HOW TO MAKE BODY BUTTER

Don't you agree that the hurried, stressful pace of your daily life often makes it difficult to find ways to relax? In this online virtual presentation, like many people, you shall find to create a restful retreat in your home - one in which you can relax and relax and rejuvenate your mind, body and soul. Making your own body butter lotion is not any more difficult. It is really a very similar process to using the same tools you already have in your kitchen. Most body butter recipes include just a handful of ingredients - you can make them with whatever scent and therapeutic qualities you desire to add to make your unique product. Body butter is awesome in any form. It is so rich and luxurious that you just can't help but love it. This class is arranged to run on a Zoom platform. Each participant will receive zoom link and ingredient list in their email week before the class.

ALL DAY COMBO CAMP: LEGO®, CHESS, ORIGAMI, CARTOONING, SPORTS (GRADES 1-6)

Join the fun in this combo camp where students will get a rotation of chess, LEGO, origami, cartooning and sports throughout the week! We make chess fun by using exciting story-based lessons to bring the game to life! Students will be working with LEGO® while learning a wide variety of engineering, architecture and storytelling skills! Through origami, enjoy the art of folding paper to make some amazing creations from jumping frogs to aerodynamic airplanes. In Cartooning they will make fun and simple cartoons by following step by step directions while learning STEM facts! Our sports program will include a ton of original and well known games where students will work out their bodies and minds while learning teamwork and leadership skills. Our mission is to teach life strategies through games!

PYTHON STARTUP (AGES 10-14)

Who's ready to get to learning PYTHON! Sounds a little gross, like a giant snake right? But it's actually one of the hottest programming languages around today. Take advantage of the easy-to-read style of coding while picking up on one of the most popular languages today for professional and beginner programmers alike. We'll start out by using an online python platform to learn some basics and practice some fundamental concepts, and time permitting and based on our camper skill set, we may jump on to some more complex Python programming, potentially getting into coding with PyGame for gaming apps.

CYBERKIDS (AGES 9-15)

This course is designed to introduce young learners to the fundamentals of cybersecurity, helping them understand how to stay safe online. In a world increasingly influenced by digital technology, children will gain essential skills to navigate the internet responsibly and securely. Through age-appropriate lessons, learners will explore common digital threats such as phishing scams, cyberbullying, privacy issues, and exposure to inappropriate content. The course will focus on strategies to avoid these dangers, like creating strong passwords, understanding the importance of responsible social media use, and protecting Personal information from cyber risks. In addition to these core topics, students will also be introduced to the fascinating world of artificial intelligence (AI), exploring how AI influences their online experiences and how to engage with it safely. Interactive activities, real-life scenarios, and engaging discussions will make the learning process enjoyable while reinforcing key concepts in cybersecurity. By the end of this course, young learners will be equipped with the knowledge and skills to protect themselves in the digital world, building habits that support safe and responsible online behavior.

SANTIAGO CANYON COLLEGE COMMUNITY EDUCATION PROGRAM

STOCKS, BONDS, MUTUAL FUNDS (ETFs)

This course is perfect for those who want to learn more about the stock, bond, and ETF markets and how they work. Topics covered will include how to read the financial section of the newspaper, what influences the price of stocks, bonds, and mutual funds; load or no-load mutual funds; how interest rates can affect your financial well-being; and how to manage investment risk. We will also discuss how ETFs or alternative investments can increase your yield and reduce your volatility and investment risk. The course will highlight issues such as stock and index options, domestic and global stock markets, new and "hot" issues, selling short, tax-free bonds, buying stock on margin, how the stock exchanges work, dollar cost averaging, how to read a typical account statement, retirement plans (IRA's, SEP-IRA's, Roth IRA's, 403B's, 401K's, Annuities) and how market prices respond to news. Several stock market theories are discussed and explained. Fee includes one Guest for Free!

ESTATE PLANNING

Estate planning is the process of managing how a person's assets are transferred to their beneficiaries after they pass away. Estate plans can also help people manage their lives while still alive. This class will cover the basics of the principles of estate planning. With these fundamentals, the course will then examine basic estate planning and wealth transfer techniques, including wills, various types of trusts, health directives, and the usage of power attorney titling property, gifts during a lifetime, charitable vehicles, handling closely held businesses, and valuation matters--with an emphasis on how to use these tools in planning an estate to meet the objectives of a couple or individual. Probate of an estate, administration of trusts, durable power of attorneys, conservatorships, and planning for other life situations will be explored. This class will cover different types of trust, health directives, and power of attorney.

SPECIAL INTEREST

DISCOVER VOICE-OVER

Voice-overs are hot today! You don't have to be an actor to get voice-over work, but it certainly doesn't hurt! With such notable talent as James Earl Jones, Linda Hunt, and Donald Sutherland lending their voices to commercials, films, and videos, one would think that it would be next to impossible to break into this field. Not so! In this class, you'll learn about an exciting new way to get around the competition and turn voice-overs into a thriving full or part-time business! Anne Ganguzza will introduce students to the voice-over business as a whole. She will talk about the numerous opportunities, discuss voice-over technique, the income potential, and the all-important demo, and how to have it produced. You'll step up to the microphone to do some practice recording, and best of all, hear the results! Anne Ganguzza has 17 years of experience in the radio and voiceover business.
