the trade for state-indentured apprentices. The work of the Millwright involves installing conveyor systems, escalators, gas and steam turbines, and generators. Millwrights install and do maintenance on machinery in factories and do much of the precision work in nuclear power plants. Skilled construction Millwright mechanics study and interpret prints or working drawings, and then apply their knowledge and expertise to move, assemble, and erect machinery and rotating equipment. Interested apprentices should contact the Millwright Apprenticeship and Training Committee and the Apprenticeship Office at Santiago Canyon College.

Program Rules: Apprenticeship Carpentry, Millwrighting, CA (units 31.5 - 31.5)

- All of the following
- Certificate requirements: (units 25.5 - 25.5)
- The following number of units

- AMW021 Orientation (units 2 - 2)
- AMW022 Safety and Health Certifications (units 2 - 2)
- AMW023A Millwright General Skills - A (units 1.5 - 1.5)
- AMW023B Millwright General Skills - B (units 1.5 - 1.5)
- AMW024 S/B Print Reading (units 2 - 2)
- AMW025 Welding Fabrication (units 1.5 - 1.5)
- AMW026 Cutting and Burning (units 1.5 - 1.5)
- AMW027 Optics and Machinery Alignment (units 1.5 - 1.5)
- AMW028 Machinery Shaft Alignment (units 1.5 - 1.5)
- AMW029A Structural Welding - AWS A (units 1.5 - 1.5)
- AMW029B Structural Welding - AWS B (units 1.5 - 1.5)
- AMW030 Rigging Hardware and Procedures (units 1.5 - 1.5)
- AMW031 Turbine Familiarization (units 1.5 - 1.5)
- AMW032 Pumps (units 1.5 - 1.5)
- AMW036A Machinery Installation and Erection - A (units 1.5 - 1.5)
- AMW043 Tool/Equipment Applications (units 1.5 - 1.5)

Select four (4) courses from the following: (units 6 - 6)

Apprenticeship Carpentry, Pile Driver, AS A.S. Degree Major

The Associate of Science degree in Apprenticeship Carpentry, Pile Driver is designed to provide the required related and supplemental classroom instruction in the technical skills and knowledge required in the trade. Pile drivers work with pile-driving rigs--those big machines that look like cranes, but shake the ground as they drive metal, concrete or wood piling into the earth during the early stages of construction. Usually, pile drivers are the first workers at the construction site. They drive metal sheet piling to hold back the dirt during excavations. They drive concrete and metal piling as part of the foundation system upon which skyscrapers are built, and they drive wood and concrete piling to hold up docks, wharfs and bridges. In some cases they work on off-shore oil rigs and as commercial divers involved in underwater construction. Pile drivers are also required to install heavy timbers and weld or cut large metal beams. Successful completion may result in journeyworker status. Interested apprentices should contact the

Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Program Rules: Apprenticeship Carpentry, Pile Driver, AS (units 22 - 23)

- All of the following
- Major requirements: (units 16 - 16)
- The following number of units
- ACPD021 Orientation (units 2 - 2)
- ACPD022 Safety and Health Certifications (units 2 - 2)
- ACPD023 Tool/Equipment Applications (units 1.5 - 1.5)
- ACPD024A Piles and Hammers A (units 1.5 - 1.5)
- ACPD024B Piles and Hammers B (units 1.5 - 1.5)
- ACPD026A Falsework A (units 1.5 - 1.5)
- ACPD026B Falsework B (units 1.5 - 1.5)
- ACPD027A Abutment A (units 1.5 - 1.5)
- ACPD027B Abutment B (units 1.5 - 1.5)
- ACPD028A Bridge and Deck Forms A (units 1.5 - 1.5)

Apprenticeship Carpentry, Plastering, AS

A.S. Degree Major

The Associate of Science degree in Apprenticeship Carpentry, Plastering provides the required related and supplemental instruction for apprentice plasterers in the technical skills and knowledge required in the trade. Plasterers apply various wet materials over surfaces on both exterior and interior walls, ceilings and other surfaces in the construction industry. Successful completion may result in journeyworker status. Those interested should contact the Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Program Rules: Apprenticeship Carpentry, Plastering, AS (units 25.5 - 27)

All of the following

Major requirements: (units 19.5 - 19.5)

The following number of units

ACA071A Orientation (units 2 - 2)
 ACA071B Safety and Health Certifications (units 2 - 2)
 ACA074A Print Reading (units 2 - 2)
 ACPL023 Tool/Equipment Applications (units 1.5 - 1.5)
 ACPL025 Basic Plastering (units 1.5 - 1.5)
 ACPL026 Exterior Plastering (units 1.5 - 1.5)
 ACPL027 Dot and Screed Techniques (units 1.5 - 1.5)
 ACPL028 Interior Plastering (units 1.5 - 1.5)
 ACPL029 Tender and Plastering Equipment (units 1.5 - 1.5)
 ACPL030 Exterior Insulation Finish Systems (EIFS) (units 1.5 - 1.5)
 ACPL031 Ornamental Plastering (units 1.5 - 1.5)
 ACPL032 Plastering Equipment Application (units 1.5 - 1.5)

Select four (4) courses from the following: (units 6 - 7.5)

The following number of units

ACA072B Basic Lathing (units 1.5 - 1.5)
 ACA074B Advanced Print Reading (units 2 - 2)
 ACA074C Air, Moisture and Thermal Barrier (units 1.5 - 1.5)
 ACA082B Firestopping Procedures (units 1.5 - 1.5)
 ACPL033 Finish Applications (units 1.5 - 1.5)
 ACPL034 Theme Plastering (units 1.5 - 1.5)
 AMF030 Crew Lead Customer Service Training (units 2.5 - 2.5)

Apprenticeship Carpentry, Tilt-Up, AS

A.S. Degree Major

The Associate of Science degree in Apprenticeship Carpentry, Tilt-Up is designed to provide related and supplemental instruction including the technical skills and knowledge required in the trade. Tilt-up apprentices work with slabs of concrete which, after attaining proper strength, are lifted (tilted) with a crane and set on prepared foundations to form the exterior walls of a building. The erected panels are temporarily braced, connected, and the joints between them caulked. Tilt-up workers may construct and attach the roof structure to the walls to complete the building shell. Tilt-up construction is used for nearly every type of one- to four-story building. Successful completion may result in journeyworker status. Interested apprentices should contact the Carpentry Apprenticeship Committee and the Apprenticeship Office at Santiago Canyon College.

Program Rules: Apprenticeship Carpentry, Tilt-Up, AS (units 21 - 21)

All of the following

Major requirements: (units 15 - 15)

The following number of units

ACA002B Slabs/Interior-Exterior Footings (units 1.5 - 1.5)
 ACA003A Tilt-Up Introduction (units 1.5 - 1.5)
 ACA004A Lifting, and Bracing Safety (units 1.5 - 1.5)
 ACA005A Wall-Column Forms/Cutting and Burning (units 1.5 - 1.5)
 ACA005C Specialized Forms and Rigging (units 1.5 - 1.5)
 ACA021A Orientation (units 2 - 2)
 ACA021B Safety and Health Certifications (units 2 - 2)
 ACA024D Transit Level/Laser (units 2 - 2)

Apprenticeship in Early Childhood, AS

A.S. Degree Major

The Associate Degree of Science in Apprenticeship in Early Childhood prepares students to transfer into a baccalaureate degree program in Child Development or a related field of study, while also preparing them to work in the field of Early Childhood Development. Students will gain general knowledge and on-the-job learning in early childhood education topics enabling them to obtain a California Child Development Teacher Permit and meet the standards set forth by the National Association for the Education of Young Children for appropriate teaching practices in early learning settings.

These courses are aligned with the California Early Childhood Curriculum Alignment Project (CAP) which means that your courses are transfer-ready and consistent with statewide guidelines for preparation of early childhood education.

Program Rules: Apprenticeship in Early Childhood, AS (units 24.5 - 24.5)

All of the following

Major Requirements: (units 24.5 - 24.5)

All of the following

- APCD107 Apprenticeship Child Growth and Development (DS1) (units 3 - 3)
- APCD108 Apprenticeship Observation and Assessment (units 3 - 3)
- APCD110 Apprenticeship - Child, Family and Community (DS2) (units 3 - 3)
- APCD111B Apprenticeship - Introduction to Curriculum for Young Children (units 3 - 3)
- APCD116A Infant/Toddler Growth and Development (DS4) (units 3 - 3)
- APCD202 Introduction to Children from Special Populations (units 3 - 3)
- APCD221 Apprenticeship - Living and Teaching in a Diverse Society (units 3 - 3)
- APCD298A Apprenticeship - Practicum in Early Childhood Programs (units 3.5 - 3.5)

- APCD221 Apprenticeship - Living and Teaching in a Diverse Society

APPRENTICESHIP COURSES

ACA002B

Slabs/Interior-Exterior Footings

Units: 1.5

This class highlights the techniques and procedures used in the layout and setting of footing forms according to prints and shop drawings. Introduction of slab construction for casting tilt up panels will be discussed. Acceptable elevation tolerances, proper concrete placement and slab leveling will be stressed. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA003A

Tilt-Up Introduction

Units: 1.5

Designed to familiarize tilt-up students with basic panel types and typical construction methods used in the tilt-up industry. This course identifies panel features, applications, specialty hardware, and provides an overview of the construction and placement of tilt-up panels. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA004A

Lifting, and Bracing Safety

Units: 1.5

This class will describe the lifting procedures and accident prevention measures necessary to safely raise and place tilt-up panels. Students will be introduced to various types of bond breakers used in the industry. Product catalogs will be used to review the proper use of each product. Safety practices on the connection points and bracing of wall panels will be discussed in detail. Manufacturer's specification on specific hardware used to secure temporary braces will also be covered. Students will review all safety aspects of rigging and setting panels with the crane. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA004B

Poured-in-Place Wall Forms

Units: 1.5

This course provides instruction for poured-in place wall systems and will highlight decorative finish applications. Both basic formwork procedures and additional techniques to create embellished wall details on finished concrete surfaces will be presented. Students will identify materials such as exposed aggregate, faux veneers, and various artistic impressions used to create architectural features as part of the finished surface design. The importance of formwork alignment and reinforcement will be emphasized during manipulative exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA004C

Print Reading

Units: 1.5

This course introduces basic visualization skills needed for reading and interpreting construction prints. Views, elevations and the role of specifications as they relate to insulation details on prints will be discussed. An awareness of sustainable and green building practices will be covered during the course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA005A

Wall-Column Forms/Cutting and Burning

Units: 1.5

This course presents the forming methods and techniques used in the construction of reinforced concrete walls and columns. Form design, print reading, estimating, and hands-on projects for single and double waler forming systems will be included. Students will be introduced to safe operating and cutting procedures for the oxygen-acetylene torch. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA005B

Site Work/Curb and Gutter

Units: 1.5

This course covers the forming methods and techniques used in the construction of site work, curbs and gutters. Site work layout, elevation, and construction practices will be presented. Jobsite safety, print interpretation, material identification and site preparation will be included in the training. Students will construct sidewalk, curb and gutter forms to prints specifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA005C

Specialized Forms and Rigging

Units: 1.5

This course will instruct students in the construction of specialized forms used to create exterior architectural design feature on tilt-up buildings. An emphasis will be placed on interpretation of design feature details on prints, location of rigging points, and building methods for selected forms. In addition to concrete calculations, practical assignments will focus on rigging safety, load formulas, lifting hardware and procedures. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA021A

Orientation

Units: 2

This course provides an overview of the construction industry, safety overview, with focus on tool identification and use. Upon successful completion, students will receive OSHA 10 Hour and Powder Actuated Tool Certifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

ACA021B

Safety and Health Certifications

Units: 2

This course promotes hand/power tool and equipment skill development for various construction applications. Scaffold building and equipment operating procedures will also be covered. Financial and life skills relevant to surviving the construction industry will be presented. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Scaffold Erector-Welded Frame Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA021C

Basic Wall Framing

Units: 1.5

This course presents wall construction theory, methods, and procedures required to frame basic residential walls. Practical experience using proper tool techniques and appropriate materials will provide students with fundamental skill development. An introduction to print reading will prepare students to locate measurements for determining wall lengths and size of openings. Students will perform basic wall layout tasks, use plating procedures, and assemble and brace framing before aligning and completing the selected wall construction project to industry standards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA021E

Tool/Equipment Applications

Units: 1.5

This course promotes hand/power tool and equipment skill development for various construction applications. Scaffold building and aerial lift safety and operating procedures will also be covered. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Aerial Lift and Scaffold Erector-Welded Frame Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACA021A Orientation AND Prerequisite: ACA021B Safety and Health Certifications

ACA022A

Commercial Floor Framing

Units: 1.5

This course covers floor joist construction and the various installation techniques used in the commercial industry. Students will interpret floor plans for job planning, identify floor joist system, and calculate material take offs. Integration of wall plating, joist layout and floor sheathing methods will be included. Instruction will incorporate measuring skills, use of math operations, specialty hardware applications, and identification of appropriate building codes. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA022B

Basic Stairs

Units: 1.5

This course provides an introduction to stair framing theory, terminology and construction techniques. Students will interpret floor plans and drawing elevations for job planning, and to layout and detail stair stringers. Methods for calculating the number of stairs, landing height, stair threads and riser dimensions will be presented and practiced. Instruction will include measuring skills, mathematical principles, stair and handrail fabrication, assembly and installation. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA022D

Exterior Finish Details

Units: 1.5

In this course the terminology, design considerations and construction techniques for various types of exterior detail installations will be covered. Students will use plan views and drawing elevations for job planning activities, including calculating dimensions and materials, identifying wall covering types and other exterior construction details. Students will apply the construction techniques presented to complete various exterior detail installations to print specifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA022E

Commercial Roof Framing

Units: 1.5

This course provides an introduction to basic gable roof framing, terminology and construction methods. Students will interpret plan and elevation views to determine rafter systems and layout details to complete project assignments. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA023B

Basic Roof Framing

Units: 1.5

This course provides an introduction to basic gable roof framing, terminology, characteristics and construction methods. Students will interpret print views and drawing elevations for job planning, and to determine rafter systems and layout details. Basic rise, run, rafter angles and length calculations will be practiced.

Framed wall construction will be incorporate to facilitate the gable roof assembly techniques and installation procedures that are the focus of this training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA023C

Advanced Roof Framing

Units: 1.5

This course provides the advanced skills used to frame hip roof types, and includes terminology, roof characteristics and construction methods. Students will interpret print views and elevations for job planning to determine hip roof rafter systems and layout details. Students will perform rise, run, rafter angles and length calculations. Framed wall construction will be incorporate to facilitate the hip roof assembly techniques and installation procedures that are the focus of this training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA024A

Basic Commercial Framing

Units: 1.5

This course provides an introduction to basic wall framing theory and commercial construction techniques. Floor plan interpretation will be used by students for job planning, design recognition, and to determine materials. Students will lay-

out and detail wall plates for locating basic wall components and door openings typically found on commercial projects. Instruction will include measuring skills, mathematical principles, wall assembly and installation procedures, and detail how structural connections are made. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA024B

Advanced Commercial Framing

Units: 1.5

This course incorporates advanced commercial wall framing theory and construction techniques with structural hardware and shear panel installation. Students will interpret floor plans for job planning to layout and detail plates for complex wall configurations, rake walls and wall openings. Instruction will include measuring skills, use of mathematical principles, wall construction, plywood shear panel installation, and structural hardware attachment. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA024C

Panelized Roofing

Units: 1.5

This course covers the structural components and building techniques associated with heavy timber construction and panelized roof systems. The advantages and types of manufactured wood used, and their load carrying strength, span, and spacing will be discussed. A distinction between standard post and beam, and heavy timber construction will be emphasized. Students will interpret floor plan, section views and drawing elevations for job planning to layout and construct a heavy timber post and beam supported panelized roof. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA024D

Transit Level/Laser

Units: 2

This course covers the terminology, optical principles, and operating procedures for the transit and laser levels. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

ACA024E

Total Station I

Units: 2

This course discusses the evolution of survey and layout instruments and the advantages of using a total station for building layout over traditional methods. Students will set up a total station and configure the software. Exercises will include working in teams to stake out points and record point data using the total station. Equipment maintenance and troubleshooting are also discussed. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: Prerequisite: ACA021A Orientation AND Prerequisite: ACA021B Safety and Health Certifications

ACA025

Welding Fabrication

Units: 1.5

This course provides an introduction to the layout, cutting, and basic welding skills used in the fabrication process. The students will practice using oxy-acet-

ylene equipment and accessories to setup, cut, shape, grind, weld, file, heat and bend metal parts. Training will include fundamental arc welding techniques to fabricate project components. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACA021A Orientation AND Prerequisite: ACA021B Safety and Health Certifications

ACA025A

Foundations and Flatwork

Units: 1.5

This course covers the design and function of several types of foundations and concrete flatwork. The methods, techniques and procedures for formwork layout, elevation, and construction will be presented and applied by students during practical assignments. Jobsite safety, print interpretation, material identification, and basic use of the builders' level will be included in the training. Students will construct three selected formwork projects. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA025C

Advanced Stairs

Units: 1.5

This course is designed to enhance the students' existing skills in the construction of basic stairs. Students will interpret floor plans and drawing elevations for job planning, and to layout and construct complex stair designs. Stair calculations will be adapted to determine the number of stairs, landing height, stair thread and riser dimensions. In addition to measuring skills, mathematical principles, stair and handrail fabrication and assembly, the installation techniques required for circular and u-shaped stair configurations will be covered. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA025D

Advanced Print Reading

Units: 2

In this course, students will analyze multi-view drawings to determine construction type, locate benchmark and building elements; review codes, references, and perform calculations for construction planning. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

ACA026A

Tilt-Up Panel Construction

Units: 1.5

This class will cover layout techniques and building procedures for commercial structures using the tilt-up panel construction method. Various wall types, position, and sequence for raising panels will be discussed. Students will be able to explain the importance of layout methods in squaring panel formwork. A focus will be placed on identifying specific types of openings and on the location of finish floor and roof lines on prints. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA026B

Wall Forming

Units: 1.5

This course covers the skills and procedures for forming reinforced concrete walls using single and double waler systems. Students will identify the characteristics and application of built-in-place, pre-fabricated, and specialty forms. Practical

exercises will prepare students for locating wall forming information on project plans, calculating layout dimensions, and for estimating material requirements. Basic wall panel forming and reinforcement methods, material preparation, and hardware installation are included in training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA026C

Gang Forms/Columns

Units: 1.5

This course presents the formwork types, applications and construction methods for gang and column forms using built and manufactured forming systems. Discussions will cover heavy timber gang forms and use of taper ties, bracing, and bulkhead tables. The course project will include gang and column formwork construction, assembly, and hardware using selected manufactured products. Related safety, mathematics and print reading will be covered in the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA026D

Abutments

Units: 1.5

This course provides formwork construction skills for the abutment support structure used in most bridges and heavy highway projects. Students will identify abutment anatomy and will be instructed on footing layout, form detailing, and construction techniques used in the industry. Terminology, components, form materials, building code requirements and sequence of construction will be presented. Students will work collaboratively to complete an abutment formwork project including keyway, panel, head wall and wing wall construction. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA027C

Beam and Deck Forming

Units: 1.5

This course will introduce the use of various woods, and patented forming systems for construction of concrete beams and decks. Students will identify formwork types and installation techniques including calculating materials and setting beam & deck forms. Metal beam forms and capitals will be highlighted. Additionally, layout and builders level skills will be used in this class. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA027D

Stairs and Ramp Forming

Units: 1.5

Provides related and supplemental instruction for apprentice carpenters in the areas of the various techniques to form stairs and ramp structures; related safety, mathematics, and blueprint reading. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA028A

Bridge Construction

Units: 1.5

This course provides students with an overview of bridge types and the skills

required to perform standard bridge construction tasks. Students will be able to describe the purpose and function of exterior and interior girders, edge forms, bulkheads and hinge forms. Bridge formwork project will include panel construction, assembly, and hardware installation tasks. Related safety, math and print reading will be covered in the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA028C

Intermediate Commercial Framing

Units: 1.5

This course enhances basic wall framing theory, and wall construction techniques are applied at increased skill levels. A review of basic wall framing and floor plans used for job planning, design recognition, and materials lists is included. Students will layout and detail wall plates for locating basic wall components and door openings. Instruction will include measuring skills, mathematical principles, wall assembly and installation procedures, and detail how structural connections are made. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA028E

Bridge Falsework

Units: 1.5

This course will focus on bridge falsework construction. The techniques for bent assemblies, base sub-assemblies, deck soffits and hardware installation will be presented. Falsework tasks will include rigging and alignment techniques. Related safety, math and print reading will be covered in the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite:ACA021A Orientation AND Prerequisite:ACA021B Safety and Health Certifications

ACA029A

Rigging

Units: 1.5

This course presents both lifting theory and practical rigging methods and procedures. The design, characteristics and safety working load of lifting hardware will be discussed. Rigging attachment procedures, lifting equipment, limits of operation and communication practices will be covered. Upon successful completion, students will be issued United Brotherhood Of Carpenters (UBC) Rigging Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA029BJ

Rigging Qualification Studies - Journeyworker

Units: 0.5

This course provides an overview of lifting theory and the practical rigging methods and procedures required to maintain industry credentials. Rigging standards, procedures and communication practices will be covered. Upon successful completion, a student will be issued United Brotherhood of Carpenters (UBC) Rigging Qualification Cards.

Transferability: Not transferable

Limitations of Enrollment: Active Carpenter Union Member

Lecture Hours: 8 **Lab Hours:** 0

Requisites: None

ACA029C

Solar Installer Level 1

Units: 1.5

This course will provide workers with an industry overview and outlook for photovoltaic (renewable) energy production. Key terms and concepts of photovoltaic system operations will include solar cell technology, photovoltaic (PV) array configuration, series and parallel circuits, testing equipment, inspection, balance of system components, mounting methods, and applicable codes. Practical training will cover site analysis, system orientation based on site location, safety concerns, utilization of construction tools and skills for rooftop and ground mount system installations. Upon successful completion, students will receive a United Brotherhood of Carpenters (UBC) Solar Installer Level I Qualification Card.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite:ACA021A Orientation AND Prerequisite:ACA021B Safety and Health Certifications

ACA030A

Standard First Aid

Units: 0.4

Enables carpenters to cope with accidents and emergency situations with the goal of protecting and saving lives. American Red Cross certificate available upon successful completion. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 5.75 **Lab Hours:** 2.25

Requisites: None

ACA033A

Cabinet Millwork and Assembly

Units: 1.5

This course details cabinetry fabrication from design and function through the complete production process. An emphasis will be placed on print interpretation, job planning and proper construction sequence. Countertops and hardware styles and types will be discussed. Students will use the methods and procedures presented to build a typical base unit. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA033B

Cabinet Installation

Units: 1.5

This comprehensive course covers cabinet installation from establishing the design layout to attaching countertops. To enhance student's skill level an emphasis will be placed on print interpretation, job planning and proper installation sequence. Students will use the methods and procedures presented to install typical upper and lower cabinetry units and countertops. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA033C

Show Case and Loose Store Fixtures

Units: 1.5

This course includes basic cabinetmaking construction techniques for the installation of commercial store fixtures. Students' skill level will benefit from an emphasis placed on measuring, leveling, hand and power tool use, and safety. Students will interpret prints and material bills for the store fixture components included in the course project. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

**ACA033D****Molding and Trims****Units:** 1.5

This course covers how moldings and trims are utilized to finish exterior and interior construction design features. Product styles, characteristics, applications, and installation methods are included in the discussions. The tools techniques for cutting, coping and installing various molding and trim types are presented and practiced throughout the training. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** None**ACA034A****Plastic Laminates****Units:** 1.5

This course covers installation of plastic laminates including function and design. Suitable materials, styles, and textures will be identified. Students will review prints to determine laminate type and calculate quantities. Installation methods and techniques for drop edge and back splash together with cleaning and repair will be emphasized. A countertop will be designed and installed to specifications. Correct use of tools and other equipment will be stressed. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** None**ACA034B****Solid and Stone Surfaces****Units:** 1.5

This course covers both basic and advanced assembly and installation techniques for solid surface, natural stone and manufactured materials. Various products, designs, materials, accessories, and safety considerations will be included. Students will use the procedures presented to fabricate countertops with backsplash, and create a design inlay. Open Entry/Open Exit.

Previous Title: Apprenticeship Carpentry 034B, Solid Surface and Stone Countertops (2017)

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** None**ACA034C****Stair Trim****Units:** 1.5

This course covers how various trims are utilized to finish stair construction design features. Product styles, characteristics, applications, and installation methods are included in the discussions. The tools techniques for cutting and installing selected trim types are presented and practiced throughout the training. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** None**ACA034D****Doors and Door Hardware****Units:** 1.5

This course covers the installation process for several types of security and exit door hardware. Discussion of electrical and card reader systems will be included. An emphasis will be placed on print interpretation, codes, door schedules, symbols, and hardware recognition. Students will use the methods and procedures presented to install selected door and hardware systems. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** None**ACA035C****Exit and Electrical Security Devices****Units:** 1.5

This course will highlight the classification, types, models, codes, and uses for accident hazard exit ("panic") devices. A range of security products and door hardware used in the industry such as crossbars, latches, flush bolts, and kick plates will be discussed. Proper selection, installation and adjustment techniques for selected devices will be covered. Students will complete installation and adjustment of two types of exit devices. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** None**ACA040CJ****Scaffold Erector, Standard 40 Hour - Journeyworker****Units:** 1.5

This course will cover the basic techniques and procedures associated with frame, system, and tube and clamp scaffolds. Upon successful completion, a student will be issued a United Brotherhood Carpenters (UBC) Scaffold Qualification Card.

Transferability: Not transferable**Limitations of Enrollment:** Active Carpenter Union Member**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** None**ACA040EJ****Scaffold Erector, Systems Scaffold - Journeyworker****Units:** 0.6

This course provides the required instruction in basic techniques and procedures associated with system scaffold components and focuses on terminology, component identification, construction practices, and safety considerations. Students will erect typical configurations to industry standards using system scaffold components. Upon successful completion, a student will be issued a United Brotherhood Carpenters (UBC) Scaffold Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Active Carpenter Union Member**Lecture Hours:** 8 **Lab Hours:** 8**Requisites:** None**ACA041A****Powered Industrial Truck Operator - Rough Terrain****Units:** 0.4

This course covers an overview for safe operation of rough terrain lift trucks for the construction industry, Code of Federal Regulations (CFR), and training requirements. Upon successful completion, students will be issued a United Brotherhood of Carpenters (UBC) Powered Industrial Truck Operator-Rough Terrain (RT) Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 6 **Lab Hours:** 2**Requisites:** None**ACA041B****Powered Industrial Truck Operator - Industrial Terrain****Units:** 0.4

This course covers an overview for safe operation of industrial lift trucks for the construction industry, Code of Federal Regulations (CFR) regulations, and training requirements. Upon successful completion, a student will be issued a United Brotherhood of Carpenters (UBC) Powered Industrial Truck Operator-Industrial Truck (IT) Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 6 **Lab Hours:** 2**Requisites:** None

ACA061A

Acoustical Ceilings

Units: 1.5

This course provides an introduction to basic acoustical ceiling installation. Acoustical theory, engineering, and applicable building and seismic codes requirements will be covered. Students will install acoustical ceilings to industry standards using the proper techniques and procedures. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA061B

Advanced Acoustical Ceiling Layout

Units: 1.5

This course identifies the advanced layout methods used to complete complex acoustical system installations. Students will use the skills presented to complete selected multifaceted acoustical ceiling layout projects as part of this course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA061C

Advanced Acoustical Ceiling Installation

Units: 1.5

This course identifies the advanced layout methods used to complete complex acoustical system installations. Students will use the tool and framing techniques presented to complete selected multifaceted acoustical ceiling layout projects. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA062

Standard Acoustical Grids

Units: 1.5

This course covers various grid patterns considered as standard for acoustical ceilings in the interior system construction industry. The methods and procedures used to form the patterns are the key focus of the course. Students will install several standard acoustical grid patterns to print specifications using the proper techniques and procedures. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA063

Suspended Ceilings

Units: 1.5

Provides instruction covering the installation of suspended ceilings in various configurations and will include both radius and square wall drywall suspension methods. Students will complete selected suspended ceiling installations using the techniques presented. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA064

Acoustical Soffits

Units: 1.5

Provides instruction covering the construction of acoustical soffits in various configurations and will include square and slant faced, tapered, concealed, drywall suspension and sloped soffits methods. Students will complete selected acoustical

soffit installations using the techniques presented. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA065

Prefab/Sound Panels

Units: 1.5

This course will focus on the technical knowledge and skills needed for the installation of prefabricated wall and ceiling panel systems. Students will use the proper techniques and manufacturers' guidelines to install various types of prefabricated wall and ceiling panels. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA066

Concealed/Glue-Up/Staple-Up Systems

Units: 1.5

This course illustrates the design flexibility of concealed, semi-concealed ceilings and soffits using glue-up and staple-up systems. Students will employ the glue-up and staple-up techniques presented to install concealed grid ceiling system. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA067

Designer and Specialty Trims

Units: 1.5

This course covers specialty skills needed to produce professionally finished edges for designer ceiling installations. Students will use the techniques presented to produce multiple ceiling edge contours using the compasso trim system. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA068

Metal Pan and Security Systems

Units: 1.5

This course will focus on design, function and installation of metal pan and security systems incorporated into construction of suspended ceilings. Students will demonstrate the ability to installation these components to direct wire and indirect channel suspension ceiling grid systems. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA071A

Orientation

Units: 2

This course provides an overview of the construction industry, safety overview, with focus on tool identification and use. Upon successful completion, students will receive OSHA 10 Hour and Powder Actuated Tool Certifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

ACA071B

Safety and Health Certifications

Units: 2

This course promotes hand/power tool and equipment skill development for various construction applications. Scaffold building and equipment operating procedures will also be covered. Financial and life skills will be presented to help them survive in the construction industry. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Scaffold Erector-Welded Frame Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA071C

Tool/Equipment Applications

Units: 1.5

This course covers the safe and appropriate use of fall protection, and emergency response procedures. Tool applications presented in this training will provide opportunities for tool skill mastery and equipment operation. Upon successful completion, students will be issued an American Red Cross First Aid/CPR Certification Card, and United Brotherhood of Carpenters (UBC) Fall Protection Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA072A

Basic Metal Framing

Units: 1.5

Provides students with an overview of the use of metal framing materials in construction of building interiors. A comparison of metal framing and typical wood framing techniques will be presented. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA072B

Basic Lathing

Units: 1.5

This course presents the basic framing and lathing methods used in the industry for exterior/interior installations. The course will focus on exterior waterproofing, lath, and trim installation procedures. Students will use the skills presented to complete an exterior lathing project as part of this course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA072C

Advanced Lathing

Units: 1.5

This course presents advanced methods and application techniques for lath and trim products used on exterior-interior metal framing. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACA021A Orientation AND Prerequisite: ACA021B Safety and Health Certifications

ACA073A

Framing Ceilings and Soffits

Units: 1.5

This course identifies the materials used and their application for various types of fire rated walls, ceilings and soffits. It presents methods and procedures used

for layout and template development. Drywall and trim applications are discussed. The types of tools used and their associated safety, applied math and print reading fundamentals are reviewed. Students will use the skills presented to complete a ceiling and soffit project as part of this course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA073B

Framing Suspended Ceilings

Units: 1.5

Provides instruction covering the installation of circular ceilings with drops, and drywall suspension in both square and circular grids. Students will complete selected suspended ceiling installations using the techniques presented. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA073C

Framing Curves and Arches

Units: 1.5

This course provides instruction in framing methods for curves and arches and their related structural limitations. It identifies the various wall and ceiling types and the layout principles, and materials used for each Lath applications and trim are also discussed. Students will use the skills presented to complete a framing project that includes curves and arches. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA074A

Print Reading

Units: 2

This course introduces basic visualization skills needed for reading and interpreting construction prints. Views, elevations and the role of specifications as they relate to insulation details on prints will be discussed. An awareness of sustainable and green building practices will be covered during the course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

ACA074B

Advanced Print Reading

Units: 2

In this course, students will analyze multi-view drawings to determine acoustical ceiling construction types, locate benchmark and building/wall elements; review codes, references, and perform calculations for construction/ceiling grid planning. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

ACA074C

Air, Moisture, and Thermal Barriers

Units: 1.5

This course will demonstrate that correctly installed air, moisture and thermal barrier systems increase building envelope energy efficiency. Building sealing products and installation techniques will be the main focus of hands-on exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite:ACA071A Orientation AND Prerequisite:ACA071B Safety and Health Certifications

ACA075A

Light Gage Welding AWS - A

Units: 1.5

This course covers light gage welding methods and techniques.American Welding Society (AWS) welding processes, symbols, materials and safety procedures will be presented. Students will practice setting up equipment and identifying the proper electrode position and speed. Instruction will include an explanation of typical metal frame welding practices.An emphasis on hands-on experience using 6013 electrodes will reinforce proper use of the welding procedures. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA075B

Light Gage Welding LAC

Units: 1.5

This course covers light gage welding methods and techniques.American Welding Society (AWS) welding processes, symbols, materials and safety procedures will be presented.An emphasis on hands-on experience using 6010 electrodes will reinforce proper use of required welding procedures, and ability to perform welding tasks used to complete the Los Angeles City (LAC) certification process. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA075C

Light Gage Welding AWS - B

Units: 1.5

This course covers light gage welding methods and techniques.American Welding Society (AWS) welding processes, symbols, materials and safety procedures will be presented.An emphasis on hands-on experience using 6013 electrodes will reinforce proper use of required welding procedures, and ability to perform welding tasks used to complete AWS certification process. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA076A

Basic Hand Finishing

Units: 1.5

This course is designed to develop basic hand finishing skills using the correct tools and materials.The training will include terminology and description of finishing levels as well as hand tool manipulation techniques, material identification and selection criteria. Manufacturer's guidelines will highlight the environmental conditions for proper mixture preparation and use. Key discussions will draw attention to typical finish issues, causes, and solutions frequently employed.Tool techniques and application sequence and will be explained and demonstrated. The importance of mixture consistency, proper coating sequence will be stressed during level four hand finishing exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA076B

Automatic Finishing Tools

Units: 1.5

This course will advance the methods, applications and sequences of the bazooka, skim boxes, nail spotters and angle boxes. Students will be required to demonstrate the ability to tape in different situations and the ability to coat all field and butt joints.The levels of finishing and the various finish trims will be discussed. The operation of automatic taping and finishing machine tools including those newly introduced to the industry will be covered. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA077A

Drywall Installation/Finish Trims

Units: 1.5

This course will introduce drywall handling methods, applications and recommended levels of drywall finish to achieve the desired aesthetics.An emphasis will be placed on trim attachment and finishing techniques.Various types of finish trim will be identified. Students must demonstrate proficiency in the proper use of automatic taping tools. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA077B

Advanced Hand Finishing

Units: 1.5

This course will focus on advanced methods and applications using hand tool techniques. The proper sequence of operation, phases and materials to be used in order to produce a higher level finished product to industry standards. Curved and radius wall characteristics for finish levels will be discussed.The course will cover wall frame components, materials used, surface preparation, and application methods. Students will complete a project to a Level Five standard. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA077C

Advanced Automatic Finishing Tools

Units: 1.5

This course will advance the methods, applications and sequences of the bazooka, skim boxes, nail spotters and angle boxes. Students will be required to demonstrate the ability to tape in different situations and the ability to coat all field and butt joints.The levels of finishing and the various finish trims will be discussed. The operation of automatic taping and finishing machine tools including those newly introduced to the industry will be covered. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA078B

Advanced Metal Framing

Units: 1.5

This course will begin with a quick review of basic metal framing followed by detailed procedures for framing curved, serpentine, and elliptical non load bearing partitions. Using standard light gage components and other materials, students will learn advanced techniques to expedite work processes. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA078C

Wet Wall Finishes

Units: 1.5

This course presents industry methods, mediums, and typical application of wet wall finishes. The training will include terminology and description of industry standard finishing levels; application tool types and techniques, material identification and selection. Manufacturer's guidelines will highlight the environmental conditions for proper mixture preparation and use. Key discussions will draw attention to typical finish issues, causes for defects, and solutions frequently employed, and emphasize the selection and use of low volatile organic compounds (VOC) products. The importance of mixture consistency, proper coating sequence will be stressed during wet wall finishing exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA078D

Ceiling and Soffit Finishing

Units: 1.5

This course is designed to develop an advanced level of finishing skill for applications with architecturally detailed ceilings and soffits. Students will be required to determine type and quantity of materials for various designs and differentiate between levels of finish. Guided practice with a combination of hand and automatic tool techniques will promote manipulative ability required for a successful result. A variety of finish trims will be integrated into each method of finish. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA079A

Drywall and Acoustical Ceilings

Units: 1.5

This course identifies the materials and methods used for acoustical ceilings combined with drywall installation. Seismic codes, materials, and requirements are also reviewed. Green building rating systems will be applied to selected acoustical and drywall materials. Installation for various grid systems will be discussed. Students will use the skills learned to complete a drywall-acoustical ceiling project. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA079C

Drywall Applications

Units: 1.5

This course provides needed commercial and residential skills to properly handle and install drywall used in specialized applications. Productivity techniques will be discussed and practiced under jobsite conditions. Wall framing and drywall finishing methods will be incorporated into the hands-on activity. Open Entry/Open Exit.

Previous Title: Apprenticeship Carpentry 079C, Drywall Applications (2016)

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA079D

Drywall Applications

Units: 1.5

This course provides needed commercial and residential skills to properly handle and install drywall used in specialized applications. Productivity techniques will

be discussed and practiced under jobsite conditions. Wall framing and drywall finishing methods will be incorporated into the hands-on activity. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA082B

S/B Firestop/Fireproofing Procedures

Units: 1.5

This course covers various firestop/fireproofing systems and methods used as fire protection and fire control. Key discussions will highlight applicable fire codes and industry standards for testing firestop/fireproof methods. Manufacturer's guidelines will identify application tool anatomy, instruction for job preparation, loading instructions, operating procedures, maintenance and care of equipment. Basic descriptions of penetration types and the materials used, including non-combustibles and B-Expands, will be covered. Students will apply and test firestop/fireproofing material in a controlled environment. Open Entry/Open Exit. Former Title: Apprenticeship Carpentry 082B, Firestopping Procedures (2020)

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA082C

Decorative Trims and Textures

Units: 1.5

This course provides advanced hand and automatic tool finishing techniques used to apply decorative trims and special surface textures. Training includes product information for metal, paper, plastics and art beads. Special attention will be given to coating and sanding sequence of field and butt joints for selected surface textures. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA083

Door and Door Frames

Units: 1.5

An introduction to the doors and door frames used in the interior systems industry. The course discussions will incorporate applicable regulations governing door openings and door selection. Hardware, controlling and locking devices, and door layout and installation techniques will be included. Basic math and print reading will be covered as will tool-related safety concerns. Students will use the skills presented to complete a selected door and door frame installation project as part of this course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA083C

Door/Door Frame

Units: 1.5

This course covers the installation process from constructing rough openings to hanging and adjusting doors. An emphasis will be placed on print interpretation, door schedules, symbols and hardware recognition. Students will use the methods and procedures presented to install selected frames and doors for wood framing applications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACA021A Orientation AND Prerequisite: ACA021B Safety and Health Certifications

ACA086A

Exterior Insulation Finish Systems (EIFS)

Units: 1.5

This course is an introduction to exterior insulation finish systems including terminology, definitions, specifications, and properties. It will deal with reinforcing mesh installation and the application of insulation board. Application methods and techniques for primers and finishes will be presented. Students will use the skills presented to complete an EIFS installation project as part of this course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA089

Freeform Lathing

Units: 1.5

This course provides a comprehensive study of the theory and techniques used for the development of freeform lathing projects. This course will enable students to interpret gridline drawings; layout and build lath cage work and apply the appropriate lath(s) to achieve the desired or designed form or structure. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA090

Residential Steel Stud Framing

Units: 1.5

Provides the related and supplemental instruction required for interior systems apprentices in the new technology of cold-formed light gage steel framing for the residential market. Methods of constructing a structural floor, wall and truss system. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACA094J

Confined Space - Journeyworker

Units: 0.8

This course covers both CAL-OSHA and Federal Occupational Safety and Health Administration (OSHA) regulation for safe access, entry and monitoring for confined space work. Upon successful completion, a student will be issued United Brotherhood of Carpenters (UBC) Confined Space Qualification Card.

Transferability: Not transferable

Limitations of Enrollment: Active Carpenter Union Member

Lecture Hours: 12 **Lab Hours:** 24

Requisites: None

ACA095

Water Treatment Facilities

Units: 1.5

This course provides instruction in the detailing, layout and construction of concrete formwork and waterstop used in water treatment facilities. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACA021A Orientation AND Prerequisite: ACA021B Safety and Health Certifications

ACPD021

Orientation

Units: 1.5

This course examines fundamental trade skills, employee-employer roles and re-

sponsibilities, and safe work practices needed for entry level performance for pile drivers in the construction industry. While an emphasis will be placed on attaining standard industry safety credentials, the course is designed to provide students with practical experience using construction terminology, math operations and basic measuring techniques, and tool identification and use in preparation for the next level of training. Safety will cover OSHA training for jobsite hazard recognition, accident prevention, and safe tool and equipment operation. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30.08 **Lab Hours:** 10.08

Requisites: None

ACPD022

Safety and Health Certifications

Units: 2

This course is designed to increase the pile driver students' awareness of construction hazard communication systems, proper tool/equipment operation, and will emphasize the importance of the individual responsibility for workplace safety and health. The students will discern that the construction environment has a higher potential for injuries and accidents than most workplaces and therefore requires the ability to assess danger, employ prevention measures, and take appropriate action in emergencies. This training will expose students to various health emergency scenarios, and provide students with ample opportunities to practice the appropriate CPR and first aid response. Because many injuries are the result of improper tool and equipment use, students will be trained on how to correctly select, inspect, use, and operate fall protection systems, tools, and powered lift truck equipment. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: Prerequisite: ACPD021 Orientation

ACPD023

Tool/Equipment Applications

Units: 1.5

This course promotes hand/power tool and equipment skill development for various construction applications. Scaffold building and aerial lift safety and operating procedures will also be covered. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Aerial Lift and Scaffold Erector-Welded Frame Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD024A

Piles and Hammers A

Units: 1.5

This course provides an overview of the types of piles used in construction as load-bearing support for commercial buildings, bridges, and piers when ground stratum is insufficient in strength. The rigging methods, driving techniques, and pile hammers utilized in the installation process will be presented. Students will use the proper procedures to install a lap-joint wood sheet pile system during this part of the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD024B

Piles and Hammers B

Units: 1.5

This course provides an overview of the types of piles used in construction as load-bearing support for commercial buildings, bridges, and piers when ground stratum is insufficient in strength. The rigging methods, driving techniques, and pile hammers utilized in the installation process will be presented. Students will

Apprenticeship Courses

use the proper procedures to install a tongue and groove wood sheet pile system during this part of the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD026A

Falsework A

Units: 1.5

As part one of two courses, training will focus on bridge falsework construction. The techniques for bent assemblies, base sub-assemblies, deck soffits, and hardware installation will be presented. The procedures presented will include timber construction methods and alignment techniques to install and level base and bent assemblies. Students will develop skills using sand jacks, transit levels, and rigging procedures to set corbels, beams, and posts. Related safety, math, and print reading will be covered in the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD026B

Falsework B

Units: 1.5

As part two, this course continues the focus on box girder bridge falsework construction. The techniques for bent assemblies, base sub-assemblies, deck soffits, and hardware installation will be reviewed. During this part of the training, procedures will include setting and installation of deck soffit assemblies. Students will develop skills using layout and rigging procedures to set and secure cap beams, stringers and joists support. Related safety, math, and print reading will be covered in the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD027A

Abutment A

Units: 1.5

This course provides students with the skills needed to layout abutment formwork and construction of footings to industry standards. A close look at assembly components will describe key terms and abutment anatomy. The importance of earth strata in the construction of footings, piers, and retaining walls will be covered. The techniques for laying out keyway centerline and footing formwork construction will be the main focus during this part of abutment training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD027B

Abutment B

Units: 1.5

This course provides students with the skills needed to layout, and to construct abutment wall panel formwork to industry standards. A close look at assembly components will describe key terms and abutment anatomy. The importance of earth strata in the construction of footings, piers, and retaining walls will be covered. The techniques for layout, and keyway, wing/headwall panel formwork construction will be the main focus during this part of abutment training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD028A

Bridge and Deck Forms A

Units: 1.5

This course provides students with an overview of basic bridge and deck construction. Descriptions for exterior and interior girders; edge forms; bulkheads; hinge and deck forms will be presented. Bridge and deck formwork projects will include bridge panel construction, assembly, and hardware attachment tasks. Related safety, math, and print reading will be covered in the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD028B

Bridge and Deck Forms B

Units: 1.5

This course provides students with an overview of basic bridge and deck construction. Descriptions for exterior and interior girders; edge forms; bulkheads; hinge and deck forms will be presented. Bridge and deck formwork projects will include bridge panel construction, assembly, and hardware attachment tasks. Related safety, math, and print reading will be covered in the training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD029A

Structural Welding-AWS A

Units: 1.5

This course is designed to be compliant with the American Welding Society (AWS) D1.1 code requirements and provide workers with industry-recognized structural welding credentials. A careful examination of the applicable codes will include terminology, shielded metal arc welding processes (SMAW), equipment and safety requirement, electrode identification and applications, welding positions, and deposits. Practical experience will include symbol identification, print interpretation, code citation, safe equipment set-up and operation, and recognition/remediation of welding flaws. This course will focus on the written examination and production of practical test plates required for AWS D1.1 certification. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD029B

Structural Welding-AWS B

Units: 1.5

This course provides practical experience for structural welding skills used in commercial and industrial construction. Instruction will include a review of welding terminology, welding processes, welding equipment, and safety requirements. Key discussions will be used to identify electrode characteristics and metal inert gas/tungsten inert gas (MIG/TIG) welding applications. Practical experience will include safety procedures, proper equipment set-up and operation, electrode selection, fillet and groove weld formation in three positions, and recognition/remediation of welding flaws. This course will focus on developing the manipulative ability required for producing test plates acceptable for AWS D1.1 certification. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD030

Print Reading

Units: 2

This course introduces print reading skills as a basic communication tool of the trades. The material covered will focus on developing the students' ability to interpret two-dimensional views in such a way to convey the shape and characteristics of construction elements, and provide an overview of the scope of the project. Students will be able to recognize standard drawing methods, pictorial views, and how to read visual and verbal communication cues. Students will develop skills through a series of exercises including identifying parts of drawings, locating the building, pier, and heavy highway features, calculating dimensions, and using views to determine construction methods. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD031A

Welding Fabrication A

Units: 1.5

This course provides an introduction to fabrication skills using oxygen/acetylene torch and welding equipment. A review of torch cutting principles will cover parts identification, gas characteristics, torch accessories and tips, safe operating and inspection criteria, and manufacturer's guidelines for use and care. Instruction will include inspection, torch set-up, criteria for interchanging of cutting tips and attachments, and identification of applicable symbols and codes. An emphasis will be placed on interpreting fabrication drawings, cutting stock materials, and torch heating and welding of parts. The importance of fire and shop safety, reading and monitoring of gages, and the importance of following project instructions will be stressed during cutting/welding fabrication exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPD031B

Welding Fabrication B

Units: 1.5

This course provides an introduction to fabrication skills using oxygen/acetylene torch and arc welding equipment. A review of arc welding principles will cover equipment parts identification, gas characteristics, arc welding accessories, and electrodes, safe operating and inspection criteria, and manufacturer's guidelines for use and care of the machinery. Instruction will include inspection, torch set-up, criteria for welding machine settings, applications for electrodes use, and identification of applicable symbols and codes. An emphasis will be placed on interpreting fabrication drawings, cutting stock materials, and torch heating and welding of parts. The importance of fire and shop safety, reading and monitoring of equipment gages and settings, and following project instructions will be stressed during welding fabrication exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACPD021 Orientation AND Prerequisite: ACPD022 Safety and Health Certifications

ACPL023

Tool/Equipment Applications

Units: 1.5

This course promotes hand/power tool and equipment skill development for various interior systems construction applications. Aerial lift safety and operating procedures, and scaffold building will also be covered. Upon successful completion, students will be issued the United Brotherhood of Carpenters (UBC) Aerial

Lift and Scaffold Erector-Welded Frame Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: ACA071A Orientation AND Prerequisite: ACA071B Safety and Health Certifications

ACPL025

Basic Plastering

Units: 1.5

This course covers common terms, safety procedures, building codes, and basic plastering production practices. Students will compare and use lath and plastering products for installation projects. Finish levels and hand tool manipulation will be covered with an emphasis on proper hawk and trowel techniques. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL026

Exterior Plastering

Units: 1.5

This course is designed to provide the students with the methods, procedures, and practices used in Exterior Plastering. Special attention will be given to Portland Cement Plaster. Mixing and proportions, curing rates, and quality workmanship will be included. Students will enhance their plastering application and tool manipulation skills with guided practice in the scratch coat, brown coat, and a variety of finish coats. Training will conclude with inspection criteria for evaluating coat levels. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL027

Dot and Screed Techniques

Units: 1

This course is designed to teach the apprentice the importance of plumb and square projects. The students will use 3-4-5 or center line methods to square the project, establish control lines and wall finish lines. The plumbing of the project will be learned through the dotting and screeding portion of instruction. The student will brown up and finish a project using methods of application previously covered. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL028

Interior Plastering

Units: 1.5

This course is designed to introduce the student to modern gypsum interior plastering. They will learn the most widely used systems today. Proper methods of application, proper proportioning and mixing, and good workmanship will be stressed in this course. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL029

Tender and Plastering Equipment

Units: 1.5

This course covers the terminology, components, and operating procedures for plastering equipment and machinery. Machine maintenance, safety, troubleshooting procedures, limits of operation, and communication practices will be covered. Students will inspect and properly set up and clean a plastering pump. Open

Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL030

Exterior Insulation Finish Systems (EIFS)

Units: 1.5

This course will teach the basic working knowledge and technical skills needed to successfully install Exterior Insulation and Finish Systems (EIFS) to meet industry specifications and standards. Introduction to the proper usage of products and materials will be discussed and used. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL031

Ornamental Plastering

Units: 1.5

This course provides practical experience using applied geometry for plastering ornamental designs. Students will use the plastering skills presented to create molds and complete an ornamental installation to print specifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL032

Plastering Equipment Application

Units: 1.5

This course identifies the materials, application methods, and techniques for operating a plaster pump. Students will complete a three-coat work application to industry standards. An emphasis will be placed on proper pump set-up, washout, and maintenance. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL033

Finish Applications

Units: 1.5

This course covers the coating techniques for various types of finishing materials used in the plastering industry. Students will review construction drawings and specifications to identify finish materials and surface placement. Instruction will include mixing proportions, consistency, additives, and application procedures. The techniques for cement-based, acrylic and specialty materials will be the focus of the class. Students will coat multiple surfaces using the correct material and finish details on project prints. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACPL034

Theme Plastering

Units: 1.5

This course is designed to encourage the development of artistic skills and the ability to plan and execute the plastered imitation of natural rock formations. Students will study irregular surfaces, cracks, and color variations of real rock formations to aid the creative process. Students will employ specialty tooling and material techniques to replicate live like rock features. Painting, highlighting, and carving skills will be explored and utilized to complete assignments. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

ACS035

Cosmetology Apprentice

Units: 0.5

Provides the related and supplemental instruction required for cosmetology apprentices leading to a cosmetology license. 0.5 unit earned for each 8 hours of successfully completed coursework. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 8 **Lab Hours:** 0

Requisites: None

ACS036

Barbering Apprentice

Units: 48

Principles and practices in barbering. Preparation for Board Examination for licensing by the State of California Board of Barbering and Cosmetology. Laboratory participation includes student demonstration that all performance objectives have been met. Basic cosmetology kit at student's expense. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice.

Lecture Hours: 385 **Lab Hours:** 1115

Requisites: None

AEL021

Sound and Communication Apprentice 1

Units: 4.5

Provides related and supplemental instruction for Sound Electrician Apprentices in the structure and requirements of the International Brotherhood of Electrical Workers (IBEW) and the National Electrical Contractors Association (NECA) Apprenticeship program, tools, and test instruments and electricity in Direct Current (DC) Theory Series Circuits. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 14

Requisites: None

AEL022

Sound and Communication Apprentice 2

Units: 4.5

Provides related and supplemental instruction for indentured Sound Electrician Apprentices in Commercial Building Telecommunications Cable Standards, Residential and Light Commercial Telecommunications Wiring and Fiber Optic Cabling. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 14

Requisites: None

AEL023

Sound and Communication Apprentice 3

Units: 4.5

Provides related and supplemental instruction for indentured Sound Electrician Apprentices in the International Brotherhood of Electrical Workers (IBEW), National Electrical Code, Alternating Current (AC) theory, analog and digital telephone systems and Distributed/Paging systems. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 14

Requisites: None

AEL024

Sound and Communication Apprentice 4

Units: 4.5

Provides related and supplemental instruction for indentured Sound Electrician Apprentices in commercial building grounding and bonding requirements for telecommunications, security systems and installing Local Area Networks (LAN). Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 14

Requisites: None

AEL025

Sound and Communication Apprentice 5

Units: 4.5

Provides related and supplemental instruction for indentured Sound Electrician Apprentices in basic semiconductor diodes, transistors and rectifiers in electronic applications and Closed Circuit Television (CCTV) distribution systems. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 14

Requisites: None

AEL026

Sound and Communication Apprentice 6

Units: 4

Provides related and supplemental instruction for indentured Sound Electrician Apprentices in Closed Circuit Television Cameras (CCTV), Fiber Optic Certification, and prepares students for state required Fire Alarm and Voice Data Video Exam. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 14

Requisites: None

AEL027

Sound and Communication Apprentice 7

Units: 4

Provides related and supplemental instruction for indentured Sound Electrician Apprentices in BICSI Certification, Tyco (AMP) ACT I, and National Institute for Certification in Engineering Technologies (NICET) Level I Fire Alarm Systems. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 68 **Lab Hours:** 12

Requisites: None

AEL028

Sound and Communication Apprentice 8

Units: 4

Provides related and supplemental instruction for indentured Sound Electrician Apprentices in Building Industry Consulting Services International (BICSI) Technician training, high pair count copper splicing, connectors for audiovisual and communications, Master Antenna Television/Cable Television Radio Frequency (MATV/CATV) Radio Frequency (RF) Broadband Distribution, National Institute for Certification in Engineering Technologies (NICET) Level II Audio Systems Technician training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 14

Requisites: None

AEL031

Intelligent Transportation Systems Electrician Apprentice 1

Units: 4.5

Provides the related and supplement instruction required for apprentice electricians in the intelligent transportation industry in tools and fasteners, National Electrical Code (NEC), math, building materials, conduit bending, electrical safety and proper use of tools and ladders. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL032

Intelligent Transportation Systems Electrician Apprentice 2

Units: 4.5

Provides the related and supplement instruction for Intelligent Transportation Apprentice Electricians in Direct Current (DC) theory, the National Electrical Code, safe work practices, series circuits, combination circuits and hand bending. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL033

Intelligent Transportation Systems Electrician Apprentice 3

Units: 4.5

Provides the related and supplemental instruction for Intelligent Transportation Apprentice Electricians in Codeology, Direct Current (DC), Alternating Current (AC) and commercial blueprints. Continued study of Caltrans Plans and Specifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL034

Intelligent Transportation Systems Electrician Apprentice 4

Units: 4.5

Provides the related and supplemental instruction for Intelligent Transportation Apprentice Electricians in Electrical Alternating Current (AC) theory, transformers and National Electrical Code applications. Continued study of Caltrans Plans and Specifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL035

Intelligent Transportation Systems Electrician Apprentice 5

Units: 4.5

Provides the related and supplemental instruction required for Intelligent Transportation Apprentice Electricians in Rigging, Hoisting, Signaling, National Electrical Code, Grounding and Bonding and Electrical Safety Related Work Practices. Continued study of Caltrans Plans and Specifications. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL036

Intelligent Transportation Systems Electrician Apprentice 6

Units: 4.5

Provides the related and supplemental instruction required for Intelligent Transportation Apprentice Electricians in grounding and bonding, fire alarm systems, transformers and electrical safety-related work practices for Intelligent Transportation Apprentices. Continued study of Caltrans Plans and Specifications. Open

Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO37

Intelligent Transportation Systems Electrician Apprentice 7

Units: 4.5

Provides the related and supplemental instruction required for Intelligent Transportation Apprentice Electricians in Code Calculations, Blueprints, Electrical Grounding and Bonding and Motors. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO38

Intelligent Transportation Systems Electrician Apprentice 8

Units: 4.5

Provides the related and supplemental instruction required for Intelligent Transportation Apprentice Electricians in Code Calculations, Code and Practices and Motor Control. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO39

Intelligent Transportation Systems Electrician Apprentice 9

Units: 4.5

Ninth semester of a five-year program. Provides related and supplemental instruction in becoming a Journeyworker in the Intelligent Transportation Systems Industry. Torqueing methods and requirements for electrical equipment, Solid State Systems and OSHA 30 safety practices in construction for intelligent transportation systems apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO40

Intelligent Transportation Systems Electrician Apprentice 10

Units: 4.5

Provides related and supplemental instruction required for Intelligent Transportation Apprentice Electricians in Torqueing methods and requirements for electrical equipment, Photovoltaic Systems and OSHA 30 safety practices in construction for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO51

Inside Wireman 1

Units: 4.5

First semester of a five-year program. Provides related and supplemental instruction in tools and fasteners, National Electrical Code (NEC), math, building materials, conduit bending, electrical safety, and proper use of tools and ladders required for entry-level inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice.

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO52

Inside Wireman 2

Units: 4.5

Second semester of a five year program. Provides related and supplemental instruction in Direct Current (DC) theory, the National Electrical Code, safe work practices, series circuits, parallel circuits, combination circuits and hand bending conduit for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO53

Inside Wireman 3

Units: 4.5

Third semester of a five year program. Provides related and supplemental instruction in codeology, Direct Current (DC), Alternating Current (AC), and commercial blueprints, for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO54

Inside Wireman 4

Units: 4.5

Fourth semester of a five-year program. Provides related and supplemental instruction in electrical alternating current (ac) theory, transformers, and National Electrical Code application for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO55

Inside Wireman 5

Units: 4.5

Fifth semester of a five year program. Provides related and supplemental instruction in rigging, hoisting and signaling, national electric code, grounding and bonding, electrical safety related work practices and blueprints for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO56

Inside Wireman 6

Units: 4.5

Sixth semester of a five year program. Provides related and supplemental instruction in Grounding and Bonding, Fire Alarm Systems, Transformers and Electrical Safety Related Work Practices for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AELO57

Inside Wireman 7

Units: 4.5

Seventh semester of a five year program. Provides related and supplemental instruction in Code Calculations, Blueprints, Electrical Grounding and Bonding and Motors. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35
Requisites: None

AEL058 **Inside Wireman 8** **Units:** 4.5

Eighth semester of a five year program. Provides related and supplemental instruction in Code Calculations, Code and Practices and Motor Control for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL059 **Inside Wireman 9** **Units:** 4.5

Ninth semester of a five year program. Provides related and supplemental instruction in becoming a Journeyworker in the Electrical Industry, Torqueing methods and requirements for electrical equipment, Solid State Devices for Motor Control and OSHA 30 safety practices in construction for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL060 **Inside Wireman 10** **Units:** 4.5

Final semester of a five year program. Provides related and supplemental instruction in jobsite management, lighting control and photovoltaic systems for inside wireman apprentices. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 70 **Lab Hours:** 35

Requisites: None

AEL061 **Electrical Safety and First Aid** **Units:** 1.5

Provides related and supplemental instruction in Occupational Safety and Health Administration (OSHA) workplace requirements, the identification and use of safe work practices, coping with accidents and emergency situations, and one person CPR for inside wireman apprentices. American Red Cross certification available upon successful completion. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 0

Requisites: None

AIN021 **Orientation** **Units:** 2

This course provides an overview of the construction industry, safety, and green building awareness. Upon successful completion, students will receive Occupational Safety and Health Administration (OSHA) 10 hour and Powder Actuated Tool certification, and United Brotherhood of Carpenters (UBC) Fall Protection qualification cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

AIN022 **Safety and Health Certifications** **Units:** 2

This course covers the safe and appropriate use of scaffolds, aerial lift and fork lift equipment, and emergency response procedures. Upon successful completion, students will be issued American Red Cross First Aid and cardiopulmonary resuscitation (CPR) certification and United Brotherhood of Carpenters (UBC) scaffold, Aerial Lift and Forklift Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: Prerequisite: AIN021 Orientation

AIN023 **Insulation Basics** **Units:** 1.5

This course provides an introduction into insulation as an energy efficiency technology and covers common types of insulating products and typical industry applications. Job planning, preparation and personal protective equipment will be included in performance exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN022 Safety and Health Certifications

AIN024 **Construction Methods** **Units:** 1.5

This course presents the theory, methods, and procedures required to frame basic walls. Hands-on practice using proper tool techniques and appropriate materials will enhance fundamental skill development. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN025A **Print Reading** **Units:** 2

This course introduces basic visualization skills needed for reading and interpreting construction prints. Views, elevations and the role of specifications as they relate to insulation details on prints will be discussed. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN025B **Advanced Print Reading** **Units:** 2

In this course, students will analyze multi-view drawings to determine construction type, locate benchmark and building elements; review codes, references, and perform calculations for construction/insulation planning. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN026 **Sound Control and Weatherstripping** **Units:** 1.5

This course explores building construction systems and materials used to control sound. How sound travels and/or is absorbed by building materials will be

presented. Practical experience will be gained during installation of wall systems, weatherstripping, and insulating materials designed to absorb, diffuse, disperse and/or control sound. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN027

Flexible Foam Insulation

Units: 1.5

This course covers the identification of flexible foam materials, installation methods, and industry applications. The procedures and tool techniques used to fabricate and install several types of equipment covers using flexible foam insulation will be presented and practiced shop floor exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN022 Safety and Health Certifications

AIN031

Green Building and Weatherization

Units: 1.5

This course explains in detail building envelope science. Audit procedures, as well as testing and reporting mechanisms used to measure inefficiencies will be covered. Training will provide novice workers with fundamental skills to properly install the beneficial ["green"] and cost effective energy efficient retro-fits for residential buildings. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN032

Specialty Insulation

Units: 1.5

This course describes insulation systems materials and installation methods that usually performed by specialty contractors. Instruction will include refrigeration, curtain walls, plenums, access hatches, and spray systems. Students will calculate and prepare materials, and utilize the proper installation techniques during shop exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN033

Energy Audit

Units: 1.5

This course covers the building envelope-science, audit procedures, testing and reporting mechanisms used to measure inefficiencies and identify beneficial and cost effective energy efficient retro-fits for residential buildings. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN034

Firestop/Fireproofing Procedures

Units: 1.5

This course will focus on the correct methods, technical skills, and firestop/fireproofing materials required in the work place today. Strict building codes

mandate the importance of certified training. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN035

Infiltration and Moisture Control

Units: 1.5

This course covers air infiltration and how it affects the energy efficiency of a building, as well as the techniques, strategies and insulation installation skills designed to prevent energy loss, and damage due to condensation and infiltration described as "moisture build up" inside the building envelope. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN036

Loose Fill and Spray Insulation

Units: 1.5

This course presents the differences between batt, ridged, loose-fill, and spray types of thermal insulation. The product distinctions, thermal advantages, and variation of typical installation practices will be covered. An in depth discussion of safety precautions and operating procedures for spray equipment and blow rigs (trucks) used in loose fill applications will be presented. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN037

Rigid Foam and Cellular Glass Insulation Installations

Units: 1.5

This course covers the identification of rigid and cellular glass materials, installation methods, and industry applications. The proper handling and installation techniques for molded and extruded polystyrene foam boards, and cellular glass insulation will be stressed during shop exercises. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN041

S/B Crew Lead Training

Units: 2.5

This course covers the supervisory and leadership skills required for professional development, including the typical work processes, communication methods, motivational concepts, and problem-solving techniques, that when employed, result in the efficient and effective management of construction projects. Open Entry/Open Exit.

Former Title: Apprenticeship Insulation 041, Supervisory Training (2020)

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice

Lecture Hours: 40 **Lab Hours:** 0

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AIN043

Tool/Equipment Applications

Units: 1.5

This course promotes hand/power tool and equipment skill development for var-

ious construction applications. Scaffold building and aerial lift safety and operating procedures will also be covered. Upon successful completion, interior systems students will be issued United Brotherhood of Carpenters (UBC) Aerial Lift and Scaffold Erector-Welded Frame Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Insulator apprentice
Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AIN021 Orientation AND Prerequisite: AIN022 Safety and Health Certifications

AME021

Period 1

Units: 4.5

Provides the related and supplemental instruction required for the first level Maintenance Electrician Apprentice in mathematics, industrial safety and health, using hand and portable power tools, basic measurements, basic electricity, and basic mechanics. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AME052

Period 2

Units: 4.5

Provides the related and supplemental instruction required for the second level Maintenance Electrician Apprentice in basic principles of electricity, Direct Current (DC) circuit components and calculations, electric power and energy, batteries, electromagnetism, electrical safety in the workplace(NFPA 70E), electrical protective devices, introduction to industrial rigging for electricians, and introduction to the National Electric Code (NEC). Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 40

Requisites: None

AME053

Period 3

Units: 4.5

Provides the related and supplemental instruction required for the third level Maintenance Electrician Apprentice in reading blueprints, schematics, symbols, drawings and diagrams; rigging principles and practices for electricians; AC/DC equipment and controls; AC generation, transmission and distribution; over-current protective devices; and continuing education with the NEC and NFPA 70E Workplace Electrical Safety. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AME054

Period 4

Units: 4.5

Provides the related and supplemental instruction required for the fourth level Maintenance Electrician Apprentice in the application of code requirements; intermediate electricity; single phase motors; three phase systems; AC/DC equipment control and generators; and electrical troubleshooting skills. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 40

Requisites: None

AME055

Period 5

Units: 4.5

Provides the related and supplemental instruction required for the fifth level Maintenance Electrician Apprentice in the application of code requirements, vari-

able frequency drives (VFD), VFD faults and troubleshooting, input/output devices, semi-conductors, and power supplies. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AME056

Period 6

Units: 4.5

Provides the related and supplemental instruction required for the sixth level Maintenance Electrician Apprentice in the application of code requirements, introductory programming, programmable logic controllers (PLC), and advanced electricity. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 40

Requisites: None

AME057

Period 7

Units: 4.5

Provides the related and supplemental instruction required for the seventh level Maintenance Electrician Apprentice in water treatment plant and water distribution system operations and advanced electricity and electrical systems. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AME058

Period 8

Units: 4.5

Provides the related and supplemental instruction required for the eighth level Maintenance Electrician Apprentice in the application of code requirements, advanced electricity and electrical systems, maintenance and operations procedures, project planning, layout, estimating and scheduling. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 40

Requisites: None

AMF021

Orientation

Units: 2

This course provides an overview of the construction industry, safety, and green building awareness. Upon successful completion, students will receive Occupational Safety and Health Administration (OSHA) 10 Hour and Powder Actuated Tool Certifications, and United Brotherhood of Carpenters (UBC) Fall Protection Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

AMF022

Safety and Health Certifications

Units: 1.5

This course promotes hand/power tool and equipment skill development for various construction applications. Scaffold building and equipment operating procedures will also be covered. Financial and life skills will be presented to help them survive in the construction industry. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Scaffold Erector-Welded Frame Qualification Card. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20
Requisites: None

AMF023**Modular Cabinets, Doors and Drawers**

Units: 1.5

This course details cabinetry fabrication from design and function through the complete production process. Students will use the methods and procedures presented to build a typical base unit. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

AMF023C**Tool/Equipment Applications**

Units: 1.5

This course promotes hand/power tool and equipment skill development for various construction applications used in the installation of modular furnishings. Scaffold building and Aerial lift safety and operating procedures will also be covered. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Aerial Lift and Scaffold Erector-Welded Frame Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite:AMF021 Orientation AND Prerequisite:AMF022 Safety and Health Certifications

AMF024**Introduction to Modular Furnishing**

Units: 1.5

This course introduces the students to modular furnishing design concepts. Students will identify the elements that are incorporated into a basic educational design for functionality, productivity and durability. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

AMF025**Educational and Seismic Installations**

Units: 1.5

This course showcases modern modular furnishing designs for creating interactive educational spaces. In addition, students will be presented with state and local seismic codes, and those that are site specific for schools, hospitals and/or required by building engineers. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

AMF026**Hospital Modular Installations**

Units: 1.5

Modular furnishing design concepts for hospital environments will be a focus of this course. Students will identify job planning and "best practices" procedures to facilitate special requirements for installations in the healthcare industry. Multi-Station layouts, components, specialty accessories, and finishes will be included. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

AMF029**Wall and Overhead Attachments**

Units: 1.5

This course will highlight the use of various wall and overhead attachments and explain how they are integrated into the modular designed space. Students will identify the wall and overhead elements that are incorporated into a multi-station design using selected manufacturers' products. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

AMF030**Crew Lead Customer Service Training**

Units: 2.5

This course covers the supervisory and crew leadership skills required for professional development in the modular furnishing industry. An emphasis will be placed on the importance of providing excellent customer service. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 0

Requisites: None

AMF031**S/B Modular Pre-Cut Glass: Handling and Installation**

Units: 1.5

This course covers the applications, methods, and procedures required to install modular glass products. Learn hands-on practice using proper tools, product handling techniques and appropriate sequence of installation will provide students with fundamental skills. Open Entry/Open Exit.

Former Title: Modular Glass: Handling and Installation (2020)

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

AMF032**Basic Framing and Retro-Fits**

Units: 1.5

This course presents the methods and procedures required to frame basic walls for retro-fit of modular interior spaces. Hands-on practice using proper tool techniques and materials will provide experience in the framing and finishing of a basic wall. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: None

AMF034**Solid Surface and Stone Countertops**

Units: 1.5

This course covers both basic and advanced assembly and installation techniques for solid surface, natural stone, and manufactured materials. Various products, designs, materials, accessories, and safety considerations will be included. Students will use the procedures presented to fabricate countertops with backsplash and create a design inlay. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite:AMF021 Orientation AND Prerequisite:AMF022 Safety and Health Certifications

AMM021**Period 1**

Units: 4.5

Provides the related and supplemental instruction required for the first level

Maintenance Mechanic Apprentice in mathematics, industrial safety and health, hand and portable power tools, basic measurements, basic electricity, and basic mechanics. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AMM022

Period 2

Units: 4.5

Provides the related and supplemental instruction required for the second level Maintenance Mechanic Apprentice to include awareness of electrical safety and protection; interpreting symbols and reading technical drawings; introduction to building and construction codes, standards and specifications; and introduction to metallurgy, oxygen cutting, welding and metal fabrication. Field trips may be required. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AMM023

Period 3

Units: 4.5

Provides the related and supplemental instruction required for the third level Maintenance Mechanic Apprentice in industrial rigging and hoisting principles and practices; basic hydraulics and pneumatics; mechanical and fluid drive transmission systems; and equipment installation, alignment, and maintenance. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AMM024

Period 4

Units: 4.5

Provides the related and supplemental instruction required for the fourth level Maintenance Mechanic Apprentice in pump types and applications; piping systems; pump hydraulics; tubing and hose applications, installation and maintenance; installation and maintenance pipefitting; and troubleshooting skills. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AMM025

Period 5

Units: 4.5

Provides the related and supplemental instruction for the fifth level Maintenance Mechanic Apprentice to include an introduction to metallurgy; welding principles; oxy-fuel welding and cutting operations; arc welding operations; and application of welding codes and standards established by the American Welding Society. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 32

Requisites: None

AMM026

Period 6

Units: 4.5

Provides the related and supplemental instruction required for the sixth level Maintenance Mechanic Apprentice in machine shop safety; milling, drilling, and shaping with the mill and lathe; layout work; precision measurements; and cutting tool geometry. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 32

Requisites: None

AMM027

Period 7

Units: 4.5

Provides the related and supplemental instruction required for the seventh level Maintenance Mechanic Apprentice in water treatment plant operations; water distribution systems; automatic control valves; backflow prevention; surge protection; dewatering sequence; and cross connection. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AMM028

Period 8

Units: 4.5

Provides the related and supplemental instruction required for the eighth-level Maintenance Mechanic Apprentice in mechanical systems; maintenance and operations procedures; and project planning, layout, estimating, and scheduling. Field trips may be required. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 64 **Lab Hours:** 24

Requisites: None

AMW021

Orientation

Units: 2

This course provides an overview of the construction industry for millwrights, 16-hour safety, and green building awareness. Successful students will receive Occupational Safety and Health Administration (OSHA) 10 Certification and United Brotherhood of Carpenters (UBC) Millwright 16-Hour Safety Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Millwright apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: None

AMW022

Safety and Health Certifications

Units: 2

This course covers the safe and appropriate use of forklift, aerial lift equipment in industrial setting, and emergency response procedures. Upon successful completion, students will be issued First Aid and CPR Certification and UBC Scaffold, Aerial Lift and Forklift Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Millwright apprentice

Lecture Hours: 30 **Lab Hours:** 10

Requisites: Prerequisite: AMW021 Orientation

AMW023A

Millwright General Skills - A

Units: 1.5

Students will identify and use hand and power tools, machining equipment and precision instruments at a fundamental level. Students will complete various bench layout tasks using shop drawings. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured Millwright apprentice

Lecture Hours: 20 **Lab Hours:** 20

Requisites: Prerequisite: AMW021 Orientation AND Prerequisite: AMW022 Safety and Health Certifications

**AMW023B****Millwright General Skills - B****Units:** 1.5

Building on basic machine shop skills, students will use hand and power tools, shop equipment and precision instruments to complete various machining operations. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW024****S/B Print Reading****Units:** 2

This course introduces the basic visualization skills needed for reading and interpreting construction prints.Views, elevations, and the role of specifications as they relate to prints will be discussed. Open Entry/Open Exit.

Former Title:Apprenticeship Millwright 024, Printreading (2020)

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 30 **Lab Hours:** 10**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW025****Welding Fabrication****Units:** 1.5

This course is designed as an introduction to layout, and basic welding and fabrication.The students will be introduced to the basic skills of measuring, equipment set-up and cutting, shaping, grinding, welding, filing, heating and bending of metal parts. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW026****Cutting and Burning****Units:** 1.5

This course provides safety instruction, equipment operation, and basic skills needed for successful layout and fabrication of metal parts using an oxy-acetylene torch. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW027****Optics and Machinery Alignment****Units:** 1.5

This course covers the terms, characteristics, and operating principles for the transit and laser levels. Procedures for establishing machinery and equipment elevation and alignment will be demonstrated and practiced. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW028****Machinery Shaft Alignment****Units:** 1.5

This course covers the terms, characteristics, and methods for aligning machine shafts. Conventional dial indicator and computer aided methods will be included

in the training. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW029A****Structural Welding - AWS A****Units:** 1.5

This course is designed to prepare the student to obtain an American Welding Society (AWS) structural welding certificate per AWS D1.1 Structural Welding Code, the welding of plates that are 1/8" to unlimited thickness. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW029B****Structural Welding - AWS B****Units:** 1.5

This course is designed to prepare the student to obtain an AWS structural welding certificate per AWS D1.1 Structural Welding Code, the welding of plates that are 1/8" to unlimited thickness. Practical assignments will include metal inert gas (MIG) and tungsten inert gas (TIG) welding. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW030****Rigging Hardware and Procedures****Units:** 1.5

This course presents both lifting theory and practical rigging methods and procedures. Rigging attachment procedures, lifting equipment, limits of operation and communication practices will be covered. Successful students will receive United Brotherhood of Carpenters (UBC) Rigging Qualification Cards. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 30 **Lab Hours:** 10**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW031****Turbine Familiarization****Units:** 1.5

Students will explore the machines and auxiliary equipment used in the power production industry.This course will highlight the function and performance of a typical gas turbine, and will include hydraulic bolting procedures. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice**Lecture Hours:** 20 **Lab Hours:** 20**Requisites:** Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications**AMW032****Pumps****Units:** 1.5

This course will cover the identification, application, and installation skills for typical systems found in the petro-chemical industry. Demonstrations and practice exercises will focus on pump types, gaskets, seals and fans. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured Millwright apprentice

Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW033 Conveyor Systems

Units: 1.5
This class will cover proper installation, alignment procedures, belt splicing, and explain how improper installation affects the maintenance and lifespan of equipment and conveyor systems. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW034 Drives, Pulleys and Belts

Units: 1.5
Installation techniques focusing on power drive systems and equipment arrangements. Key skills presented will include system specifications, component identification and equipment alignment. Shop projects will focus on belt, chain and gear drive installations. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW036A Machinery Installation and Erection - A

Units: 1.5
As an introduction, students will explore the machinery used in the manufacturing and package handling industry. Component descriptions and machine drawings illustrate the complex details and important considerations for assembly/disassembly tasks. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW036B Machinery Installation and Erection - B

Units: 1.5
This course will enhance machinery installation skills used in manufacturing applications. Exercises will focus on the importance of machine drawings to identify component tolerances and installation requirements and alignment of parts. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW037 Turbine Maintenance

Units: 1.5
Students will use machinery maintenance skills and techniques for disassembly/assembly of a typical gas turbine. Couplings, bearings, and rotors will be inspected, and tolerances verified to complete onsite hands-on tasks. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright- apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW039 Compressor Theory and Maintenance

Units: 1.5
This course will cover the compressor operating principles, safety, assembly, and maintenance skills for industrial compressors. Exercises will focus on the disassembly, inspection, and reassembly of compressor components. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW043 Tool/Equipment Applications

Units: 1.5
This course promotes hand/power tool and equipment skill development for various construction applications. Scaffold building and aerial lift safety and operating procedures will also be covered. Upon successful completion, students will be issued United Brotherhood of Carpenters (UBC) Aerial Lift and Scaffold Erector-Welded Frame Qualification Cards. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AMW051 Solar Installer Level 1

Units: 1.5
This course covers the design and function of several types of solar installation. The methods, sequences and procedures for mounting layout, elevation/positioning, and assembly for solar construction will be presented to apprentices. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured Millwright apprentice
Lecture Hours: 20 **Lab Hours:** 20
Requisites: Prerequisite:AMW021 Orientation AND Prerequisite:AMW022 Safety and Health Certifications

AOE011 Construction Safety Inspector Apprentice 1

Units: 4
Provides the related and supplemental instruction required for operating engineer apprentices in First Aid – CPR – AED, worker safety regulations and standards, and reviewing and completing safety forms and/or records. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 48 **Lab Hours:** 48
Requisites: None

AOE012 Construction Safety Inspector Apprentice 2

Units: 4
Provides related and supplemental instruction for state-indentured apprentices employed full-time in the operating engineer field. Covers basic safety for a worker on hazardous waste and materials project, including the General Industry Outreach 30-hour OSHA safety course. Apprentices successfully completing this course will receive up to two certifications: Occupational Safety and Health Administration (OSHA) HAZWOPER 40-hr Worker Certificate and OSHA General Industry Outreach 30-hr Worker Safety Certificate. Open Entry/Open Exit.
Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 48 **Lab Hours:** 48
Requisites: None

**AOE013****Construction Safety Inspector Apprentice 3****Units:** 4

Provides related and supplemental instruction for state-indentured apprentices employed full-time in the operating engineer field. Covers basic safety for a worker on an asbestos-containing and/or remediation project and OSHA disaster site worker and safety topics. Apprentices successfully completing this course will receive up to two certifications: Occupational Safety and Health Administration (OSHA) 15-hr Disaster Site Worker Certificate and AHERA Asbestos Worker 32-hour safety training course. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 48 **Lab Hours:** 48**Requisites:** None**AOE014****Construction Safety Inspector Apprentice 4****Units:** 0

Provides the related and supplemental instruction required for operating engineer apprentices in construction cranes. Covers terminology, equipment nomenclature, basic principles of operation, regulatory agencies, wire rope, and rigging, and personnel manlift safety. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 0 **Lab Hours:** 0**Requisites:** None**AOE015****Construction Safety Inspector Apprentice 5****Units:** 4

Provides the related and supplemental instruction required for operating engineer apprentices in the New Miner safety procedures of MSHA 30 CFR Part 48 B (Mine Safety and Health Administration) for surface mine operations, miner rights and responsibilities, worksite and equipment safety inspections, and all information and regulations pertaining to New Miners Rights and Responsibilities training standards. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 48 **Lab Hours:** 48**Requisites:** None**AOE016****Construction Safety Inspector Apprentice 6****Units:** 4

Provides the related and supplemental instruction required for operating engineer apprentices in employer safety program protocols, local emergency response procedures, and the duties and responsibilities of the construction building safety inspector. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 48 **Lab Hours:** 48**Requisites:** None**AOE021****Plant Equipment Operator 1****Units:** 3.5

Provides the related and supplemental instruction required for Operating Engineer Apprentices in safety, common industry terminology, operation and maintenance of equipment used in the aggregate processing industry; and emphasis on preventive maintenance. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 40 **Lab Hours:** 72**Requisites:** None**AOE021J****Plant Equipment Operator 1 - Journeyworker****Units:** 4

Provides the related and supplemental instruction required for Operating Engineer Journeyworkers in safety, common industry terminology, operation and maintenance of equipment used in the aggregate processing industry; and emphasis on preventive maintenance. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Active Union Member**Lecture Hours:** 40 **Lab Hours:** 72**Requisites:** None**AOE022****Plant Equipment Operator 2****Units:** 4

Provides the related and supplemental instruction required for Operating Engineer Apprentices in the safe use of oxygen-acetylene torch cutting equipment, including the procedures and techniques of brazing, soldering, and electric arc welding. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 40 **Lab Hours:** 72**Requisites:** None**AOE022J****Plant Equipment Operator 2 - Journeyworker****Units:** 4

Provides the related and supplemental instruction required for Operating Engineer Journeyworkers in the safe use of oxygen-acetylene torch cutting equipment, including the procedures and techniques of brazing, soldering, and electric arc welding. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Active Union Member**Lecture Hours:** 40 **Lab Hours:** 72**Requisites:** None**AOE023****Plant Equipment Operator 3****Units:** 4

Provides the related and supplemental instruction required for Operating Engineer Apprentices in safety practices, pre-shift inspection, servicing, maintenance, and heavy construction equipment operation and procedures. Introduction to Green Technologies pertaining to the Plant Equipment Operation classification. Emphasizes practical experience in performing the work processes. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 40 **Lab Hours:** 72**Requisites:** None**AOE023J****Plant Equipment Operator 3 - Journeyworker****Units:** 4

Provides the related and supplemental instruction required for Operating Engineer Journeyworkers in safety practices, pre-shift inspection, servicing, maintenance, and heavy construction equipment operation and procedures. Introduction to Green Technologies pertaining to the Plant Equipment Operation classification. Emphasizes practical experience in performing the work processes. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Active Union Member**Lecture Hours:** 40 **Lab Hours:** 72**Requisites:** None

AOE024

Plant Equipment Operator 4

Units: 4

Provides the related and supplemental instruction required for Operating Engineer Apprentices in pneumatics, power hydraulics, filtration, piping/sealing devices, and electricity; emphasizing troubleshooting on single and three phase industrial motor control systems. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE024J

Plant Equipment Operator 4 - Journeyworker

Units: 4

Provides the related and supplemental instruction required for Operating Engineer Journeyworkers in pneumatics, power hydraulics, filtration, piping/sealing devices and electricity; emphasizing troubleshooting on single and three phase industrial motor control systems. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Active Union Member

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE025

Plant Equipment Operator 5

Units: 4

Provides the related and supplemental instruction required for Operating Engineer Apprentices in disassembly, diagnosis, repair, assembly/adjustment of cone crushers, screens, separators and belt conveyors. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE025J

Plant Equipment Operator 5 - Journeyworker

Units: 4

Provides the related and supplemental instruction required for Operating Engineer Journeyworkers in disassembly, diagnosis, repair, assembly/adjustment of cone crushers, screens, separators and belt conveyors. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Active Union Member

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE026

Plant Equipment Operator 6

Units: 5

Provides the related and supplemental instruction required for Operating Engineer Apprentices in the operation of asphalt and concrete plants, aggregate material classification and handling, bulk and silo storage, engineered batching, gradation, and tolerance. Introduction to Operator Station and panel electrical controls used in the batching and mixing of asphalt and concrete products. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 72 **Lab Hours:** 72

Requisites: None

AOE026J

Plant Equipment Operator 6 - Journeyworker

Units: 4

Provides the related and supplemental instruction required for Operating Engineer Journeyworkers in the operation of asphalt and concrete plants, aggregate material classification and handling, bulk and silo storage, engineered batching, gradation, and tolerance. Introduction to Operator Station and panel electrical controls used in the batching and mixing of asphalt and concrete products.. Open

Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Active Union Member

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE031

Heavy Duty Repairer 1

Units: 3

Provides the related and supplemental instruction required for operating engineer apprentices in safe work practices and principles when working around or operating heavy equipment, purposes of organized labor, labor history, first aid, IUOE Local 12 structure, Labor-Management Agreement, Local 12 By-Laws, International Union of Operating Engineers (IUOE) Constitution, and basic machinery maintenance. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 36

Requisites: None

AOE032

Heavy Duty Repairer 2

Units: 3

Provides the related and supplemental instruction required for operating engineer apprentices in the basic safety practices and principles in the use of oxy-acetylene cutting equipment, electric arc welding equipment, and examples/techniques of brazing. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 36

Requisites: None

AOE033

Hydraulics

Units: 3

Provides related and supplemental instruction required for operating engineer apprentices in the principles of hydraulics, basic hydraulic system nomenclature, and the practical uses of hydraulics. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 36

Requisites: None

AOE034

Advanced Hydraulics

Units: 3

Provides the related and supplemental instruction required for operating engineer apprentices in hydraulic systems, pneumatic systems, and electrical/electronic systems used on heavy equipment and trucks. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 36

Requisites: None

AOE035

Heavy Duty Repairer 5

Units: 144

Provides related and supplemental instruction required for operating engineer apprentices in basic safety practices and proper maintenance procedures when working with gasoline and/or diesel engines. Specific topics include: internal combustion engine theory for both diesel and gasoline engines, use of appropriate hand tools needed for engine repair, proper procedures for engine disassembly and assembly, and troubleshooting and diagnosing engine failures. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 36

Requisites: None

Apprenticeship Courses

**AOE036****Disassembly and Assembly****Units:** 3

Provides the related and supplemental instruction required for operating engineer apprentices, including: basic safety aspects and procedures of working with power transmission components of heavy construction equipment. Additional training includes: clutches, mechanical transmissions, differentials, final drives, crawler-type tractor undercarriage, and crawler-type tractor truck assemblies. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 36 **Lab Hours:** 36**Requisites:** None**AOE041****Introduction to Apprenticeship****Units:** 4

Provides related and supplemental instruction for state-indentured apprentices employed full-time in the operating engineers trade. Students will identify basic safety rules and procedures when operating and working around heavy construction equipment, proper safe attitudes and work ethics, personal financial planning responsibilities, history of organized labor and its structure, and the importance of wages and benefits of being a member of a local union. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 52 **Lab Hours:** 52**Requisites:** None**AOE042****Grade Checking****Units:** 4

Provides related and supplemental instruction for state-indentured apprentices employed full-time in the operating engineers field. Reviews information found on typical grading and Survey stakes, the use of colored ribbon on grade stakes, transferring elevations from one point to another, setting grading stakes for both cut and fill slopes, grading stakes for curb and streets, staking procedures for subdivisions, basic laser set-up, and basic GPS equipment set-up.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 52 **Lab Hours:** 52**Requisites:** None**AOE043****Equipment Operator 3****Units:** 4

Provides related and supplemental instruction for state-indentured apprentices employed full-time in the operating engineers field. Covers the topics of preventive maintenance and operation of heavy construction equipment, best practices and personal safety, terminology, maintenance, and operation of the following pieces of equipment: Scrapers, Dozers, Loaders, Forklifts, Compactors, Rollers, and Construction Cranes. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 52 **Lab Hours:** 52**Requisites:** None**AOE044****Plan Reading****Units:** 4

Provides related and supplemental instruction for state-indentured apprentices employed full-time in the operating engineers field. Introduces the tasks of interpreting and reading plan sets consisting of: grading, infrastructure, and structural plans for roadways, subdivisions, and service utilities. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 52 **Lab Hours:** 52**Requisites:** None**AOE045****Equipment Operator 5****Units:** 4

Provide related and supplemental instruction to apprentice operating engineers on the topics of preventive maintenance and operation of heavy construction equipment, best practices and personal safety, terminology, maintenance, and operation of the following pieces of equipment: Backhoes, Excavators, Motor Graders, Finish Dozers, and slope boards, Hydraulic and Conventional Cranes. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 52 **Lab Hours:** 52**Requisites:** None**AOE046****Hazmat 6****Units:** 4

Provides related and supplemental instruction for state-indentured apprentices employed full-time in the operating engineer field. Covers basic safety for a worker on a hazardous materials project, First Aid-CPR-AED, OSHA disaster site worker, and safety topics. Apprentices successfully completing this course will receive up to three certifications: Occupational Safety and Health Administration (OSHA) HAZWOPER 40-hr Worker Certificate, OSHA Construction Industry 10-hr Worker Safety Certificate, OSHA 15-hr Disaster Site Worker Certificate, and National Safety Council (NSC) First Aid, CPR, AED Certificate. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 52 **Lab Hours:** 52**Requisites:** None**AOE047****Operating Engineers Hazmat 40****Units:** 2

Safety regulations, safe work practices for hazardous waste site operations as specified by the 29th code of Federal Regulations, 1910.120 as approved by the National Institute of Environmental Safety and Health for the International Union of Operating Engineers, for required certification. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 28 **Lab Hours:** 12**Requisites:** None**AOE048****Disaster Site Worker****Units:** 0.5

Recognizing safety hazards, health hazards, chemical, biological, radiological and nuclear defense (CBRNE) agents. Management techniques of traumatic incident stress awareness. Proper respiratory protection, personal protective equipment, decontamination procedure. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 8 **Lab Hours:** 4**Requisites:** None**AOE054****Tower Crane****Units:** 1

Provides instruction and training for operating engineers in tower cranes. Covers terminology, nomenclature, basic principles of operation, regulatory agencies, and operator safety involved with construction tower crane operation. Open Entry/Open Exit.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 16 **Lab Hours:** 16**Requisites:** None

AOE061

Concrete Transportation Construction Inspector

Units: 4

Provides related and supplemental instruction for apprentices in the Operating Engineers field in concrete transportation construction inspections. Covers transportation systems and applications, preliminary testing, pre-placement inspection, placement inspection, post-placement inspection. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 74

Requisites: None

AOE062

Asphalt Inspection

Units: 4

Provides related and supplemental instruction for apprentices in the Operating Engineers field in asphalt inspection. Covers materials inspection, mix design, plant operations, placing operations, compaction, report writing, plan reading, and grade checking. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 74

Requisites: None

AOE063A

ACI Laboratory Testing Technician I

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in laboratory testing on aggregates used for structural concrete. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 74

Requisites: None

AOE064A

ACI Laboratory Testing Technician II

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in design parameters for batching structural concrete. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 74

Requisites: None

AOE071A

Reinforced Concrete

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in codes and duties, reinforcing steel, blueprinting reading, guniting, report writing, people skills. Apprentices will gain the knowledge, research skills and confidence needed to pass their written and oral exams. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE072A

Prestressed Concrete

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in reinforcing steel, codes, blueprints, stressing sheets, plan changes, report writing, people skills, job etiquette and protocol. Apprentices will

gain the knowledge, research skills and confidence needed to pass their written and oral exams. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE073A

Structural Steel/Welding

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in codes and duties, welding, report writing, people skills, guniting applications. Apprentices will gain the knowledge, research skills and confidence needed to pass their written and oral exams. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE073B

Structural Steel/Bolting

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in codes and duties, structural bolting inspection, report writing, personal skills. Apprentices will gain the knowledge, research skills, and confidence needed to pass their written and oral exams. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE074A

Structural Masonry

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in codes and duties, reinforcing steel, plan changes, people skills, jobsite etiquette and protocol, Specialty Inspector. Apprentices will gain the knowledge, research skills and confidence needed to pass their written and oral exams. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 72

Requisites: None

AOE075A

Soils Inspection and Testing

Units: 4

Provides the required related and supplemental instruction for operating engineer apprentices in codes and duties, calibration procedures, soil identification, methods of moisture determination, maximum density tests, sand cone testing, nuclear density testing, people skills, sieve analysis, proper vehicle setup. Apprentices will gain the knowledge, research skills and confidence needed to pass their written and oral exams. Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 74

Requisites: None

AOE076A

Structural Plan Reading for Inspectors

Units: 4

Provides the related and supplemental instruction required for operating engineer apprentices in structural plan reading, interpretation of structural layout and design engineering for inspectors. Design, printing, and preparation guidelines as detailed in the Uniform Building Code (UBC). Open Entry/Open Exit.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 40 **Lab Hours:** 74
Requisites: None

AOE077A ICC Soils Special Inspector

Units: 4
Provides the required related and supplemental instruction required for operating engineer apprentices in the general requirements, laboratory testing, grading plans, site preparation, and fill monitoring techniques used for International Code Council (ICC) Soils Inspections. Open Entry/Open Exit.

Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 40 **Lab Hours:** 72
Requisites: None

AOE079 Certified Welding Inspector

Units: 3
Provides related and supplemental instruction necessary to become a Certified Welding Inspector. Topics include welding processes, heat control, welding inspections and flaws, definitions and terminology, utilization of specifications and drawings, safety, testing methods. Open Entry/Open Exit.

Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 36 **Lab Hours:** 36
Requisites: None

AOE080 Structural Concrete Plan Reading

Units: 3
Provides instruction for operating engineers in the design and engineering requirements of structural buildings and the fundamentals of structural concrete. Open Entry/Open Exit.

Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 36 **Lab Hours:** 36
Requisites: None

AOE081 Structural Reinforced Concrete for Inspectors

Units: 3
Provides the required related and supplemental instruction for operating engineer apprentices in codes and duties, reinforcing steel, plan set reading, guniting, report writing, people skills. Apprentices will gain the knowledge, research skills, and confidence needed to pass their written and oral exams. Open Entry/Open Exit.

Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 36 **Lab Hours:** 36
Requisites: None

AOE082 Non-Destructive Testing

Units: 4
Provides the required related and supplemental instruction for operating engineer apprentices in Ultrasonic, Magnetic Particle, and Liquid Penetrant Testing codes and duties, welding procedures, report writing, people skills, and testing equipment orientation. Members will gain the knowledge, research skills, and confidence needed to pass their written and oral exams as applicable to the Non-Destructive Testing requirements. Open Entry/Open Exit.

Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 40 **Lab Hours:** 72
Requisites: None

AOE083 Fireproofing and Firestopping Inspection

Units: 4
Provides the required related and supplemental instruction for operating engi-

neer apprentices in Fireproofing and Firestopping inspection, testing codes and duties, application procedures, report writing, people skills, and testing equipment orientation. Members will gain the knowledge, research skills, and confidence needed to pass their written and oral exams as applicable to the Fireproofing and Firestopping Testing requirements. Open Entry/Open Exit.

Transferability: Not transferable
Limitations of Enrollment: Must be a state-indentured apprentice.
Lecture Hours: 52 **Lab Hours:** 52
Requisites: None

APCD107 Apprenticeship Child Growth and Development (DS1)

Units: 3
Examines the progression of development in the physical, cognitive, social, and emotional domains and identifies developmental milestones for children from conception through adolescence. Emphasis on interactions between biological processes and environmental factors. Students will observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. Field-based assignments may be required. No credit for students who have taken Psychology 157.

Transferability: Transferable to both UC and CSU
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 48 **Lab Hours:** 0
Requisites: None

APCD108 Apprenticeship Observation and Assessment

Units: 3
Introduces the appropriate use of assessment and observation tools and strategies to document young children's development and learning. The use of findings to inform and plan learning environments and experiences are emphasized. Recording strategies, rating systems, portfolios, and multiple assessment tools will be discussed, along with strategies for collaboration with families and professionals.

Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 48 **Lab Hours:** 0
Requisites: Prerequisite: APCD107 Apprenticeship Child Growth and Development (DS1)

APCD110 Apprenticeship - Child, Family and Community (DS2)

Units: 3
This course examines processes of socialization focusing on the interrelationship of family, school, and community and the influence of multiple societal contexts. Explores the role of collaboration between family, community, and schools in supporting children's development. Field trips and field-based assignments may be required.

Transferability: Transferable to both UC and CSU
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 48 **Lab Hours:** 0
Requisites: None

APCD111A Apprenticeship - Principles and Practices

Units: 3
An examination of the historical context and theoretical perspectives of developmentally appropriate practices in early care and education. Examines the role of the early childhood educator; identifying best practices for environmental design, curriculum, and teaching strategies. Explores teacher-child relationships, professional ethics, career pathways, and professional standards. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 48 **Lab Hours:** 0
Requisites: Prerequisite: APCD107 Apprenticeship Child Growth and Development (DS1) AND Prerequisite: APCD108 Apprenticeship Observation and Assessment

APCD111B

Apprenticeship - Introduction to Curriculum for Young Children

Units: 3

Developmentally appropriate curriculum and environments for children birth through age eight. Students will use knowledge of children's development, theories of learning and development, and examples from various models of developmentally appropriate practice to plan environments and curriculum in all content areas to support children's development and learning integrated throughout indoor and outdoor settings. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 48 **Lab Hours:** 0

Requisites: Prerequisite: APCD107 Apprenticeship Child Growth and Development (DS1) AND Prerequisite: APCD108 Apprenticeship Observation and Assessment

APCD112

Apprenticeship - Health, Safety and Nutrition for Children

Units: 3

Laws, regulations, standards, policies, procedures, and best practices related to health, safety, and nutrition in care and education settings for children birth through middle childhood. Includes the teacher's role in prevention strategies, nutrition and meal planning, integrating health, safety, and nutrition experiences into daily routines, and overall risk management. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 48 **Lab Hours:** 0

Requisites: Prerequisite: APCD107 Apprenticeship Child Growth and Development (DS1)

APCD116A

Infant/Toddler Growth and Development (DS4)

Units: 3

A study of infants and toddlers from pre-conception to age three including physical, cognitive, language, social, and emotional growth and development. Applies theoretical frameworks to interpret behavior and interactions between heredity and environment. Emphasizes the role of family and relationships in development. Partially fulfills the requirements for state licensing. With Child Development 116B, this class fulfills infant/toddler specialization for Child Development Center permits. Field trips and field-based assignments may be required. A negative TB test result and state-mandated immunizations are required for some fieldwork assignments and certificate completion.

Transferability: Transferable to CSU only

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 48 **Lab Hours:** 0

Requisites: Prerequisite: APCD107 Apprenticeship Child Growth and Development (DS1)

APCD202

Introduction to Children from Special Populations

Units: 3

Introduces the variations in the development of children with special needs ages birth through eight and the resulting impact on families. Includes an overview of historical and societal influences, laws relating to children with special needs and inclusion, and the identification and referral process.

Transferability: Transferable to CSU only

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 48 **Lab Hours:** 0

Requisites: None

APCD221

Apprenticeship - Living and Teaching in a Diverse Society

Units: 3

Examines the impact of various societal influences on the development of chil-

dren's social identity. Covers developmentally appropriate, inclusive, and anti-bias approaches. Self-examination and reflection on issues related to social identity, stereotypes, and bias will be emphasized. Field trips and field-based assignments may be required.

Transferability: Transferable to both UC and CSU

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 48 **Lab Hours:** 0

Requisites: None

APCD298A

Apprenticeship - Practicum in Early Childhood Programs

Units: 3.5

Under guided supervision in a Rancho Santiago Community College District (RSCCD) Child Development Center or approved mentor site, students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement and evaluate approaches and strategies, and techniques that promote development and learning. Field trips and field-based assignments required. A negative TB test result and state-mandated immunizations are required for certificate completion.

Transferability: Transferable to CSU only

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 32 **Lab Hours:** 80

Requisites: Prerequisite: APCD110 Apprenticeship - Child, Family and Community (DS2) AND Prerequisite: APCD111B Apprenticeship - Introduction to Curriculum for Young Children

APL020

Orientation

Units: 3

Provides related and supplemental instruction required for entry-level apprentice power linemen.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 32 **Lab Hours:** 56

Requisites: None

APL021

Power Lineman Apprentice 1

Units: 3

Provides the related and supplemental instruction required for entry-level power linemen apprentices in the tools, math, theory, and safety required in the power lineman industry.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 52

Requisites: None

APL022

Power Lineman Apprentice 2

Units: 3

Provides the related and supplemental instruction in the theory, math, construction methods, and safety required for the second-level power lineman apprentice.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 52

Requisites: None

APL023

Power Lineman Apprentice 3

Units: 3

Provides the related and supplemental instruction for third-level power lineman apprentice with emphasis on circuits energized below 750 volts, tower erection, and street lighting systems.

Transferability: Not transferable

Limitations of Enrollment: Must be a state-indentured apprentice

Lecture Hours: 36 **Lab Hours:** 52
Requisites: None

APL024**Power Lineman Apprentice 4****Units:** 3

Provides the related and supplemental instruction for the fourth-level lineman apprentice in underground construction, blueprint reading, splicing and sagging conductors, locating faults, and using aerial man-lift equipment.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 32 **Lab Hours:** 48**Requisites:** None**APL025****Power Lineman Apprentice 5****Units:** 3

Provides the related and supplemental instruction for power lineman apprentices in the theory, operation and installation of electrical apparatus and test equipment in power systems. Includes construction and maintenance of energized line and equipment.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 36 **Lab Hours:** 52**Requisites:** None**APL026****Power Lineman Apprentice 6****Units:** 3

Provides the required related and supplemental instruction for power lineman apprentices in the theory, installation, maintenance, and operation of electrical apparatus used for system protection, metering, power factor correction and voltage regulation.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 36 **Lab Hours:** 52**Requisites:** None**APL041****Work Methods Training****Units:** 1

Provides the required related and supplemental instruction for apprentice power lineman in safety, tools, guys and anchors, pole setting and handling, underground tools and equipment.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 8 **Lab Hours:** 32**Requisites:** None**APL042****Rubber Gloves Training****Units:** 1

Provides the required related and supplemental instruction for apprentice power linemen in tools, accident prevention rules, rubber glove guidelines and rules.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 8 **Lab Hours:** 32**Requisites:** None**APL043****Hot Sticks Training****Units:** 1

Provides the required related and supplemental instruction for apprentice power linemen in history, development, manufacture and care of hot line tools.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 8 **Lab Hours:** 32**Requisites:** None**ASV030****Labor Relations****Units:** 0.5

Provides a required related and supplemental instruction for surveying apprentices in apprenticeship rules and regulations; general history of labor/ management relations in the United States (US); employer/employee relations; state and federal laws affecting workers.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 12 **Lab Hours:** 0**Requisites:** None**ASV040****Standard First Aid****Units:** 0.1

Enables surveyors to cope with accidents and emergency situations with the goal of protecting and saving lives with special emphasis on those first aid skills unique to the surveying industry. American Red Cross certificate awarded upon successful completion.

Transferability: Not transferable**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 0 **Lab Hours:** 6**Requisites:** None**ASV101****Chainman Apprentice 1****Units:** 5

Provides the required related and supplemental instruction for apprentice surveyors in the survey industry: basic field operations and setting survey points, basic measurement techniques, introduction to field instruments, introduction to leveling, introduction to topographic surveys. Open Entry/Open Exit.

Transferability: Transferable to CSU only**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 66 **Lab Hours:** 48**Requisites:** None**ASV102****Chainman Apprentice 2****Units:** 5

Provides the required related and supplemental instruction for apprentice surveyors in apprentice responsibilities and public relations; identification of monuments; linear measurements; introduction to station and location systems; angles, bearings, and instruments; leveling methods; global positioning system; plan reading and grade sheets; introduction to construction surveys. Open Entry/Open Exit.

Transferability: Transferable to CSU only**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 72 **Lab Hours:** 36**Requisites:** None**ASV103****Chainman Apprentice 3****Units:** 5

Provides the required related and supplemental instruction for apprentice surveyors in measuring systems; angles, bearings, and location systems; calculations techniques; trigonometry for surveying; slope staking; electronic distance measuring and recording. Open Entry/Open Exit.

Transferability: Transferable to CSU only**Limitations of Enrollment:** Must be a state-indentured apprentice**Lecture Hours:** 69 **Lab Hours:** 30**Requisites:** None**ASV104****Chainman Apprentice 4****Units:** 5

Provides the required related and supplemental instruction for apprentice surveyors in coordinate geometry; horizontal and vertical curves; traverse surveys. Open Entry/Open Exit.

Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 72 **Lab Hours:** 30
Requisites: None

ASV105
Chainman Apprentice 5

Units: 4.5
 Provides the related and supplemental instruction for apprentice surveyors in safety procedures; U.S. public land surveys; property surveys; subdivisions surveyors; topographic and photogrammetry surveys; introduction to Ground Penetrating Radar technology; introduction to drone surveys; heavy construction surveys; ALTA surveys; total stations; public relations; scope of profession and the Chief of Party program. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 66 **Lab Hours:** 24
Requisites: None

ASV121
Plane Surveying and Coordinate Geometry

Units: 3
 Advanced field surveying principles and mathematical surveying principles including introduction and review of survey mathematics, measuring systems, coordinate geometry, and modern calculation systems. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

ASV122
Advanced Coordinate Geometry

Units: 3
 Advanced field surveying methods and calculation principles involving coordinate geometry, including omitted measurements, intersection problems, three-point resection problems, area calculation problems, complex circular curves, vertical curves, and spiral curves. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

ASV123
Laptop Surveying/Aerial Photogrammetry

Units: 3
 Advanced field surveying methods and principles involving laptop surveying, photogrammetry, and topographic surveying. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

ASV124
Plan Reading and Subdivision Surveying

Units: 3
 A study of plan reading and subdivision surveying principles and practices including plan reading basics; typical and unique subdivision plans; survey control; layout and staking of subdivisions; locating plan, calculation and specification errors. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

ASV125
Major Project Plans and Survey Layout

Units: 3
 Basic principles of construction plan reading, survey control, major project layout. Interpreting construction and survey plans of reinforced concrete multi-story buildings. In-depth analysis of structural/architectural plans. Plans/survey layout for major construction projects. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

ASV126
Control and Geodetic Surveying

Units: 3
 Principles/methods of control and geodetic surveying. Modern positioning systems; triangulation/trilateration for geodetic control; state plane coordinate systems; astronomy for surveyors; note keeping and computational procedures utilizing modern instruments, techniques, communications equipment; dredging and hydrographic surveys. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

ASV127
U.S. Public Land Surveys

Units: 3
 A study of the principles, procedures, and methods of performing U.S. public-land surveys. Subdivision of townships and sections. Retracement of original surveys and restoration of corners. Reading and interpreting property descriptions. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None

ASV128
Property Surveys and Legal Descriptions

Units: 3
 Principles, procedures, and methods of researching and performing property surveys. Laws affecting surveyors and ethics. Supervision and public relations. Analysis of survey data and drawing the plat. Writing descriptions of real property. Open Entry/Open Exit.
Transferability: Transferable to CSU only
Limitations of Enrollment: Must be a state-indentured apprentice
Lecture Hours: 54 **Lab Hours:** 0
Requisites: None
